IS IT A WAR CLOUD?

Feeling that Relations Between United States and Japan May be Rudely Disturbed.

Manila, July 6. (Special)—The reported naval activity in the United States is causing much excitement in the Philippines.

Leading Filipino independent organs have announced that they side with the Americans against the Japanese. All the Japanese laborers employed in the navy yard at Olong have been discharged.

Tokio, July 6.—A report from New York that President Roosevelt has officially confirmed the despatching of sixteen battleships to the Pacific coast provoked little comment here.

Some are inclined to read between the lines either a sinister motive on the part of certain Americans affected with a mania against Japanese or that the machines of a tool of a third power was trying to benefit from the quarrels of others.

LIGHTNING'S HAVOC.

Barns, Horse and Farm Implements at Tweedside Burned in This Morning's Storm.

Harvey Station, July 6.—(Special)—During a heavy thunder storm this morning the barns belonging to Mrs. Mary Nesbit and her sons at Tweedside, were struck by lightning

and burned. A valuable horse and some farming implements were also burned in the barns. The loss will amount to four or five hundred dollars.

SAVED FROM DEATH.

St. John, July 6.—(Special)—William Snider, employed by Mr. Lee, driving piles at the head of Rodney Wharf, West Side, had a narrow escape from drowning today and but for the bravery of William Howard, would have gone to a watery grave. Snider had gone over to a raft of

logs lying in the slip and was in the act of taking one out when he missed his footing and fell into the water. Howard was quick to take in Snider's perilous position and hurried to his assistance. After some effort he succeeded in getting him safely ashore.

LARGE INCREASE.

Ottawa, July 6.—(Special)—British publications since the reduction in postage have doubled in volume in Canada.

The reduced rate became effective at the beginning of April, and from that time until the end of June, 4652 bags of British mail were received at

Montreal. During the same months last year there were only 3,102 bags of British mail received. The increase is 1,600, or fifty-three per cent. The increase is principally due to British magazines and periodicals of the higher class.

OUR CITIZEN SOLDIERS.

Major McLeod and His Gallant Troops Returned this Afternoon.

The Marysville, Keswick and Fredericton companies of the 71st Regiment returned from Camp Sussex at 2.30 o'clock this afternoon by special train. Some of the boys were a trifle sunburned, but otherwise showed no effects from their twelve days strenuous life under canvas. The companies were formed up at the railway station with Major McLeod in command and the band in the lead marched in York Street and down Queen to the barracks square where the parade was dismissed.

The troops seemed to be a trifle weary from their day's travel, but marched with springy step, and all appeared to be glad to be home once more. A number of strapping Indian warriors in the ranks of A Company attracted much attention along the line of march. The camp has been a very successful one and the troops appeared to enjoy their sojourn under canvas.

Drill Sergeant Bayers, who has been attending camp, came here with the troops and is receiving a hearty welcome from his many old friends. Surgeon Captain Weaver, who has been in camp with the hospital corps, also returned home today.

H Company of the R. C. M. will leave Sussex on Monday 6.2 Camp Petawawa, Ontario to be at about six weeks. Q. M. Sergeant Gallows will remain in charge of the depot.

RIDICULED TO DEATH.

Wealthy Capitalist who Backed Scheme

TO TURN ASHES INTO FUEL COMMITTED SUICIDE.

Altoona, July 6.—(Special)—Being unable to stand the continual twittings of his friends about the failure of the scheme to make ashes burn, which he backed financially, Dr. H. K. Hoy, one of Altoona's wealthy men, committed suicide yesterday by swallowing a bottle of carbolic acid. He was 58 years old and had a fine practice as eye and ear specialist. He accumulated a fair fortune which he invested in oil lands which increased his wealth until he was worth \$250,000.

John Ellemore, an Altoona cobbler started the country six months ago with the announcement that he had discovered a process by which he could make ashes burn.

Hoy became interested in the invention for a half-interest and became the financial backer of the cobbler. It took only a short time for scientists to declare the scheme failure.

Hoy did not mind loss of the money but could not stand the ridicule of friends.

THE HORSE RACES.

Big List of Fast Ones Entered for the Meet Here July 24th and 25th.

There are thirty-three entries for the horse races to be pulled off here on July 24th and 25th, and the meeting promises to be a most successful one. All of the events have been filled with the exception of the free for all, and it is probable that a named race will be substituted for that event. Mr. M. L. ELECTRICAL STORM.

An electrical storm, which might almost be called a tempest, set in about one o'clock this morning and raged for over an hour. The peals of heaven's artillery were frequent and loud enough to awaken the soundest sleeper and the lightning was very vivid. The atmospheric outbreak was accompanied by a heavy down-pour of rain. During the progress of the storm the store of G. J. McElman & Sons of Gibson was struck by a bolt of lightning, which followed the telephone wires, but no serious damage was done.

A UNIVERSITY APPOINTMENT.

The university senate, without unnecessary delay, have filled the classical chair made vacant by the resignation of Prof. Fletcher. Their choice out of nine applicants fell on Mr. H. S. Bridges, head master of the St. John grammar school. Mr. Bridges is eminently adapted for the position. He is a fine classical scholar, a firm disciplinarian, and has the teacher's faculty by nature, which he has greatly improved by practice. The senate was the first to urge his claims to the chair and we are naturally gratified that our nomination was endorsed by the senate.

EXHIBITION.

Mr. John H. Reid is making an effort to have a show and fair in this city in October. He also proposes to have some good sport on the race track at the same time.

A. Davidson, M.P.P. for Northumberland. The sister of the bride, Miss Ella Hunt, and Miss Kate Beck were the fair bridesmaids, and Messrs. Walter Miller, of Millerton, and Mr. A. A. Davidson, Jr., of Newcastle, brother of the groom, acted as best men.

UNIVERSITY ENCOENIA.

The Encoenia of the University took place in the library on Thursday afternoon. Among those present were Lieut. Governor Wilmot, the Metropolitan, Rev. Dr. Kingdon, the chief superintendent of schools, members of the university council, and several of the clergy. The oration was delivered by Professor Fletcher, the retiring classical professor. Mr. William S. Carter, senior class, winner of the Douglas gold medal, read some extracts from his prize essay, and at the close the Lieut-Governor presented Mr. Carter with the Douglas medal. The scholarships were then presented to the winners by President Dr. Jack to Daniel Fiske, the mathematical; to William J. Raymond, the "English." The Freshman classical scholarship was divided between Mr. Meagher and Mr. Brodie, who were equal in marks. A. D. MacPherson received the French prize, and W. F.
