SCIENTISTS CLAIM

CONSUMPTION IS SPREAD

BY SPITTING IN PUBLIC.

The bacillus of tuberculosis starts tubercles in the lungs. There casely, soften and are ejected from the lungs in coughing. A dry cough will spray the air full of these germs; a loose cough will deposit the sputum on the sidewalks, where it will dry, be trodden to powder, whirled about in the wind for healthy people to breathe, and so start up new plantations of these bacilli. Dr. Knopf says an advanced case of consumption will eject about seven billions of these germs every twenty-four hours. It is a murderous practice to spit where others may being the infection into the house, on shoes or skirts, where it may dry and become a powder, to be sent into the air and breathed into the lungs. If the lungs are sore from colds or any other cause, these germs settle on the sore spot and set up what is called a "mixed infection." This is the starting point of consumption, and prompt treatment is required.

An eminent authority on lung trouble advises the use of the following simple formula, which can be secured from any good prescription druggist at small cost: Half ounce Virgin Oil of Pine, (Pure), two ounces of Glycerine and a half pint of good Whiskey. Mix and use in teaspoonful doses every four hours.

It is said that the mixture will break up a cold in twenty-four hours, and cure any cough that is curable. The ingredients should be pure, and to avoid substitutes, they should be purchased separately and mixed in the home of the patient. The Virgin Oil of Pine (Pure), should be purchased in the original half-ounce vials, put up for druggists to dispense. Each vial is securely sealed in a round wooden case, with the name—Virgin Oil of Pine, (Pure), prepared by Leach Chemical Co., Windsor, Ontario—plainly printed thereon. There are many rank imitations of Virgin Oil of Pine (Pure), which are put out under similar names and style of package. Never accept these as a substitute for the Pure Virgin Oil of Pine, as they will invariably produce nausea and never effect the desired result.

Fire in the Toronto Plate Glass Very Nice Cookies.—One cup of Company's premises in Victoria St. butter, two cups sugar, four eggs, Saturday afternoon did damage juice of half lemon, grated peel of one amounting to \$185,000. The risk lemon, one teaspoon of cream tartar was held by about twenty insurance half teaspoon of soda, five cups of companies, but the Royal Commer- four, save the white of one egg cial Union, Atlas and London Mut- beat to a stiff froth and spread upon ual are most heavily interested. The top of the cookies and then sy- building is a complete wreck and the nkle with sugar. Teaspoons in this several firemen were hurt by falling rule even full and not heaped, walls and flying glass.

FORMER NEW BRUNSWICKER

Trying to Secure a Seat in the United States Senate.

Milwaukee, March 11.—Isaac Stephenson, of Marinette, millionaire lumberman and manufacturer and financial backer of Senator Robert M. La Follette, seems to have the inside track in the race for the toga which Senator John C. Spooner will lay aside on May 1. Backed by Senator La Follette it is believed that Stephenson will prove the most formidable candidate of the dozen or more mentioned for the vacancy.

Stephenson, if chosen, will thus see satisfied the ambition of his life. He is seventy-six, though still in robust health. From a poor man who worked in the forests of Northern Wisconsin and made his money, he has accumulated \$10,000,000. His fortune was all made in the lumber business and he is still adding to his wealth.

A staunch Republican, when La Follette opened his fight Stephenson broke away from the Pinister-Spooner wing. La Follette needed funds,

Stephenson had grudges to repay and was willing to back La Follette with his millions. It is generally believed that in return La Follette promised to make Stephenson United States Senator.

Stephenson longed to round out his career with a term in the Senate. He had tried to land the plum and had failed. Two years ago he tried again. This time La Follette supported him, but even then Stephenson failed. When it was apparent that Stephenson could not win, La Follette stepped in and took the place himself.

When Spooner resigned Stephenson was the first to announce his candidacy. He stated that he would take the office for the unexpired term of two years and then step aside for some younger man.

Mr. Stephenson is a native of New Brunswick, hailing we believe from Carleton County.

ODD THINGS WOMEN ARE DOING.

Women of Philadelphia have 1 se money to give horses cool baths next summer.

Rose and Julia Avery, daughters of Rachel Foster Avery, have organized a junior women's suffrage association among their young schoolmates. There are two women notaries public in Pennsylvania, and one of them is 21 years old.

Mrs. W. A. Bachelor of Dayton, O. refused to consent to the release of her divorced husband from the state prison. He is serving a term, although their daughter, critically ill, calls for him constantly. Mrs. Bachelor says he says he will kill her.

Mrs. Charles Hurley, a little woman of Columbus, Ind., assaulted her husband's employer during a dispute in regard to wages.

Mrs. George Fritz of Bethlehem, Pa., wife of a mail carrier, had her husband detained while she packed up their goods and left for parts unknown.

Women of Chester, Pa., are carrying revolvers to defend themselves from the great number of highwaymen in the city.

A blind woman in Des Moines with plenty of money is "looking for" a husband who will be obliged to do nothing but take care of the house. Miss Teresa Hight of Chicago, a society girl, is a candidate for smoke inspector.

Miss Stella Diebold of Marion, arose early one morning to get a drink and cried out that a burglar was in the house. The police were called and it was discovered that she

Ladies Frequently

Suffer Losses Through the Dishonesty of their Merchants and Dealers.

The women of Canada frequently suffer more losses and great inconveniences through the dishonesty of some merchants who sell substitutes and common preparations to buyers who look for standard and reliable goods.

This is specially true of the merchants and dealers who handle and sell the weak and adulterated package dyes put up by speculators and sold at ten cents, same price as is asked for the genuine DIAMOND DYES, so popular all the world over.

DIAMOND DYES are made from the finest and most expensive anilines that can be produced, always guaranteeing uniformity in strength and coloring power. The crude package dyes are made from materials that cost about one quarter the price of anilines composing the DIAMOND DYES. These common and crude dyes are not of sufficient strength to give a decent color to a farm fence. Think of such dyes being used to color valuable dresses and other garments!

The safeguarding of your financial interests and home happiness depends upon the regular use of the DIAMOND DYES. Send your full address to Wells & Richardson Co., Limited, Montreal, P. Q., and you will receive free of cost Diamond Dye Booklets and card of 50 Dyed Samples.

TEACH LOVE MAKING.

Chicago, March 11.—Colleges of courtship for the reform of American love making are needed to fit the love lorn population of the nation of matrimony, according to Professor Charles R. Henderson, the University of Chicago sociologist. In an article on "Courtship in the Current Biblical World," issued from the University press yesterday, the professor urges expert instructions to those who are smitten by the "lustiness of love."

Hasty marriages, divorces and marriages of convenience are classed as results of the "barbarism" into which courtship and marriage have fallen. He gives as examples of the decline in true love "where the wife is bought from the parent like a cow, or where she is compelled to marry to secure a fortune from a rich fool."

Fashionable society exhibits depraved standards and morality is accepted as a substitute for rational marriage, he declares. Professor Henderson points out as particular evils of modern love making such perils as flirting, boasting of conquests, extravagances, accepting costly presents, ignorance of the training of children, and courtship without intent to marry.

HEALTH FOR RUN DOWN WOMEN.

From the experience of Mrs. Jno. Panze, Saskatoon, nothing compares with Ferrozone. "At times I was confined to my bed and couldn't work. I was run down in flesh, lost strength, my appetite failed, my color was pallid. Weary and cast down, it seemed I couldn't catch up. Ferrozone began a new kind of life in my blood, built me up, vitalized and strengthened my nerves and finally cured my heart and stomach pains." Ferrozone is a re-builder that has special virtue in female ailments. Sold everywhere in 50c. boxes; try Ferrozone.

SALVATION ARMY.

Farewell to Ensign Jaynes who goes to St. John's, Newfoundland.

Com.

Ensign Jaynes' farewell service of Sunday was a great success. We had with us our worthy friend and Ensign Jerrold of Halifax to assist us at the meetings. Everything went off with a swing. Good crowd in the open air and inside.

The Ensign thanked the people of all denominations for their kindness and help to him while here and there will always remain a warm spot in his heart for Fredericton. He insisted on all of the Salvation Army soldiers and converts and Christians to be true to the vows they have made to their God. The boys of the seventy-first band is kindly giving Ensign a grand musical concert in the Salvation Army barracks Tuesday evening March 12 to help him with his travelling we would like to see a good crowd.

Ensign Jaynes leaves Wednesday March 13th for St. John's, Newfoundland.

STOMACH MEDICINE IS USE LESS.

Impossible to cure catarrh in the nose by dosing the stomach. Send the healing vapor of Catarrhazone after the germs and you at once accomplish good. Any case of catarrh is curable!—all that's necessary is to inhale Catarrhazone—you stop hawking, nose is cleared, throat is healed, no freed of phlegm; every vestige of the trouble is forever driven from the system. If you want permanent cure for catarrh, throat, nose or bronchitis, Catarrhazone is a standard. Two sizes, 25 cents and \$1.00 at all dealers.

CUTTING TEETH IN HER OLD AGE.

To get a brand new tooth at the age of 70 odd years and to have hopes of getting a full set within a few months is the novel experience of Mrs. Anna Maria Ruden of Minneapolis.

Mrs. Ruden lost her morals and incisors years ago. Store teeth were her only hope, she thought, but when her gums began to itch and ache as they have done in the time of her infancy, she took new hope and was not disappointed. When the tooth finally cut through Mrs. Ruden was so delighted that she didn't even use any soothing syrup to help her over the critical period. She is now expecting the others to register in quick succession and is anxiously awaiting the time when with a full complement of brand new old fashioned beefsteak and masticate it with as much facility as any of her numerous grandchildren.

A Russian peasant journeyed to the nearest town to buy himself a pair of new boots, and after profiting by the occasion to imbibe plenty of vodka started homeward, but soon fell asleep on the road, where he was relieved of his new boots by a passer-by. About an hour afterward a cart came along and the carrier, arousing him, called out: "Take those legs of yours out of the way, can't you?"

The Russian staggered to his feet, and, regarding his legs gravely, said: "Those legs aren't mine. Mine has new boots on."—Bon Vivant.

Life's Pleasures Rest on Nourishing Blood.

Is Yours Rich, or Weak?

If your color is poor, your blood is poor.

If you lack strength, can't get fat, can't do your work, it's because your blood is too thin to nourish the body.

Your condition is like an expiring fire. Fuel must be added or the fire goes out.

Nutrient, new building material must be instantly infused into the blood—the vital stream must be quickened and enriched. Do this and your health is assured.

Simply take Ferrozone. Its marvellously stimulating influence upon the appetite upon the formation of rich, red blood makes available for building up of the system the very nutrient it requires.

The heart, strengthened by the increased nutrition Ferrozone supplies, is more regular in its action, and imparts an impetus to the circulation that ensures the proper discharge of all the functions of the body.

There very quickly sweeps through the whole body a stream of vitalized, strength-giving blood.

Quickly color is restored to the cheeks. Elasticity, endurance and vigor come to the muscular system.

In brief, the old time strength and vigor are restored, and those inestimable charms that spring from good health, high spirits and endurance, are gained by even a short use of Ferrozone.

A true, uplifting tonic, a medicine that goes to the root of things—one that makes the weak strong, makes the sick well—makes the dependent ones happy—that is Ferrozone. Truly a wonderful remedy, try it, 50c. per box at all druggists.

SISTERS TO MEET AFTER TWENTY-FIVE YEARS.

Were Separated by Adoption and One Now Lives at Williamstown, Mass.

North Adams, March 11.—Mrs. Yara Van Horn, wife of Wallace Van Horn of Williamstown, has found her sister, Mrs. Jessie Mundry of Robertsville after a lapse of 25 years.

Both made vain efforts to locate the other. Mrs. Mundry is 5 years old and Mrs. Van Horn 55 years old. When the former was 3 and the latter 5 their parents died and both were adopted and left their home in Canada, Ct.

On next Tuesday, Mrs. Mundry will come to Williamstown and the two sisters will recount the experiences which each has had during the time in which they have been parted.

Like her older sister, Jessie married a carpenter, John Mundry. Her first marriage was to Albert Saxe, by whom she had a daughter who married and came to this state to live. It was she who first accidentally discovered the whereabouts of her mother's sister.

ARE YOU SUBJECT TO STIFF NECK.

Perhaps it is in the neck or shoulder. First thing is a good rub with Eerriline. No more speedy relief can be adopted. When applied to the muscles Eerriline gives them flexibility and vigor; inflammation, soreness and stiffness disappear. "Whether in the chest or throat nothing can surpass Eerriline," writes O. B. Denton, Lumber Merchant at Oak Bay N. B. "Rubbed on at night, trouble is gone by morning. I have proved Eerriline a great medicine." Every one says the same, and Eerriline at ways makes good, 25 cent bottle sold everywhere.

Mock Mince Pie.—One and one-half cups of powdered cracker, one cup water, two cups of molasses, one cup of sugar. Mix up, add one-half cup of butter, one cup of chopped raisins, four teaspoons of cinnamon, two teaspoons of cloves and a small pinch of salt. This will make two large or three small pies. Pumpkin Pie.—To each quart of new milk add eight teaspoons of steamed pumpkin, two of flour, four of sugar and four of molasses, half teaspoon each of ginger salt, cassia or nutmeg to taste. Bake slowly one hour.

THE ORIGIN OF GALL STONES

They are simply dried bile, made up of crystalline constituents of the fluid. Very common is this disease among merchants, clerical men, shop girls and those of sedentary habits. Prevention consists in maintaining correct action of the liver and bowels. That is best accomplished by Dr. Hamilton's Pills. No person using this medicine need fear gall stones, nor will they ever be bilious. Sound digestion, a good appetite, clear color will evidence the health giving properties of Dr. Hamilton's Pills, which are the best and safest for general family use. Insist on having only Dr. Hamilton's Pills of Mandrake and Butternut, 25c. per box at all dealers.

Rev. Dr. Forrest of Dalhousie received painful injuries on Tuesday night on his way home from Coburg Road Hall, Halifax, where he had been attending a reception of Rev. Dr. Miller, the new pastor of Chalmers Church. Dr. Forrest had alighted from a tram car, assisting off a lady passenger. Before he got aboard again the car started and he was dragged along the ground suffering a severe strain, which has since confined him to the house.

Cottage Cake—one and one-half cups of sugar, half cup of butter, half teaspoon of soda, one teaspoon of cream tartar; two cups of flour, two-thirds cup of milk, favor to suit taste.
