

MOCK PARLIAMENT.

Proceedings of the Closing Session Were Very Interesting--The Budget Speech.

The last sitting of Mock Parliament for this collegiate year was held on Saturday evening in the college library.

Speaker Wm. K. MacNaughton took the chair about eight o'clock. After the introduction of bills and petitions the budget speech was delivered by Hon. Malcolm Orchard, the able finance minister. He dealt with the prosperity of the country and the developments of her great industries. He showed the public accounts to be in a good condition, claiming a grand surplus of two millions of dollars. The hon. minister took his seat amid great applause from the government benches.

Hon. Waldo Machum the financial critic, then gave the House his views, singular as they were, about the finances of the country. When he had the pleasure of being in office, although he stated he could never show surplus, yet he thought that the tide of prosperity now reigning all over our Canada was due to the times, and not government enterprise.

Premier Dysart, then spoke in defence of his government, which, he declared, was an easy task, as the government policy defended itself--every department was in the best of circumstances, showing yearly ever increasing returns, and remarking that this was the last evening of the session of this year, that on resuming their parliamentary duties next year, we would all hear of the handsome majority with which the Liberal party of the University of New Brunswick would again be returned.

Mr. Mavor, of the opposition, then followed and remarked that he was glad to see the Hon. Prime Minister so confident, and pessimistic with regard to the future of the party. But he thought that a surplus was only declared in the ledger and nowhere could the hon. minister of finance point to the prosperity of the country.

Hon. Wm. Carr, who was last year minister of marine and fisheries, thought that the government did not grant sufficient supplies to the fisheries department.

Premier Dysart--I think the hon. member from "Wall Street" (Mr. Carr), must be personally interested in the fish.

Hon. Mr. Carr--I presume the hon.

orable prime minister is willing to protect the Tiny ones.

Prime Minister--Yes sir, but you are not.

The hon. leader of the opposition, Mr. Jewett, then spoke and criticized the government expenditure as rather extravagant.

On motion of Mr. Orchard, the House went into committee to consider ways and means and granting supplies to his majesty's service.

On completion, the speaker again took the chair and the clerk, Clifford Clark, announced that His Excellency the Governor General, had arrived.

It was moved, seconded and carried that His Excellency be now admitted to the House.

His Excellency, the Governor, then entered, escorted by an excellent guard of honor, under command of Col. James MacDonald, Gifchrist, which was a credit to His Excellency. As the Governor passed, with the guard standing at present, the city orchestra played the National Anthem with great effect.

After the presentation of the bills etc., for His Excellency's approval, the governor read as follows:

Honorable Gentleman of the Senate, Gentlemen of the House of Commons:

It gives me much pleasure to be here to relieve you of your legislative duties to which you have given your honest time and attention. I hope your legislation of this session, which I am to prorogue, will prove beneficial to the Dominion and all its inhabitants. I hope on your return to your families and people, that you will be spared to meet them all well prosperous and happy.

Therefore, Mr. Speaker, I ask you to prorogue this House, until next autumn, when the Normal School will be opened and the class of '07 will be less than it is now, until Dysart, Carr, Shetman and Billy Woods are married, until Bourghorn is made chief and president of the tobacco club, and Jewett finds the smoke in the bottle, and when you, Mr. Speaker, are again managing the Parks.

When His Excellency left the House the hon. speaker, MacNaughton, after making a farewell speech, declared the House prorogued until the above mentioned time. Class yells, cheers and college songs then followed.

PALE, WEAK WOMEN.

Gain New Health and Strength Through Dr. Williams' Pink Pills.

Anæmia is just the doctor's name for bloodlessness. Dr. Williams' Pink Pills for Pale People actually make new blood. Can any cure be more direct or certain? Blood is bound to cure bloodlessness. Dr. Williams' Pink Pills cure anæmia just as food cures hunger. They cured Mrs. Clara Cook, a young English woman who recently came to this country from Portsmouth, England, and is at present residing at Prince's Lodge, Halifax, Co. N. S. She says: "I am an enthusiastic believer in the value of Dr. Williams' Pink Pills as a cure for anæmia. I had suffered from the trouble almost from childhood, but a few years ago it developed into a severe type of the trouble. My skin was pale and waxy, my lips seemed bloodless, and my entire system was run down. I suffered from headaches, dizziness and weak spells, and my friends feared that I was going into a decline. I tried tonics and emulsions, but without benefit. Then a friend told me of Dr. Williams' Pink Pills for the same trouble and advised me to try them. In a short time they began to help me and in a couple of months I was quite well the color having returned to my face my appetite improved and I had gained in weight. I can strongly recommend Dr. Williams' Pink Pills to all anæmic girls and women."

The pale anæmic person needs only one thing--new blood. Dr. Williams' Pink Pills do only one thing--they make new blood. They won't cure any diseases that isn't originally caused by bad blood. But when Dr. Williams' Pink Pills replace bad blood with good blood, they strike straight at the root and cause of all common diseases like anæmia, headaches and backaches, rheumatism, indigestion, neuralgia, St. Vitus dance, kidney trouble and the secret troubles that every woman knows, but none of them like to talk about even to their doctors. Dr. Williams' Pink Pills are sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

PHILLIPS SENTENCED TO IMPRISONMENT

Former President of York County Loan and Savings Company Got Five Years.

Toronto, March 25.--Joseph Phillips, former president of the York County Loan and Savings Co., Saturday pleaded guilty to the charge of making false returns to the government. Argument by the lawyers then proceeded and at the close Judge Winchester pronounced sentence as follows: "Five years in the

penitentiary." When Phillips had pleaded guilty, Mr. Jones, his counsel, made a long argument for a mitigation of the sentence. His Lordship, however, imposed the full penalty. He pointed out that were proceedings continued in the charge of conspiracy, fourteen years might be given. In view of the fact that the integrity of public institutions must be maintained, he had no other resource but to sentence the prisoner for five years in the penitentiary at Kingston. The charges against Phillips were three in number, namely, of conspiracy, stealing and publishing false news. As he pleaded guilty to making false returns, it is not likely the other two will be gone on with.

Immediately after sentence had been passed, the prisoner nervously followed his solicitor from the court room to the lawyers' room down the corridor where he hurriedly consulted with the detectives. The photographing took place, in which the prisoner seemed to regain his self-possession. When the detectives arrived Phillips smiled faintly when they asked him to accompany them. Phillips followed the detectives to the photographing department, where he was photographed for the first time. He seemed interested in the Bertillon system, and appeared to be taking his imprisonment and the outlook ahead quite calmly. Phillips was taken to Toronto jail, where he will remain until taken to Kingston.

Jamaica. Jamaica is more populous in proportion to its size than Spain, Turkey, Russia, and some other European countries. The white people, however, are outnumbered by the black and colored by nearly fifty to one.

Petrarch. Petrarch spent his crazy life penning sonnets to the eyebrows of a portly married woman, the mother of a large family, while he utterly neglected his legitimate wife and would not permit his daughter to live under his roof.

First Newspapers. France published the first newspaper in 1605, the first English newspaper appeared in 1622.

Meat For Dogs. The coarser parts of meat are much better for dog pets than the better part of the steak. A dog should not be allowed to eat chicken or mutton chops, as the bones of both splinter and are bad for him.

Useless Tusks. The curious piglike animal known as the babirusa has most remarkable tusks, which have long perplexed all students of animal life. As far as can be discovered, these tusks are useless to their owner. On the other hand, by collecting tufts of straw, grass and litter of all kinds, they seem to be an intolerable nuisance.

A PRACTICAL COAT FOR ANY SEASON.

A style of coat which is always good and never inappropriate is shown and the home dressmaker will find it most practicable for her making. The only seams to be closed are the underarm, shoulder and sleeve seams and no fitting except at the shoulder is needed. The fronts close in trim double-breasted fashion and the rolling collar completes the neck in a pretty way. The trimming hands shown are but a suggestion for its adornment, but need not be used at all or may be replaced by a narrow braid or pretty buttons. The coat is one suited to development in any seasonable fabric from cloth to linen. For the medium size 2 yards of 54-inch goods are needed. 4164--5 sizes, 1 to 12 years. The price of this pattern is 10c.

To the Fredericton Herald: Please send the above mentioned pattern, as per directions given below, to

Name..... Street..... No..... Province..... To..... Measurement--Waist..... Bust.....

CAUTION.--Be careful to send size of pattern wanted. When the pattern is sent measure you need only mark 32, 34, or whatever it may be. When in waist measure, 22, 23, 26, or whatever it may be. If a skirt, give waist and bust measure. When mislaid or child's pattern write only the figure representing the age. It is not necessary to write "inches" or "years." Patterns cannot reach you in less than three or four days from the date of order. The price of each pattern is 10 cents in cash or postal order or stamps.

What a splendid type of tireless activity is the sun as the psalmist describes it issuing like a "bridegroom from his chamber and rejoicing like a strong man to run a race." Every man ought to rise in the morning refreshed by slumber and renewed by rest, eager for the struggle of the day. But how rarely this is so. Most people rise still unrefreshed, and dreading the strain of the day's labors. The cause of this is deficient vitality and behind this lies a deficient supply of pure, rich blood, and an inadequate nourishment of the body. There is nothing that will give a man strength and energy, as will Dr. Pierce's Medical Discovery. It does this by increasing the quantity and quality of the blood supply. This nourishes the nerves, feeds the brain, builds up enfeebled organs, and gives that sense of strength and power which makes the struggle of life a joy. The "good feelings" which follow the use of "Golden Medical Discovery" is not due to stimulation as it contains no alcohol. The ingredients are plainly stated on the bottle wrapper. It does not "brace-up" the body, but builds it up into a condition of sound and vigorous health.

Are the Colonies Underrated. One hears this remark often reiterated of late, it appears to be just dawning upon the rank and file of people in this country that the policy of England regarding settlement of respective claims between Canada and the United States has brought into being a feeling among young Canadians, which may prove a source of trouble in the future. How far this is justified it is difficult to estimate, but the present expansion of Canadian affairs in every direction appears to be accompanied by a sort of awakening among English people as to possibilities of the change in the centre of gravity within the British Empire. This may sound bombastic and absurd, but British North America is daily approaching closer to the mother island, as the facilities for transport and communication increase and the diminution in the cable rates would greatly accelerate the approach of the two countries.--The Toronto News.

CHAMBERLAIN'S COUGH REMEDY IS BOTH AGREEABLE AND EFFECTIVE.

Chamberlain's Cough Remedy has no superior for coughs, colds and croup, and the fact that it is pleasant to take and contains nothing in any way injurious has made it a favorite with mothers. Mr. W. S. Polham, a merchant of Kirkville, Iowa, says: "For more than twenty years Chamberlain's Cough Remedy has been my leading remedy for all throat troubles. It is especially successful in cases of croup. Children like it and customers who have used it will not take any other." For sale by all druggists.

Needles. Steel needles were first made about 1545, when to make ten was a day's work for a man.

Oats. Oats sometimes escape from cultivation and grow from year to year so persistently as to seem wild. They have been found thus in regions as widely separated as Algeria and Japan, the Pyrenees and north China, the Hebrides and the desert of Mount Sinai.

A Growsome Catch. A man's hand, with three valuable rings on its fingers, was found in the interior of a twenty-five pound pike caught at Stand, on the lake of Constance.

Addison's Wife. Addison's wife, the famous Countess Dowager of Warwick, would not allow him to go to the inn at all unless he sat by the window, where he was in plain view from her front room. Every absence from his post had to be accounted for.

Finger Lines. Line markings on the fingers have been found distinct and unimpaired on the fingers of Egyptian mummies.

The Human Hand. Aristotle termed the human hand the instrument of instruments, which enables man to make all others, to manage and apply them to divers uses and to produce the most powerful and most delicate efforts.

DO NOT CROWD THE SEASON.

The first warm days of spring bring with them a desire to get out and enjoy the exhilarating air and sunshine. Children that have been housed all winter are brought out and you wonder where they all came from. The heavy winter clothing is thrown aside and many shed their flannels. Then a cold wave comes and people say that grip is epidemic. Colds at this season are even more dangerous than in mid-winter, as there is much more danger of pneumonia. Take Chamberlain's Cough Remedy, however, and you will have nothing to fear. It always cures, and we have never known a cold to result in pneumonia when it was used. It is pleasant and safe to take. Children like it. For sale by all druggists.

MAILS CLOSING.

In effect, October 1, 1906.

6 a.m.--For St. John, etc., St. Stephen, Charlottetown, Co., Carleton, Victoria and Madawaska Counties, and United States.

WAY MAILS

7:00 p. m.--West Side River, St. John--From Meductic, and Way Offices, Tuesdays, Thursdays, and Saturdays.

St. John--From Woodstock and Way Offices, Tuesdays and Fridays.

Bowel Troubles

Liver pills, cathartics, mineral waters, often make Constipation worse. They merely irritate the bowels and force them to move--stop taking purgatives and the bowels become "tight" again.

"Fruit-a-tives" are the one certain cure for Constipation

because their action is upon the liver. "Fruit-a-tives" are a liver tonic. They stimulate the secretions of bile by the liver, this bile causes the bowels to move in the natural, regular way and completely cures Constipation.

"Fruit-a-tives" are fruit juices with tonics and antiseptics added. In "Fruit-a-tives" one atom of bitter replaces one atom of sweet in the fruit juices, forming a new compound which is many times more active, medicinally, than the fruit juices could possibly be. 50c. a-box--\$2.50 for 6 boxes. At all dealers.

Kitchener's Many Narrow Escapes.

Lord Kitchener, to whom has just happened his third accident in India, has met with many hair-breadth escapes during his marvellous military career. He has, says P.T.O., been wounded four or five times in battle, he has been twice shot at by Bedouins, and once had a narrow squeak of being hanged as a spy. After the capture of Omdurman, the Sirdar and his staff only escaped death by the merest luck, for they had hurried into the town before the order to cease firing had been given. In consequence, for several minutes shells were bursting all round the place where the general and his party had taken up their position.

During the campaign of 1888 Major Kitchener--as he then was--was hit in the side of the face by a bullet during a skirmish near Suakin. He was taken down the Nile to the hospital at Cairo, where, despite all the efforts of the surgeons, the bullet could not be located. The X-rays being then unknown, the wound was a healthy one, and very soon healed. The medical officers came to the conclusion that the bullet had worked its way out without being noticed on the passage down the Nile. One day, however, a lady benefactress was served to the patient, which he had no sooner attacked than he put his hand to his throat, exclaimed to the attendant, "If there is no bone in the steak, I've swallowed the bullet; I felt it go down." This proved to be the case.

NOTICE TO CONTRACTORS

GENERAL SUPERINTENDENT'S OFFICE, C. P. R. St. John, N.B.

Sealed Proposals will be received at this office until 2 o'clock p. m. April 1st, 1907, for building Concrete Abutments and Piers at the following bridges:

Two Abutments, Bridge No. 10.6 Fredericton Branch, Russiagnish, N. B.

Two Abutments, Bridge No. 14.2 Tobique Branch, Lickford, N. B.

Two Abutments, Bridge No. 14.6 Tobique Branch, Lickford, N. B.

Two Abutments, Bridge No. 6.8 Arcootook Branch, Fort Fairfield, Maine.

Two Abutments and one pier, Bridge 33.4 Edmundston Branch, Grand River, N. B.

Two Abutments and three piers Bridge 9.40 Edmundston Branch, Arcootook, Jct., N. B.

Two Abutments and three piers, Bridge 19.3 Edmundston Branch, Grand Falls, N. B.

The outside of envelope must show "Tender for Bridge No."

Plans, specifications, forms of proposal and other information may be obtained from C. B. Brown, Division Engineer, St. John, N. B., or G. G. Hare, Resident Engineer, Woodstock, N. B.

The right is reserved to reject any or all tenders.

WILLIAM DOWNIE, General Superintendent, Atlantic Division, C. P. R. St. John, N. B., March 9th, 1907. March 12--d6i.

NOTICE.

N THE SUPREME COURT.

In the matter of the Winding-up Act, and in the matter of the Fredericton Boom Co.

Pursuant to the winding up order made by the Hon. William Henry Tuck, Chief Justice of the Province of New Brunswick, in the above matter bearing date the 12th day of February, A. D. 1907, the creditors of the above named Company and all others who have claims against the said Company, are on or before the twenty-fifth day of March, A. D. 1907, to send to Messrs. Winslow & Allen, Solicitors and Law Agents for Lewis H. Bliss, the Liquidator of the said Company, at their offices on Queen Street, in the City of Fredericton, their Christian and surnames, addresses and descriptions, the full particulars of their claims, and the nature and amount of the securities, if any, held by them and the specified value of such securities, verified by oath and in default thereof they will be peremptorily excluded from the benefits of the said act and winding up order.

Dated this 2nd day of March, 1907. WINSLOW & ALLEN, Solicitors for Liquidators Fredericton Boom Company.
