

Special Paints for House Cleaning

House cleaning time is house painting time—the floors, the base boards, the cupboards, the chairs, the tables and a dozen pieces of furniture need re-painting or re-varnishing.

For floors either painted, varnished, stained or waxed. use S-W. Floor Finishes. Finish floors in best possible way.

For interior walls and woodwork: use S-W. Enameloid. An economical high gloss finish.

For cupboards, shelves, tables, etc.: use S-W. Family Paint. An oil gloss paint that stands scrubbing.

For staining woodwork and furniture: use S-W. Varnish Stain. Correctly imitates the natural wood.

We have paints, varnishes and stains for every paintable thing.

ANNOUNCEMENT

NEWSOME & GILBERT, LIMITED
Manufacturing Stationers
TORONTO & WINNIPEG

WILL H. NEWSOME, LIMITED
L. C. SMITH & BROS. TYPEWRITERS
TORONTO HALIFAX MONTREAL

Amalgamated January 1, 1907.

We beg to announce that we have this day amalgamated with Newsome & Gilbert, Limited, and will in future carry on the business as Newsome & Gilbert, Limited, with Head Office, Toronto, and Branches at Winnipeg, Montreal and Halifax.

Owing to the wonderful growth of our business, the Amalgamation better enables us to look after the wants of our many customers, both in Typewriter and Stationery lines, and we respectfully solicit a continuance of your valued trade.

The maritime end of the business will continue under the management of Mr. P. O. Soullis, who is a director in the New Company and he will look as faithfully after the requirements of our Eastern Customers as in the past.

WILL H. NEWSOME, Limited

COLONIAL CONFERENCE.

Canadian Ministers Well Satisfied with Discussions and Conclusions of the Empire Gathering.

Montreal, May 1.—The Star's London correspondent cables: Hon. L. P. Brodeur, minister of marine and fisheries, gave the Star's representative for publication in Canada only, the first statement regarding the proceedings of the colonial conference made by a Canadian member of that body. The statement gains importance from the fact that he has attended all the meetings of the conference of which nothing has been allowed to get into the papers here. He said he was very favorably impressed with the ministry of Sir Henry Campbell-Bannerman. They showed a desire in every way to preserve complete colonial freedom of action. This attitude would be greatly appreciated in all parts of Canada, where autonomy is considered the first essential of the well being of the empire.

The speeches of Mr. Haldane, secretary of state for war, and Lord Tweedmouth, first lord of the admiralty, on naval and military co-operation, were very pleasing to Canadian aspirations. Both distinctly repudiated any suggestion of the colonial forces being under a central head, but left perfect freedom to individual dominions. The fact that it has been decided to make the conference a meeting between governments, each government meeting on equal ground, would be more highly appreciated by Canadians after contrasting former conditions under which the colonial secretary called together the colonial premiers, presumably as subordinates, to talk over matters with him. This decision showed the true status of the self-governing colonies and would do a great deal to strengthen Canadian regard for the mother land. Mr. Brodeur added, respecting the question of preference:

CANADA'S POSITION.

"Canada's position is pretty well known. The Canadian ministers desire to keep outside of English party politics. If Great Britain sees her way to grant Canada a preference, Canada will be pleased, if not Canada will do nothing to embarrass the present or any British government. Canada desires perfect fiscal freedom for herself and others."

Herr Von Lindequist's presence in London, as representative of the German government on a mission to the British government, leads to

some surprise whether, in addition to South Africa boundary questions, he is entrusted to carry forward the Canadian trade negotiations already begun between the German and Canadian governments. In any case, the completion of the German commercial arrangements with the United States and the general friendliness established between Great Britain and the German government, are calculated to assist Sir Wilfrid Laurier and Mr. Fielding in their German mission and the abolition of the tariff in each country is regarded as certain.

An authoritative Berlin journal, the Vossische Zeitung, announces that the recent interchange of views between the German and Canadian governments resulted in a Canadian offer which would, says the Zeitung, reduce the British preference, German being expected to make a corresponding modification of the German duties against Canada. Seeing the case with which lower wages and standards of living and highly organized methods of dumping enable the German textile and other manufacturers from a large part of the British home markets, the German eagerness to stand well on the Canadian market is readily understood.

Experts here have little doubt that the kind of arrangement Germany seeks, she can knock out Canadian manufacturers in many lines of cheap woollens and textiles, and also knock out a good deal of Britain's present trade with Canada.

PREFERENCE DEBATE BEGINS.

Except for a brief word or two from Sir Wilfrid Laurier, the whole of yesterday's conference was taken up with an exhaustive address by the Hon. Alfred Deakin, on the preference. His address lasted two hours, and he was listened to uninterruptedly. The debate was resumed this morning. It is understood there will be three days more sittings this week and the two next, when the conference is likely to conclude.

W. J. Abbott, chairman of the British Chamber of Commerce here, is endeavoring to induce the colonial premiers to accept an invitation to visit Paris. W. C. Robertson, an important member of the board, says that doubtless when Sir Wilfrid Laurier visits Paris he will have practical proposals in his pocket for increased facilities.

MR. BEECHAM DEAD.

Fortune Founded on a Phase—Beginnings of the Great Pill Business.

Mr. Thomas Beecham, the founder of the famous pill manufacturing firm, died recently at Southport, England. He was eighty-six years of age.

Mr. Thomas Beecham had control of his great business at St. Helena until about thirteen years ago, when he relinquished it to his son, Mr. Joseph Beecham, who has since had the entire management. The founder of Beecham's Pills was a model business man. He insisted on the strictest punctuality in every department and everyone who had business relations with him expressed the most perfect confidence in his methods. He leaves two sons—Alderman Joseph Beecham, who was mayor of St. Helena a few years ago, and Dr. W. Beecham of London.

The world-wide renown of Beecham's pills sprang from very small beginnings. A native of Oxfordshire, Mr. Thomas Beecham, as a youth went to Wigan. Then about fifty years ago he commenced at St. Helena, Lancashire, the manufacture and sale of Beecham's pills. At first the business was on a very small scale, Mr. Beecham selling the pills from a stall in the market place. The stall consisted of a fish tub and his tray was a part of a door. It might be said that he made his fortune out of a phase. One day he was standing at a street corner in St. Helena with a trayful of pills, when a woman came up to him and said that the pills had done her so much good that they were "worth a guinea a box." The phrase so pleased Mr. Beecham that he adopted it. He was a great believer in the value of advertising, and so the phrase became familiar to the world.

GROWTH OF THE BUSINESS.

But before this the demand for the pills had increased, and a small workshop was erected behind a house in Westfield street, St. Helena, and there for some years the pills were made. Ultimately larger premises had to be taken, and finally the magnificent building which now exists was erected and equipped with the most perfect pill-making machinery in the world, the works being a model of arrangement.

Twelve years ago, at a public gathering of journalists, Mr. Beecham stated that his firm spent £100,000 a year on advertising. There are about 120 employees at the St. Helena factory, all of them men, and the majority are long servants. The firm has depots established in the Far East, in New York, Melbourne, and on the Continent. Recently one representative of the firm was taught Hindustani in order to conduct more efficiently the Indian trade.

"The world-wide sale of Beecham's pills," writes a correspondent who has come into personal contact with the late Mr. Beecham, "was unquestionably due to the judicious advertising methods adopted by their producer. This was a department he himself managed and entirely controlled for a great number of years. Even the small weekly paper circulating in a working-class district did not go unconsidered when he was building up his business. He was a keen bargainer, ready to pay cash in advance to secure the best terms and generous in regard to space."

ARE YOU SUBJECT TO STIFF NECKS.

Perhaps it is in the neck or shoulder. First thing is a good rub with Eerviline. No more speedy remedy can be adopted. When applied to the muscles Nerviline gives them flexibility and vigor; inflammation, soreness and stiffness disappear. "Whether in the chest, or throat nothing can surpass Nerviline," writes O. B. Denton, Lumber Merchant at Oak Bay N. B. "Rubbed on at night, trouble is gone by morning. I have proved Nerviline a great medicine." Every one says the same, and Nerviline always makes good, 25 cent bottle sold everywhere.

BLOOMFIELD RIDGE.

A sad accident occurred while crossing the suspension bridge at Taxis River, a young lady and gentleman, Miss Jennie C. Robinson, teacher of Taxis River school, while in the act of crossing the bridge, the main stay gave way, causing the other one to break, precipitating the occupants into the river. They got badly scared, but no bones were broken. Mr. Fairley was not long in rescuing the young lady from such a dangerous position.

Mrs. Amy MacLellan, who is one of the waitresses at the Aberdeen Hotel, at Doaktown, is visiting her father and mother, Mr. and Mrs. Jas. Spencer.

Mrs. George MacLellan was calling on friends at Gordonvale on Monday.

John L. Snow, met with a serious accident while splitting wood, his axe came in contact and caught with a clothes line, striking Mr. Snow on the head.

Mr. William Weddale Kennedy of Taxis River has accepted a position as travelling agent for Brown Bros.

He is the right man for the position.

Some of the fair sex of this place are feeling very sorry over the young men who this morning for the drive on Taxis River and Hovey and Haden Brook.

Mr. John T. MacBean of Covered Bridge, made a call to Bloomfield

Ridge on Friday.

Messrs. Sandy MacDonald and Douglas W. Spencer, left this morning for Rocky Brook for H. H. Gunter, to take charge on the drives.

Messrs. Newton W. MacLeod and Perley W. Calhoun, left on Thursday for Patten, Maine for stream driving.

On Friday at Boiestown, Lynch, Gunter and the Miramichi Col., Ltd., were hiring men for the driving. Wages were from \$2.00 to \$2.25 and \$2.50 per day. Wages are coming to the front.

Miss A. M. Fairley of Taxis River spent a few days at Boiestown.

Mr. Alexander R. Norrad of Campbell, who has been spending his vacation at this place, returned home on Friday, April 26.

William J. Smith has purchased from Allen Hunter, one of his draught horses.

Mr. Wesley Bruce of Hayesville, has purchased a new driver from A. Hunter.

REGAIN NOW THE STRENGTH YOU LACK.

Winter Leaves us Miserable, Ailing. Weak—Build up Now.

During the winter the system gets sluggish. The blood, polluted with impurities, deadens the nervous system and dulls the actions of both liver and kidneys; the foulness of the system increases and when spring comes we are limp and useless. Spring "system cleaning" is a duty; the body sewers must be flushed out and waste matter removed—otherwise weakness and nervousness will surely follow.

Begin by enriching the blood. Make it pure and nutritious by taking Ferrozone, its greatest blood former known to medical science.

Ferrozone makes the liver fairly sing with new life, makes the kidneys dance with renewed vitality, and thus the winter's accumulation of pollution is expelled.

Of course digestion must be improved, and probably the stomach will require aid as well. Ferrozone serves the purpose admirably. Those who use it, enjoy appetite and digestive powers far beyond the ordinary.

That tired feeling is replaced by the buoyant, joyous sensation of health and vigor. Day by day as your strength increases, you feel new energy surging through your veins, and know that a tonic of great merit is at work.

No remedy more nourishing or uplifting, no treatment so sure to bring lasting health, good spirits and contentment. Ferrozone contains just what run-down folks need; it cures because it supplies more nutriment than you can get in any other way. Free from alcohol and prepared only in chocolate-coated tablets, 50 c. per box or six boxes for \$2.50 at all dealers. Be sure you try "Ferrozone."

HORRIBLE ACCIDENT.

Halifax May 1.—Allen Parsons, aged 28, a Cooper at Imperial Gill tank station was struck by a P. A. R. Train out from this city this morning and was killed.

Four cars passed over him and his body was found doubled up under one car.

The head was nearly severed from the body and the arms and legs were broken.

He leaves a widow and parents who reside in St. John's Newfoundland.

A Geological Curiosity.

In excavating for the new reservoir on Auburn Heights, Me., the workmen came upon a singular geological formation the other day. In a crevice in the rock was some fossilized sandstone that was twisted and rolled in the most fantastic forms. At some time in the cooling process of the earth's surface this had been molten and had run into these forms as a candle is run into a mold. The different layers lap and overlap each other in a manner that makes them a geological curiosity. When disintegrated these coils became sand, and this has been used for tamping in the dynamite charges. Some particularly fine specimens were preserved.

Wonderful Monastery.

At Solovetsk, in the Russian government of Archangel, is the most remarkable monastery in the world. The monastery of Solovetsk is enclosed on every side by a wall of granite boulders which measures nearly a mile in circumference. The monastery itself is very strongly fortified, being supported by round and square towers about thirty feet in height, with walls twenty feet in thickness. The monastery consists in reality of six churches, which are completely filled with statues of all kinds and precious stones. Upon the walls and the towers surrounding these churches are mounted huge guns, which in the time of the Crimean war were directed against the British White sea squadron.

STOMACH MEDICINE IS USELESS.

Impossible to cure catarrh in the nose by dosing the stomach. Send the healing vapor of Catarrhazone after the germs and you at once accomplish good. "Any case of catarrh is curable"—all that's necessary is to inhale Catarrhazone—you stop hawking, nose trills are cleared, throat is healed and freed of phlegm; every vestige of the trouble is forever driven from the system. If you want permanent cure for catarrh, throat, nose or bronchitis, Catarrhazone is a stand by. Two sizes, 25 cents and \$1.00 at all dealers.
