Dr. Pierce's Golden Medical Discovery

The Great Restorative Non-Alcoholic Tonic

of the day, made entirely of native medicinal roots and without a drop of alcohol in its composition.

There are no secrets--all its ingredients being printed on the bottle-wrappers.

The "Golden Medical Discovery" not only builds up the strength of the feeble, debilitated, languid, nervous and easily fatigued, whether young or aged, but it enriches and purifies the blood, thus making the improvement lasting.

It corrects and overcomes indigestion, dyspepsia, biliousness, torpid liver, chronic diarrhea and kindred derangements of the stomach, liver and bowels.

Bronchial, throat and laryngeal affections, attended with hoarseness, persistent cough, and all manner of catarrhal affections are cured by the "Golden Medical Discovery."

In Chronic Nasal Catarrh, it is well to cleanse the nasal passages out freely with Dr. Sage's Catarrh Remedy fluid while taking the "Golden Medical Discovery" as a constitutional treatment. Old obstinate cases of catarrh yield to this thorough course of treatment.

Through enriching and purifying the blood, the "Discovery" cures scrofulous affections, also blotches, pimples, eruptions, and other ugly affections of the skin. Old, open, running sores, or ulcers, are healed by taking the "Golden Medical Discovery" internally and applying Dr. Pierce's All-Healing Salve as a local dressing. The Salve can be had of druggists, or will be sent

by return mail on receipt of 50 cents in stamps. Address Doctor Pierce as below for it.

In short "Golden Medical Discovery" regulates, purifies and invigorates the whole system and thus cures a very large range of diseases. The reason *Why* it cures such a varied list of diseases is made clear in a little booklet of extracts from the leading medical authorities, compiled by Dr. R. V. Pierce, of Buffalo, N. Y., and which he will be pleased to send post-paid and entirely free to any who send him their names and addresses.

You can't afford to accept a substitute of unknown composition for this non-secret MEDICINE OF KNOWN COMPOSITION.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. One "Pellet" is a gentle laxative, and two a mild cathartic. Druggists sell them, and nothing is "just as good." They are the original Little Liver Pills first put up by Dr. Pierce over 40 years ago. Much imitated, but never equalled. They are tiny sugar-coated granules—easy to take as candy.

Dr. Pierce's Medical Adviser (1000 pages) is sent free on receipt of 31 one-cent stamps (to cover cost of mailing) for paper-covered, or 50 stamps for cloth-bound copy. Address Dr. Pierce as above.

Mr. Askitt—Do you think marriage is a failure?
Mrs. De Vorsay—No, merely a temporary embarrassment.

The best way to pay attention to what people think of you is to pay your debts.

GREAT DANGER IN HEADACHES

It's often dangerous to consider headache a trifling ailment. If the head aches, the stomach is out of order and some serious disease may be impending. To tone up the stomach to give it healthy action, nothing in modern medicines is so successful as Dr. Hamilton's Pills. The concentrated vegetable extracts in Dr. Hamilton's Pills have a quieting, healthful effect on the stomach and remove all disorders. Your headaches will be cured and they will return if you use Dr. Hamilton's Pills. Sold everywhere.

THE FEET OF SOME AUSTRALIAN RABBITS show a gradual adaptation to a new mode of locomotion. The rabbits are becoming climbers and often ascend trees in search of food. Their feet in consequence are said to be growing sligher, and the claws longer and sharper.

Quick Work.
"I am a lover of truth."
"You surprise me. How long has the two of you been acquainted?"
New York Tribune.

A Demoralizing Influence.
The grip germ with alarm we view.
Not only does it make us smart,
But furnishes a pretext new
For climbing off the water cart.
—Washington Star.

Ambiguous.
Lady (to nurse)—Have you had an children of your own?
Nurse—None to speak of, madam.
Judge.

MARYSVILLE NEWS.

May 23th—A tennis club has been organized with prospects for a bright future as already the membership is in the vicinity of thirty with the following officers:

Pres.—Dr. E. B. Fisher.
1st Vice-Pres.—Mrs. Duncan Reid.
2nd Vice-Pres.—F. M. Merritt.
Sec.-Treas.—Miss Florence Bird.
The managing committee is as follows:

Mrs. Harry Gibson, Mrs. Chas. Chisholm, Florence Tapley, Mary Robinson, Fred Gibson, F. M. Merritt, Major Gray, Archibald Ward.

The club intend having two single courts on Mrs. Chisholm's lawn and expect to commence playing next week. It is the intention of the club to have a grand lawn party and tea in the near future of which Mrs. A. G. Robinson is chairman.

Mr. and Mrs. William Brogan returned to Marysville last Wednesday and are the guests of Mrs. Alex. Brogan.

Miss Gertrude McAloon of Stanley is at present visiting her mother.

Marysville was well represented at the University Enconia Thursday afternoon.

REFORM THE CRIMINAL.

Bill With This Object Before British COMMONS.

LONDON, May 29—Mr. Herbert Gladstone, Home Secretary, has introduced in the House of Commons a bill aiming to reform habitual criminals by conciliatory treatment. Mr. Gladstone said that present system was sufficient deterrent for 50 to 60 per cent of prisoners, but was useless for two classes, namely those who are criminal owing to mental or physical deficiency and those preferring to live by crime. The latter laughed at the present system. They refused a helping hand and were determined not to work. The bill proposes to follow penal sentences by a period of preventive detention until the authorities are assured the prisoners will live honestly and until age or infirmity incapacitates them from resuming a life of crime. The system, said Mr. Gladstone, is based on hope, not fear. It would enable a man to effect his own release. The bill passed its first reading.

DO YOU WANT TO KNOW WHAT YOU SWALLOW?

There is a growing sentiment in this country in favor of medicines of known composition. It is but natural that one should have some interest in the composition of that which he or she is expected to swallow, whether it be food, drink or medicine.

Recognizing this growing disposition on the part of the public, and satisfied that the fullest publicity can only add to the well-earned reputation of his medicines, Dr. R. V. Pierce, of Buffalo, N. Y., has "taken time by the forelock," as it were, and is publishing broadcast a list of all the ingredients entering into his medicines. "Golden Medical Discovery" the popular liver invigorator, stomach tonic, blood-purifier and heart regulator; also of his "Favorite Prescription" for over-worked, broken-down, nervous and invalid women.

This bold and out-spoken movement on the part of Dr. Pierce, has by showing exactly what his well-known medicines are composed of, completely disarmed all harping critics who have heretofore unjustly attacked them. A little pamphlet has been compiled, from the standard medicine authorities of all the several schools of practice, showing the strongest endorsements by leading medical writers of the several ingredients which enter into Dr. Pierce's medicines. A copy of this little book is mailed free to any one desiring to learn more concerning the valuable, native medicinal plants which enter into the composition of Dr. Pierce's medicines. Address Dr. Pierce as above.

The Opal.
The amazing play of color in the opal is caused by the enormous number of infinitesimal fissures which seam the gem. They lie at different planes and produce prismatic hues.

Impertinent.
Old Doctor—What are those white objects I see in the distance, my dear? Miss Pert—Those are signs advertising your profession, sir, Old Doctor—Ah, I thought they might be tombstones. Miss Pert—So they are.

Suppose She Had Been Out!
"What day was I born on, mother?"
"Thursday, child."
"Wasn't that fortunate? It's your day at home."

It may be cramps, perhaps colic, pain or gass on the stomach—but in any case a few drops of Nervine soothes the pain and allows the child to sleep peacefully. Nervine cures minor ills such as colds, headache, internal and external pains as well as any doctor, safe to use because a small dose is required. Mothers, you will find Nervine an invaluable aid in the preventing and curing sickness. Keep a bottle right at hand, some day you will need it badly. Sold everywhere at 25 cents.

LONDON WORKHOUSES FULL.

Many Infirm Paupers Boarding at Sanitariums at the Seaside.

Enquiries throughout Great Britain show that lack of employment is responsible for acute distress in many towns, the trades most affected being building, engineering and shipbuilding.

Owing, apparently, to the slackness of trade, the forty workhouses of Greater London are filled to overflowing. The latest returns show that in these workhouses there are 80,183 boarders, and that 45,821 people are receiving outdoor relief. This gives a ratio of 26.5 paupers to the thousand of the population.

It is impossible to grant all the applications for admittance to these institutions, and the authorities, in their efforts to grapple with the situation, have resorted to the novel plan of accepting the help of professional boarding house keepers. The management of seaside sanitariums have sent circulars to the workhouse authorities which say in effect: "Our staffs are idle; yours are overworked. Cannot we help each other?"

The offers have been accepted in several instances and many infirm paupers have been sent to fashionable resorts to be nursed back to health amid surroundings luxurious beyond their dreams. And, unlikely though it may seem, the workhouse authorities in adopting this solution of the difficulty are actually saving money. It costs 20 shillings a head a week for infirm inmates in poorhouses, whereas the sanitariums are taking boarders at the reduced terms of 13 shillings a week.

The poverty in the Hackney district of London is such that its workhouse is not only accommodating 200 persons more than it is certified for, but paupers from that district are boarding out in eighty-five different institutions, not including lunatics in asylums. Even the chapel connected with Hackney workhouse is being used as a dormitory for some of life's failures.

Among the 1,601 paupers in this institution there are some who have been inmates for between thirty and forty years. Seven of the inmates say they fought for their country in the Crimea. Several whole families are in the house, and their furniture is stored in the outbuildings until such time as the men can make a fresh start.

Many families are utterly undeserving of admittance to these pauper refuges. It has been shown over and over again that when once a family has been helped by the workhouse authorities it acquires the workhouse habit and again flies to them at the first sign of trouble.

In course of time, the habit becomes a family tradition, an instance of which is provided by Hackney. There died there a few days ago an old woman whose family was represented in the workhouse by four generations. The woman's daughter and her husband, her grandchildren and great-grandchildren were likewise in the workhouse.

West Ham, in the east end of London, has the doubtful honor of owning the largest workhouse in England. It is like a small walled city and contains 2,600 paupers, which is 800 more than it is supposed to be able to accommodate.

Four branch workhouses give shelter to another 900, and fifty women are sleeping in a schoolroom whence teachers and pupils have been evicted. Seven hundred children are being boarded out with foster mothers scattered over the district.

West Ham's difficulties are to a certain extent due to the crowds of able-bodied who have developed the workhouse habit. There are 200 able-bodied women in the prime of life, in the workhouse, and over a hundred able-bodied men between the ages of 16 and 30.

The latter are strong young fellows, most of whom made their acquaintance with the interior of the workhouse in their childhood. By going out in the morning after breakfast and picking up a dinner where they can they are able to escape the labor, such as wood chopping, stone breaking or corn-grinding, which would be their lot if they remained inside all day.

West Ham has the best dietary of any workhouse in the Kingdom. Breakfast consists of four ounces of bread and a pint and a half of porridge. Dinner may be four and a half ounces of meat with twelve ounces of peas pudding or the same amount of meat with two vegetables. For supper, eight ounces of bread and one pint of broth are given out.

Infirm men live better. They have a lunch between breakfast and dinner, consisting of bread and butter, and a piece of plum cake. They are allowed tobacco, and in the evening can play draughts, bagatelle or dominoes. No task is set them.

The United Kingdom.
The United Kingdom measures 121,089 square miles; the British empire covers 11,908,378 square miles.

Expert Stone Throwers.
The natives of Tierra del Fuego are the most wonderful stone throwers in the world. The men can kill small animals at fifty yards as easily as a white man can with a rifle.

No Whistling Allowed.
Whistling is tabooed in the dressing rooms of a circus. That it is an ill omen is one of the superstitions of the circus people. Somebody is sure to be discharged if any one whistles, they say.

Russian Koumiss.
Russian koumiss is made of mare's milk and kept in smoked out leather bottles.

One View of It.
"I won't marry him, mother, even if he is a count. All he wants me for is my money, and he's a big fool!"
"Hush, my dear. He'd be a bigger fool to want you without a cent!"
