TREATING WRONG DISEASES

Many times women call on their family physicians suffering, as the imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous exhaustion or prostration, another with pain here and there, and in this way they all present alike to themselves, and their easy-going and indifferent, or over-busy doctor, separate and distinct disease for which he, assuming them to be such, prescribes his pills and potions. In reality they are all only symptoms caused by some uterine disease. The physician, ignorant of the cause of suffering, encourages this practice until large bills are made. The suffering patient gets no better, but probably worse by reason of the delay, wrong treatment and consequent complications. A proper medicine like Dr. Pierce's Favorite Prescription, directed to the cause would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native medicinal roots and is perfectly harmless in its effects in any condition of the system.

Mount Everest of the Himalayas is the highest mountain peak in the world, being over 29,000 feet high. The 18,000,000 packets representing one year's output of "Salada" Tea would, if placed end to end, produce a pyramid 5,600,000 feet in height, or 193 times higher than the highest mountain in the world. Can you grasp the magnitude of the demand for "Salada" Tea?

Cough Remedy.

This cough remedy has rarely been known to fail in giving relief: Roast a lemon very carefully without burning it. When it is thoroughly hot cut it open at one end and squeeze into a cup containing three ounces of finely powdered sugar. Take a spoonful whenever the cough troubles. It is excellent and most agreeable to the taste.

The Silkworm.

The thread of the silkworm is one one-thousandth of an inch in thickness.

Maltese Lace.

The original maltese lace was a coarse kind of mechin or valencienne in an arabesque pattern. Malta has the first claim to the invention of fine guipures, which are usually called maltese lace.

The difference in the tone of a Gourlay Plaro and that of the ordinary is, stroment is noticeably marked. The Gourlay furnishes a means for better progress to the player; as with its rich, sweet, full singing tone the performer can produce all the exquisite gradations which make tone color, the quality which gives beauty to the piece of music.

Nearly Seized Fleet.

The whole French navy has escaped seizure by a Cherbourg lawyer for a debt of \$25. The Matin tells the amusing story.

Letellier, a dockyard workman, lost a hand during his employment in November, 1906, and in an arbitration was awarded a pension of \$100. But the ministry caviled at the decision, and in March, 1907, Letellier, through his lawyer, M. Lebourcier, sued the Admiralty and won his case. Still, he did not get the money. M. Thomson, Minister of Marine, or his subordinates made protests and delays till \$25 of the pension was in arrears. Then the advocate marched into the Admiralty office at Cherbourg and announced that, in default of payment, he would be compelled to seize the furniture of the building as well as the warships, torpedo boats, and vessels of smaller importance in the docks at the moment. A frantic telegram was despatched to M. Thomson, who forthwith capitulated and sent \$2,000, the capital necessary to supply the workman's pension.

BRANDED VICTIM WITH RED HOT IRON

Masked Men, Failing to Find Loot They Hoped For, Tortured Aged Farmer

Port, Jarvis, Sept. 15.—Detectives of the Lackawanna, the Erie and the Ontario and Western railroads have been searching all trains since Wednesday night in an endeavor to capture one of the three men who tortured Wm. Hartley, an aged farmer of Glenwood, Susquehanna county, Pa.

The day preceding the robbery the farmer sold a number of sheep and received \$1,000. He sent his daughter to Montrose to deposit the money.

Three robbers entered his home before the girl's return. All wore masks. They demanded the money of Hartley. He told them he had sent it to the bank. They would not believe him, and failing to make him reveal its supposed hiding place they heated an iron until red hot and applied it to his feet.

Hartley screamed in agony, but insisted his daughter had taken it to the bank. The mob then searched the house and found \$8.50. Enraged at not finding more they beat the aged farmer until he was insensible and took away.

Two of them were captured. They gave their names as William Wandell and Oscar Platt. The third is still at large.

SURPRISE FOR HANNA

Character of Laurier's Reception in Ontario Gives Lie to Ontario Prov. Secy's Blatant Prophesies.

(Montreal Herald)

It might have surprised Mr. Hanna Sir James Whitney's somewhat boastful lieutenant, if he could have seen the meeting at Niagara Falls Park yesterday. Mr. Hanna, intoxicated by the sweeping success of the Whitney government in the last elections, has been telling the Nova Scotia and New Brunswick Conservatives that Ontario will send to Ottawa sixty-five Conservatives out of the eighty-six members. That was a pretty liberal calculation, considering that the score stands now only forty-seven to thirty-nine, and when he made it Mr. Hanna must have left out of account altogether the influence of Sir Wilfrid Laurier's personality. The demonstration of yesterday, which would have done credit to a large city, afforded some indication of how strong the influence of that personality is. Mr. Borden and his whole entourage of premiers will never be able to attract an audience half as large, and their friends know it.

The Prime Minister's hold upon the admiration and affection of the people was shown by their presence, by their eager attention, by their patient endurance under the direct rays of the afternoon sun, to extend to the platform as he could get, the men who have followed Laurier through his career of victory stood

ran't on ran't as far as his voice could carry, the men who are casting their votes for the first time walked with him three miles in procession and crowded forward eager to hear and see the orator statesman whose name has been a synonym for the honor of their country since first they began to think upon their country. And, perhaps, most significant of all, it is the influence of a fine personality one would seek to measure, the women of the Niagara peninsula were there in numbers almost equal to the men. That is what Mr. Hanna could have seen in Ontario yesterday, and what he will not see as he rides in Mr. Borden's chariot. It has been urged in these columns that all Sir Wilfrid Laurier had to do was to show himself in Ontario to receive the assurance of the esteem in which he is held. Possibly the opinion is. Mr. Borden and his whole entourage of premiers will never be able to attract an audience half as large, and their friends know it. country. Now that he has made his appearance, and has demonstrated the reality of his personal leadership in Ontario as well as in Quebec, there might as well be an end of such boasting as Mr. Hanna has indulged in openly, and which has been unmanly of all ages. The greybeard who began by voting for Brown and MacKenzie had found a place as close to the platform as he could get, the men who have followed Laurier through his career of victory stood

Gave Him Piece of Shroud.

Some time ago the New Kilpatrick parish church minister, Rev. J. H. Dickie, attended, in ministerial capacity, a funeral in Glasgow, and he was somewhat surprised when the chief mourner handed him a small cutting of the shroud. Naturally he asked the reason of the gift, but the mourner could not tell him, merely remarking that it had been an old custom of her family to present the minister with a bit of the shroud on similar occasions. An antiquarian friend has been looking into the matter, and finds that away back in the thirteenth or fourteenth century an act was passed for the purpose of encouraging the wool trade in Scotland, which ordained that every corpse be shrouded in a woollen garment, and to make certain that the order was attended to, it was made the duty of the parish minister to examine the shroud before the coffin lid was "screwed down." In the event of the minister not being able to present a "swatch" of the dead person's garment had to be cut off and handed to the clergyman who officiated at the "lifting." The fact that the old custom has been preserved in the mourner's family showed that their genealogical tree had a fairly respectable antiquity.

Queerest of Creatures.

The duckbill, or mulligong, of Australia is one of earth's queerest creatures. It is essentially an aquatic and burrowing animal. The beak is well supplied with nerves and appears to be a sensitive organ of touch by which the animal is enabled to feel as well as smell the insects and other creatures on which it feeds. The duckbill can run on land and swim in water with equal ease. It is covered with fat, which is thick, soft and ready dried while the animal enjoys good health. The food of the duckbill consists of worms, water insects and little mollusks, which it gathers in its cheek pouches as long as it is engaged in search for food and then quietly eats them when it rests from its labors.

The Long Lived Parrs.

Thomas Parr, who died in London in 1635 at the age of 152, is notable not only for his longevity, but also for that of his descendants. Parr lies buried in Westminster Abbey. He worked his farm at the age of 130 and married for the second time at the age of 122. Robert Parr, a great-grandson, died in Shropshire in 1757 at the age of 124. His father lived to be 109 and his grandfather 113. John Newell died in 1761, aged 127, and John Michaelson, aged 127 also, died in 1763. Both were grandsons of Thomas Parr.

Are You a Woman

Who Needs Strength?

Not long ago you were able to enjoy life.

You had vigor, strength, ambition—did everything with zest and pleasure.

Upon your cheeks was the hue of health, in your eyes the sparkle of vim and animation.

Today—all is a drudge. Not actually sick, but if your work were less imperative, how gladly you would rest.

You are breaking down. Nervous system is out of gear. Digestive powers are weak. Blood lacks nourishment.

Just one thing to do—Build up—Win back your health with Ferrozone.

No remedy restores so fast, builds up so permanently, instills such vigor or surplus strength like Ferrozone.

A case showing how Ferrozone acts is illustrated by the following from Mrs. H. Wright, of Enfield, N. S.

"Six months ago I experienced a serious illness. It commenced with splitting headaches, dull pains through my chest and shoulders, I found it hard to get satisfying sleep—would roll and toss, and in the morning felt tired all over. Then I grew nervous, lost flesh, got pale and had heavy dark circles under my eyes. My strength got so low I couldn't do housework. I was worried and unable to eat, and feared I would not get well. Ferrozone braced me up in a few weeks. It seemed to supply wonderful strength. I gained in flesh, looked better, and was able to sleep. In all I took twelve boxes of Ferrozone, and my cure was complete."

If Ferrozone doesn't help and cure you—then nothing will; your druggist sells it in 50c boxes—Better try Ferrozone.

Her husband—If a man steals, no matter what it is he will live to regret it.

His wife—During our courtship you used to steal kisses from me.

Her husband—Well, you heard what I said.—Tit-Bits.

WHICH LINIMENT IS BEST?

For muscular pains and aches a thick oily preparation can't penetrate—that's why Nerville beats them all—it sinks right in. "I wouldn't live without Nerville in my house," writes J. B. Cotton, of Mastown, N. S. "If you have rheumatism or soreness in the muscles, or in fact any need of an honest liniment, Nerville fills the bill. I can recommend it highly because I have proved that in one application of Polson's Nerville there is more virtue than in a whole bottle of ordinary liniment." Try one of the large 25c bottles.
