

A CHATHAM TANGLE.

Wrong Girl Got Governor Tweedie's Medal.

Chatham World: A rather singular and almost incomprehensible blunder was made by the Chatham school authorities, at the close of the last school year, in awarding the Governor's medal for the best aggregate in the High school entrance examinations. Dr. Cox certified that Miss Georgie Tait had the highest number of marks, and the silver medal was awarded to her. Her name was engraved on it, and the presentation duly made. But it has been recently discovered, on scrutinizing the examination papers, that a mistake of 100 was made in adding up the marks, and that the medal was earned by Miss Josephine Grattan of the Convent school and should have been awarded to her.

CROSS CREEK.

April 23—The ladies of the Church at England at Cross Creek held a concert and oyster supper on Easter Monday evening in the Odd Fellow's Hall at that place.

The following program was carried out:
Opening Chorus—"The World is a Stage on."
Violin Duet—by Millie Bennett and Grace Robbins.

Recitation—"Arabella's Poor Relations" by Alma Plant, Winnie Bennett, Harold Griffin and Herbert Thomas.

Violin Solo—by Millie Bennett.
Song and Chorus—by Mrs. George Bennett and Miss Gussie Robbins.

Solo—"Bonny Bank of Loch Lomond" by Todd Bennett.

Dialogue—"Counting Eggs" by Mrs. Arthur Bennett and Harold Griffin.
Reading—"St. Peter at the Gate" by Mrs. Arthur Bennett.

Chorus—"God Save the King."
At the close of the program Harry Sansom was presented with a beautiful plush cushion, he being the holder of the lucky ticket.

Dr. Sterling, who had been appointed chairman, in a well chosen speech presented Mrs. James Thoburn with a berry set on behalf of the ladies aid, in recognition of her services as organist.

Then followed the oyster supper which was in every way a success.

The Hall was packed to the doors but the best of order prevailed during the whole evening.

The proceeds amounted to over \$100 clear of all expenses.

The ladies wish through the columns of this paper to thank their many friends of other denominations for their help in making this affair a success.

THE FOUR D's.

Charles Spurgeon once said there were three great enemies to mankind, dirt, debt and the devil. He might have added one more and included dyspepsia. The evil results of this disease could hardly be exaggerated. Its effects are felt in mind and body and are so far reaching as the effects of the curse that was laid on the Zed of Rheims which was cursed in "eating and drinking and sleeping, in standing and sitting and lying." The good effects of Dr. Pierce's Golden Medical Discovery are most marked in aggravated and chronic cases of dyspepsia. It enables the stomach glands to secrete the necessary quantity of digestive fluids, and this at once removes that craving or gnawing sensation so common to certain forms of indigestion. It tones and regulates the stomach, invigorates the torpid liver and gives the blood making glands keen assimilative power. "Golden Medical Discovery" cures ninety-eight per cent. of those who use it.

Dr. Pierce's Pleasant Pellets are superior to all other laxative medicines when the bowels are obstructed.

The children in one of our kindergartens were struggling with the alphabet.

Miss Gertrude Williams says they have nine kittens at her home—literally speaking.

WHY BURN YOUR TOES?

Stop using acid Corn Salves, use Putman's Painless Extractor; it costs a little more, but it's far the best. Use only "Putman's"—25c. at all dealers.

LORD KELVIN'S SUMS.

Slips of an Absentminded Dentist in Simple Arithmetic.

Great scientist though he was, the late Lord Kelvin sometimes failed to do simple addition or subtraction sums correctly. Once on a blackboard at Glasgow university he made two and two five and, hearing the delighted laughter of the class, hastily altered the five to a three. On another occasion he said, "Seven times nine, Mr. Macfarlane, are a hundred and what?" (Pause.) "But, no," continued the scientist, "seven times nine cannot be a hundred and anything, for the square of a hundred is ten."

How he nearly lost his life through his devotion to science was told by Lord Kelvin himself in the house of lords some years ago. He was engaged in testing certain chemical ingredients which could be safely mixed together in particular proportions, but which became a highly explosive mixture if the weight of one element was exceeded. His assistant in adjusting the difference between the dynamometer and ordinary troy weight measured out a quantity which would have meant certain death to both and was just adding it to the mortar when Lord Kelvin noticed the mistake.

The test of time has only served to strengthen the public confidence in "Salada" Tea. The tea that quality made famous. Sold by grocers every where in the Dominion in sealed lead packets only; never sold in bulk.

ASSESSORS' OFFICE,

City Hall, Fredericton, N. B.

The Board of Assessors of Taxes or the City of Fredericton in the recent year, hereby require all persons liable to be rated, forthwith to furnish to the Assessors true statements of all their real estate, personal estate and income; and hereby give notice that blank forms on which statements may be furnished under the City Assessment Law can be obtained at the office of the Assessors and that such statements must be perfected under oath and filed in the office of the Assessors, within thirty days of the date of this notice.

Taxpayers who fail to comply with the terms of the City of Fredericton Assessment Act, 1907, as above set forth are not entitled to appeal from the ratings which may be made by the Board of Assessors in the Assessment Roll of 1908.

The Assessors' Office will be open from 9.30 a. m. to 12.30 p. m. and from 2 to 5 p. m., on every lawful day of the ensuing thirty days; copies of the Act and blank forms will be given out there and will be mailed to applicants upon request. Information furnished and oaths administered without charge.

Dated this 8th day of April, A. D. 1908.

LEONARD W. JOHNSTON,

Apr. 8, 1908.

Principal Assessor.

All Dental work done by latest and improved methods. Teeth extracted absolutely without pain.

Special attention given to treating and saving natural teeth.

Work done at reasonable prices.

Hours: 9 a. m. to 8 p. m.

Today's Suggestion by Ellen Stan.

SKIRT FOR STREET WEAR.

If you want heavy plaited cloth to stay in position through damp weather and rough usage, it is better to stitch down the very edges of the plaits with tiny, almost invisible, seams.

The skirt with trimmings was almost a nuisance, for it was hard to make and went out of fashion very soon.

The knife plaited skirts have disappeared from the wardrobes of well dressed women, but other plaits hold their own.

The street skirts will continue plaited. We shall have them with us through spring and possibly through the summer. There never has been anything prettier.

The gored skirt with its

seams exposed was

never good looking.

If it had trimming

down the seams, it

was better, but

there is no sign of

a return to these

lengthwise lines on

a walking skirt.

The cut of a skirt

is the thing just

now. What is put

on it is of little in-

terest. We wear out

street skirts severely

plaited because it

is in good taste, and

we wear our dressy

gowns untrammelled

because it shows off

the material.

When the plaits

are made there is

nothing more to add

to the skirt. Even

the hem is invis-

ible. We are some-

times trimming in

braid, but most peo-

ple are a little tired

of it. The perfectly

plain skirt is the

best of all.

When making

skirts it is possible

that some slight al-

teration may need

to be made, as one

hip is usually larger

than the other. Un-

less alteration is

very slight the

smaller hip should

be padded. The pad

is worn under the

corset, and if it is

once properly ad-

justed and sewed

in there will be no

more trouble.

This twelve gored

plaited skirt is fin-

ished in round

length. The pat-

tern is cut in six sizes—from 22 to 32 inches waist measure. To make this garment for the average person it requires 7½ yards of material 36 inches wide or 5½ yards 44 inches wide.

Any reader of this paper who desires to procure this pattern may do so by sending 10 cents to this office. Give the number, 3841, and size and write the full name and address plainly. The pattern will be forwarded by mail promptly.
