NOTICE TO CONTRACTORS

SEALED TENDERS addressed to the undersigned, marked on the envelope 'Tender for Construction,' will be received at the office of the Commissioners of the Transcontinental Railway, at Ottawa, until twelve 'clock noon of Thursday, the 20th day of August, 1908, for the work required for the construction, in accordance with the plans, profiles and specifications of the Commissioners, of the following sections of the Trans continental Railway, viz:—

(1) District 'C'—From a point designated on the plans of the Commissioners near Weymontachene, in the province of Quebec, 196.38 miles west of the north abutment of the Quebec bridge, (such point being on the boundary between Districts 'C' and 'D') westerly for a distance of about 107 miles. Date of completion, 31st December, 1910.

(2) District 'C'—From a point designated on the plans of the Commissioners, about 107 miles west of Weymontachene, in the Province of Quebec, westerly to the end of the Grand Trunk Pacific Railway Company's contract, a distance of about 114.97 miles. Date of completion, 31st December, 1910.

(3) Districts 'D' and 'E'—From a point designated on the plans of the Commissioners, being at the western end of Fauquier Bros.' Abitibi contract, in the Province of Ontario, in westerly direction for a distance of about 104.24 miles. Date of completion, 31st December, 1910.

(4) District 'E'—From a point designated on the plans of the Commissioners, about sixty miles west of the easterly boundary of District 'E,' in the Province of Ontario, easterly to the end of Fauquier Bros.' contract, north of Lake Nepigon, a distance of above 100 miles. Date of completion 31st December, 1910.

(5) District 'E' and 'F'.—From a oint designated on the plans of the Commissioners, at the western end of Fauquier Bros.' contract north of Lake Nepigon, in the Province of Ontario, westerly to a point at or near Dog Lake, a distance of about 126 miles. Date of completion, 1st September, 1910.

(6) District F.—From a point designated on the plans of the Commissioners at or near Dog Lake, in Province of Ontario, to a point at or about mile 2.6 west of what is known as the Pennisula Crossing, by alternative routes as shown on the plans, a distance of about 23.76 miles by the northerly route, and 24.13 miles by the southerly route, the selection of the route to be at the option of the Commissioners. Date of completion, 1st September, 1909.

Plans, profiles and specifications may be seen in the office of the Chief Engineer of the Commissioners at Ottawa; also in the offices of the following District Engineers, viz: John Aylen, Acting District Engineer North Bay, Ont.; T. S. Armstrong, Nepigon, Ont.; and S. R. Poulin, St. Boniface, Man.

Persons tendering are notified that tenders will not be considered unless made in duplicate, and on the printed forms supplied by the Commissioners.

A separate tender must be submitted for each section.

Tenderers shall not be in any way entitled to rely upon the classification, or any other information given by any person on behalf of the Commissioners; and before submitting any tender, bidders should make a careful examination of the plans, profiles, drawings and specifications, and read the forms to be executed, and fully inform themselves as to the quantity and quality of materials, and character of workmanship required; and are understood to accept, and agree to be bound by, the terms and conditions in the form of contract, specifications, &c., annexed to the form of tender.

Each tender must be signed and sealed by all the parties to the tender, and witnessed, and be accompanied by an accepted cheque on a chartered bank of the Dominion of Canada, payable to the order of the Commissioners of the Transcontinental Railway, as follows:—

For Sec. No. 1, District 'C'...	$150,000
" " 2, " 'C'...	150,000
For Sec. No. 3, District 'D' & 'E'	150,000
For Sec. No. 4, District 'E'	150,000
For Sec. No. 5, District 'E' & 'F'	200,000
For Sec. No.6, District 'F'..	100,000
& 'F'	150,000

Any person whose tender is accepted shall within ten days after the acceptance thereof furnish such additional approved security as may be required by the Commissioners; sign the contract, specifications and other documents required to be signed by said Commissioners; and in any case, of refusal or failure on the part of the party whose tender is accepted to complete and execute a contract with the said Commissioners, and to furnish the additional approved security within ten days after the acceptance of the tender, the said cheque shall be forfeited to the Commissioners as liquidated damages for such refusal or failure and all contract rights acquired by the acceptance of the tender shall be forfeited. The cheques deposited by parties whose tenders are accepted will be deposited to the credit of the Receiver General of Canada as part of the security for the due and faithful performance of the contract according to its terms. Cheques deposited by parties whose tenders are rejected will be returned within ten days after the signing of the contract.

DOCTOR FOWLER'S EXTRACT OF WILD STRAWBERRY

Diarrhoea, Dysentery, Cramps, Colic, Summer Complaint and all Fluxes of the Bowels are recognized by everyone as exceedingly dangerous.

These diseases are too serious, too rapidly fatal, for you to experiment with cheap and dangerous imitations of the genuine Dr. Fowler's Extract of Wild Strawberry, a remedy that has been used in thousands of homes during the past sixty-three years.

When you ask for Dr. Fowler's be sure you get it. Don't let some unscrupulous druggist palm off a cheap imitation on you.

Mrs. G. Helmer, Newington, Ont., writes: "I have used Dr. Fowler's Extract of Wild Strawberry for diarrhoea and never found any other to equal it.

There are many imitations, but none so good as Dr. Fowler's.'

Manufactured by The T. Milburn Co., Limited, Toronto, Ont.

Toronto Man Won This Race.

When Jack Hopgood of Montreal modestly admitted in the Garner House at Chatham that he could sprint as fast as J. William Daniels of Toronto could travel on a bicycle, the latter gentleman promptly offered to cover the statement with a five-dollar bill. Both men are commercial travelers. The hostelry was filled with guests, it being just at the noon hour, and innumerable side bets were at once chalked up, these, it is claimed, amounting to nearly $200. Mr. Hopgood, not at all phased by the readiness with which his friend Daniels took up the matter, promptly consented to a race at once. The course comprised 200 yards up Murray street, and about 300 people and countless rigs were on hand to watch the going.

The race was a hot affair. Daniels had some trouble in getting away on the wheel, so that those around the starting place thought Hopgood would win an easy victory. But the course proved long to the runner, and by the time the end was reached the bicyclist won out handsomely, the sprinter being nearly winded.

To Explore Island.

A scheme has been launched to form an Alpine Club in Vancouver Island for the purpose of exploring the little known mountain ranges of the island. While none of the peaks of the range is much over 8,000 feet in altitude, they rise from a country so nearly at sea-level that they are quite as formidable to climb and quite as imposing in appearance as higher mountains rising from a country with a generally higher altitude. Hidden among these mountains are many lakes, and the forests abound in a great variety of big and small game.

Experience Contribution.

Poetic Friend—Some one says a baby in a house is a wellspring of joy.

Exasperated Young Parent—Well, don't you believe it. As an element of enjoyment a baby in a house is a screaming farce.

Attention is called to the following clauses in the form of contract :—

'All mechanics, labourers, or other persons who perform labour for the urposes of the construction of the orks hereby contracted for, shall be paid such wages as are generally accepted as current for competent workmen in the district in which the work is be ng performed, and if there is no current rate in such district, then a fair and reasonable rate ; and in the event of a dispute arising as to what is the current or a fair and reasonable rate, it shall be determined by the Commissioners, whose decision shall be final.'

This agreement is subject to the regulations now in force, or which may at any time hereafter be in force during the construction of the works hereby contracted for, made under the authority of the Department of Labor, and which are, or shall be, applicable to such works.' (The schedule of minimum wages determined upon by said Department will form part of the contract.)

'The contractor shall in connection with the whole of the said work, as far as practicable, use only material machinery, plant, supplies and rolling stock manufactured or produced in Canada, provided the same can be obtained as cheaply and upon as good terms, in Canada as elsewhere, having regard to quality and price and price.'

The contractor shall conform to the fire regulations adopted by the Commissioners and also to the laws and regulations respecting fires in the different provinces wherein the work is being performed.

The right is reserved to reject any or all tenders.

By order,

P. E. RYAN,

Secretary.

The Commissioners of the Transcontinental RailRay.

I. C. R. PUBLICATIONS APPRECIATED.

Many Requests from Far Away Places for Guide Books and Hunting Literature

Some idea of the manner in which the attractions of the Intercolonial Railway have been exploited during the past few years may be gathered from the increasing number of requests for the guide books and descriptive folders issued by the railway that are daily being received by the general passenger department. Each mail brings many of these, the bulk of inquiries being residents of the United States. Of late there has been a big increase in the number of requests from the Western States, but the officials were most pleasantly surprised recently when a gentleman residing in Honolulu wrote asking for a copy of "Tours To Summer Haunts" and the various publications on hunting and fishing. A great many applications also come from people living in the Canadian West, which apparently indicates an increasing desire for knowledge concerning the East. The I. C. R. publications have now a very wide circulation, due largely to the fact that they are ably edited and contain much that is readable and instructive. Like all other great railways the government has concluded that printer's ink is the best lubricant for rolling stock, a conclusion reached after plain evidence that the scenic attractions of the line and the splendid train service are becoming known in sections hitherto far removed.

ARE YOU NERVOUS?

Nervousness and sleeplessness are usually due to the fact that the nerves are not fed on properly nourishing blood, they are starved nerves, Dr. Pierce's Golden Medical Discovery makes pure, rich blood and thereby the nerves are properly nourished and all the organs of the body are run as smoothly as machinery which runs in oil. In this way pure, clean, strong and strenuous—you are toned up and invigorated, and you are good for a whole lot of physical or mental work. Best of all, the strength and increase in vitality and health are lasting.

The trouble with most tonics and medicines which have a large booming sale for a short time, is that they are largely composed of alcohol holding the drugs in solution. This alcohol shrinks up the red blood corpuscles, and in the long run greatly injures the system. One may feel exhilarated and better for the time being, yet in the end weakened and vitality increased. Dr. Pierce's Golden Medical Discovery contains no alcohol. Every bottle of it bears upon its wrapper The Badge of Honesty, a full list of all its several ingredients. For the druggist to offer you something he claims is "just as good" is to insult your intelligence.

WILL TAKE SIX MONTHS.

SURVEY OF HUDSON'S BAY RAILWAY ROUTE.

Winnipeg Aug 17.—Chief Engineer Murphy of the Hudson's Bay Railway survey arrived from the east today with his assistant, Mr. Law, and will be joined tomorrow by Mr Armstrong, the head of the expedition. They expect that the work will occupy six months. The party will be divided into four, each taking a section of the territory to be covered

The Conservatives have been declaring this was only an election bait and that it would never materialize, but the arrival of men with supplies proves the genuineness of the Governmen's intention.

JUST THE MEDICINE YOU NEED

Your color is bad, tongue is furred, eyes are dull, appetite is poor, your stomach needs tone, your liver needs awakening. Try Dr. Hamilton's Pills. In just one night you'll notice a difference for Dr. Hamilton's Pills search out every trace of trouble. You'll eat, sleep, digest and feel a whole lot better. You will gain in strength, have a clear complexion, experience the joy of robust health. To tone, purify and enliven system there is nothing like Dr. Hamilton's Pills. 25cts. at all dealers.

KILLED BY NEGRO COOK.

NEW ORLEANS POLICEMAN HACKED TO DEATH IN DINING CAR.

New Orleans, La., Aug. 17.—John J. Carroll, a veteran member of the local police force was cut to death by a negro cook, who was afterwards fatally wounded by the police today on a train on the Louisville & Nashville Railroad in their depot here. The negro was quarrelling with another negro, and when the officer entered the dining car he was disemboweled. The murderer then fled into the dining room car, where he was surrounded and shot. Carroll fired at the negro as he was running and badly wounded another negro.

Mrs. Scott—You used to point Tom out to us as a model husband, and now you say he's lazy.

Mrs. Mott—Well, he's model all right, only he isn't a working model.—Boston Transcript.

HOW TO GAIN IN WEIGHT

You know you are too thin—you eat and eat, but never get an ounce fatter. Nerves are weak, color is bad, strength seems exhausted. It's not hard to get fat. You must eat more, digest more, exercise more. Try Ferrozone and watch your appetite grow. It turns all you eat into nutriment and building material—fills your veins with rich, red blood—gives you ambition and vigor. For a tissue builder, a fattening tonic, one that restores permanently, there is nothing to compare with Ferrozone. Try it and see, 50cts. at all dealers. Kingston, Ont.

The Lion's Attack.

As to a lion's method of attack Frederick Courteney Selous says in his book: "As a rule, I think, a lion seizes a sleeping man by the head, and in that case, unless it is a very old and weakly animal, death must usually be instantaneous, as its great fang teeth will be driven into the brain through the thickest negro skull." Similarly, when a lion attacks an animal it tries to get at the head or the throat—at the vitals of the animal. Says Mr. Selous: "My experience is that when a single lion tries to kill an ox or a buffalo it invariably seizes it near the muzzle with one paw and usually succeeds in either breaking its victim's neck or causing it to break it itself by its own weight in falling. When several lions attack an ox or a buffalo they will often bite and tear it all over and take a long time to kill it."

Curious Old Laws.

Some of the old laws of Nepal, India, were curious. Killing cows ranked with murder as a capital offense, for instance. Every girl at birth was married with great ceremony to a betel fruit, which was then cast into a sacred stream. As the fate of the fruit was uncertain the girl was supposed never to become a widow. To obtain divorce from a husband a wife had only to place a betel nut under his pillow and depart. In Nepal the day is considered to begin when it is light enough to count the tiles on the roof or distinguish the hairs on a man's hand against the sky.

The Same Thing.

She—I'm told you believe in nothing.

He—I never said so. I said I be-

Strength Depends on Healthy Blood.

Is Yours Rich and Pure?

Blood is the soul of life.

Check its formation, reduce its quality, lessen its red cells—you at once sap strength and vitality—you peril life itself.

When you strengthen the blood, make it richer in red cells, increase its solid constituents, you supply the materials that rebuild— you furnish that disease-resisting element we call strength.

When you are weak and ailing—When appetite is poor—when mental efforts seems impossible, sleep hard to get, be sure your blood has grown poor and your nervous system in consequence is impared.

Nothing so quickly stimulates the formation of rich, red blood as Ferrozone.

Ferrozone's action upon the digestive power is immediate—everything you eat is converted into nourishment and building material.

Ferrozone fortifies the action of the kidneys, liver and stomarh, increases circulation, and by these means throws into the blood a vast store of material to build up and to strengthen.

Ferrozone by making blood and stimulating vital action, transmits to the debilitated brain cells, exhausted by toil, by anxiety, or by sickness, the strength they need.

The benificent action of Ferrozone on the brain is transmitted through the nervous system and all powers of the body are enormously increased.

Ferrozone enables the body to perform all its functions in a normal and natural way, and with an absolute freedom from reaction, which is the most positive assurance that the body is strengthened—not stimulated.

Whether the weakness you suffer is profound or of long standing whatever the conditions are—if the blood is impaired, if its redness is reduced, if its activity is lessened—Ferrozone is an absolute and rapid remedy.

For any condition of weakness, debility or ill-health in men, women and children, you can't find so nourishing and strengthening a tonic as Ferrozone; try it, sold everywhere in 50c. boxes.

CORNS CURED FOR 25 CENTS.

A guarantee of painless cure goes with every bottle of Putnam's Corn Extractor. Use Putnam's and your corns go. Beware of substitutes.
