## TWO LOVELY BLACK EYES.

### Carleton and Northumberland Administered Crushing Defeat to the Hazen Government.

### Upham and Burchill Trimmed the Tories to a Finish.

WOODSTOCK, Dec. 2.—George W. Upham, Liberal, was elected yesterday by a majority of 137, the total vote being somewhat smaller than in the recent federal election, but practically up to the usual number in a local contest.

Mr. Upham's victory was confidently looked for by his friends. The government party made frantic efforts to hold the seat, but all to no avail. Compared with last March the result is indeed significant. It represents a change from a minority of more than 500 to a comfortable majority.

The local Conservatives are utterly crestfallen. Although the contest was apparently the cleanest in the history of the county and the only case of bribery so far reported being committed by Conservatives, they are childishly talking of protesting Upham's return.

Hon. Mr. Fleming and Mr. Munro are deeply disappointed as no doubt they see the handwriting on the wall. Upham's majority of seventy-one is the largest a Liberal ever received in Woodstock. Upham carried seven of the eleven parishes.

The following are the returns:

Co.s.	Lib.	Cons.	Upham	Owens
Woodstock, north	42	45		
Woodstock, south	111	129		
Woodstock, town	318	387		
Wilmot	177	200		
Wicklow Falls	73	81		
Tracy Mills	109	95		
Jacksonville (Wake'd)	87	113		
Victoria Corner (Wake'd)	43	78		
Simonds	92	57		
Debec	8	106		
Northampton	117	146		
Peel	151	182		
Bath (Kent)	227	109		
Johnville (Kent)	16	114		
Harvard (Brighton)	122	93		
Rockland (Carlisle)	120	93		
Foreston (Aberdeen)	24	48		
Glassville (Aberdeen)	30	73		
Richmond Corner	58	86		
Totals	2067	2204		

### NORTHUMBERLAND.

### Burchill Defeated Swim by Over 100 Majority.

CHATHAM, Dec. 2.—John P. Burchill, the president of the Liberal Association of Northumberland, was elected yesterday for the vacant seat in the provincial legislature by a majority of over 100. He was opposed by Frank D. Swim, the nominee of the Liberal-Conservative convention, who announced himself as an out-and-out supporter of the Hazen government.

The campaign was brief, and in many respects, one of the most remarkable in the political history of the province.

There was little time for canvassing and none to speak of to perfect any organization. The Liberal candidate was absent from the county, and yet in spite of this fact, as well as the absence of the lumbermen in the woods and the rush of the smelt fishermen on polling day, which was also the opening day of the season, he managed to win by a comfortable majority over an opponent who claimed to represent a government that had been sustained by much more than a thousand majority in the same county last March.

While Hon. John Morrissey's support of Burchill was no doubt of great assistance to him the fact that Morrissey who for so many years had fought the lumbermen was associated with them in this contest was used especially in Canada. He also spoke of the training required and the opportunities our University afforded. He expressed himself as well pleased with his classes, and hoped that next year would bring increasing numbers to his department. At the conclusion of his speech the students gave three cheers and a "tiger," concluding with the appropriate bid song, "He's a jolly good fellow."

"Alma Mater," was then received with musical honors, and in a fitting style Dr. C. C. Jones, '97, gave a short history of the University of New Brunswick, which every graduate should be proud of. It's beginning was very humble, but now although still small, it can hold its own with any in the Dominion. It is increasing its departments as rapidly as possible, but accommodations for the students are very limited. The speaker hoped that the government would take notice of that fact. He also made a plea to the graduates not to apparently forget so easily their Alma Mater.

Theirault, '09, next proposed a toast to the City of Fredericton, and expressed the gratitude of the students for the genial hospitality always extended to the U. N. B. engineers by the citizens of this city of Fredericton, "Noble Daughter of the Forest." Mayor Chestnut responded and assured the students of the University that the city had only the kindest feelings towards them. The medal given to U. N. B. last year was only a slight token of the appreciation of the good work done "up the hill."

The toast to the "Graduates" was proposed, and answered by K. A. Dunphy, '07, B. Sc. in C. E., and A. K. Grimmer, '04, B. A. I., and both speakers strongly encouraged the further advancement of the U. N. B. Engineering society, and Mr. Grim-

mer suggested the formation of an engineering club in the city.

Toasts to the classes were next in order, and all were ably responded to '09 by C. M. Hoar; '10 by G. F. Baird; '11 by Capt. H. G. Deedes; '12 by F. D. Brown.

After a few selections from a quartette, the toasts to the "Arts Department," was answered by R. L. Sims, Forestry department; by Grimmer, '10, and FitzRandolph, '12; Athletics by J. C. Devor, '10, captain of the football team.

Theirault, '09, then proposed the health of the Ladies, to which Cushinz, '09, Parbitt, '10, Hoyt, '11, and Johnson, '12, made fitting replies. Last but not least came the toast to the Press.

Much of the success of the affair was due to the efficient manner with which Theirault, '09, acted as "toast master, and also to the able management of the senior class, as committee of organization. The evening broke up in the early hours of the morning with Auld Lang Syne, and three ringing cheers for Windsor Hall and the "Rollicking Engineers."

Under the circumstances the news of Mr. Burchill's victory will, no doubt, be very gratifying to him when he learns it tonight, at Buffalo, N. Y., where he expected to be en route to his home in Northumberland whose people for the fifth or sixth time have honored him when ill and absent from home with the highest gift in their power to bestow—the representation of the county.

The following are the returns:

	Lib.	Cons.
Newcastle	172	185
Burchill Swim		
Douglastown	56	55
Oak Point	19	17
Tabusintac	30	69
Derby	77	49
Whitneyville (North Esk.)	28	16
Matchetts (North Esk.)	35	25
Blackville	100	113
Blissfield	24	97
Boiestown (Ludlow)	41	51
Kirks	68	90
Fletts (Nelson)	116	30
Hardwick (Escumiac)	35	43
Bay du Vin	34	51
Rogersville	158	32
Scotts (South Esk.)	39	47
Red Bank (South Esk.)	58	60
Loggieville	59	32
Glengel	336	347
Chatham	11	12
Protectionville	91	71
New Jersey	21	20
Lower Newcastle	1608	1503

One place to hear from. Burchill's majority, 105.

To appreciate the full significance of Mr. Burchill's majority it is necessary to refer to the returns of the general provincial elections of March last. There Hon. Mr. Morrissey, who led the Hazen ticket, was more than 1,300 votes ahead of Murray, the highest man on the then government ticket. Yesterday's polling shows a gain of nearly 1,500. The March returns were:

Morrissey	2,805
Morrison	2,785
Allain	2,747
MacLachlan	2,695
Murray	1,489
Miller	1,468
Winslow	1,465
Anderson	1,406

### BRILLIANT NUPTIALS.

Mr. F. Edward Winslow and Miss Margaret Thompson Joined in Wedlock this Afternoon.

The residence of Senator Thompson, Regent street, was the scene of a happy event at 3.45 o'clock this afternoon, when his youngest daughter, Miss Margaret Archibald, was united in marriage to Mr. Francis Edward Winslow, son of the late Mr. E. Byron Winslow, K. C., secretary of the McFarlane, Neill Manufacturing Company. Rev. J. W. McConnell performed the ceremony in the drawing room in the presence of about thirty-five invited guests, all relatives of the contracting parties. The bridal party stood beneath a beautiful arch of smilax and flowers dotted with bows of white ribbon and banded with potted plants. Miss Lenore Allen was bridesmaid and Mr. J. Alex. Thompson, brother of the bride, discharged the duties of best man.

The bride, who was given in marriage by her father, looked very charming in a costume of filet net over white liberty satin and chiffon, with white tulle veil and orange blossoms, and carrying a bouquet of white roses. She also wore a pearl heart pin which was her present from the bridegroom.

The bridesmaid was very becomingly attired in a pink satin cloth gown, empire style, trimmed with white tulle lace, and she carried a bouquet of pink carnations.

Miss Lillian Snowball, cousin of the bride, presided at the piano, and as the bridal party entered the drawing room played Lohengrin's wedding procession, and at the conclusion of the ceremony she rendered Mendelssohn's wedding march.

After the young couple had been pronounced man and wife, and had received the hearty congratulations of the assembled guests, all repaired to the dining room, where a luncheon was served. The table decorations as well as those in the drawing room were the work of Miss Ada Schlever and were very much admired.

The bride, who is one of Fredericton's most accomplished and lovable young ladies, was the recipient of a large number of useful and costly wedding presents from friends in this city, St. John, Chatham, Sackville and elsewhere. The list included gifts in money, silverware, china, ware, cut glass, etc. The bridegroom's present was a pearl and gold heart pin, and from the employees of the McFarlane, Neill Manufacturing Company she received a Morris chair. Another present much appreciated was a mission clock from the members of her class in the Methodist Sabbath school. The bridegroom's present to the bridesmaid was a silver card case, and to the groomsmen he gave a silk umbrella.

Mr. and Mrs. Winslow will leave by the 5.50 train this evening on a honeymoon trip to Boston and New York to be absent about a fortnight. Upon their return they will reside at Mrs. Robinson's dwelling on George street.

The bride's going away gown was of blue cloth, tailor made, and she will wear a large black hat.

The guests from out of town included Mr. and Mrs. Thomas Bell, G. E. Barbour, Miss Barbour, St. John; Mr. and Mrs. R. A. Snowball, W. B. Snowball, Miss Lillian Snowball, Chatham; J. Walter Black, Sackville.

The numerous friends of the popular young couple will unite heartily with the Herald in wishing them a long and joyous wedded life.

### HIS MOTHER DEAD

Mr. R. T. Mack, the well known druggist, returned last evening from Beaufort, Carleton County, where he went to attend the funeral of his mother, the late Mrs. Elizabeth Mack who died at that place on Saturday. She formerly resided in St. John and was seventy-six years of age. A family of two sons, R. T. Mack of this city and Andrew of Amherst, and one daughter, Mrs. Charles McEwan of Beaufort, survive the deceased.

## ROLLICKING ENGINEERS.

### Boys from College Hill Greatly Enjoyed Themselves at their Annual Banquet.

Last evening the U. N. B. engineers had their ninth annual dinner at Windsor hall.

It was a most successful affair, and "rollicking engineers" indeed were they.

The toast of the evening, "The Engineering Department," was proposed by Professor Stone, honorary president of the Engineers' society, and Dean of the engineering department. Those present, including the guests, numbered upwards of seventy. The catering was of the best, and much credit is due to Mr. Everett, proprietor of Windsor hall.

Professor Stone presided over the affair most satisfactorily. On his right were Dr. C. C. Jones, chancellor of the University of New Brunswick, Professors Stevens, Cartmel and Miller. On his left Mayor Chestnut, City Engineer Grimmer, '04, and Kenneth A. Dunphy, '07, B. Sc. in C. E. All the engineering students and the foresters attended.

After the delicious menu had been participated in, glasses were held up to the "asi to the King, proposed by the president and received with the National Anthem. "The Maple Leaf Forever," greeted "Canada," and Chancellor Jones eulogized in an able manner on the advantages that this fair Dominion of ours offers to the engineer.

Professor Stone proposed the next toast to the "Engineering Department," and in a masterly speech showed the bright future of young civil engineers—Canada in its railroad and canal era. There is already one Canadian complete transcontinental, the Canadian Northern, will soon extend from ocean to ocean, and in a few days a third and national railroad will bind both shores of Canada. The Georgian Bay Canal will bring the European market nearer to the Canadian central commerce. Municipal engineers are wanted all over western and also Eastern Canada. In this wide country of ours the engineer can find employment at home, a privilege which few countries offer to such an extent.

In response Prof. Cartmel spoke briefly on mechanical engineering. He mentioned the new equipment in his department, which will now make it possible for the student to receive a careful and very complete training as an electrical engineer.

Professor Miller, president of the department of forestry, was the next speaker. He was greeted with great applause, which speaks well for his standing with the student body. In the course of his speech he made some remarks on Forestry and its importance as a coming profession, and
