TWELVE YEARS OF LAURIER

E. H. McAlpine Discusses Political Questions in an Able Speech at Waasis Picnic

Points to Canada's Wonderful Growth Under Liberal Rule--Local Government's School Book Farce Denounced.

At the Liberal political picnic at Waasis on Thursday Mr. E. H. McAlpine, K. C., of St. John, followed Col. McLean with a rousing campaigo speech, which was frequently punctured by applause.

He was a native of Queens, he said but since 1876 had made his home in t. John. Col. McLean had modestly told the audience that he was no speaker and then proceeded to treat them to a magnificent address. (Applause) No man had made a greater success of his life in the City of St. John than Col. McLean. He had started out a poor boy and had risen to the front rank in his profession, and it went without saying that the man who had made a success of his own affairs would prove an efficient representative. You send men to Ottawa to get fair play for your constituency. Col. McLean has already secured for you increased wharf and mail facilities. You contribute your share to the public revenues, and are entitled to have some of it back. Mr. Wilmot is a very fine man but he is absolutely without influence with the government at Ottawa. The Liberal government has been in power twelve years and is good for twelve years more. (Applause) It is to your interests to send a man to Ottawa to support the government. The safety of the nation depends upon the various constituencies putting forth their best men for parliament. He had respect for the Conservatives, and was aware of the fact that people could not all see alike, if they did all would fall in love with the same girl. (Laughter.) Twelve years ago the Liberals under Sir Wilfrid Laurier came into power, after eighteen years of Conservative rule. The Conservatives say they ruled the country well, the Liberals say they misruled it. The trade of Canada had increased by $66,000,000 during the eighteen years of Conservative rule, and in the twelve years of Liberal rule it has nereased by $400,000,000. The Conservatives say that the prosperity of the country was not due to act of the government but to providence. The same God was ruling the universe while the Conservatives were in power, but there wgs no prosperiy, so it is quite evident that He used the Conservative party as a medium to punish you and the Liberal party as a medium to bless you.

Mr. McAlpine here proceeded to point out all that the great reforms of history were accomplished by the Liberal party. They broke up the old family compact and gape us responsible government; it was Baldwin and Lafontaine who united the French and English of Upper and Lower Canada. The two great races who inhabit this country must get along peacefully, and Sir Wilfrid Laurier is devoting his time and talents in promoting harmony between them.

Some years ago, said the speaker Sir Wilfrid Laurier and Mr. George E. Foster were among the speakers at a board of Trade meeting in Toronto. Mr. Foster was armed with something like three trunks full of bluebooks from which he quoted figures to show that Canada was prosperous. What did Sir Wilfrid Laurier say on that occasion. He told the people to put the Liberals in power and it would not be necessary to quote statistics to prove that the country was prosuerous as they would feel the jingle of it in their pockets. Has not that prediction come true? (Applause) Faster and other Tory leaders are going about the country telling the people that taxation has been doubled. True the revenue is greater now than when the Tories ruled the country, but that does not prove that taxation has been increased. The government now derives a revenue of $6,000,000 a year from the sale of postage stamps whereas under Toru rule it was only $3,000,000 yet the government has not doubled the rate of postage but has actually reduced it from three to two cents. The same rule applies to customs duties. The revenue from this source has increased because the people are more prosperous and are paying more. In 1896 the customs tariff was $18.26 on every $100 worth of goods imported and it is now $15.73 a reduction of $2.53 or fourteen per cent. Instead of taxes being doubled by the Liberals they have actually reduced them. The products of the farm have greatly increased in value during the past few years and it is a recognized fact that that means times are good and people buy more. They can afford to buy beeter clothes, they can live in better houses, and feel the truth of Holy writ: "Behold that the kingdom of heaven is within you."

TRANSPORTATION QUESTION.

Continuing Mr. McAlpioe declared that transportation was one of the great difficulties that confronted Canada today. We have got to build up our country against nature. The C. P. R., the greatest railway in the world, has been in operation twenty-two years yet last year one third of Canada's grain found an outlet through American ports. Sir Wilfrid Laurier and his government are exerting every effort to change this state of affairs and have every pound af Canadian freight shipped through Canadian ports. In the old days of Sir Leonard Tilley they used to refer to St. John as the Liverpool af America, and although great hopes were held out for that port, nothing tangible was accomplished until twelve years ago when Sir Wilfrid Laurier came into power. Under Conservative rule outward freight found its way through American ports, and no Transatlantic liners came to St. John. Today it is the terminus of magnificent steamers all the year round. Mr. Foster had a splendid opportunity to build up the port of St. John, but what was accomplished in his day. The trouble is with Foster he is an icefcle, he is cold blooded and there is no generosity in his nature. (Laughter). In order to be prosperous the people of Sunbury must have a market for their produce, and nothing could be of greater benefit to them than a great city at the mouth of the noble St. John. In the dark days ar Tory the people of St. John had the blues, and could see no hope in the future. A delegation of leading business men, men who paid the bulk of the taxces, and had supported the Conservative party waited upon Foster at the Royal Hotel and talked over the situation with them. He had not even the decency to offer them a chair and they went away disgusted and have not supported him since. Mr. Foster could nave done as much for St. John as Mr. Blair, but he had no feeling in the matter and allowed things to drift. Mr. Blair provided wharves and elevators and gave the people hope and courage.

LAURIER'S GREAT WORK.

Sir Wilfrid Laurier settled the Manitoba School question at a time when the country was on the verge of civil war. He had promised if returned to power to settle it within six months and settle it he did. What does it matter what a man's religion may be, it is all the result of accident. One man has as good a right to worship God as another at his own altar and his own shrine. The man who taunt the Liberal party because it is led by a Catholic followed the leadership of Sir John Thompson, a man who left the Methodist church and became a Catholic. It is hypocrisy pure and simple for Tory agitators to go on the way they do. He (McAlpine) had attended the big Liberal picnic at Rothesay on Wednesday, and had listened to an eloquent speech from Mr. Charles Marcil, the deputy speaker of the House of Commons. He stated that he had watched the course of the Minister of Public Works in Parliament, had watched the efforts of the Tories to trip him up, but they had been una-

(Continued on fifth page)

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 18 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonals.

Address: D. J. CHENEY & Co., Toledo, Ohio.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

LOOK AHEAD FOR ILLNESS.

Sudden illness and pains come in every family—to parents and children alike. But if you have looked ahead, and have right in your home, ready for immediate use a bottle of Polson's Nerviline—there isn't much to worry over. If it's a sore throat or put on a Nerviline Porous Plaster. contracted chest, apply Nerviline and If it's colic, cramps, or any stomach disorder, just administer ten drops of Nerviline in hot water. No family medicines are more useful or more depended upon in emergencies than Nerviline and Nerviline Porous Plasters. They keep the doctor bill small. 25c each at all dealers. Refuse substitutes.

Necessary Sacrifice.

"I don't see," remarked Miss Gaddie, "why she should go and marry that old man for his money."

"Why," asked Miss Gidday, "how else could she get it?"—Philadelphia Press.

Taking Advantage of the Truce.

He—Well, my dear, if we have to play bridge together, let us promise not to say an unkind word about each other's play.

She—Very well. Then I'll declare a no trumper as often as I please.

Whereupon the husband faintly groans and turns away.—Cleveland Plain Dealer.

Wisdom.

There was a man in our town,
And he was wondrous wise.
Instead of wearing shoes too small,
He wore a larger size.

P. S.—A zealous effort was made to substitute "woman" for "man" in the first line of this stanza, but it wouldn't fit. The poetic foot will not go into a place too small for it.—Lippincott's Magazine.

Big Sister's Bow.

A little four-year-old girl while calling on a neighbor was asked, "Is Mr. Hutchingson your sister's beau?" She did not make any reply, but on arriving home she ran to her sister and eagerly inquired, "Eva, is Mr. Hutchingson your ribbon?"

Education Incomplete.

The fellow who brags of his college
And all his great learning's a bore.
The man who is "proud of his knowledge"
Is badly in need of some more.
—Pittsburg Post.

When a boy turns his pocket inside out we marvel at the quantity and variety of articles he has stowed away. Odd lengths of string, marbles a horse-chestnut, a top, brass nails, hickory nuts, an apple and many more articles are garnered by this "snapper up of unconsidered trifles!" We think the collection must be hard on a boys pocket. And it is. But do we ever think of the variety and miscellany of the substances we put into the pocket of our stomachs? There' the apple and the nuts, and things beSides quite as indigestible as brass nails and with no more food value than so many marbles. And yet we wonder that the stomach "gives out." When the stomach breaks down under the strain of careless eating and irregular meals it can be perfectly and permanently restored to health and strength by the use of Doctor Pierce Golden Medical Discovery. The action of this medicine on the stomach and other organs of digestion and nutrition is so marked, that relief from disease is at once experienced, and the headaches, liver "troubles," kidey disorders, skin eruptions and other symptoms of a diseased stomach are quickly cured. Dr. Pierce's medicines are purely vegetable—no alcohol or habit-forming drugs enter into their composition.
