Open Publicity

Insures a fair, square and honest deal. It characterises the policy of Dr. Pierce as relates to the composition of his time-proven and most popular medicines. Their ingredients are on each bottle-wrapper, attested under oath and printed in plain English. Dr. Pierce's Favorite Prescription is the only medicine designed for the cure of woman's peculiar ailments and sold by druggists, the makers of which publish on each bottle-wrapper what the medicine contains.

Dr. Pierce's Favorite Prescription contains no alcohol, and no narcotics or other harmful or habit-forming drugs, as will be seen from its published ingredients. It contains only such native, medicinal roots as are most highly recommended by leading medical writers and practitioners of all the several schools of practice, for the cure of woman's delicate and peculiar ailments. It is safe for women to take in any condition of the system, as it assists Nature in restoring the healthful action of all the organs distinctly feminine.

Nature's own cure. In fact, "Favorite Prescription" is Nature's own cure for the many derangements and weaknesses peculiar to women. It is advised for no other diseases.

If you are a weak, tired, nervous, over-worked, broken-down, pain-racked woman, either young, old or middle-aged, suffering from frequent headaches, backaches, dizziness or fainting spells, gnawing or distressed feeling in stomach, perhaps see imaginary specks, or dark spots floating before the eyes, have dragging-down or heavy feeling in lower abdomen, or pelvic region, with, perhaps, pelvic catarrh, or other symptoms of functional or organic affections of the distinctly feminine organs, then you will make no mistake if you resort to the use of Dr. Pierce's Favorite Prescription. The most advanced medical science knows no better agents for the cure of all such diseases than are happily and harmoniously combined in this widely-famed "Prescription" of Dr. Pierce.

You can't afford to accept any secret nostrum of unknown composition and of questionable merit as a substitute for this professionally endorsed and time-tested remedy of known composition, simply that some unprincipled dealer may make a little larger profit. Don't expect to be reformed, but give it a fair, persevering trial and it is not likely to disappoint you. It won't "dissolve tumors"—no medicine will. It will cure a larger percentage of all curable ailments which especially afflict womanhood than any other medicine sold by druggists for that purpose.

As to Dr. Pierce's Golden Medical Discovery it has a very large range of application, yet it is by no means recommended as a "Cure-All." It possesses marvelous alternative, or blood cleansing, properties and is at the same time a most invigorating tonic, or strength giver. It exerts a specific, cleansing, soothing and healing effect upon all the lining mucous membranes of the system; hence, its great curative value in all catarrhal affections, no matter where located.

In Chronic Nasal Catarrh, it is well to cleanse the passages two or three times a day with Dr. Sage's Catarrh Remedy fluid, while persisting in the use of the "Golden Medical Discovery"

for its blood cleansing and specific curative effects upon the diseased mucous membranes. It will cure a very large per cent. of all cases, even after they have reached the ulcerative, or chronic stage, and no matter how many years' standing they may be. It is equally efficacious in affections of the mucous lining of the larynx, bronchia and respiratory organs in general, thus curing bronchitis, laryngitis and other affections giving rise to obstinate, hang-on-coughs. It is not so good in acute coughs following sudden colds, as in the lingering, chronic coughs. Nor must the "Golden Medical Discovery" be expected to work miracles. It will not cure consumption in its advanced stages—no medicine will do that, but for all obstinate hang-on-coughs due to laryngeal or bronchial irritation and kindred affections, of the throat which, if neglected or badly treated, are likely to lead up to consumption, the "Discovery" can be relied upon to produce the best curative results.

The "Golden Medical Discovery" is, from its tonic and specific curative control over mucous surfaces, especially efficacious in curing indigestion, dyspepsia, weak stomach and "Liver Complaint," or biliousness. Even ulceration of the stomach and bowels has in thousands of cases been cured by it; also obstinate chronic diarrhoea.

In addition to all the foregoing, not the least valuable of the marvelously efficacious properties possessed by the "Discovery" is the unequalled regulating and strengthening effect exerted by it over the heart's action. It has made some wonderful cures of very pronounced valvular and other affections of that organ.

The reason why "Golden Medical Discovery" cures so wide a range of diseases is made plain in a booklet sent free on request mailed to Dr. R. V. Pierce, Buffalo, N. Y. If interested, send for it.

The powerful alternative or blood purifying properties possessed by the "Discovery" will naturally suggest its use for the cure of blotches, pimples, eruptions; as eczema, salt-rheum, and other skin affections in all of which it has made remarkable cures; also in scrofulous sores and old, open ulcers, or eating sores. To heal the latter, use Dr. Pierce's All-Healing Salve as a local application, while taking the "Golden Medical Discovery" to correct the blood, and cleanse the system. A box will be mailed to any address on receipt of fifty-four cents in stamps. If your druggist don't have it in stock, address Dr. Pierce, as above.

Dr. Pierce's Pleasant Pellets are the original Little Liver Pills, first put up by old Dr. Pierce over 40 years ago. Much imitated, but never equalled. Easy to take as candy.

DUBLIN ROBBERY NOT YET SOLVED.

High Titles and Well-Known Men Said to be Implicated—Efforts to Hush up Affairs.

LONDON, January 22.—A despatch from Dublin says that the promised sensational scandal concerning the disappearance of the Dublin castle jewels has to all intents and purposes materialized, since a well-known name is on almost every lip there as the person who removed the jewels through motives of revenge toward Sir Arthur Vicars or other person or persons. The excitement is at fever heat and every effort is being made to counteract the plans for a vote of censure in Parliament and consequent Cabinet crisis.

The first theory, that the regalia was stolen, was quickly broken up and disposed of. It seems to be dissipated, the belief being that the jewels are now held by certain persons and that with due vigilance they may be recovered after the miscreants find their object frustrated. Doubts were first cast on Vicar's action in refusing to testify before the Vice-Regal commission of investigation. Now there is growing a general feeling of admiration for him, and his course generally is thought to have been vindicated by events. The purpose of the abstraction was to have Vicars removed from his job. The ramifications of the political vendetta will, it is freely said, reveal high titles and well-known men, if efforts to hush up the affair are not successful.

A pleasant household deodorizer is made by poucing spirits of lavender over lumps of bicarbonate of soda.

MUNICIPAL COUNCIL

Resolution of Condolence on Death of Mr. Grosvenor—Deputy Secretary-Treasurer Receives Increased Salary—Other Business of the Evening Session

THURSDAY AFTERNOON.

Coun. Goodspeed at the request of Coun. Carr, moved the following resolution:

"Whereas, It hath pleased Almighty God in His Divine wisdom to remove from our midst Hedley F. Grosvenor, lately an honored member and warden of the municipality of the county of York;

"And Whereas, We feel a deep sense of the loss sustained, not only by this county, but by the province, in the death of one in the very prime of his manhood, but who had already given unmistakable evidence of those intellectual qualities that marked him as a clear headed and able public man, as well as those fine qualities of heart that endeared him to all who knew him.

Therefore Resolved, That this county council of the county of York place on record this evidence of the loss which we have sustained, and that we express to his widow and mother our deepest sympathy in their bereavement that they have been called upon to bear."

Coun. Grant spoke feelingly of the late Coun. Grosvenor, who had been a member of the board for eight years. He had much satisfaction in seconding the resolution. Mr. Grosvenor's death occasioned very great sorrow, and there was no doubt that he was very generally beloved by the people of his parish. In Mr. Grosvenor's death they had lost one of the most promising young men in the parish and he (Grant) had lost a warm personal friend.

The resolution was then put and carried by a unanimous vote.

COUNTY OFFICERS' SALARIES.

On motion of Coun. Timmins it was decided that in future the salaries of county officials be paid monthly instead of quarterly.

Coun. Hinchey thought the salary of the deputy secretary should be increased.

Coun. Goodspeed moved that the salary of the secretary-treasurer and auditor be the same as last year. This was seconded by Coun. Grant, and carried.

Coun. Goodspeed moved that the salary of the deputy secretary-treasurer be \$300, an increase of \$200.

Coun. Goodspeed said that he had been impressed with the large amount of work that had to be done in the secretary-treasurer's office. It was impossible for one person to do the work, and if a deputy was needed the county should pay for her services. He thought that the county should pay its officers liberally.

Coun. Graham moved that the salary of the deputy be the same as last year, but this was not seconded.

Coun. Hinchey moved, seconded by Coun. Brewer, that the salary be \$200.

Mr. Bliss said that a large amount of work had to be done in the secretary-treasurer's office. If the assessors and other officials thoroughly understood their duties, it would be much easier for the secretary-treasurer. He recited a number of instances where it had been found necessary to correct errors made by secretaries of school districts. To get these straightened out involved an enormous amount of correspondence.

County officers, as a rule, did their best, but were hampered by lack of experience, and this of course made extra work for the secretary-treasurer. More than one-half of the returns sent in by the collectors have to be remade by the officials of the office. If they discharge only the duties put on them by officials of the council, the work of the county would be completely tied up. There was no doubt that the work of the office was increasing year by year. The salary of the secretary-treasurer in 1869 was \$400, and it still remains at that figure.

Warden McNally briefly testified to the valuable services rendered the county by the deputy secretary-treasurer.

Coun. Hinchey gallantly offered to withdraw his amendment.

The amendment was lost by a vote of ten to 14, and the original motion was carried by the same vote reversed.

Mr. Bliss, on behalf of Miss Jackson, heartily thanked the council for their generosity.

The reporters were voted the same allowance as last January, and the usual fee was voted the warden and constable.

It was ordered that copies of the telephone resolution be forwarded to the municipalities' union.

Coun. Goodspeed thought that the government should be asked to contribute a fair portion of the cost of the David murder trial. He pointed out that all the parties were non-residents, and it was only an accident that it had occurred in this county.

Mr. Bliss thought it desirable that a committee be appointed to wait upon the government in regard to the matter.

A resolution embodying Mr. Bliss' suggestion was moved by Coun. Goodspeed and adopted.

Mr. Amasa Dunphy was granted a license to operate a ferry at Kings-clear.

Coun. Goodspeed thought that a new committee should be appointed to continue the negotiations with the city for better terms on account of the administration of justice. He said that the committee appointed at the July session had met a committee from the city, and had talked the matter over. There had been an adjournment made, however, with

the object of securing more information. He thought the city should pay at least half the cost.

A motion by Coun. Goodspeed that a committee be appointed was adopted.

Coun. Goodspeed thought that if the city should agree to pay half the cost of administration of justice, the county should be willing to let the city appoint a member of the county buildings' committee.

On his motion the committee were authorized to make that offer.

Mr. Bliss explained that pressure of work made it impossible for him to give the attention to his duties as a Victoria hospital trustee, that its importance demanded, and he suggested that the warden be appointed in his stead.

The suggestion was readily acted upon, and the warden was appointed on motion of Coun. McMullin.

BOARD OF HEALTH.

Coun. Hinchey remarked that there had always been trouble over the Board of Health, and he thought it was time that the council appointed the entire board.

Coun. Robison said that the Board of Health had been voted \$1100 last year, but had submitted no report as to the manner in which it had been spent. The chairman claimed that Mr. G. J. Colter had not attended meetings, and therefore he had not his vouchers ready. Nothing could be done until the board held a meeting.

The warden said that Mr. Colter had handed in some accounts, but the chairman said that the list was incomplete.

Coun. Goodspeed said that the council appointed two out of three members of the board, and therefore controlled the expenditure. Last year the council voted \$1100 for Board of Health purposes, and it was not paid to Chairman McElman, but to the treasurer, Mr. Geo. J. Colter, a gentleman in whom all had confidence. He was satisfied that every dollar of the money would be accounted for. As the government paid one-half of the expenses in small-pox cases, it was no more than right that they should be represented on the board.

To Coun. Akerley the secretary-treasurer said that members of the Board were not appointed annually.

The warden appointed the following standing committees:

Public Buildings—Haining, Goodspeed, Rogers and the warden.

Printing—Pond, Everett, and the warden.

Administration of Justice—Goodspeed, Rogers, Everett and the warden.

A hearty vote of thanks to the warden for his impartial and dignified manner in which he had presided over the session of the council, was adopted on motion of Coun. Hinchey, seconded by Coun. Akerley. It was followed by three rousing cheers for the warden.

Coun. Rogers reintroduced his resolution in regard to the payment of accounts, but finally consented to allow it to stand until July.

A motion that the building committee also act as a finance committee was adopted.

Coun. Goodspeed thought the council should have an executive committee to deal with important matters that might arise during the recess.

Coun. Robison moved that the building committee act as an executive and this was adopted.

On motion of Coun. Timmins the council adjourned sine die.

Before scattering the members joined in singing the National Anthem.

SLEEPLESS BABIES AND SICKLY BABIES.

Well babies sleep soundly and wake up brightly. When little ones are restless, sleepless and cross it is the surest sign that they are not well. Probably the stomach or bowels is out of order, or it may be teething troubles. Give Baby's Own Tablets and see how quickly the child grows well and happy and sleeps soundly and naturally. Not the drugged sleep of "soothing" medicines, but the natural sleep of health. You have the guarantee of a government analyst that this medicine contains no poisonous opiate or narcotic, and you can give the Tablets just as safely to a new born babe as to the well grown child. Sold by all medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brickville, Ont.

Some men are born afraid of women—they are bachelors; some have the fear of women thrust upon them—they are married.

OUTH'S VITALITY SAPPED AWAY.

Your child looks poorly, is tired and fretful. You would like this boy or girl to be more robust, more energetic and vivacious. The "something" that is wrong is simply this. Stomach and bowels needs attention. Constipation and indigestion must be relieved, new life and vigor are required in the blood, slight assistance is needed for the kidneys and liver. Nothing is so effective as Dr. Hamilton's Pills. They put new life into young folks as well as the old ones. Every child should use this medicine regularly because its benefits are not to be had in any other way. 25c. at all dealers.
