FARRELL BROS

BRANCH RAILWAYS

Much Valuable Information in the Report of
Commissioners Brown and Burns

Most of the Lines are in good Condition and are more
than Paying their Way

Messrs. T. M. Burns and Gilmour is no ballast to be obtained. On Brown, commissioners to examine and report on branch railways of the province, have finished their work and their report is in the hands of the local government. It is a document consisting of seven typewritten pages and contains a lot of valuable information. It gives a summary of the amount of capital invested, increase in volume of traffic, and gross earnings from 1901 to 1906, and a comparison of operating expenses and net earnings from 1901 to 1906.

There are nine branch lines in New Brunswick tapping the Intercolonial as follows:

Name	Miles
Caraquet & Gulf Shore	84
Kent Northern	27
Beersville	6-10
Moncton & Buctouche	32
N. B. & P. E. I.	36
Salisbury & Harvey	45
Elgin & Havelock	28
St. Martins	30
York & Carleton	12

The report states that the commissioners travelled over each of these lines and carefully inspected bridges, rolling stock, buildings, etc. In general, they found that the properties have been materially improved during recent years, although there is room for further improvement. Wooden bridges and trestles are the curse of most branch lines, there being a great many of these structures which are a source of annoyance, expense and danger. The Kent Northern, Beersville and York and Carleton Railways have no bridges, and in the case of the Kent Northern this contributes most to its excellent financial showing. Many of the bridges are nearly worn out and will have to be rebuilt. The lines, with the exception of the Kent Northern, are poorly equipped with snow fighting apparatus, which hampers them during the winter months. The lack of ballast on all the branches is deplored by the commissioners, and in the case of the Kent Northern, it is inexcusable, as that road sells ballast to the I. C. R.

On the Moncton & Buctouche there a long haul for this traffic, we begin

to realize the value of the business that these branch lines as feeders give to the I. C. R.

Apart from their value to the Intercolonial as feeders, these lines of railway have been of incalculable benefit to the localities which they serve and to the province at large. What the country would do without them is best illustrated by the consternation that prevails when one of them closes down for a day or two.

Their successful operation is of great benefit to the province and any money which has been put into them by the government in the way of subsidies has been much more than repaid in increased value of property in the districts which they serve, and the increased business and prosperity of the country at large, is due in a great measure to their existence."

THE DEAF MADE TO HEAR

You know heart fluttering means you're not as well as you should be. It's an evidence of impaired nerve and muscular power. To obtain energy Ferrozene; it has a special action on the heart as seen in the case of Thos. Grover of Cole Harbor, N. S., who says: "If I exerted myself it would bring palpitation. To carry any heavy weight or go quickly upstairs completely knocked me out. When bad attacks came on I lived in fear of sudden death. Ferrozene gave my heart the very assistance it needed, and now I am quite well." For heart or nerves it's hard to excel Ferrozene, 50c. per box at all dealers.

The only country in the world where the fashions in women's dress do not change is Japan.

Skate

Grinding

We make a specialty of grinding Skates. We also repair Skates and put them on your Boots.

Fruit or rust stains on table linen or other white cloths may be removed by soaking in a weak solution of oxalic acid.

Cure That Cough!

YOU CAN DO IT BY USING

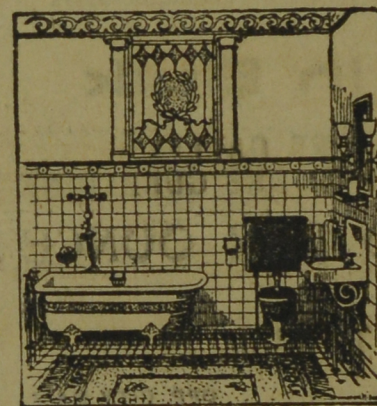

**Dr. Wood's
Norway Pine Syrup.**

The Most Perfect Throat and Lung
Healer in the World. : : : :

Dr. Wood's Norway Pine Syrup gives prompt relief from that checked up, stuffed up feeling which is so distressing, it loosens the phlegm, checks the rasping and useless cough, and heals and soothes the irritated breathing organs. It is a pleasant preparation to take and is therefore specially adapted to the coughs and colds of children and those who dislike nauseous mixtures.

This is no vain boast, but a fact that can be backed by unimpeachable testimony. One 25 cent bottle, indeed, a trial dose, will prove its merits.

Mr. Frank K. Purdie, Brandon, Man., writes: "I have used your Dr. Wood's Norway Pine Syrup for some years and have always found it a sure remedy for all colds, coughs, sore throat, hoarseness, etc. I cannot too highly recommend it to anyone suffering from any effect of cold."

A SOURCE

OF COMFORT

A neat, well equipped lavatory is, without a question, a source of comfort to a household. It's one to us to install such a convenience in your home—an aid to the toilet, you'd never abandon after once experiencing its manifold advantages. Where there's running water you need not services.
