OTTAWA, Mar. 17.—Dr. Sproule told the house yesterday on a question of privilege that he had not told Orangemen at Mount Forest this year there were too many Roman Catholic pages and messengers in the senate. The figures he gave covered both branches of parliament.

Mr. Blaine moved the anti-cigarette resolution demanding that the manufacture, importation and sale of cigarettes should be prohibited in Canada. He stated the consumption was growing—having been eighty-five millions in 1896, and ten years later, in 1906, the number had increased to a consumption of 277,000,000. The increase still continued, as in the nine months forming the fiscal period the consumption totalled 275,000,000 cigarettes. The only effective way of dealing with the evil, and he claimed it was an evil, was by a Dominion Act. The youth of Canada, he believed, was responsible for the increased consumption to their physical, mental and moral hurt. Provincial legislation had been tried without result.

Mr. Brodeur asked if the province of Ontario had instituted prosecutions to give effect to their anti-cigarette legislation.

Mr. Blaine could not say that there had been.

Dr. Sproule thought the government should bring in a bill to give effect to the resolution, which should carry, and this view was supported by Mr. Henderson.

Mr. Clark, Essex, maintained it was within the province of a private member to bring in a bill. He thought it would be better for fathers to set their boys an example by refraining from the use of tobacco, instead of legislating to keep tobacco from them.

Hon. Mr. Fisher said he was in favor of any legislation that would minimize the evil, which there seemed to be no doubt the cigarette was responsible for. The hon. gentleman from Peel seemed to regard it as the duty of the government to bring the matter up in a concrete form, forgetting it was just as competent for him to bring in a bill as it was for any other member. But he quite frankly regretted that no great step in advance had been taken by the house. For himself he would go as far as his hon. friend would. Doubtless, however, there were members of the house on both sides who were not prepared to go that far. It was after all, he thought, a matter on which the legislation could not make much of an impression. Practices and habits could hardly be regulated by law. He drew attention to the fact there had been on the statutes of Ontario for years a law prohibiting the sale of cigarettes to persons under 16, but as far as he could find out it was a dead letter.

Mr. MacPherson moved the adjournment of the debate. This was carried by 61 to 51. Liftin, Liberal, voted against it.

FROM COLLEGE HILL.

Mock Parliament successfully opened—Junior Co-Eds entertained on Saturday.

On Saturday afternoon the young ladies of the junior class entertained a large number of friends at five o'clock tea in the university. Miss Lillian Smith and Mrs. Jones received the guests in the Y. M. C. A. parlour. The lunch was excellent and did much credit to the young ladies of the class of '09 as very successful entertainers.

Mock Parliament opened on Saturday evening with the usual ceremonies. Co. Gilchrist commanded the Guard of Honor, Mr. Bridges, as Governor General, was very successful.

MR. LEMIEUX THANKED.

Postmasters Appreciate Increase of Pay.

OTTAWA, March 16—Members of the Central Committee of the Canadian Postmaster's Association, now in session in Ottawa, waited on Hon. Randolph Lemieux, Postmaster-General, this afternoon, and presented him with an address declaring on behalf of the postmasters of the Dominion hearty appreciation of the generous and businesslike treatment accorded them by the present Postmaster-General. "We appreciate," says the address, "the increase in pay granted as being the most sweeping change made since the present system was established at the time of confederation."

The committee urged that recent changes in the method of remunerating postmasters for handling money orders was working to the detriment of many postmasters, especially those who have to issue orders for settlers of foreign extraction.

Hon. Mr. Lemieux thanked the committee for the kindly wording of the address, and promised to do all he could to remedy any grievances of the postmasters still existing.

TO PRESERVE THE FORESTS.

OTTAWA, March 12.—Senator Baird has given notice that he will move the following resolution in the Senate on March 24:—"That in the opinion of the Senate it is advisable that a commission be appointed, consisting of representatives from the different legislatures of the several provinces, together with such other persons as may have the management of the Crown lands of Canada with power to report on the best means to adopt for the preservation of our forests in the best interests of Canada, in view of the large amount of logs and pulpwood that are annually exported from Canada."

This is in line with the recent suggestion of the Premier of Quebec.
