

CLASS PROPHECY.

(Continued from Second Page.)

Miss Marguerite Smith at first showed a great deal of interest in missionary work, but then there came a sudden change, and her interests became centred in military affairs, and soon the senior class had one of its members settled in India, as the wife of a noble colonel.

The remains of Miss Bertha McManus, a former employee of Street and Walker, and an occasional student at the Provincial Normal school was interred at Cocagne Settlement with great pomp, but strange to say, the world went on just the same without her.

Miss Hannington, Miss Hennessey and Miss Brown became skilled teachers and were so devoted to their work they had time to consider nothing else and were accordingly regarded by the Pension Fund, at good and faithful servants.

Miss Lachary became famous as a journalist and was known as the eighth wonder of the world. She always held her exalted opinion of the Bachelor Girl and wrote many articles on the privilege of being such. She was joined in this work by yours truly—who had met with success in the field of Domestic Science and who on every possible occasion aided Miss Lachary by saying, "you can never trust a man for he usually says one thing and means another."

Miss Raymond who was a brilliant student in mathematics while at Normal school later pursued this study at Edinburgh and is now Headmistress and Mathematical Instructor in an institution at Centreville, Carleton County, founded by the Hon. Frederick Long who was elected member of parliament in 1918 representing the constituencies of Burr's Corner and Hoyt Station. He then fulfilled a promise made while attending Normal School, that he would always be interested in any work undertaken by Miss Raymond.

Mr. Nason studied for the ministry and became a famous orator. He was said to be the kind of speaker that could hypnotize an audience and his favorite text was "Early marriage."

Mr. McPhail, weary of teaching in Albert County settled down as assistant instructor in Literature in the Provincial Normal School. He was ere long elected to the responsible position of alderman for the ward of Wilnot Park. His first bill laid before the city council was entitled—a bill to provide for repairing the sidewalks of the city from Brunswick Street to Aberdeen Street by way of Northumberland Street. Several years had not kept him from remembering his old Normal days.

Mr. Rice, (along with the work of teaching) began some work along the lines of chemical research. He gave however, when asked, at what angle a ray of Normal (ite) Light reflected and wished to know if a harder problem had ever been given. Oh, yes, was the reply a much harder problem was given to the student who attempted to find a history for Class A 1.

The darkness of evening then hid the Genius from my view and I in deep meditation wended my way home.

CHILDHOOD DANGERS.

No symptom that indicates any of the ailments of childhood should be allowed to pass without prompt attention. The little ailments may soon become a serious one, and perhaps a little life passes out. If Baby's Own Tablets are kept in the house minor troubles can be promptly cured and serious ailments thus averted. And the Tablets can be given with equal safety to the newborn babe or the well grown child. Mrs. H. Gendron, Martinville, Que., says:—"I have used Baby's Own Tablets and have found them in every way satisfactory. I always feel safe when I have them at hand." Sold by medicine dealers or by mail at 26c a box from the Dr. Williams' Medicine Co., Brockville, Ont.

Office Boy—What am I fired for? Employer—For constantly smoking cigarettes. You have heard, haven't you, that where there is so much smoke there must be some fire?—Bohemian.

The reputation of the Gourlay piano has been gained by careful conscientious effort to produce the highest type of instrument made in Canada, and the result has been a piano that now enjoys a noted character for its fine, singing tone, artistic appearance and remarkable resistance to climatic changes.

PUGSLEY THE MARK

Tories Straining Every Point to Make Capital Against Him.

(St. Andrew's Beacon.)

The public has probably noticed the persistency with which the local government has been pursuing Hon. Mr. Pugsley. There has been little or no criticism of other ex-premiers or members of former governments; nothing about Mr. Robinson, or Mr. Tweedie, or Mr. Emmerson—all the attack, all the censure, all the blame have been laid at the door of Mr. Pugsley. It does not need a great deal of shrewdness to see a reason for this. Mr. Pugsley is the Minister for New Brunswick in the federal government, and if his personal and political character can be besmirched or destroyed it will make it all the easier for the Conservatives to win out in a Dominion election. Now doesn't this species of warfare look a little bit contemptible. Yet it is a piece with the slander methods that are being employed by the leaders of the Conservative party throughout the Dominion. We shudder to think of what might happen if the Liberals had told all they knew of the personal character and acts of past Conservative leaders, or if they unbosomed themselves with respect to some of the present leaders.

Spring Tiredness Cured By Harmless Remedy.

Many are Using it and Receiving Benefit from Its Strength-giving Power.

All winter long you worked hard. This took lots of nerve force. It lasted so far, but now it's all gone and you feel half dead.

Somehow you must get new vitality and more nerve force. The water in your blood must be turned into strength and building material. Your fretful appetite must be braced up. Some new power must be imparted to your weak body.

This is just what happens in using Ferrozone, which is an instant blood maker, blood-enricher and nerve builder.

Ferrozone not only creates keen appetite, it goes further, improves digestion and assimilation, so that every particle of food is converted into nerve and muscle fibres.

By building up new nerve force and making each organ do the work that nature expects of it, Ferrozone quickly increases your weight and instils a reserve of vigor into the system that defies weariness, exhaustion, spring debility or sickness of any kind.

To prove the enormous strengthening power of Ferrozone we quote the following letter from Mrs. Cecil P. Gormally, well known in Mid-dlebury, "Last March I was very run down and thin. I had no appetite and scarcely felt like eating at all. My face was pallid and haggard, and I had dark circles under my eyes. My weight was seven pounds under normal, and day by day that awful spring weariness dragged me down. The change Ferrozone wrought was surprising. It must certainly contain wonderful building and strengthening properties because I gained strength, flesh and appetite from the day I started it. I speedily came back to vigorous buoyant health with Ferrozone and recommended it as the best medicine any person in weak health can take."

Ferrozone strengthens the weak, restores the anaemic, soothes the nervous, assists men, women and children to better health. Try it, 50c per box, or six boxes for \$2.50, at all dealers.

IT MADE A DIFFERENCE.

How the Colonel Came to Make a Speech at Cut Rates.

"Well, gentlemen, what can I do for you today?" queried the colonel as he entered his office after a brief absence and found three farmer looking men in possession.

"We are a committee from the cotton fair," explained one, "and we want to see about the address. You make 'em don't you?"

"Oh, certainly?"

"What's your finger?"

"I delivered two county fair addresses last fall and received \$50 each."

"Um! Too high."

"There was no fault found with my prices last year. It takes time to prepare one, you know, and then I must journey down and deliver it. The figure I named is a very reasonable one."

"Look here, colonel," said the chairman of the committee after considering a bit, "have you got one of your old addresses on hand?"

"I believe so."

"And can't you put 'er in for twenty-five?"

"But some one might get on to it."

"We'll take all the chances of that. All the people who will listen to you will be old Mrs. Cosely, who is as deaf as a post, and old Jim Shaw, who will take it for a Fourth of July oration anyhow, and you won't run the slightest risk. Won't this make a difference in your fingers?"

The colonel blushed and stammered and said he thought it would, and when the committee left they had his receipt for \$30, and he agreed to be on time.—Chicago News.

Only the choicest selected hill-grown tea leaves are used in "Sala-da" Tea giving it a delicate fragrance and delicious flavor.

Happy Decembers and Mays.

The marriage of May and December has passed into a proverb. In point of fact, these unequal unions have often proved most successful.

The wedding of the late Marquis of Donegall, at the age of 80, made an event of December, 1902. He married a young and charming Nova Scotia girl, Miss Violet Twining, and, in less than a year, a son and heir was born to the happy couple. This boy who is the present marquis, recently celebrated his third birthday.

The late Duke of Argyll married at the advanced age of 72, and his bride was the Hon. Ina Maxwell, a lady of the court of Queen Victoria.

The late Sir Charles Tennant took a second wife when he had passed his seventy-second birthday, and a child was born to him when he was 80 years old. There was a touch of romance in this marriage, as Sir Charles had become a keen golf player, and first met his future wife—then Miss Marguerite Miles—on the golf links at Biarritz.

The Earl of Wemyss holds pride of place among living instances of ancient bridegrooms. He was born in 1818, and when about 82 took as his second wife the handsome dark-haired Miss Grace Blackburn. This union has proved an ideal one; husband and wife are deeply devoted to each other, and the story goes that at the time of the marriage the new Lady Wemyss would allow no jointure to be put on the estate on her behalf.

Vaporized Gold.

When gold is vaporized it is deposited in the condensing tube in the shape of a powder of brilliant purplish hue.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by druggists. Price 75c. per bottle. Take Hall's Family Pills for constipation.

Dangers of the Revenue Service.
The officers of the internal revenue service make little fuss over their accomplishments. The world scarcely hears of them unless they have had a desperate hand to hand fight with mountain desperadoes which has resulted in the death of several of their number. But day after day and night after night they go about their work calmly, quietly, in constant danger of death from a shot from some ambushed moonshiner or blockader. Yet these men are an absolute necessity for the safeguarding of the country's interests, and they deserve much credit for their hard task, scarcely appreciated by the great mass of the people.—David A. Gates in Metropolitan Magazine.

When the Wire Tires.
"Messagers," said a telegraph operator, "always slide over the wires better on Monday than on any other day. The wires, you see, have profited by their Sunday rest. It is a fact that inanimate as well as animate things get tired and need a vacation occasionally. You know how true this is of razors, of automobiles, of locomotives, and it is just as true of telegraph wires. A wire after its Sunday rest gives a quicker, a fuller and a more delicate transmission. It is like a piano that has just been tuned."

Low Down.

"You are anaemic," says the physician after thumping and prodding. "You should practice deep breathing." "Deep breathing?" retorts the patient. "Why, doctor, that is just what I do all the time. I work in a subway cellar sixty feet below the street level."—Judge.

DO YOU WANT TO KNOW WHAT YOU SWALLOW?

There is a growing sentiment in this country in favor of medicines of known composition. It is but natural that one should have some interest in the composition of that which he or she is expected to swallow, whether it be food, drink or medicine. Recognizing this growing disposition on the part of the public, and satisfied that the fullest publicity can only add to the well-earned reputation of his medicines, Dr. R. V. Pierce, of Buffalo, N. Y., has "taken time by the forelock," as it were, and is publishing broadcast a list of all the ingredients entering into his medicines, "Golden Medical Discovery," the popular liver invigorator, stomach tonic, blood-purifier and heart regulator; also of his "Favorite Prescription" for over-worked, broken-down, nervous and invalid women.

This bold and out-spoken movement on the part of Dr. Pierce, has by showing exactly what his well-known medicines are composed of, completely disarmed all harping critics who have hereto unjustly attacked them. A little pamphlet has been compiled from the standard medicine authorities of all the several schools of practice, showing the strongest endorsements by leading medical writers of the several ingredients which enter into Dr. Pierce's medicines. A copy of this little book is mailed free to any one desiring to learn more concerning the valuable, native medicinal plants which enter into the composition of Dr. Pierce's medicines. Address Dr. Pierce as above.

WIT OF THE WORLD.

Humor From Germany, Austria and England.

Elderly Spinster—You may believe it or not, but a king has lain at my feet. He—He fell out of your hand at cards, I suppose.—Simplicissimus.

Lady—Of course you don't really think me very young? He—I do, indeed. If I were a railway official, I should let you travel on a child's ticket.—Figaro.

Uncle—And how are you getting on at school? Fritz—Oh, all right, except arithmetic, and that hurts awfully.—Ellegende Blatter.

Tourist—Are we not near the falls? Guide—Quite near. As soon as the ladies stop talking you will hear the roar.—Wiener Caricaturen.

Jones, after fishing for five hours, at length has a bite. Affable Little Stranger (inspecting catch)—Oh, I say, how splendid, or is it bait?—Glasgow Herald.

Governor of Prison—In what trade were you before you were convicted? Prisoner—I was a cellist in an orchestra.

Governor—Well, then we'll set you to work sawing wood.—Pick-Me-Up.

A motor car proceeding down Regent street the other day suddenly dashed into the window of a wig-maker's. It is reported that several of the wigs had hairbreadth escapes.—Pick-Me-Up.

Prison Chaplain (preaching on Sunday in the prison chapel)—I am so delighted, my dear brethren, to see you assembled here in such goodly numbers.—Figaro.
