SEVEN MEN KILLED

Disastrous Collision on C. P. R. Near Medicine Hat

Despatcher Who Gave Wrong Orders Has Disappeared

MONTREAL, July 10.—(Special)—Seven men were killed in a head-on collision near Medicine Hat yesterday.

The Lethbridge section passenger train met a light engine, and the engineer, fireman and baggagemen of the passenger train were killed, and also the engineer of the light engine and two passengers.

THE DETAILS.

MEDICINE HAT, July 10.—(Special)—A locomotive running light, from here to Coleridge, had a head-on collision with the morning passenger train from the Crow's Nest Pass at 8.20 o'clock yesterday.

The light locomotive was driven off the tracks and the baggage car, mail car and tourist coach of the passenger train, was partly telescoped, and with the engine rolled into the ditch.

Engineer James Nicholson, Fireman Howard Gar, Baggage Master Archambault, and passengers, James Shaw and Duncan McEachren were instantly killed. The engineer Thos. Twohey and Conductor Malette died a short time afterwards.

Brakeman Leonard Black, and Ex-

pressman Vickers were seriously injured. Seven other passengers are injured.

Nicholson had orders to pick up the Spokane Flyer, and pulled out of here with the light engine. The Crow's Nest passenger train was two hours late.

A homesteader, named Hinsman, saw the trains, concealed from each other, rushing together, and succeeded in attracting the attention of Engineer Twohey of the passenger train, who shut off the steam as the engines met.

Although badly scalded Harry Thompson, fireman of the light engine, ran up the yard with the news, and was immediately sent to the hospital.

A passenger named Samuel Abbua, had his leg broken, and Phillip Menge, francher from Taber, was badly bruised. Both are in the hospital.

Operator Ritchie, from whom Nicholson received his clearance papers, has disappeared.

James Nicholson, travelling engineer, killed at Medicine Hat, Alta., yesterday, was a former resident of Brockville. He was 55 years old, and leaves a wife and three children.

CENTRAL RAILWAY

Every Dollar Paid by the Government Will be Accounted for

The result of the three hours' session of the Central Railway commission at St. John yesterday afternoon was the examination of two witnesses and the submission of evidence by Mr. Powell of the contract entered into by the Messrs. Brown and the two former commissioners of the road.

It transpired from the evidence that the material collected by H. A. Powell, K. C., counsel for the commission, is incomplete. This fact caused a clash between Mr. Barnhill, who appeared for the old commissioners of the railway, and Mr. Powell. Mr. Barnhill protested against it being announced to the public through the medium of the press that money advanced the Central Railway by the government could not be accounted for. He was sure that the necessary vouchers and documents to prove where all the money had gone could easily be found.

Judge Landry concurred in this. The witnesses examined were Charles A. Atkinson and J. R. Stone, one of the present commissioners of the railway. The examination of Mr. Atkinson dealt chiefly with the relations between the Central and the provincial government. The witness explained that he had kept no books of the transactions with the government, but had preserved the check-stubs, all payments having been by check. The cash-book prepared by Auditors Sharp and Corbett from an examination of the check-stubs was produced, together with the passbook of the Bank of British North America through which the greater part of the business had been transacted. An examination of the two books show that the entries in them did not tally and certain sums were not accounted for. This caused Mr. Barnhill to protest and to explain that the Bank of New Brunswick had also transacted a part of the business and was at his request preparing accounts which would show that all funds could be accounted for.

WILL GIVE A SITE.

Mr. Alexander Gibson, sr., of Marysville, has taken occasion to give a public denial to the report in circulation that he was opposed to the erection of a schoolhouse on the eastern side of the river in that town. He is not only heartily in favor of the scheme but with characteristic generosity has offered to donate sufficient land for the purpose to the trustees free of charge.

Mr. John E. Page, Principal of the Model School, will go to Tracy Mills tomorrow to spend a portion of his vacation at his old home.

Mrs. John Russell who has been visiting friends in this city returns tomorrow evening to her home at Newcastle.

GOV'T PARSIMONY

Even the Flower Beds on Public Grounds are Neglected

To the Editor of The Herald:

Sir,—You have called attention to the petty parsimony of Chief Commissioner Morisey in refusing to continue the flower plot on the Normal school grounds.

For years under previous administrations, the plot has been one of the beauty spots of the city, an attraction to visitors who invariably stopped to admire it, and an education and source of refinement to the students who come from country towns and districts to attend the institution. Now, for the sake of a false economy, we have an unsightly mound fixed up by the principal and the caretaker without cost to the province.

There is no possible justification for this meanness on the part of the Miramichi chief commissioner.

In the same line, I presume the unsightly beds of weeds now ornamenting parliament square, will be allowed to continue. All this, on the ground of economy by the commissioner, who, at the Premier's Sunbury county dinner, advised the people to help themselves, and not to depend upon the government, and by this same Mr. Hazen, who on a flight of oratory, addressing the teachers and children on Victoria day, intimated that the local government should give a liberal contribution towards the beautifying and improvement of this capital city.

What hypocrisy! All these paltry savings are made by an administration which is spending hundreds, perhaps thousands, of dollars on unnecessary commissions, and which, without hesitation, votes seven thousand, five hundred dollars from the limited revenue of this province for the beautifying of the wealthy city of Quebec, and assisting in the expensive military display there. The county council of York has, in the improvement of the court house square, set an example which the local government could well follow on the provincial grounds, if they would show better taste and fair judgment, and not be influenced by an unnecessarily mean spirit of alleged economy.

CITIZEN.

THE INQUISITORS

ST. JOHN, July 10.—(Special)—This morning's session of the Central Railway Commission was occupied with an examination of Mr. Corbett as to his methods of keeping certain photo's and auditing others.

BRYAN NOMINATED

Nebraskan Chosen as Democratic Candidate on First Ballot

DENVER, July 10.—(Special)—Wm. J. Bryan of Nebraska, was nominated for the third time for the office of president of the United States, by the Democratic National convention at 3.45 o'clock this morning, amid screams of enthusiasm.

The result came after an all night session, which kept in constant state of turmoil up to the moment when the Nebraska leader was proclaimed the choice of the convention.

The nomination was made on the

first and only ballot, the vote standing:

Bryan, 892 1/2.
Gray, 59 1/2.
Governor Johnson, 46.

When order could be secured state after state which at first recorded their vote for Johnson or Gray, fell into line, and the nomination was made unanimous.

It remains now only to nominate candidate for vice-president, and the work of the convention is concluded.

GEORGIAN BAY CANAL

Delegation Urges Its Immediate Construction—The Premier's Reply

OTTAWA, July 10.—(Special)—A deputation hundreds strong from Port William, Port Arthur, North Bay, Sault Ste Marie, Mattawa, and various other towns of the Ontario Valley, waited on Sir Wilfrid Laurier and Hon. Messrs. Scott and Pugsley this morning to urge the prompt construction of the Georgian Bay canal, and that an appropriation of ten millions be set aside by parliament, so that the work might be started immediately.

The project, he said, would receive the prompt attention of the government as soon as parliament was prorogued.

The premier in his reply to the deputation, said that a report of the survey is in the hands of the government, but as yet there had been no time to consider it.

All that was now known definitely was that the construction of the canal was feasible, and that the total cost would be \$100,000,000.

The project, he said, would receive the prompt attention of the government as soon as parliament was prorogued.

NEW GAME WARDEN HERE

Coun. W. J. Dean of Musquash Organizing His Forces

Coun. W. J. Dean of Musquash, has been appointed chief game and fire warden for the counties of St. John, Queens, Sunbury and York. He is in the city today a guest at the Barke House. He is now on a trip through his district swearing in his staff of deputies and instructing them in regard to his duties.

The special wardens appointed by the Surveyor General are required to give their whole time to the work. They shall continuously patrol the district and keep a diary which must be written up at the close of each day. They will be expected to follow all persons going into the woods in what ever pursuit and must warn them particularly as to the setting and extinguishing of fires. They will see that no persons enter the woods during the close season carrying firearms without a permit and shall examine all permits of hunting parties and take down the names of licensees and the number of hunting permits. They must see that the law is carried out and be ready at all times to explain its provisions.

Following is a list of the special wardens appointed for York on the recommendations of the local members:

- John A. McNabb, Carved Bridge.
- John Earley, Cross Creek.
- Segee Grant, Canterbury.
- Ernest Brewer, Bart's Corner.
- George Stack, Harvey.
- George Farrell, North Lake.
- David Schriber, Douglas.

It will be noticed that two special wardens have been appointed for Stanley, while other sections of the county, particularly Fredericton, have been left out all together. There is plenty of work for a good five game warden to do in the vicinity of Fredericton.

Mrs. (Dr.) W. H. Irvine and family have gone to Ramo Lodge where they will spend the next couple of months. Mrs. R. W. Carrier and family are also at Ravine Lodge.

MARYSVILLE NEWS

Address and Presentation to a Popular Young Lady

The residence of Mrs. James Charters was the scene last evening of a very enjoyable surprise party gotten up as a farewell to Miss Nina Charters, one of Marysville's most charming young ladies who expects to leave in a few days for the White Mountains, N. H.

A number of the young lady's friends had gathered together to wish her God speed and present her with a small gift and address.

The gift was a very handsome manicure set, the presentation being made by Mrs. Mabel McKay who read the following address:

Marysville, N. B., Can., July 9th, 1908

Dear Nina:—We, a few of your many friends assembled here on this occasion to bid you farewell and present you with a small token of remembrance on the eve of your departure for other lands. Although you are leaving us for only a short time, we will miss you greatly, miss your companionship, miss your presence at our social gatherings and miss you as a lovable friend in need. To know you is to respect and love you. Although dear Nina, you will be absent in person you will be ever present in our hearts and our wishes are, that whatever you undertake to do, you will meet with success.

We wish you God speed, good luck and a quick return. While away try and think of us and remember the jolly good times spent together in Marysville.

Again we repeat farewell and may good luck follow you is the wish of your assembled friends.

During the evening light refreshments were served and a very delightful time spent by all. Miss Charters expects to spend the summer at White Mountains, going in the fall to Springfield to attend college.

Rev. W. B. Thomas and family left by last evening's express for Campbellton, where he is to preach the next three years. Rev. Mr. Thomas preached his farewell sermon last Sunday.

Rev. J. C. Berris, formerly of Gibleton, is to occupy the Marysville Methodist Church, beginning next Sabbath.

BASEBALL AT MARYSVILLE.

St. Marys 16 Marysville 2.
A very lopsided game of baseball was the verdict of last evening's game between St. Marys and Marysville the score being 16 to 2, in favor of the former.

Lennie Inch and Wm. McCain were the battery for Marysville while Malley and Hughes did the business for the visitors. It was a case of heavy hitting for St. Marys and errors and loose playing for Marysville.

A large crowd of fans were present but several went home before the game was finished.
