PRE-ELECTION ESTIMATE

Montreal Herald Makes Another Effort to Predict probab'e Result.

(Montreal Herald.)

A careful review of the field of candidates as entered at the nomination proceedings yesterday makes it appear that, even allowing a generous estimate of Conservative possibilities the Laurier Government will again be sustained by a majority of the seats outside of the Province of Quebec, though a somewhat narrower one than in 1904, though for the sake of this estimate it may be put down as fifteen Conservatives to fifty Liberals or a majority of 35.

The Herald's correspondents in the various provinces to-day predict the following majorities:

Province.	Con.	Lib.
Ontario	51	32
Prairie Provinces	8	19
British Columbia	2	5
Nova Scotia	3	15
New Brunswick	4	9
Prince Edward Island	2	2
Quebec	15	50
	88	132
Total Liberal majority		44

In Quebec of the 65 seats, there are six where there is either no opposition or opposition only from independent supporters of the Government' Of the ten seats held by the Conservatives in the last parliament, they are practically certain to lose Dorchester and should lose Huntingdon, while their prospects are by no means certainties in other seats. A fair estimate would be to allow them eight of these seats. On the other hand, among the great number of Liberal members of the last parliament who are running again, there is always a possibility of a certain percentage having worn out their popularity, or relying over much upon it. Upon the situation as it is now visible, however, there seems to be no reason for thinking it possible that the Conservatives should capture more than four or five of the forty-nine former Liberal seats which they are now attacking. They would require to take seven in order to assure them of the representation of fifteen which has been credited to them in the above table.

TRANSCONTINENTAL RAILWAY

Osler leading Tory Candidate condemns construction of the Road—Tory Toronto Mail says work must be stopped.

There is some confusion and complication, if not contradiction, among Conservative publicists and politicians in their respective attitudes toward this great public work. Mr. Borden, leader of the opposition, says in a perfunctory and hesitating way that the enterprise had been decreed by parliament, and as the work of construction has been in progress for nearly five years it must be carried on to completion. The Toronto News takes the same stand, and with no better grace. On the other hand, Mr. Osler condemns the whole scheme with unquestionable heartiness, and leaves no room to doubt that his verdict is irrevocable. The Mail and Empire says the work must be stopped, and asks the question whether Sir Wilfrid Laurier should be permitted to finish it.

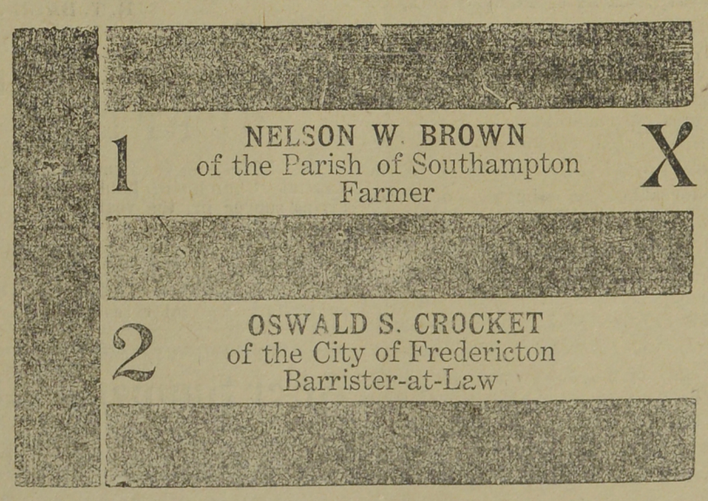

There are two views about the National Transcontinental railway, one or other of which must be taken by every Canadian statesman. One is the view taken by the Liberals in parliament when the project was undertaken in 1903; that while the enterprise is a difficult one to achieve, it is well worth all it will cost the country to complete it; that it is, on the whole, the best practicable way of not merely duplicating our existing Transcontinental railway, but promoting the development of the Far North of all the provinces west of the Gulf of St. Lawrence, and that it is a fair and reasonable compromise between an absolutely private railway and one owned and operated by the State. The other is the view taken at the same time by the Conservatives in parliament; that while the enterprise is very expensive it is also comparatively useless; that while the credit of the country is involved to a large extent in the construction of the railway it is to be not merely controlled but virtually owned by a private company, and that the country through which the eastern division passes is not well adapted to the development of a great and remunerative local traffic.

These diverse attitudes of the respective political parties in parliament five years ago are their diverse attitudes today. The Liberals believe in the enterprise, are enthusiastic in its prosecution, and look forward with the utmost confidence to its success; the Conservatives have no faith in it, persist in disparaging the country traversed by the railway, and predict that the government's half of the road will yet be abandoned by the Grand Trunk and Grand Trunk Pacific Companies.

The best proof that the people of Canada approve of the National Transcontinental railway scheme that after it had been adopted in 1903 it was rediscussed and modified by parliament in 1904. Only a project both meritorious and popular could have stood such a test. Had the people of Canada been hostile to the railway, the Laurier government would have been overwhelmed by it at the following general election. There has not been since that event any sign of reaction against it. The nearer it approaches completion the stronger is its hold on public opinion. Within three years it will be in active operation from end to end of the main line, to say nothing of projected branches. All this will be matter of course if the enterprise is left to the sympatheeic care of its promoters, instead of being turned over to the tender mercies of those who are constantly predicting its failure.

What Ails You?

Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heartburn," belching of gas, acid risings in throat after eating, stomach gnaw or burn, foul breath, dizzy spells, poor or variable appetite, nausea at times and kindred symptoms?

If you have any considerable number of the above symptoms you are suffering from biliousness, torpid liver with indigestion, or dyspepsia. Dr. Pierce's Golden Medical Discovery is made up of the most valuable medicinal principles known to medical science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener.

The "Golden Medical Discovery" is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its bottle-wrapper and attested under oath. A glance at its formula will show that it contains no alcohol, or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined glycerine, of proper strength, from the roots of the following native American forest plants, viz., Golden Seal root, Stone root, Black Cherrybark, Queen's root, Bloodroot, and Mandrake root.

The following leading medical authorities, among a host of others, extol the foregoing roots for the cure of just such ailments as the above symptoms indicate: Prof. R. Bartholow, M. D., of Jefferson Med. College, Phila.; Prof. H. C. Wood, M. D., of Univ. of Pa.; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago; Prof. John King, M. D., Author of American Dispensatory; Prof. Jno. M. Scudder, M. D., Author of Specific Medicines; Prof. Laurence Johnson, M. D., Med. Dept. Univ. of N. Y.; Prof. Finley Ellingwood, M. D., Author of Materia Medica and Prof. in Bennett Medical College, Chicago. Send name and address on Postal Card to Dr. R. V. Pierce, Buffalo, N. Y., and receive *free* booklet giving extracts from writings of all the above medical authors and many others endorsing, in the strongest possible terms, each and every ingredient of which "Golden Medical Discovery" is composed.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. They may be used in conjunction with "Golden Medical Discovery" if bowels are much constipated. They're tiny and sugar-coated.

A MEMO IN HIS NOTEBOOK

SIMPLE TEST.

To find out if the Kidneys are Affected and a Recipe.

There are more cases of kidney trouble here now than ever before, while recent reports show that more people succumb each year to some form of kidney disease than any other cause.

When there is sickness, examine the urine. Rheumatism is only a symptom of kidney trouble. It is nothing more or less than excessive uric acid in the blood, which the sluggish, inactive kidneys have failed to sift out, leaving it to decompose and settle about the joints and muscles, causing intense suffering; frequently resulting in deformity; often reaching the heart, when death ensues.

Pains across the back, frequent painful and suppressed urination and other symptoms of weak bladder are not only signs of kidney trouble; many cases of stomach disease, head ache, pain in the heart, inactive liver etc., are but symptoms; the cause of which can be traced to feeble, clogged kidneys.

A simple test of the urine is to void a small quantity in a bottle or glass and let it stand over night; next morning, if there is a reddish, brick-dust sediment, or white fleecy substance present, either consult some reputable physician or take a good vegetable treatment. The following prescription is recommended highly in these cases and the sufferer can mix it at home: Coempound Kargon, one ounce; Fluid Extract Dandelion one-half ounce, Compound Syrup Sarsaparilla, three ounces. Shake well and use in teaspoonful doses after each meal and at bedtime.

Where any of the symptoms enumerated above are present, good results are sure to follow immediately the use of this simple prescription.

The most attractive thing about a toboggan is a pretty girl.

ANGLICAN SYNOD.

ST. JOHN, Oct. 22.—The Anglican Synod resumed discussion of business this morning, Bishop Richaardson presiding.

After devotional services annual reports of the clergy were received and referred to the proper committee.

The balance of the session was devoted to consideration of the report of the standing committee on the Bishop's charge, and recommendations contained therein.

The report was taken up section by section and the introduction passed.

BLOOD MADE STRONG

Tiredness and Weakness Overcome

A JOYOUS LETTER

"I admit because I neglected early treatment I am entirely to blame for the condition of weakness that for nearly two years made my life a real misery," writes Mrs. Hazen, of Beauport. "At first I felt sort of flat in the morning and could do no more than pick at my breakfast. Later I remember my sleep was disturbed, that dreamy, restless sleep, from which you finally awaken, feeling as if you could never get up. Then I became thin, lost my color, got nervous and fearful about nothing, and kept thinking about myself all the time, and was irritable, cross and easily made cry. What would have become of me if I had not taken Ferrozone I can't imagine. Ferrozone put new life into me from the start. It strengthened my nerves and brought back my color, and in a little while, less than three months, no healthier and brighter woman could be found anywhere. I highly praise Ferrozone and advise sick people to take advantage of its health-conferring properties."

Ferrozone quickens the powers of both body and mind, simply because it forms lots of blood that's full of life and vitality. Ferrozone creates appetite, gives strength, vim and endurance, it's good for old people, good for everybody that needs better health. Thousands of men, women and children use Ferrozone every day and all say its the best nourishing, strengthening tonic made; try Ferrozone yourself, 50c. per box, or six boxes for $2.50. Sold by all dealers.
