

WOULDN'T IT JAR YOU.

(Woodstock Sentinel).

On the trains which run from De-see Junction to Houlton there is a man dressed in U. S. uniform cap, who requires passengers to declare whether they are American citizens. If the answer is in the affirmative he looks at you as if he didn't believe you. On the question being asked why he demanded to know if they were citizens, he said if they were not citizens that they must have the required amount of money on their persons or they would not be allowed to enter the United States. Now this is all right if he had the least suspicion that some one who should not be permitted to enter the "sacred precincts" of the U. S. was trying to get in; but when he puts his face within "smelling" distance of a gentleman, who, to all appearances, has money to "burn" and bawls at him: Say! do you belong to this country? The gentleman says "no" I am a Canadian citizen and what business is it of yours? To be told that he would have to show the required amount of money or go back as he might become a dependent of the United States. "Wouldn't it jar you."

LUNG TROUBLE

Promptly relieved and permanently cured by inhaling Catarrhozone.

Mrs. Biny Brown of Tenessee, N. S., was cured by Catarrhozone of lung trouble and catarrh after hundreds of other remedies failed.

If your lungs are weak; if there is consumption in your family; if Colds, Catarrh and Bronchitis bother you, be sure to use Catarrhozone. It is especially adapted for these diseases and cures every time.

Mrs. Brown took cough mixtures, but they made her sick. Then she used an atomizer, but, after resorting without benefit to poultices and numerous other remedies, she tried Catarrhozone.

"I used Catarrhozone Inhaler," writes Mrs. Brown, "five minutes every hour, and soon recognized that it was going to cure me. I could feel the soothing medicated air spreading through the air passages of the throat, and it touched the sore spots in the lungs that other remedies failed to reach. Catarrhozone seemed to go just where it was needed most, and soon put a stop to my cough. It restored me to perfect health, and I am convinced that no cough, cold or catarrh can exist if Catarrhozone is used."

No treatment is so clean, so pleasant, so certain to cure as Catarrhozone. By means of the Inhaler the local symptoms such as coughing, inflammation and congestion are speedily corrected. Ferrozone tablets, which are taken after each meal, purify and cleanse the blood of all poisons and build up and strengthen the system.

This local and constitutional treatment is always effective, and cures cases that have been given up as hopeless. Money can't buy or produce anything better, and to get cured is absolutely necessary to use Catarrhozone.

HIS WORK NOT FINISHED.

Kaiser Will Not Allow Von Buelow to Retire.

BERLIN, June 26.—A semi-official news agency announces that Chancellor Von Buelow during the course of his audience with the Emperor at Kiel today asked permission to resign. The Emperor, however, declined to accede to this request under the present conditions. His Majesty pointed out that, according to the unanimous conviction of the Federated governments, the prompt settlement of the financial reforms was the vital question both to the internal welfare and the external position of the empire, and that he could not consider the Chancellor's desire to retire until the work had been concluded in a manner acceptable to all the Federated governments.

Drowns in Pond He Made Himself.

Dover, N.J., June 29.—William Nugent, a civil engineer, was drowned in Eastling Pond, which, thirteen years ago, he and C. E. Clark had laid out together. With him was Mr. Clark. Both men were fishing.

Pugsley's Sisters Critically Ill.

St. John, N.B., June 29.—Mrs. (Dr.) J. M. Smith, sister of Hon. Dr. Pugsley, is critically ill of typhoid pneumonia. Mrs. R. R. Humphrey, another sister, is dangerously ill, following an operation at Sussex.

Shoots Two and Himself.

Quincy, Ill., June 29.—Geo. Gurney shot and killed his father, Dr. Seneca Gurney, aged 79 years; wounded his sister-in-law, Mrs. Seneca Gurney, jr., aged 37, and then killed himself.

LUMSDEN RESIGNS

Chief Engineer of Transcontinental Withdraws From Post.

MAKES NO EXPLANATION

Hon. Mr. Graham Is Away From Ottawa and Mr. Parent Refuses to Make Any Statement Regarding the Matter—Rumors of Friction Among the Commissioners Are Current at the Capital.

Ottawa, June 29.—Hugh D. Lumsden, chief engineer since the National Transcontinental Railway Commission was organized in 1904, resigned his post. He gives no explanation.

"I have my reasons," he said, "but I am not going to say anything about them."

As his appointment was made by the Government itself, his letter of resignation goes to the Minister of Railways, and as Mr. Graham will not return to town till Wednesday, its contents remain unknown. Hon. Mr. Parent, chairman of the commission, regards this fact as imposing on him an obligation to remain quiet. This event comes as a climax to the steady and persistent rumors of trouble over the classification of district F, the stretch from Winnipeg to Superior Junction. It was over this section and the classification upon it, that Major Hodgins came to grief. His charges were succeeded by even more serious allegations of over-classification made by the G.T.P. Co. through its assistant engineer, Wedd.

More recently it became necessary for the cost of the section to be ascertained, as the time was drawing near for the G.T.P. to take it over. A board of arbitration was appointed, consisting of Collingwood Schreiber, formerly Deputy Minister of Railways, and now Government consulting engineer for the G.T.P., as chairman, and Mr. Kellogg, chief engineer of the G.T.P., and Mr. Lumsden, as members.

It is stated that there have been complaints as to the arbitrary methods of the board of arbitration, that, for instance, they have refused to give a hearing to contractors and district engineers. The result of such a proceeding would be that if the contractors took into court the matter of a disputed account, and were allowed by the court a higher payment than that allowed by the board, the Government would be paying the full price, while the G.T.P. Railway would only pay interest on the reduced amount. This procedure, it is said, has helped to bring about the strained relations between the board, and in particular Mr. Lumsden, and the commission.

Suspect Foul Play.

Windsor, June 29.—The badly decomposed remains of John J. Kenny, aged 22, a former employee of the Detroit River Tunnel, who disappeared last February, were found in the Detroit River yesterday. Relatives are sure foul play was committed, as Kenny was last seen alive in company with two strangers at an hotel. He had a small amount of money and a gold watch at that time. Yesterday the money and watch were missing, although letters were found in the pockets. Coroner Labell has deemed an inquest unnecessary.

Wm. Robinson, ex-M.P.P., Very Ill.

Kingston, June 29.—William Robinson, ex-M.P.P., spending the summer at Sharbot Lake, was taken suddenly ill and has undergone an operation at the General Hospital. It is not known yet whether he will stand the severe test. He is 87 years old and Kingston's veteran citizen. It was he who gave the casting vote that ousted the John Sandfield Macdonald Government from power in Ontario and put Oliver Mowat into office.

Will Endorse the Admiralty.

London, June 29.—(C.A.P. Cable).—The Cabinet committee appointed to investigate Lord Charles Beresford's charges against the Admiralty and the policy of administration hopes to finish its work this week. Probably the report will not be made public, but it is generally understood that the judgment of the committee will be entirely favorable to the Admiralty.

Fournier Stays in Jail.

Quebec, June 29.—Justices Carroll and Lavigne, sitting in appeal, rendered their decision yesterday in the habeas corpus case of Fournier, editor of Le Nationaliste, condemned to three months of incarceration in the district jail for libel. Judge Carroll, after having quoted several authors, dismissed the petition and annulled the writ.

Got Thirty Days.

Guelph, June 29.—Michael Sobora, an Italian, charged with shooting with intent to kill, was sentenced to thirty days in jail by Judge Chadwick. It was alleged that Sobora had fired three times at J. J. Cheekley, a local contractor. Evidence showed that the bullets were fired into the

Like to Be a Boy?

St. Catharines, June 29.—St. Catharines may claim the distinction of having the finest troop of Baden-Powell boy scouts in Canada. It was organized last January, and has got into shape for work and instruction while troops are just being organized elsewhere.

The troop is composed of boys from all the schools, and comprises four patrols of seven men each. H. Neelon is scout master, with W. Griffin second in command. Patrol leaders are S. Lovelace, E. Caverhill, James McMenemy and A. Ireland. The boy scouts, under Sir Baden-Powell's plan, are for instruction in woodcraft, tracking and stalking, fire-lighting, cooking, straw mattress making, tent and hut erecting, knot-tying, signaling and Morse code telegraphing, life saving, first aid and general ambulance work.

Murder Still a Mystery.

Winnipeg, June 29.—Chas. F. Hornfeck was discharged yesterday on a charge of murdering Louise Pearl James. The prosecution fell down woefully, the most damaging evidence being a confession written by the prisoner. An alibi was established by the defence, which showed that the accused was not within ten miles of the city on the day of the murder. A precedent was established when C. P. Fullerton, for the defence, called the prisoner to the witness stand to testify at his preliminary trial. Louis James, the husband of the murdered woman, did not appear to give evidence, and the case was closed. The next action of the crown is watched for with interest.

Handwriting Experts Denounced.

New York, June 29.—The end of the trial of Broughton Brandenburg, charged with grand larceny, in connection with the sale of an alleged spurious letter of Grover Cleveland to The New York Times, Oswald N. Jacoby, summing up for Brandenburg, declared that if the article written by Grover Cleveland, the question of whether the signature was genuine or not was immaterial. He read passages from the article, which he said, no one else but Cleveland could have written, and concluded with an attack on the hand-writing experts, who had testified against Brandenburg. He called their profession despicable.

Quebec's Surplus.

Montreal, June 29.—Another surplus over the half million mark is promised by Hon. W. A. Weir, Provincial Treasurer. The record of \$1,035,000 was set last year, when the Federal subsidy was increased by \$600,000 and there was no provision made for its expenditure. There is a falling off in the revenue from the crown lands, due to the greater number of wooded lots granted to settlers. On other points the revenue is well up to the mark. The succession duties will produce an unprecedented revenue. Montreal alone contributing \$150,000.

Ogilvie's Crop Report.

Winnipeg, June 24.—The Ogilvie Flour Mills Co.'s weekly report shows a very satisfactory position existing with respect to the growing crop. During the past week copious rains have fallen, which, together with the favorable weather conditions, have placed the crop in a most excellent condition. Generally speaking, summer fallow fields are very heavy, spring plowing and stubble are a very good average, and all is standing out well.

The earlier sown wheat is starting to come into shot blade.

Painful Curiosity.

Brockville, June 29.—A lad named Dowdall ran across a fog signal at the home of a railway brakeman and started experimenting by driving a nail into it. In the explosion that followed, the hand was lacerated and one finger blown off.

Not Sisters

Now and again you see two women passing down the street who look like sisters. You are astonished to learn that they are mother and daughter, and you realize that a woman at forty or forty-five ought to be at her finest and fairest. Why isn't it so? The general health of woman is so intimately associated with the local health of the essentially feminine organs that there can be no red cheeks and round form where there is female weakness.

Women who have suffered from this trouble have found prompt relief and cure in the use of Dr. Pierce's Favorite Prescription. It gives vigor and vitality to the organs of womanhood. It clears the complexion, brightens the eyes and reddens the cheeks.

No alcohol, or habit-forming drugs is contained in "Favorite Prescription." Any sick woman may consult Dr. Pierce by letter, free. Every letter is held as sacredly confidential, and answered in a plain envelope. Address: World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N.Y.

Sheep and Lambs.

Export ewes sold at 37 1/2c to 41 1/2c; lambs, at 38 to 39 per cwt.

Montreal Live Stock.

MONTREAL, June 28.—(Special).—At the Montreal Stock Yards West End Market, the sale of live stock for the week ending June 25 was 230 cattle, 35 sheep and lambs, 1800 hogs and 1450 calves. The offerings this morning for local consumption were 1000 cattle, 100 sheep and lambs, 1100 hogs and 150 calves. A feature of the market was the continued scarcity of good to choice steers, and prices for such were stronger, but the lower grades of cattle were more plentiful than a week ago, and prices in consequence show a decline of 1/4c to 1/2c per lb. The gathering of buyers was large, and in spite of the very warm weather, the demand for top quality stock was good, but the trade in the common grades was rather slow, even at the above reduction in values. There was a fair demand from exporters on account of the continued strong cable advices which were received from Liverpool, which reported trade very firm at a further advance in prices of 1/4c to 1/2c per lb., with sales of choice Canadians at as high as 14 1/2c, and ranchers at 12 1/2c per pound. On the strength of this, exporters paid 6c to 6 1/2c per pound for steers, but some holders were asking as high as 7 1/4c for extra choice stall-fed steers, but the top figure paid for such was 6 1/2c for local consumption, and the bulk of the trade was done in choice stock at 6 1/4c to 6 1/2c, with good at 5 1/2c to 6c. The best grass-fed steers sold at 5c to 5 1/2c; medium at 4 1/2c to 5c, and lower grades at 3c to 4c per lb. The demand for hogs was good, and some choice ones brought 5 1/2c to 5 3/4c, and good 4 1/2c to 5 1/4c per pound. There was no further change in the condition of the market for hogs since this day week; but, as supplies were again limited, the undertone to the market was strong at the late advance in prices, in spite of the fact that cable advices from all the leading foreign markets on Canadian bacon last week were weaker and noted a decline in values of 2c to 4c per cwt, compared with the previous week. The demand for hogs here was good, and an active trade was done, with sales of selected lots at \$7.75 to \$8.85 per 100 lbs., weighed off cars. Supplies of small meats were fair, for which the demand was good, and a fairly active trade was done at steady prices. Sheep sold at 3 1/4c to 4c per lb. Lambs brought from \$2 to \$5 each, and calves ranged from \$2 to \$5 each, as to quality.

At the Canadian Pacific Live Stock Market the receipts for the week ending June 25 were 207 cattle and 452 sheep for export account, and 59 cattle, 53 sheep and lambs, 722 hogs and 132 calves for local consumption. The supply offered on the market this morning consisted of 200 steers, 125 cows, 25 bulls, 250 sheep, 105 lambs, 75 hogs and 150 calves. The trade in cattle was fairly active. Good to choice stock was scarce and strong, while the supply of common was plentiful and cheaper. Extra choice steers sold at 6 1/2c; choice at 6 1/4c to 6 1/2c; good at 5 1/4c to 6c and the lower grades at from 4c to 5c per
