

A LAW

TO PROVIDE FOR PERMANENT STREETS AND SIDEWALK PAVEMENTS.

Be it enacted by the Mayor, C. Fred Chestnut, Mayor of Fredericton as follows:

1.—The city council of the City of Fredericton may at any time by resolution order and direct that any street or streets or portion of any street, or any sidewalk or portion of any sidewalk within the city, be paved with suitable material and in such a manner as shall so far as possible ensure the permanency of such pavement; and upon the adoption of such resolution the work so ordered shall be proceeded with at once under the supervision of the city council, a committee thereof or some person appointed by the council for that purpose by the council, or the council may enter into a contract with any person for construction of such work.

2.—The cost of such street pavement or sidewalk pavement shall be borne partly by the owners of the properties fronting on the street or the sidewalk so paved, and partly by the city as follows:

STREET PAVEMENTS.

(a)—In the case of freehold or leasehold property owners or holders not assessed for general purposes in the city and owning or holding property fronting on the street so paved, such owners or holders, holder or holders of property shall pay to the city one half of the total cost of such street in proportion to their respective frontages thereon.

(b)—The City of Fredericton shall pay the balance of the cost of such street so paved.

SIDEWALK PAVEMENTS.

(c)—In the case of freehold or leasehold owners or holders of property not assessed for general city purposes, and owning or holding property fronting on the sidewalk so paved, such owner or owners, holder or holders shall pay the total cost of such sidewalk in proportion to their respective frontages thereon.

(d)—In the case of freehold or leasehold property owners or holders assessed for general city purposes and owning or holding property fronting on the same side of the street as the sidewalk so paved, such owners shall pay one half of the total cost in proportion to their respective frontages thereon.

(e)—The City of Fredericton shall pay the balance of the cost of such sidewalk.

3.—(1)—Whenever any such work is ordered by the city council, the city engineer shall make a plan of such street or sidewalk or portion of street or sidewalk as the case may be, so to be paved, showing the frontage thereon of each property, and the name of the owner or holder of each property, and immediately upon the completion of such work, the city engineer shall make a list of the owners or holders of such properties with the frontages of each property and the amount due in respect to each property and sign and file such plan and list in his office, and upon such plan and list being completed, signed and filed as aforesaid, the same shall in any action or proceeding be conclusive evidence of the liability of every person named therein in respect to each property of which he is stated to be the owner or holder for the amount stated in respect to each such property.

(2) Any such plan or list may be amended from time to time by the city engineer, and any such amendment shall in like manner be conclusive evidence of the facts stated therein.

(3) The engineer shall furnish the city treasurer with a copy of every list and amendments thereof with the date of filing in the office of the city engineer endorsed thereon.

(4) The amount specified in any such list as payable in respect to any such property shall be enforced and collected in the same manner and at the same time, with the same rights and remedies as other city rates and taxes, as provided by the Fredericton Assessment Act, 1907.

4.—(1) The total amount for which any person is liable in respect to any property shall be divided into twenty equal instalments, the first of which shall be due and payable at the same time the next city taxes become due and payable after the said list has been filed in the office of the city engineer, and such amount and any unpaid instalment or instalments shall continue to be a charge against the property and succeeding owners or holders thereof until the same has been fully paid.

(2) To each of said instalments shall be added interest at the rate of five per centum per annum on the amount of principal then remaining unpaid.

(3) A notice stating the amount of such instalment and interest shall be served upon the owner or holder, or the succeeding owner or holder, each year in the same manner as other city tax notices are served.

(4) Any owner shall be at liberty to pay the whole of said instalments at any time with interest to date of payment.

(5) If any property is sold by the city for failure to pay rates and taxes, the city treasurer shall retain from the proceeds of such sale the whole amount due in respect to such land for any street or sidewalk pavement constructed under the provisions of this law.

5.—A law passed the third day of August, 1886, entitled "A Law for the making and repairing of pavements and flagging and assessing the proprietors of real property benefited thereby," is hereby repealed.

Passed and enacted June 1st, 1909.

J. W. McCREADY,

City Clerk.

June 3, d. 21.

Town Wiped Out by Fire.

Montreal, June 7.—The little town of St. Francis was almost completely wiped out by fire late Friday. Out of 24 dwellings only one remains. One mile of railway track was also destroyed.

A serious fire broke out early Saturday, Glen Villa, a summer resort, being destroyed. Loss \$60,000. Insurance, \$20,000.

Drowned While at Work.

St. Ste. Marie, June 7.—Alex. Cargill, aged 30, who is said to have relatives in Parry Sound, was drowned while working on the South Chipewewa river.

The Winning 'Auto.

Wilkes-Barre, June 5.—"Stoddard Dayton" auto won the three to four thousand class by 20 seconds in the big meet held here Thursday. "Stoddard Dayton" car also won the Auburn hill climb in a list of forty competitors, winning by 20 seconds.

Cholera in St. Petersburg.

St. Petersburg, June 7.—The first few days of summer have been marked in St. Petersburg by an alarming increase of cholera.

A Pointer for Ambitious Cooks: To beat all Bread and Pastry records, use PURITY FLOUR. The trade mark guarantees satisfaction or your money back. "More Bread and Better Bread."

ROSEBERY CALLED FIREBRAND.

German Press Is Excited by Speech to the Pressmen.

Berlin, June 8.—(C.A.P. Cable.)—Lord Rosebery's speech at the banquet to the overseas press delegates, while universally condemned, formed the most prominent feature in the German papers yesterday, and has produced a profound impression.

The Vossische Zeitung, in a leading article, states that the spectacle of Lord Rosebery, as the mouthpiece of a once proud country, bewailing to representatives of the colonial press that Europe exercises such a pressure on the "Little Island" is pitiful. "The day on which the boundless panic set in in England," the journal adds, "was the day when the triple entente against Germany and Austria-Hungary was wrecked on the central European bloc. It is untrue that weapons with which Europe is studied are directed against England. It remains, however, true that without such weapons, Europe would long ago have been the football of England."

The Local Anzeiger expresses the opinion that Lord Rosebery's speech will result in a strong revival of the agitation which has kept Europe in breathless suspense. The Morgen Post, in an article entitled "English Mischief-making and Hopes," says Lord Rosebery made an agitator's speech before 600 people, in which almost every word conveyed an untruth.

\$600,000 to Employees.

Paris, June 8.—The will of the late H. A. Chauchard, proprietor of The Magazine Du Louvre, leaves his collection of paintings, bronzes, marbles, etc., comprising some of the most celebrated works of the romantic school of 1830, to the National Louvre Museum. The collection is valued at \$1,000,000. To the employees of the Louvre store M. Chauchard leaves \$600,000. He gives \$400,000 to the poor of Paris, and makes also numerous bequests to various philanthropic and charitable institutions. The big individual legacies are \$3,000,000 to Geo. Leygues, the lawyer and man of letters, and the members of his family, and \$100,000 to Gaston Calmette, proprietor of The Figaro.

THE GIRL THAT IS PALE

She is in danger, her system is run down, weak—she needs nourishment, needs richer blood. More than all else she needs Ferrozone, needs it because it brings back the nerve energy which rapid growth and study have exhausted. The old-time vigor, happy spirits and new strength return with Ferrozone. The delicate maid is energized, strengthened and rebuilt. Isn't it worth while using Ferrozone when it surely does so much. At all dealers in 50c boxes.

Eczema, Salt Rheum.

Eczema or Salt Rheum, as it is often called, is one of the most agonizing of skin diseases. It manifests itself in little round blisters, which contain an extremely irritating fluid. These break and subsequently a crust or scale is formed.

The intense burning, itching and smarting, especially at night or when the part is exposed to any strong heat, are almost unbearable.

The pre-eminent success which Burdock Blood Bitters has met with in permanently curing a disease of such severity is due to its wonderful blood cleansing and purifying properties.

No other remedy has done, or can do, so much for those who are almost driven to distraction with the terrible torture, as our thousands of signed testimonials can testify to.

Mrs. John O'Connor, Burlington, N.S., writes:—"For years I suffered with Salt Rheum. I tried a dozen different medicines, but most of them only made it worse. I was advised to try Burdock Blood Bitters. I got a bottle and before I had taken half a dozen doses I could see a change so I continued its use and now I am completely cured. I cannot say too much for your wonderful medicine."

For sale by all druggists and dealers.

FOXY OLD BLIND TROUT.

ALLENTOWN, Pa., June 5.—In the old, abandoned Crystal Spring, which used to be the water supply of Allentown, and which is still one of the attractions of this city, there is a trout 23 3/4 inches long, which has been an occupant of the spring seventeen years. It was a fingerling, when, in common with many others it was placed in the spring, where it grew and prospered.

In spite of the vigilance of the water department the trout were caught one after another, until only this one remained, and he was too wise to be caught.

He has been blind for the past few years, and day and night lies immovable in a growth of moss, where only his head and tail are visible. He is one of the attractions of the spring, although he has lost all his beauty spots and is nearly coal black.

THE FARMER'S WIFE.

is very careful about her churn. She scalds it thoroughly after using, and gives it a sun bath to sweeten it. She knows that if her churn is sour it will taint the butter that is made from it. The stomach is a churn. In the stomach and digestive and nutritive tracts are performed processes which are exactly akin to the churning of butter. It is not apparent that if this stomach churn is "sour" it sours all which is put into it. The evil of a foul stomach is not the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of the blood and the dissemination of disease throughout the body. Dr. Pierce's Golden Discovery makes the sour stomach sweet. It does for the stomach what the washing and sunning do for the churn—absolutely removes every taint or corrupting element. "Golden Medical Discovery" contains no alcohol. Its ingredients are plainly printed on each bottle-wrapper.

Christian Scientists Accused.

Virgin, Man., June 8.—A coroner's jury at Virden have found the father of Violet Williams, aged 8, who died of pleurisy, negligent in having had Christian Science treatment for her. The jury found that the parent was influenced in his neglect by Mrs. McDougall and Mrs. Agnes Sprague and recommended the Attorney-General's Department to take action in the matter.

First Elevator Ride Fatal.

New York, June 8.—Her first ride in an elevator ended fatally yesterday for Miss Lena Schoonmaker, aged 19 years, of Saugerties, N.Y. The accident occurred in the flatiron building. Miss Schoonmaker fainted and fell as the elevator stopped suddenly and her head was dashed against the shaft as the car unexpectedly shot up again.

Successful Tag Day.

Berlin, Ont., June 8.—Berlin and Waterloo Hospital is \$1,791 richer as a result of the tag day, an increase of nearly 50 per cent. over last year. Berlin raised \$1,402, Waterloo \$204, Elmira, Conestogo and Floradale \$143, with smaller amounts in many other villages. The work was conducted by the Women's Hospital Auxiliary.

Child Prince Wins Throng.

Madrid, June 8.—As Queen Victoria, accompanied by her young children, was leaving for La Granja, the little heir to the throne saluted in military fashion the troops gathered at the station. The act was enthusiastically applauded by the large crowd.

To Lead Manitoba Liberals.

Winnipeg, June 8.—T. C. Norris, M.P.P. for Lansdowne, has been selected as leader of the Liberal Opposition in the Provincial Legislature. He succeeds Hon. C. J. Mickle, appointed to judgeship.

Montreal Y.M.C.A. Want \$300,000.

Montreal, June 8.—Can the Y.M.C.A. raise \$300,000 in 15 days? The building erected 20 years ago is inadequate and it is proposed to double the size and equipment. The work began last night.

DEBT OF CANADA.

(Continued from Second Page.)

The fact that a large proportion of the country is unexplored is only evidence of Canada's greatness. Canada is about eighteen times the size of France, and has a coast line equal to half the circumference of the earth. There is room to grow for the three northern districts of MacKenzie, Ungava and Franklin are larger than China.

CAUSED BY IGNORANCE.

Those who write of Canada seem to know little of the subject. We have mines, forests, coal areas and sources of wealth yet in reserve. All these will contribute to the wealth of future generations. No other country or earth can boast of natural resources of the extent of those possessed by Canada. The country is filling up as rapidly as is consistent with proper assimilation of the new arrivals, and the present government is making wise provision for the accommodation of the commerce of the future.

The article alluded to is glaring in its inconsistencies. Upon the subject of transportation alone Canada stands first among the nations of the world in transportation facilities in proportion to her population. Canada's Railway mileage per head is greater than any other country. France has one mile of railway for every 1,500 persons, Canada has one mile for every 300 persons. Canada has nearly as much railway mileage as Great Britain, a greater mileage than Australia, and more than Italy and Spain combined. The writer of "Grande Revue" might digest these facts and then revise his statement as to our inadequate and primitive methods of communication.

IS THIS FICTITIOUS?

The "Revue" article says also that the account of Canada's wealth in mines, fisheries, forests and agricultural products is fictitious.

In answer to this Canada has produced over 800 millions worth in minerals the last 24 years. The fisheries of Canada are the most extensive in the world, including 12,780 miles of sea coast line, and innumerable lakes and streams. The fishery production in 1908 was \$25,500,000. Fishing equipment alone is worth \$15,000,000. Since 1869 Canada has produced 677 millions from fisheries, nothing very fictitious about this. The field crops for 1908 were valued at 432 millions. Farm animals are valued at 531

millions. SAYS HE IS TRUTHFUL.

One might give other figures, but the above will be sufficient to rebut the astonishing statement published in the "Grande Revue." The difficulty is that a grave injustice has been done to Canada and there appears no way of giving the same circulation to these facts as was given to the libelous article on this country. The strangest feature about the article is that the writer concludes by stating that he has sought to tell the truth in order to keep the intending emigrant from France meeting with the cruel disappointments of this so-called Eden, to save the merchant from investing in a trade community where fraud is held in high honor to defend capitalists from the "unbridled speculation and the American bluff" which would induce them to put out their money in a country which can not support its idlers, more than a million of whom have emigrated to the United States.

DUTY OF THE PRESS.

The press of Canada without regard to party, should meet this article and combat it. Facts and figures are obtainable in abundance to utterly refute every allegation made in it. There seems to be no reason for it, and it can only be explained upon the ground of ignorance. No man having any knowledge of the facts or the conditions in Canada would be responsible for such ridiculous statements, and no periodical exercising any care whatever over its columns would publish such bald-dash as that which Mr. Vigors has contributed to the "Grande Revue" of Paris, France.

Canada has provided homes for thousands who have bettered themselves by leaving the congested districts of Europe. These are the men happily settled upon farms in the west living in contentment and comfort with their families who are averse to disprove the silly assertions contained in the "Revue" article.

CANADA FOR THE SETTLER.

There are millions of acres yet unoccupied in Western Canada which are the future homes of countless thousands now living in the very district where the writer of the "Revue" articles would have them stay. Canada with its present progressive government is a desirable place in which to live, and Europeans are finding this out very rapidly.

LOG CUT IN MAINE.

Better Conditions Follow Reduced Operations During Winter Months in Woods.

BELFAST, Me., June 5.—Estimates of the log cut in Maine last winter vary from 700,000,000 to 750,000,000 feet, but the latter figures are probably correct, if allowance is made for the numerous scattered small operations, the hardwoods and the pulp wood.

On account of the unsatisfactory conditions prevailing in the summer and fall of 1908, and the carrying over to this spring of a larger stock of old logs than usual, last winter's operations were in many cases curtailed.

Another factor that contributed to reduce the Maine cut is the large and ever-increasing importation of pulp logs from Nova Scotia and New Brunswick, many cargoes of which are now received at Bath and Portland for pulp companies having mills in the western part of the State. This importation of pulp wood greatly affected operations on the Androscoggin River last winter.

The cut on Aroostock waters—the St. John in Maine, the Aroostook, Allegash and Fish rivers—aggregate about 179,000,000 feet, on the Penobscot the cut was 215,000,000 feet, Kennebec, 125,000,000 feet, and about 40,000 cords or 20,000,000 feet of pulp wood in four feet lengths; St. Croix River, 45,000,000; Union, 18,000,000; Machias, 25,000,000; Narraganset, 7,000,000; Saco, 16,000,000, chiefly second growth pine; Androscoggin (in Maine), 75,000,000. Total 706,000,000 feet.

Hardwoods and pulp wood and scattered small operations for local mills would probably bring the total in Maine up to 750,000,000 feet or more.

Most of the saw mills are now running, with a fair supply of old logs. The drives are making fair progress, although having a last start. The market for all kinds of lumber shows considerable improvement over 1908.

He—I suppose if I kissed you, you would never speak to me again. She—Why do you always look on the dark side of things?

DR. HAMILTON'S CURE FOR PIMPLES.

All skin diseases such as pimples originate through failure of the kidneys and liver. All taints that block the avenues of health must be removed. Dr. Hamilton's Pills do this quickly. They cleanse the system, make the skin smooth, restore roses to the cheeks and give clear, dainty complexion. For good looks, good health and good spirits there is nothing so sure as Dr. Hamilton's Pills. 25c boxes at all dealers.

BLOOD TROUBLES.

Cured Through the Rich, Red Blood Dr. Williams' Pink Pills Actually Make.

Thousands of women suffer from headaches, dizziness, languor and nervousness. Few realize that their misery all comes from the bad state of their blood. They take one thing for their head and another for their stomach, a third for their nerves. And yet all the while it is simply their blood that is the cause of all their trouble. Dr. Williams' Pink Pills cure all these and other blood troubles because they actually make new, rich, red blood. Mrs. J. H. McArthur, St. Thomas, Ont., says "Dr. Williams' Pink Pills have done me a world of good. For about eighteen months I was a constant sufferer. I was terribly run down and the least exertion left me fagged out. I slept badly at night and this further weakened me, and finally had to give up housekeeping, as I got boarding as I was quite unable to do any housework. I took doctor's medicine but it was of little or no benefit. One day a neighbour told me how much benefit she had received from Dr. Williams' Pink Pills and advised me to try them. I sent and got three boxes, and by the time I had used them I could feel a change for the better. Then I got four boxes more and before they were all gone my health was fully restored. To see me now one would think I had never been sick for a day, and I can honestly say I owe my renewed health to Dr. Williams' Pink Pills."

Dr. Williams' Pink Pills are the greatest cure there is for the weakness and backaches and sideaches of anaemia; all the pains and aches of rheumatism, sciatica and neuralgia, and the weakness and ill health that follows any disturbance of irregularity in the blood supply. Sold by all medicine dealers or by mail at 50c, a box or six boxes for \$2.50 from The Dr. Williams' Medicine Company, Brockville, Ont.

Now, Willie, said the teacher to a small pupil, can you tell me what dynamite is used for? Yes, ma'am, answered Willie. It's used to blasphemous things with.

You can't afford to bank on a man unless he has plenty of sand. NEVER PARE A CORN.

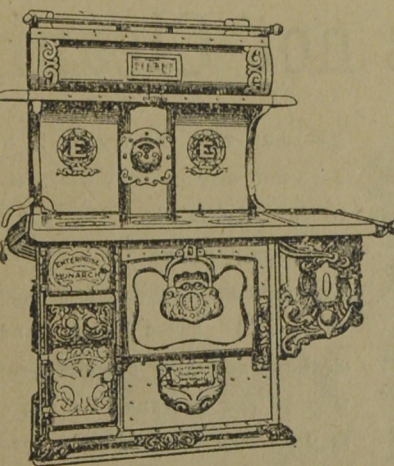

It's a sure way to get blood poisoning. Use Putnam's Corn Extractor once or twice on sore spots every day in a day.

Scotch Anthracite -- COAL --

To arrive soon a large quantity of a above Coal. Buy now and get the benefit of the Summer Price. Also in Stock Manitoba Oats, American Corn, and Beans all kinds. Seeds and Fertilizer in season.
