

In the Profession.

Strolling with one of his children on Hampstead Heath one day Mr. Martin Harvey came across a Punch and Judy show, and paused in front of the elevated theatre to see the farcical tragedy out. The seedy man who stood at the side waiting for the time for collecting the spectators' coppers looked hard at the actor during the entertainment, and when it came to going round with the hat he carefully avoided him. The actor, however, offered the man a shilling. "Oh, no," said the seedy one, with a vigorous shake of the head; "I've often been into your show on the nod, and it's my turn now!"

Another Admirable Crichton.

Mr. L. M. Balfour-Melville, President of the Scottish Cricket Union, is a name to conjure with. Thirty-seven years ago he figured in the first inter-city match played between Edinburgh and Glasgow, scoring 171 for the former, and scarcely a year has passed without his name figuring in the century-list. As a wicket-keeper, too, he was equally famous, and he proved his versatility by being capped against England in the Rugby International of 1879, and winning the covered court lawn tennis championship.

The Guilty Wretch.

One winter's evening in the city of Belfast, when a water inspector was going his round, he stopped at one of the mains in a busy street to turn off the water owing to some repairs. He had just put the handle on the tap and begun turning when a hand was placed on his shoulder. Looking round, he was confronted by a tipsy gentleman, who said in a drunken tone:

"So I have found you at last, have I? It's you that's turning the street round, is it?"—London Telegraph.

A BUSINESS EXTENDER.

The Kind of Man For Whom There is a Big Demand.

"I am looking for a clerk, a man with a personality, a man who can do things and increase my business. Money is no item. I will not take salary into consideration. I will pay \$100, \$125 or whatever he is worth. I want the man." That is what a successful merchant said some days ago.

Let us pay our respects to the merchant who is looking for a clerk of this kind. A good clerk deserves a good salary and usually gets it. This matter of good pay for good services is the basic principle of the relations between employer and employee. While all merchants are not willing to pay enough salary to their clerks, there are more merchants who are glad to pay all a clerk is worth than there are clerks who are glad to be worth all they are paid.

Every village, town and city is looking for the man who can "increase business." The man who will work for the interests of his employer is wanted the world over. The world of business is crying out for such men, for men whom it can trust and in whom it can place confidence that a thing will be done when the "boss" back is turned. This man is wanted in every store, factory, at every post and in every great business in the land.

If you are attempting to avoid responsibility and as much work as possible you will, unless by great mistake, escape promotion or increase in salary. There are two kinds of clerks, and only two kinds. One the entire business world is anxiously searching for, and the other the entire business world is anxiously waiting to get rid of.—Twin City Commercial Bulletin.

NEW LINES PLANNED

William Mackenzie Has Further Railway Projects.

HAS RAISED TEN MILLIONS

Railway Man Announces That He Will Connect Toronto and Ottawa, and Will Put In a Steam Road From Toronto to Niagara Falls—May Use Electricity Later On—Work to Commence Soon.

Toronto, July 19.—Mr. William Mackenzie, president of the Canadian Northern Railway, and the dominating figure in the electrical situation in Ontario, returned home yesterday. During the past two months Mr. Mackenzie has been in the old country money markets, and has sold debenture stocks for two portions of the Canadian Northern Railway system. The first was an offering of £1,200,000 of four per cent. debenture stock, guaranteed by the two western provinces which the new lines are designed to benefit. These were sold at 97 1/2. The second was an issue of £800,000 four per cent. debenture stock, which sold at 92, and it is in this last issue that public interest in this province was centered. The prospectus of the issue would be applied towards the construction of a line from Toronto to Niagara Falls, with an extension from Toronto to Port Hope, Belleville and Smith's Falls, to Ottawa to join existing lines in Montreal and Quebec via Hawkesbury.

At his home last evening Mr. Mackenzie said that work upon the line to Niagara Falls would be commenced in the near future. Mr. Mackenzie said it was to be expected that the new line would be a steam railway at first, and that a part of the Electrical Development Co.'s right of way would be used.

Bold Robbers In Germany.

Berlin, July 19.—Brigands held the highway between Augustowo and Lipsk on the Russo-German border all one day of the past week and captured some 50 or 60 travelers whom they relieved of money estimated in the aggregate at \$25,000. Most of the victims were horse dealers on their way to the annual horse market at Lipsk.

One of the exploits of the highway-men was to seize a toll gate house. They bound the keeper and his wife, and stationed one of their number, dressed in the gatekeeper's uniform, outside the gate.

Peasants were allowed to pass on the payment of the usual fee, but prosperous-looking travelers were overpowered and robbed and then imprisoned in the attic of the gatekeeper's house. One man was murdered.

Japs Get a Preference.

Seattle, Wash., July 19.—According to owners of American harbor fishing vessels here yesterday the recent order forbidding Americans to buy herring bait in British Columbia waters is intended to force Americans to put their ships under the British flag and transfer their business to the Canadian side, as one Boston company has already done.

The American fishermen said that Japanese fishermen are given every privilege over Americans by the regulations just promulgated by the Dominion Council. In the harbor of Nanaimo, B.C., alone between November 1, 1905, and February 15, 1906, Japanese fishermen caught and shipped to Japan 20,000 tons of herring.

Shot by Burglar.

Montreal, July 19.—A daring hold-up was committed in the store of a Pole named Boelaski on Saturday night.

At a late hour two men entered the store and demanded money, and when they were refused one of them drew a revolver and shot Boelaski and also shot his wife. Boelaski's wound is dangerous.

The men then went through the till and made their escape.

No Reprieve In England.

London, July 19.—William Hampton, a farmer resident of Ishpeming, Mich., will be hanged on July 20 in Stearth, Cornwall, for the murder there on May 2 of this year of Emily Tredres, his sweetheart. He was to have been executed on July 15, but a delay was allowed to permit a decision on a reprieve, which now is refused.

Washington Is Grieved.

Washington, July 19.—Formal notification of the ratification of the Franco-Canadian Treaty by the French Parliament have reached the State Department, and there are indications that the Department is far from pleased with the effect the treaty will have on imports of American manufactures into France and Canada.

Cold In France.

Paris, July 19.—France has experienced this season the coldest and wettest June and July since 1854. The prevailing low temperature and excessive rains have wrought severe injury to vegetables, fruits and grapes and delayed the maturing of all cereal crops.

HEAVINESS AT PIT OF THE STOMACH

A Feeling of Uneasiness Before And After Meals Is Quickly Cured With Nerviline.

NERVILINE RESTORES WRACKED STOMACHS.

Nearly everyone gets an occasional attack of indigestion and knows just what that heavy feeling means in the stomach. "I was subject to stomach derangements and my health was seriously hampered on this account. After meals I belched gas, had a weighty sensation in my stomach and over my left side. The first relief I got was from Nerviline—I used it three times a day and was cured. I continue to use Nerviline occasionally, and find it is a wonderful aid to the stomach and digestive organs."

The above letter comes from Mrs. P. R. Stetson, wife of an important merchant in Brickton, and still further proof of the exceptional power of Nerviline is furnished by A. E. Rossman, the well known upholsterer of Chester, who writes:

"Let everyone with a bad stomach use 'Nerviline' and I am sure there will be few sufferers left. I used to have cramps, rumbling noises, gas on my stomach and severe fits of indigestion. Nerviline was the only remedy that gave me relief and I found it so entirely satisfactory that I would like to have my letter of recommendation published broadcast in order that others may profit by my experience."

You'll find a hundred uses for Nerviline—it's a trusty household remedy that sells to the extent of a million bottles per year—that's the best proof that it must cure and give unlimited satisfaction. Refuse anything offered in place of Nerviline, 25 cents per bottle, five for \$1. All dealers or The Catarrhose Co., Kingston, Ont.

SHE WEARS LARGE BOOTS.

Mr. J. H. Woods, of Point Rock, Ind., Co., N. Y., had a hard experience. "A bad attack of Catarrh settled in my forehead and the pain over my eyes was so intense I thought my head would burst. My voice grew very hoarse and I coughed very much, and through the winter could scarcely speak. My voice was one. Two doctors didn't help me at all. The next doctor ordered 'Catarrhose.' It cured me and now many others here use it also. My doctor says he doesn't know anything so good for Catarrh and Throat Trouble as 'Catarrhose.' Use it today, you're better tomorrow, 25c. and \$1.80 at all dealers. Try Catarrhose."

Shoots Two Assailants.

Cleveland, Ohio, July 19.—In a fight growing out of a strike of employees of the Lake Carriers, Richard Brown and Wm. Woods, were shot and killed here Saturday night, and one man was shot in the arm. James P. Purvis, 52 years old, a marine engineer of Detroit, was later arrested. Purvis is a non-union chief engineer on the steamer Centurion, which arrived here early in the evening. He was attacked by three men. He escaped and was again attacked, and drew his revolver and fired.

Storm In Ottawa District.

Ottawa, July 17.—Yesterday's storm did much damage to hay in the district, as the rain was exceedingly abundant and heavy for hours. A number of telephone lines were put out of order by lightning.

The most cooling of hot weather beverages is iced "Salada" Tea. It is most delicious.

CHOLERA IN ST. PETERSBURG.

Committee of Investigation Reveals Terribly Unsanitary Conditions in the City.

ST. PETERSBURG, July 17.—Prince Viczemska, but now the refuge of the refuse of the capital. The long dark and filthy corridors even serve as sleeping places, and in every room are any number of people from three to a score.

Even the police fear to enter this building where many a crime has been committed of which the world has never heard.

The committee visited the public markets, and there also is much to cause anxiety. Blood, bones, and refuse are left lying about to putrefy and attract dogs and vermin of all kinds. The gutters are full of stagnant water.

Sewers are discharged into the Neva and contaminate the river thereby compromising the health of the whole town. The committee is seeking to remedy this terrible state of affairs. The first proposal is that the sewerage be conducted to the mouth of the river so it will be discharged into the sea.

A number of markets have been closed and it is a question of closing the Viczemska Lavra.

He—Well, turn about is fair play. Didn't the church join them?

Of course the shoe clerk was new to the business or he never would have made such a break.

"What you need, madam," he said "is a number five instead of a number three."

"Number five!" echoed the fair customer indignantly. "You must be thinking of the size of your hat, young man."

Countess Grey Improving.

Ottawa, July 19.—Countess Grey, according to a statement from Government House, is making excellent progress towards recovery from the attack of scarlet fever which has confined her to her rooms at Rideau Hall for two weeks. She will not be able to go out for some time.

Captain Newton, who is at the contagious disease hospital with scarlet fever, is also making good progress.

Doctors say the country is full of it. First comes a chill, then cold develops—the inflammation grows—you can't draw a long breath—lungs and sides get sore, and pleurisy sets in. A good home-cure consists in taking twenty drops of Nerviline every four hours. Supplement this by vigorously rubbing the sides and chest with Nerviline, and when warmth and circulation are established, put a Nerviline Porous Plaster over the aching spot. Nerviline Treatment is always successful in colds, neuralgia, and pleurisy. Try it yourself.

UPPER QUEENSBURY.

July 16.—The hay crop all the way along the river from Fredericton to Meductic will not be more than two thirds of an average crop but it has improved very much in the last three or four weeks.

Grain all along the same route is coming on nicely and bids fair to be a good crop. Also potatoes are doing well as yet but what the result will be when the bugs and rust get in their work it is too soon to tell.

Mr. J. S. Scott passed down with his corporation drive and will get into the boom limits tonight. Only five days from Woodstock down with quite a heavy drive.

Isaiah Morrison, of Granite Hill, is building a fine large barn, which when completed, will add very much to the looks of his farm and finish out the good appearance of his buildings as he already has a fine farm house recently built and well painted. Robert Hagerman, of Upper Bear Island is superintending the work of building the barn. There were up-lards of thirty men there at work last Saturday helping to raise it and board it in.

John Hagerman, of Upper Bear Island is now building a cellar wall. He has the lumber ready to build a fine house as soon as the wall is ready for it.

Ira Hagerman, of Upper Queensbury, is also remodelling his house and putting on new outside finishing, which will add very much to the appearance of the house and change its appearance so much that it will not be known as the Old Esquire Morehouse house any longer.
