

# ENCOURAGE SHOOTING.

## All Militiamen Should Be Made Good Shots.

(Toronto Globe.)

"I have at times become very indignant that rifle shooting does not seem to be a more fashionable sport than it is among our young men," said the Hon. Col. J. M. Gibson, Lieut.-Governor of Ontario, in the course of an interview with The Globe yesterday. "It is, in my opinion, the best sport there is, and young men who go on every opportunity to see the ball games might spend their time much more favorably on the ranges. By doing so they would be making themselves of value to their country, as well as enjoying a very excellent sport. For the man who can make a score of from eighty to ninety out of a possible of a hundred at three ranges is worth a dozen of those who cannot use a rifle at all."

"It can be done. Any man with an ordinary degree of intelligence can be developed into an efficient rifle shot with careful instruction and coaching and plenty of practice."

"Those regiments which have the facilities for rifle shooting should make use of them to the fullest extent possible. Every man in the battalions should be taken out to shoot, not merely those who are good shots already. Those who make a good beginning should be encouraged. Those who do not do so well at the start should be coaxed to go out again and again to get at home with the

rifle. They won't all become Bisley shots, but they can all become good efficient men with a rifle. Some of the best shots in the 13th, my old regiment, now are those who, when I had command of the regiment, were some of the best promising beginners."

Colonel Gibson thought that the new regulations put in force at the militia camps this year, making the men shoot for their pay, was a step in the right direction, and he was not surprised that some of the corps had made much better showing in musketry at this year's camps than they had before.

Questioned as to the reason for the Canadian team's success at the Bisley matches, Colonel Gibson attributed the success in some degree to the Ross rifle, but in the main to the men composing the team. That all the credit was not due to the rifle was evident from the fact that some of the best scoring among the Canadians was done with the Lee-Enfield rifle. He thought there was no doubt about the admissibility of the Ross rifle as a service weapon, otherwise it would not have been allowed.

Colonel Gibson himself had used the Ross rifle, and liked it in preference to the Lee-Enfield for range shooting. There was no doubt, he thought, that with the improved sights it was a superior weapon to the old one, although the Lee-Enfield was hard to beat.

London, July 29.—(C.A.P. ### Damaged by Iceberg.

St. John's, Nfld., July 29.—The menacing presence of icebergs in the path of the ocean steamers off Cape Race has again been manifested, the Canadian Pacific Railway steamer Montrose, from London via Antwerp, for Montreal, having proceeded only yesterday morning after an enforced halt of four days for the purpose of effecting temporary repairs following a collision with a giant ice pillar.

The plight of the steamer, which is carrying passengers and freight from Europe to Montreal, was not known here until yesterday when the British warship Brilliant arrived and reported standing by the Montrose for four days off Cape Race and helping to repair the damage.

Both bows of the Montrose are telescoped and the hawser pipes entirely destroyed. The forepeak was flooded.

### Motorman Was Incompetent.

Winnipeg, July 29.—The adjourned coroner's inquest on Enoch Rees and Ernest Illette, who were crushed between street cars on the devil strip at the corner of Logan and Main streets on Sunday, blamed the Motorman Taylor for moving his car when the other car was already on the curve, and declared him to be grossly incompetent. They censured the street railway for employing incompetent motormen and for not having a standard examination.

Both Taylor and the other motorman, Herbert, were detained by the police, and in the ordinary course will appear before the magistrate on Wednesday.

### Believes Son Was Murdered.

Montreal, July 29.—A clairvoyant having made Madame F. Fournier believe that her son had been murdered and that his body would be found at the bottom of Lake Montfort, a detective and druggers left yesterday to find the body. The first report went to show that young Fournier had been accidentally drowned.

### THE GRAND TRUNK IN LONDON ENGLAND.

The crowning importance of the Grand Trunk Railway System, the expansion and extension of business, has necessitated the building of a new Grand Trunk building in London, Eng. The need of more room has been made all the more apparent since the Grand Trunk Pacific was projected. The Company has been fortunate enough to secure a site at No. 17-19 Cockspur Street, S. W., from the London County Council. Upon this site they have erected a splendid building. The Canadian Government Emigration offices are at Charing Cross, but a stone's throw from the Grand Trunk building. It is at the very hub of London. It is within five minutes of half a dozen leading Hotels and near the intake to the tube at Trafalgar Square Station. Motor busses pass the door every few seconds to all parts of London, North, South, East and West.

The inside furnishings of the new building are luxuriously complete; mail is picked up every hour of the day.

A noticeable feature of the building is the range of circular fronted balconies on the fifth floor in front of deeply recessed windows, which are surmounted by a very effective heavy moulded and medallioned main cornice.

The carving on the front wall, which includes the Coat of Arms of the Canadian provinces traversed by the Grand Trunk System, was executed by Mr. W. S. Frith. The graceful figures over the principal entrance, emblematic of travel by land and sea, are the work of Mr. Albert Drury, A. R. A.

The public offices entered from Cockspur Street, through the great central doorway, is a fine room forty feet long and eighteen feet high. The floor is marble, the walls are panelled in oak, with inlays of ebony and holly. In this room there is a magnificent frieze, by Mr. Frank Brangwyn, A. R. A., which pictures Canada in the wild, hunting scenes: Indian life; the meeting of the pathfinder—the engineer—with the Indian chief, and finally the civilizing influence of the railway and the white man upon the red man's country.

The new Offices were opened on Dominion Day, and hereafter the European Traffic Department of the Grand Trunk Railway System and the Grand Trunk Pacific Railway will occupy these new premises, which have already become one of the sights to be seen in London.

### QUESTION FOR EVERY READER

If you could find a simple vegetable remedy for keeping all organs healthy and strong—wouldn't you use it? Most pills are harsh, cause pain, and sick stomach. Dr. Hamilton's Pills are different—they regulate and system so gently, act so silently you scarcely realize you've taken medicine. You are cleansed—appetite improves, color clears, sleep is restored. Every man, woman and child is helped by Dr. Hamilton's Pills. Try a 25c. box.

What! And the second time? Only one hour. And pray, what offence had you committed to deserve so small a punishment?

A few chopped almonds added to a custard or bread pudding will greatly improve its flavor.

### CATARRH CURED OR MONEY BACK.

The cause of Catarrh is a germ. It multiplies in the lining of the nose and throat, spreads to the bronchial tubes and finally reaches the lungs—it goes to the stomach—and fails to cure—Catarrhzone is inhaled. It goes everywhere—gets right after the germs—kills them—heals the soreness—stops discharge and hacking—cures every trace of Catarrh. You're absolutely certain of cure for Catarrh, throat irritation, colds or bronchitis, if you use Catarrhzone. 25c. and \$1.00 sizes sold everywhere.
