FREDERICTON, N. B., WEDNESDAY, MARCH 10, 1909.

NO. 57

Mayor Chestnut, in his inaugural address, intimated that there would be plenty of work for the city council to do during the coming year. The matters touched upon by His Worship are of great importance to the community, and he acted wisely in bringing them to the notice of the council. In these days of progress and expansion Fredericton cannot afford to stand still and allow the world to go along and leave it.

IMPORTANT GATHERING COUNCIL SWORN IN.

Municipalities Convention Opened at Moncton With Many Delegates in Attendance.

MONCTON, March 10.—(Special)—From many points all over New Brunswick delegates are arriving here to attend the Union of New Brunswick Municipalities' convention, which has its formal opening this afternoon.

The first meeting called for by the program, assembled at eleven o'clock this morning in the city building, being a meeting of the executive committee, and was of an informal nature.

This afternoon at two o'clock the real opening of the convention takes place, when Mayor Willett will extend the welcome of the city to the delegates, and President Teed's address will be delivered.

Mayor Chestnut In His Inaugural Refers to Matters of Importance.

The members of the newly elected city council were sworn in office at the city council chamber at four o'clock Tuesday afternoon.

Mayor Chestnut presided, and all the members of the council were present.

City Clerk McCready announced the names of the successful candidates in Monday's election, after which he administered the oaths of office. After taking the oath the new aldermen signed the roll in turn.

THE MAYOR'S ADDRESS.
His Worship Mayor Chestnut delivered his inaugural address, in which he referred to several important matters that were to be dealt with by the council this year. He welcomed the newly elected council, and thought that in point of ability they would compare favorably with any previous council. A majority of the members were not new to civic life and had had considerable experience at the board. He trusted that when the smoke of battle had cleared away that the new aldermen would take up their duties with a serene brow.

The attention of the Public Works department of Canada would also be called to the need of dredging the Oromocto shoals. This was a very important matter for our port, and if the work is carried out it will allow larger steamers and coal barges to come to the city with greater facility.

The provincial exhibition which would come off this fall deserved well at the hands of the citizens. He hoped that the council would put up a guarantee to the directors in case any unforeseen circumstances demanded it. Had it not been for St. John, we would have had the Dominion grant this year. St. John butted in and spoiled our chances, but we do not need the Dominion grant to make our show a success. We always have a successful exhibition.

The St. John Valley railway was another important matter. It was not necessary to point out the great advantages that the road would be to our city. If this board could take action it should be taken, and efforts should be made to strengthen the hands of other bodies who were working along this line.

His Worship in conclusion said he hoped that the discussions would be harmonious as that would be the only way the council could arrive at a reasonable conclusion to the benefit of the city. He would not like the members at the same time to sacrifice their opinions. His Worship wished the new board every happiness and success.

The city clerk stated that at the last council meeting a proposition was made to send delegates to the Municipalities convention at Moncton, and that it had been decided to send the Mayor, City Clerk, City Auditor and two aldermen, to represent the city.

"The following reference to our Imperial Cold Cream is taken from a letter of a well known Boston business man: 'When in your town, sometime in December, I sent the porter of the hotel out for a box of cold cream, for which he paid, I think 25 cents. Without doubt this was the finest cold cream that I have ever used, and I would like one half dozen boxes of it. You may send it any way you please.'

THE CIVIC ELECTION

Marysville Pastor Expresses Disappointment over the Result.

ST. JOHN, March 10.—(Special)—Rev. J. C. Berrie arrived in the city today on the Atlantic express. Discussing the result of the civic elections at Fredericton, Rev. Mr. Berrie said he was much disappointed that the Scott ticket didn't win. He blamed their defeat on the charges of extravagance which had been made against them.

He also questioned the sincerity of some of the temperance sentiment, saying that the people often cared more for a dog than for a boy. To illustrate this he said they would employ a man to find out who killed a dog, but they refused to pay for a spotter to discover who were killing their boys.

LEON MAY MAKE CONFESSION.

Convicted Murderer May Tell all he Knows to Save His Companion.

(St. John Sun.)

"You have to die. Would you let me die when you can clear me?" This is what the Andover jailer overheard Tony Arosia say to Leon Seppel yesterday afternoon, according to a telephone message from Andover to The Sun last night.

The jailer telephoned immediately for Father Ryan and a long consultation ensued between the priest and the condemned Italians.

Tony, who has protested his innocence from the start, is now appealing to the conscience of his companion in crime to rid him of the hangman's noose. It looks now as if he has succeeded, and a confession from Seppel would not come in the way of a surprise to those who are conversant with the case.

Yesterday afternoon the jailer had occasion to enter the corridor of which the cells of the Italians are located. He was just in time to hear a piteous appeal coming from the lips of Tony in conversation with Seppel. Thinking that an acknowledgment of the crime might immediately be forthcoming he sent for Father Ryan, who remained closeted with the condemned men for some hours. Upon leaving he is said to have stated to Leon that he would be back in two weeks and that in the meantime he would do well to think about his confession. Subsequently Tony told the jailer that Leon could clear him if he only would. Future developments in the matter are being awaited with considerable interest in Andover.

THE STOCK MARKET.

Prices Reduced Today Under Heavy Selling Pressure.

NEW YORK, March 10.—(Special)—The opening prices of stocks receded under brisk selling pressure, and affected by sympathy with earlier declines in London, but the losses generally were made up of small fractions.

"That isn't it. I never had any seat."

MAY BE PROMOTED.

Mr. A. P. Hazen, of Bank B. N. A., St. John, Talked of as Manager for Montreal.

MONTREAL, March 10.—(Special)—It is more probable than ever that the successor of Mr. A. E. Ellis as manager of the Bank of British North America here will be Mr. A. P. Hazen of the Branch at St. John. The only other name mentioned is that of Mr. Robert Inglis of Toronto. (Mr. Inglis was at one time manager of the Fredericton agency.)

INTERCOLLEGIATE DEBATE.

Hon. A. S. White, Rev. Dr. Magill and either Chief Justice Barker or Judge McLeod will be the judges in the coming debate between Mount Allison University and the University of New Brunswick. Hon. Mr. White and Dr. Magill have been agreed upon and one of the other two gentlemen will be selected at the third judge. The debate takes place in this city on the 21st inst.

Cannibal Cows.

"Now, children," said the pretty teacher, "I want you all to write a composition on the cow. You know what a cow is. You know that a cow gives us all the milk we drink. Now, write me something original about the cow as you know her, nothing commonplace." It would take several pages to print the results, but there is room for at least one composition by a girl of seven:

"A cow is a quadruped having four legs and four feet. She gives milk and sometimes has horns, but not always. The cow's baby is called a calf and sometimes bossy. When a cow talks she lows. A cow with horns can hook, but a cow without horns is helpless. A cow is a carnivorous animal when she has a chance, but she ordinarily eats grass, if there is any. A cow is a cannibal if you let her alone, for she will eat her own kind."

The horrified teacher exclaimed: "Father May, where on earth did you get the idea, the ridiculous idea, that a cow is carnivorous and a cannibal? You meant to say that a cow is herbivorous or granivorous."

"No, teacher. I read it in the Holy Bible. Don't you remember there were seven fine fat cows feeding near a brook and seven lean and hungry cows came and ate them up? See Genesis xii, 4."

Made a Name For Themselves.

A Toronto man was driving through one of the back parishes of Simcoe county. Presently his companion spoke of a family named Stratheona. "These people have a peculiar name," the visitor observed. "Stratheona! Where did they get it?" "Oh, it wasn't always Stratheona," said the driver. "They used to call themselves Smith. But Lord Stratheona, you know, his name was Smith; so when he changed his name they changed their."

Rebuilding Three Rivers.

The work of rebuilding Three Rivers, Que., is proceeding steadily. Only six months have elapsed since the conflagration, but already about one-third of the burned district is built up or nearing completion—the class of buildings being in the main a great improvement upon the old structures.
