AMERICAN IGNORANCE.

When Hon. G. P. Graham returned from an official business trip to New York a few weeks ago he commented upon the absolute lack of Canadian news in the United States newspapers and contrasted it with the amount of space given by the newspapers of Canada to the News of the United States. The same point is emphasized by the London Times, who discussing the failure of Congress to pay any attention to the agitation for reciprocity with Canada says:

Americans are reminded by the Evening Post that the old time display in Canada of the Stars and Stripes alongside the Union Jack is now confined to occasions when both nations are represented, and that the tide of public sentiment there has been almost completely turned away from closer relations with the Dominion's southern neighbour. The journal attributes this to "the unspeakably narrow selfishness of protected interests in United States," and declares that "stand-patters" have "induced the government to grasp at the shadow of wealth and lose the substance of continental unity." It also says that the Senate's rejection of reciprocity with Canada in coal and its approval of retaliatory measures against any country which imposed discriminatory duties on wood-pulp imported into the United States will convert the Maple Leaf into the national symbol of proud rival power.

The Post is a voice crying in the wilderness. To the recent reciprocity propaganda here there has been as weak an echo in Washington as in Canada itself. Mr. Foster's speech at the Canadian Club in New York on May 14 might have been expected to arouse some comment; in only one newspaper was it reported—and then erroneously.

The incident is significant of the American attitude throughout—an attitude which renders the appearance of a Canadian news item in the Press a rare event. Somehow a good part of the United States seems still to be oblivious of the existence of the Dominion.

Some day the New York newspapers will awake up to the importance of Canada as a field for news other than that of the sensational character, which is mostly lies, and which is all the papers over the border will now publish from the Dominion.

CURRENT COMMENT

If the local Tory organ, which seems to be so much concerned over the shoe factory labor dispute, had had its way Fredericton would today be without a shoe factory. The organ has yet to say its first good word for this important industry.

It is announced that the Hazen government is to spend the princely sum of \$25,000 on the roads of the province this year. York County's share of the amount will be about \$2,000, about one-third of the amount the ratepayers of the county have been called upon to contribute in increased taxes.

The Newcastle Leader, owned by Hon. John Morrissey, reports that a pack of wolves was seen in the Miramichi country a few days ago. We know that the Hazen government made an importation of Kentucky thoroughbreds some time ago, but we were not aware they had brought animals of a carnivorous type into the province.

Amherst News.—Those Montreal and New Brunswick reporters who had Evelyn Thaw located up in the north of New Brunswick drinking champagne and killing mosquitoes, have certainly another thick coming to them. The fair Evelyn is still in New York attending the trial of her husband. There has been some American maid pulling the pedal extremities of some fresh reporters.

The Conservative Ottawa Journal says:—"It is announced that the Grand Trunk Pacific loan issue has already over-subscribed. There is no reason why it should not have been in favor in the London market. The faith of the Dominion is pledged to the hit on it. Mr. William Mackenzie also comes home with four millions for a Canadian Northern road across Ontario from Hawkesbury on the Ottawa river to a point on the Niagara river. In spite of the sorehead growling as to the impairment of Canadian credits in London, there does not seem to be much difficulty in getting money on Canadian securities."

BASEBALL.

The Royal Regiment and 71st Regiment Band played a game of ball at the Barracks Square last evening. The game resulted in a victory for the Royal Regiment by a score of 13 to 12.

BOOZE SELLERS FINED.

Hon. L. P. Farris, police commissioner on the Transcontinental, was in the city last evening on his way home from Perth, where he disposed of a number of cases against parties charged with selling liquor in the prohibited district. Henry Dalkins was convicted of first and second offences and was fined \$150 and costs. Fletcher Baskin, of Plaster Rock, was fined \$50 and costs for a first offence. William Day, Arthur Day and Thomas Wright charged with selling liquor, were acquitted. On Thursday Constable Pearson seized a quantity of liquor from one Emil Riddell, who was heading for the construction camp, and the commissioner ordered it to be destroyed.

THE BRIDGE.

Contractor McVey, who has the contract for building the piers at the highway is making good progress with the work. He has the piles driven and foundations laid for two piers. The water is still quite high for this time of year, but notwithstanding this the men are doing good work.

FOR OUTING.

They have just received from the factory at Edgcombe's, a stock of ladies' sweater coats in the new makes. These are just wanted now for boating and outings. This is a good time to get fitted out at the "Big Store."—d.

TENNIS TODAY.

The tennis club is holding a local match of mixed doubles at the tennis court this afternoon. Prizes are donated by Mrs. J. Alex Thompson and Miss Radcliffe. Tea will be served by the ladies tea committee.

FOR ASSAULT.

Mrs. May Howe, formerly May Waters, a colored belle of prominence, had a summons served on her by Sergt. Phillips today on a charge of assault on some friends in her circle.

Coun. Alex. Brewer, of Buritt's Corner was in the city yesterday.
