TO CUT IN 15 DAYS

Southern Alberta Wheat Is Now Fully Headed Out.

RAILROADS ARE PREPARING

Thirty-Five Thousand Cars Are Said to Be In Readiness to Handle the Grain-Crop In Alberta May Be In Excess of Previous Years—Rush of Land-Seekers Is Expected After the Harvest.

Calgary, Alta., July 30.—From all sections of Southern Alberta most encouraging crop reports are being received and indications are equal, if not superior, to any previous year. On an average 95 per cent. of grain is in head, and stands waist high. In some districts oats planted as late as first of June are heading out.

Crop experts, who have visited the various sections of Bow River Valley district state that wheat, oats and barley are fully headed and cutting will commence not later than Aug. 15. Flax, which shows long straw, is in full bloom. Some local districts estimate that their production of wheat this year will be at least two million bushels.

Already sowing of winter wheat has commenced and farmers show a marked desire to increase the acreage and whenever possible to irrigate land before sowing.

Railroads, while preparing to handle enormous crops of wheat, are also making every effort with a view to handling rush of land-seekers, which will result from harvesting of crops.

All of the railways of the west are concentrating their attention just now to the handling of grain shipments offered along their lines and it can be safely said that in point of adequate dispatch and in a more satisfactory manner than ever before.

From statements secured, each of the three great railroads in the west, as to the preparations they have made in this regard, and it is ascertained that approximately 35,000 box cars will be available for the movement of the crop with approximately 750 locomotives.

McCurdy to Make Endurance Test.

Ottawa, Ont., July 30.—"Do you intend to make an endurance test, to see how long the Silver Dart can stay up in the air," Mr. McCurdy was asked yesterday.

"We do," he replied, "but it will probably be ten days yet before we are ready. Though it is raining heavily here yesterday, we are at work getting the engines ready to put in the Silver Dart, and I think we will begin putting them in position this afternoon. It will take some time, as the bearings, propellers, etc., have to be very thoroughly tested after they are in."

Big Crop In Western U.S.

New York, July 30.—W. C. Brown, president of the New York Central lines, has received advices from railroad men throughout the west, but particularly Nebraska and Missouri, which, he said yesterday, lead him to believe that the yield of the principal crops would be better than the Government estimates. He said that he had information that wheat in Nebraska was thrashing out 27 bushels more than the average for the state last year, and added:

"Personally, I believe that the corn crop will reach 3,250,000,000 bushels."

Gompers In Berlin.

Berlin, July 30.—Samuel Gompers, president of the American Federation of Labor, arrived here yesterday to study labor conditions.

Both Legs Severed.

Kenora, July 30.—William Morris, aged 28, an employee of the Kenora Lumber Co., was struck by No. 2 train while on his way home to Kenora Wednesday night. The deceased, whose legs were severed, died shortly after being taken to the hospital here. The remains will be shipped to his home at Carleton Place.

Hon. John Dryden Dead.

Toronto, July 30.—The Hon. John Dryden, Provincial Minister of Agriculture from 1890 to 1905, died at his residence, 9 Prince Arthur avenue, yesterday evening, after an illness extending nearly fifteen months. He was 69 years of age. His demise was not unexpected.

Refinery for Royal Mint.

Ottawa, July 30.—Tenders have been received by the Government for the erection of the refinery in connection with the royal mint. The lowest bid, it is understood, is that of Maurice Whelan of Ottawa, who will get the contract.

Starts as Open Shop.

Youngstown, Ohio, July 30.—The first of the six sheet mills at the Youngstown Sheet & Tube Co. was started up Wednesday evening with non-union labor following the "open shop" declaration of the company of July 15.
