

"NERVILINE" CURES RHEUMATISM

And Here is the Proof—A Solemn Statement from a Four-years' Cripple, Who Says "Nerviline" Did It.

CURED 4½ YEARS.
"If I had lived through my suffering another year it would have been a miracle." This is the opening sentence of the declaration by Mr. J. Eccles Squires, member of one of the best known families for twenty miles around Sydney. "My hands were drawn out of shape, even my fingers were gnarled and crooked—my lameness, stiffness and inability to get about all showed the havoc rheumatism made with my health. The blessing of it all is that I have heard of Nerviline and now I am able to tell and to advise others how they may get well, too. My system was so weakened that I had to build up with a good tonic so I took Ferrozone at meals. But I never stopped rubbing on Nerviline—it had a magic influence on my stiff, painful joints, and bottle after bottle was rubbed on the painful parts. Nerviline cured me. I am well today—have been well for 4½ years."

You can also cure rheumatism, lumbago, sciatica, neuralgia or any pain or stiffness in the muscles or joints—to do so, use Nerviline. Don't let your druggist substitute. Get Nerviline only, large bottles 25c., or five bottles for \$1. Sold everywhere or The Catarthozone Co., Kingston, Ont.

The Ontario Clay Belt.

That part of Northern Ontario tapped by the Provincial Railway is attractive from an agricultural as well as from a mining standpoint. Mr. J. L. Englehart, chairman of the Provincial Railway Commission, just returned from an inspection of the country contiguous to the line, speaks enthusiastically of the richness of the soil and of the wealth of timber which clothes it. Much building is going on at new settlements along the route, and the prospect is that before many years the great "clay belt" 500 miles north of Toronto will support a considerable and a prosperous population.

Sausage.

Sausage has even from very early times been a popular table delicacy. Aristophanes was familiar with it, and in Roman days the sausages of Lucania were in high esteem. They were made from pork and the rind of the stork pine, flavored with bay leaves and other things more familiar. Bologna was celebrated for its sausages long before the German sausage had even thought of invading the rest of the world, and until quite lately it was commonly called in England a "polony."

Had the Old Man Cornered.

Do you think you can support me in the style to which I have been accustomed?" she asked.

"I don't know," he replied, "but I know this—I'll be able to support you in a better style than you will be accustomed to after this if you don't accept me. Your dad has sold short on wheat, and I've got 'em cornered."

TROUBLES INCREASE

Spain's Moorish and Civil War Become Threatening.

ALHUCEMAS IS ATTACKED

Six Thousand Moors Begin Assault on Penal Settlement—Barcelona Situation Is Worse and Artillery Is Being Used to Batter Down Ramparts in the Streets—Risings Reported in Other Parts.

London, July 30.—The desperate condition of Spain, both at home and abroad, was disclosed yesterday when the Spanish Government officially admitted the defeat of Government troops in a great battle in Morocco, and at the same time reports showed that Barcelona was completely in the hands of a revolutionary mob, the streets running with blood and the Spanish are still using machine guns in a vain attempt to check the onslaught of the revolutionary element.

The battle in Morocco has brought a crushing defeat to the Spanish forces. The casualties on the Spanish side reached 3,000, giving the defeat an aspect akin to that which the Italians met in invading Abyssinia.

The Moors, flushed with their victory, are advancing to attack the Spaniards at another strategic point, Alhucemas.

The latest despatches indicate that Melilla, the Spanish stronghold so pressed by the Moorish forces that its safety is in danger, and its capitulation to the Moors would not cause surprise.

The internal condition of Spain is bordering on anarchy. Barcelona, the second largest city of Spain and the commercial rival of Madrid, is a centre of riot, pillage, the burning of public and religious institutions and of bloody fighting between the Spanish troops and rioters entrenched behind high barricades. The gravity of the situation, as related from points along the Spanish frontier, suggests the bloody days of the Paris Commune.

The Government at Madrid is meeting the situation with stern repressive measures. But the report indicates that the military garrison at the capital is disaffected, and the popular sentiment is shown by reports that a vast crowd has held an anti-war manifestation in front of the royal palace.

Rent by Two Fears.

Madrid, July 30.—Spain to-day is rent by two fears—the fate of the army in Morocco and the situation in the Mediterranean provinces in Catalonia.

At the outskirts of Melilla the Spanish arms have suffered a serious check. Three thousand soldiers, have either been slain or wounded, and

the Moorish forces are lighting at the very walls of the city itself.

News from Barcelona, the centre of the revolutionary outbreaks is extremely meagre and unsatisfactory. From Lisbon comes the report that the revolutionists are using bombs and that 100 persons were killed and 200 wounded during the earlier stages of the conflicts.

Insurrectionary outbreaks are reported from many points in Spain. At Granollers two convents have been burned, while at Casadellave the civil guard was disarmed and imprisoned in the barracks. The revolutionists are active at Llahansa and Firnas where the railroads have been dynamited. Financial institutions are sending their funds across the frontier.

Alhucemas Attacked.

Alhucemas, Morocco, July 29.—An army of 6,000 Moors is now attacking this place.

Alhucemas is a small island fortress and prison settlement belonging to Spain. It is situated in the Mediterranean on the coast of Morocco, five miles south of Cape Morro.

Fighting at Barcelona.

Paris, July 30.—Special despatches received here yesterday say that the fighting Wednesday in Barcelona was more sanguinary than previous despatches indicated. Machine guns and grape were used against the rioters. The sidewalks and buildings are spattered with the blood of the victims. Everywhere women and children are wandering in search of their husbands and fathers. Incendiarism is rampant.

Think Man Was Murdered.

North Bay, July 30.—The finding of the dead body of C. A. Ardell, C.P.R. brakeman, near Markstay, on the morning of July 1, and the circumstances surrounding the tragedy, occasioned considerable suspicion at the time that his death was not the result of an accident. No inquest was held and the body was buried without examination.

Ardell's train was held up by a wreck ahead and he took advantage of the wait to visit a farm house about a mile away, where a dance was in progress, but the inmates deny that he ever reached there. In any event, his body was found next morning near the railway tracks in a mangled condition. In Markstay the impression is general that Ardell met with foul play and was placed upon the railway tracks.

Gold Mine Sold.

North Bay, July 30.—A North Bay syndicate holding 27 mining claims on Frederickhouse River, north of Cochrane, are richer to-day by \$25,000 as a result of the taking up of an option held by Mr. Martin on the properties. Mr. Martin disposed of the claims to Montreal capitalists, the purchase price, including the payment of \$50,000 and a large interest in the company to be formed.

The claims are a gold proposition, richly mineralized with both quartz and placer showings.

Not Sisters

Now and again you see two women passing down the street who look like sisters. You are astonished to learn that they are mother and daughter, and you realize that a woman at forty or forty-five ought to be at her finest and fairest. Why isn't it so?

The general health of woman is so intimately associated with the local health of the essentially feminine organs that there can be no red cheeks and round form where there is female weakness.

Women who have suffered from this trouble have found prompt relief and cure in the use of Dr. Pierce's Favorite Prescription. It gives vigor and vitality to the organs of womanhood. It clears the complexion, brightens the eyes and reddens the cheeks.

No alcohol, or habit-forming drugs is contained in "Favorite Prescription."

Any sick woman may consult Dr. Pierce by letter, free. Every letter is held as sacredly confidential, and answered in a plain envelope. Address: World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.
