TWO BILLS PASSED

Commees and Canada Life Measures Get Third Reading.

MR. BORDEN FIGHTS HARD

Opposition Leader Puts Up a Stiff Struggle on Score of Government's Power to Expropriate Land Which He Says Belongs to Province—Messrs. Turfiff and Lancaster Get After the Insurance Bill.

Ottawa, May 10.—After a mild parting kick administered by Mr. Borden and a division challenged by the Opposition on the third reading, Mr. Commees' bill to incorporate the Ontario & Michigan Power Co. completed its stormy passage through the House of Commons Saturday.

R. L. Borden strongly resisted the argument that the Federal Government had the right to expropriate provincial lands.

"If this Parliament, acting within its jurisdiction, can expropriate or authorize the expropriation of lands belonging to the Provincial Government, then the Legislature of the province, acting within its jurisdiction, can authorize the expropriation of lands belonging to the Government of Canada. There is no escape from that."

"If my right hon. friend's view is correct the western provinces could get their lands back from Canada by expropriating them, without much compensation, because the ordinary principle of compensation, as anyone who bestows the slightest attention upon the subject knows, is the value of the land, but the person who expropriates, but to the person from whom it was expropriated."

"As a matter of fact, no such power exists."

Mr. Borden concluded by saying that the power of expropriation was the only point in the bill from which he dissented.

In discussing the Canada Life bill, J. G. Turfiff (Lib., Assiniboia) said it was corporation legislation against the people of the worst type. It would take away the rights of some 30,000 or 40,000 Canadian policyholders, but, more serious than that was the fact that they could not take away the rights of the British and American policyholders. Since the rate paid to the policyholders had gone down, the rates to the stockholders had gone up. So had the salaries, which were now 50 per cent. of the original capital of the company and six per cent. on the present paid-up capital.

Mr. Roy (Lib., Montmagny) thought it would be a good thing if the legislation was delayed for six months, so that shareholders and policyholders might reach an agreement.

In 1873, the people who wanted the legislation could have got what they asked for, said Mr. Lancaster, who said it was an unfair statement that A. H. Clarke had made that Senator Cox was the target of the Opposition. The bill should be left over until the insurance law had been amended.

Mr. Lennox asked Sir Wilfrid Laurier if the Government had received any opinion on the measure from the Minister of Justice, and was told that no further opinion had been given by Mr. Aylesworth that had been stated in the House. The bill was then passed through the various stages and carried on division.

The sub-committee of the banking and commerce committee, which has been considering in camera details of the insurance bill will, to-morrow, make a report to the full committee, which it is expected will send the bill on the same day to the House of Commons.

It is expected that if any amendments are proposed, it will be agreed to take them into consideration in the committee of the whole House.

Unless unexpected difficulties arise it is believed the bill will be given its third reading this week by the Commons, but will still have to be passed by the Senate.

Liberal members of Parliament have signed a resolution addressed to Hon. Wm. Pugsley, expressing their "unbounded confidence" in his honesty and integrity and their "belief in the absolute fairness and partisanship" of the Landry commission report; also complaining that the Conservative party did not carry out arrangements as to the duration of the debate "because they believed they could prevent the Government from receiving as large a majority as they would have had had the vote been taken when agreed upon."

Babe Ginned With Cotton.
Galveston, Texas, May 10.—The disappearance of little Alfred Hartman, the two-year-old son of George and Angelina Hartman of Gillespie County, five months ago, has been solved by the finding of the flattened body of the infant in a bale of cotton opened at a gin in Liverpool, England. The child crept into the press while it was open, and falling asleep was ginned to the bale.

Fatal Strike Riot.
Duluth, May 10.—One man dead and six others injured, the result of a riot at Superior, Wis., between union and non-union men, when the coal-laden steamer Berlin tied up at the Northwestern Fuel Co.'s dock. It is thought a private detective fired the fatal shot.

China's Tariff.
Washington, May 10.—All the Governments except Germany, which have been surrounded by the United States on the subject, have assented in principle, to the wish of China for a conference to consider the question of raising her tariff rates.

German Emigration Ceasing.
Berlin, May 10.—The press is gratified by the publication of statistics showing that emigration from Germany has practically ceased. The number emigrating in 1908 was 19,883, the lowest in 30 years.

FRANCE IS AROUSED

Danger of Huge Strike to Republic Is Apparent to All.

MAY MEAN NEW COMMUNE

Premier Clemenceau Realizes That Trouble With Government Employees Is Now a Fight to the Finish and Defeat Means Death to Parliament—He Has a Majority of the People With Him.

Paris, May 10.—The Government is resolved to stake its existence on its fight against the insurgent postal and telegraph employees and railway servants. Premier Clemenceau and his energetic Minister of Public Works, Louis Barthou, are now fully aware that the immense majority of the nation is supporting them in their struggle with the revolutionary employees. Even extreme radicals like Mascaraud deny that state servants have the right to strike. The Clemenceau Cabinet has taken measures, and is fully prepared to crush the threatened revolutionary strikes.

The French Republic has never before been confronted with a more serious situation. Its own servants in the postal and railway departments have been organizing themselves into groups and syndicates, fraternizing with the workmen of the General Federation of Labor and with the proletariat under the dictatorship of "King" Pataud and his command leaders, who shake their first at President Fallieres and at all the representatives of civil and military authority. They preach anti-militarism and anarchy.

Capital is alarmed, and during the last six weeks over a hundred million dollars of French funds has been invested abroad. The agitation of the rebellious civil servants has already done incalculable injury to the industrial and commercial prosperity of the country. M. Clemenceau knows perfectly well that unless this revolt of Government employees is nipped in the bud the Parliamentary regime in France must disappear and be replaced by the Commune of 1871. No foreigners would feel secure in a country without law or order, and France, while retaining her intellectual and artistic supremacy, would sink, politically and militarily, to the rank of a second-class nation.

All intelligent Frenchmen are fully alive to the national peril and stand firmly behind M. Clemenceau in the present life and death struggle against the anarchy, and the proclamation of the Commune of 1871, which is personified by "King" Pataud and the insurgent state employees.

Belgium Will Aid.

Brussels, May 10.—An arrangement has been concluded by the various Ministries whereby in case of necessity the state employees, including soldiers, could be detailed to other services for the purpose of meeting such contingencies as might arise.

HOTEL MAN DEAD.

One of the leading citizens of Woodstock, C. J. Tabor, proprietor of the Carlisle hotel, passed away on Saturday morning. He was taken ill with pneumonia on Thursday, but from the first his relatives had little hope for recovery. He was 45 years of age. He was connected with the hotel business prior to his taking over the Carlisle on Oct. 15, 1896. Deceased was one of the most active members of the Board of Trade, and a prominent Mason. The widow, who was a Miss Griffin of Fairville, St. John, and one son, Elmo, survive.
