

OUR OTTAWA LETTER.

How the Liberals Have Fostered the Farming Industry---The Telephone Problem.

(Special Correspondence.)

Ottawa, Aug. 11.—Failing to discover anything scandalous in the methods of administration, the Tory press seeks to attribute the general prosperity which exists throughout the country, to causes other than the real ones.

The Toronto News on August 3rd says:

"There has been a revolutionary change in the relation of the political parties of Canada to public questions since the accession of the Laurier government to office thirteen years ago. At that time the Toryism in the old Toryism the government has adopted. All that was progressive in the old Liberalism Mr. Borden has incorporated in the Conservative platform."

The News pays a tribute to Liberalism and incidentally accuses Mr. Borden of incorporating in his platform several good features of Liberal policy.

All the Conservatives had to offer, the people in 1908 was a promise to continue the policy of the Liberal government, and expend millions of money in purchasing the telegraph and telephone companies. There was also a promise to "restore" the lands of Saskatchewan and Alberta upon fair terms, that is, give them to the provinces in exchange for a large sum of money.

The Liberals came into power upon the distinct pledge to either raise revenue so that expenses of the country could be met, or reduce the expenditure within the income of the Dominion. They succeeded admirably with the result that a surplus over and above ordinary expenditure has been shown every year.

AGRICULTURE FOSTERED.

The farmers have particular cause to be grateful to the government. Agriculture is the great industry of Canada, and is chiefly responsible for the enviable position the Dominion occupies in the eyes of the world to-day. This position has been attained largely by the production of articles on the farm, such as meats, live stock products, grain and fruit, all of which are in constant demand by the markets of the Old World.

One of the essentials demanded by these markets is quality, and it is an encouraging circumstance that the Minister of Agriculture has taken steps to influence not only increased production on farms, ranches and orchards, but better quality of all products as a result of which policy the demand for Canadian farm products is on the increase.

MEAT INSPECTION.

In consequence of the Jungle exposures, the Minister foresaw the necessity for a meat inspection service in Canada, with the view of inspiring increased confidence in the quality of Canadian live stock products abroad. Investigation had proved that while the conditions in our abattoirs and packing houses were good, it was advisable to pass an act for the inspection of meats and canned fruits, which was duly enacted by parliament. This act has been in force a short time and meets with the approval of the packers. The result is that the legend "Canada approved" has become a household word throughout Great Britain. The regulations under which the inspectors work are the most modern known to science. Over thirty establishments are within the provisions of the act and others applying to come in.

IT PROVOKES BUSINESS.

The United States, which furnishes Great Britain with 65 per cent. of the meat consumed by the people of that country, expends \$3,000,000 annually upon this branch of the service, and it is fair to assume that the system of meat inspection in force in the United States has contributed largely to such consumption by the British people.

As the live stock industry is the mainstay of agriculture, it is important to note that the department of agriculture is strenuously engaged in stamping out disease, especially glanders. This policy has been expensive, but the results justify the expense. The Imperial authorities have thought so well of the Canadian method that they have also adopted the meat test, slaughtering the reactors and paying compensation for horses destroyed.

This is not any part of reactionary Tory policy stolen by the Liberals, neither is it found in the Borden platform.

COOL CURING OF CHEESE.

One of the most important results which may be attributed to the policy of the government in relation to agriculture is very frequently lost sight of. The indirect benefits which have resulted to the trade in food products are in many cases of more importance than the direct benefits which are more generally spoken of.

As an example take the cool curing of cheese. The illustrations of the system conducted by the department have not only had the result of encouraging a large number of cheese factories to adopt this improved system, but by the prominence which has been given the question of lower temperature in the curing of cheese, the importance of low temperature at other stages of dairy manufactures has been emphasized. The use of ice on farms and improved cold storage have been very marked during the past few years.

Dairymen have been taught to appreciate the value of low temperature when transporting dairy products. Previous to the time when the department commenced the supervision of shipment of perishable products very little attention was paid to the matter; either by the shippers or the consignees, or the transportation companies.

TO THE MOTHERS OF PALE GIRLS

A Case Showing How the Tonic Treatment Restores Lost Health.

Anaemia is simply lack of blood. It is one of the most common and at the same time most dangerous diseases with which growing girls suffer. It is common because the blood so often becomes impoverished during development, when girls overstudy, over-work and suffer from lack of exercise. It is dangerous because of the stealthiness of its approach and because of its tendency to grow so steadily worse, if not promptly checked, that it may run into consumption. Every growing girl should take an occasional tonic to ward off the insidious trouble; and in all the world there is no tonic that can equal Dr. Williams' Pink Pills. Every dose of this medicine helps to make new rich blood, which promptly makes weak, pale, listless girls bright, rosy and strong. Miss A.M. Dugay, Lgwer Cove, N.S., says: "I believe I owe my life to Dr. Williams' Pink Pills. My blood seemed to have turned to water. I was as pale as a sheet; I suffered from headaches, and floating specks seemed to be constantly before my eyes. As the trouble progressed my limbs began to swell, and it was feared that dropsy had set in and that my case was hopeless. Up to this time two doctors had attended me, but notwithstanding I kept growing worse. It was at this juncture I began using Dr. Williams' Pink Pills, and after taking a few boxes I was much improved. I kept on using the Pills until I had taken eight boxes, when my health was completely restored."

Dr. Williams' Pink Pills cure cases like this because they go to the root of the trouble in the blood. That is why they cure rheumatism and indigestion, nervous headaches and racking neuralgia, and all those troubles from which growing girls and women of mature years so often suffer in hopeless silence. If Dr. Williams' Pink Pills are given a fair trial they will not disappoint you. Sold by all medicine dealers or by mail at 50 cents a box, or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

A little truth goes a long way—it isn't stretched.

REAT DANGER IN HEADACHES

It's often dangerous to consider a headache a trifling ailment. If the ead aches, the stomach is out of order and some serious disease may be impending. To tone up the stomach o give it healthy action, nothing in modern medicines is so successful as r. Hamilton's Pills. The concentrated vegetable extracts in Dr. Hamilton's Pills have a quieting, healthful effect on the stomach and remove all disorders. Your headaches will be cured and they won't return if you use Dr. Hamilton's Pills. Sold everywhere.

The road to ruin is always kept in good repair.

HAVE YOU WARTS.

You can cure them painlessly by Putman's Corn and Wart Extractor. Never known to fail. Be sure you get "Putman's", in 25c. bottles.

Rev. Father Morrissey

Father Morrissey's "No. 11" Cures Stomach Troubles.

When your stomach is working right you never know it is there. But when it feels as heavy as lead—when you have Heartburn, Belching of Wind, Sourness, a gnawing hunger, with distress after eating—when you feel irritable and depressed—then you may know that the digestive fluids in the stomach are not sufficient to digest what you eat.

Father Morrissey's "No. 11" Tablets supply these fluids in concentrated form. Each tablet, dissolved in the stomach, will digest 1 3/4 pounds of food, which is more than an average meal.

Read what Father Morrissey's treatment did for Mr. Gosline, of Salmon Lake. He writes Nov. 30, 1908:

"I was troubled with indigestion, so severe that I really thought I had cancer of the stomach. I took much doctors' remedies, till I was forced to seek another resource, and this was the Rev. Father Morrissey. His treatments worked miracles, until I have been entirely cured, so that now I do not look to the quality of the diet but to the quantity."

Lured a Horse.

St. Catharines, Aug. 13.—Henry Moore, better known as "Puddley", was convicted yesterday afternoon of burglarizing the home of Wm. Durham, removing the furniture and contents to his own home. He pleaded not guilty, claiming he bought the goods from a stranger. The judge, however, sentenced him to six months.

Alleged Murderer Caught.

Woodstock, N.B., Aug. 13.—Sandy McAlli, the alleged murderer of Nicholas Laguy, was captured late Wednesday night at Brown Siding, near Bath, N.B., where he had hidden, in an Italian camp. His pursuers lay in wait and about 11.30 o'clock caught him as he entered a car used for a living place by the Italians.

The Constable's Revenge.

Woodstock, Aug. 13.—G. Whittaker of Owen Sound, formerly of Woodstock, was brought to this city under arrest yesterday, charged with writing a menacing letter.

Whittaker wrote to Constable Fred Hill accusing him of having over-collected from Whittaker on a judgment, and threatening prosecution. Hill thereupon went to Owen Sound and arrested the man on a charge of sending him a threatening letter.

The magistrate found him guilty and he had to pay costs of the court, \$26.

SEALED TENDERS

PUBLIC NOTICE

Notice is hereby given that The Canada Loose Leaf Company, Limited, will apply to the City Council of the City of Fredericton for a loan and certain exemptions hereunder set out pursuant to Chapter Thirty Nine, Acts of Assembly, 6 Edward VII.

The Company will make application for exemption from water rates sewerage rate and taxation generally for a term of five years, renewable for a further term of five years, and a loan of three thousand five hundred dollars, repayable in instalments of five hundred dollars annually without interest, the first instalment to be paid five years after the loan is made.

In consideration of such assistance the Company on their part agree to repay such loan as aforesaid and to employ forty five people with a gross annual wage of not less than three hundred and fifty dollars weekly, and to actively carry on the business of manufacturing loose leaf ledgers and other loose leaf devices to the amount of not less than \$50,000 annually. To secure the repayment of such loan by a first mortgage on the building and machinery owned by the Company and to insure the said property with loss, if any, payable to the City of Fredericton to the extent of their interest, and also to give a bond conditioned that the Company will carry out all their agreements as above mentioned.

The said application will be made to the said City Council at their regular monthly meeting to be held on Tuesday evening, the second day of August next.

Dated the twenty fourth day of June, A. D. 1909.

The Canada Loose Leaf Company, Limited, by
FREDERIC HARCOURT,
Managing Director.

June 24th mo.

Addressed to the undersigned, and endorsed "Tender for Wharf at Leonardville, N.B.," will be received at this office until 5.00 p.m., on Friday, August 20, 1909, for the construction of a wharf at Leonardville, Deer Island, Charlotte County, N. B.

Plans, specifications and form of contract can be seen and forms of tender obtained at this Department and at the offices of E. T. P. Shewen, Esq., Resident Engineer, St. John, N. B., Geoffrey Stead, Esq., Resident Engineer, Chatham, N. B., and on application to the Postmaster at Leonardville.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, with their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honorable the Minister of Public Works, for eleven hundred dollars (\$1,100.00), which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or if he fails to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,

NAPOLEON TESSIER,
Secretary.

Department of Public Works,
Ottawa, July 22, 1909.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

July 26, 1909.
