

A POPULAR BELIEF.

That Rheumatism is Due to Cold, Wet Weather.

Such Conditions Aggravate the Trouble, But it is Now Known to be a Disease of the Blood—Outward Applications Cannot Cure It.

The once popular belief that rheumatism was entirely the result of exposure to cold or dampness, is now known to be a mistake. The disease may be aggravated by exposure, but the root of the trouble lies in the blood, and must be treated through it. Liniments and outward applications never cure, while Dr. Williams' Pink Pills always cure because they make new, rich, red blood, in which disease finds lodgment impossible. Concerning the use of these pills Mr. A. G. Lacombe, Sorel, Que., says:—"For upwards of five years I was a victim to the tortures of rheumatism. At times the pains in my knees, shoulders and hips were almost past endurance. At other times I could not dress myself without assistance. I tried several remedies, some of them very costly, without getting any more than temporary relief at the most. At this juncture a friend urged me to try Dr. Williams' Pink Pills, and spoke so highly of the pills that I decided to try them. Almost from the very first these pills helped me, and by the time I had taken seven or eight boxes, every twinge of rheumatism had disappeared and I was feeling better than I had for years. I would strongly advise similar sufferers to give Dr. Williams' Pink Pills a fair trial, as I am confident they will not only drive away all pains and aches, but leave you strong, active and happy."

Dr. Williams' Pink Pills are the greatest tonic medicine in the world. These pills not only cure rheumatism, but all troubles whose origin comes from poor blood or weak nerves, such as anaemia, consumption, neuralgia, kidney trouble, St. Vitus' dance, partial paralysis and the irregularities which make the lives of so many women a source of misery. Some dealers offer substitutes, and in order to protect yourself you must see that the full name "Dr. Williams' Pink Pills for Pale People" is on the wrapper around every box. Sold by all dealers or sent by mail, post paid, a 50 cents a box or six boxes for \$2.50, by writing direct to The Dr. Williams' Medicine Co., Brockville, Ont.

Benefits of Traveling.

Proper recreation prolongs life. This fact is now better appreciated by busy people than ever before. Of all the forms of recreation the best perhaps is traveling. The benefits to be derived from it cannot be exaggerated. A journey, whether brief or long, is sure to remove the mind of business or domestic cares by directing it into pleasanter channels. Thousands can testify that traveling has improved their health, lengthened their lives, brightened their mental faculties more than anything else.

The Other One.

Two brothers in Paris were remarkably alike. A gentleman meeting one of them on the boulevard stops him, saying, "Pardon me, but is it to you or to your brother that I have the honor of speaking?"

"Sir," was the reply, "you are speaking to my brother."

His Hard Luck.

Jones—Brown is an unlucky dog. Smith—How's that? Jones—His object in marrying was to get out of a boarding house.

Smith—Well?

Jones—Now his wife is running one to support the family.

An Easy Task.

Lover (mournfully)—Have you learned to love another? Flirt (who had just broken off her engagement with him)—Oh, no, George; I didn't have to learn. The man is very, very wealthy, and the love came spontaneously.

The Original Man.

Miss Wayning—To me there is nothing like originality. Nothing would give me greater pleasure than to meet an original man.

Mr. Hartless—If you had been born a little sooner, Miss Wayning, you would have experienced that pleasure in the society of Adam.

A Little Misunderstanding.

Young Mother—What will you charge for a photograph of our little boy?

Photographer—Three dollars, madam, but it will be considerably cheaper for a dozen.

Young Mother—A dozen! Oh, no, we can't wait so long!—Lippincott's.

A Fastidious Eater.

Chimmie—What kinder pie do you like best?

Mag—Oh, I dunno—pumpkin, I guess.

Chimmie—Aw, I don't like pumpkin. It musses up yer ears so!

He Told Her.

Teacher—Johnny Stokes, how many make a million?

Johnny—Verv few on dis earth mum.

In Training.

The Parson—Don't you know that smoking will stunt your growth?

The Kid—Wot do I care? I'm goin' ter be a jockey anyway.

Coal was for the first time used as fuel in this country at Wilkesbarre on Feb. 11, 1802.

Unexpected Success.

There are times when an honest confession of ignorance results to one's advantage. An examination of history was going on in a high school. The second row of the scholars looked supremely contented. They knew what was coming next and were confident of making brilliant recitations. The professor gravely put the question: "What became of the Greeks who were slain at Thermopylae?"

The first boy hesitated and then hazarded, "Burnt 'em."

"Next," was the icy answer.

"Buried 'em," came from the second promptly. "Oh, what an easy one!"

"Next."

"Don't know," drawled the third boy hopelessly.

"Right. Nobody does."

The successful one looked surprised; then he crowed a little. The other two looked sheepish.—London Tit-Bits.

Divers' Madness.

An Australian pearl diver says that one of the strange effects of diving is the invariable bad temper felt while working at the bottom of the sea. As this usually passes away as soon as the surface is reached, it is probably due to the pressure of the air affecting the lungs and through them the brain. The exhilaration and good temper of the mountain climber are contrary feelings from an opposite cause. A diver becomes so angry at some imaginary wrongdoing on the part of those in the boat above that he gives the signal to be pulled up, "with the intention of knocking the heads off the entire crew," only to forget what he came up for when the surface is reached.

Taking Out the Sting.

One day at a rehearsal W. S. Gilbert observed a girl crying and asked her the cause of it.

Between her sobs the girl declared she had been insulted by one of the costumers, who had said to her, "You are no better than you ought to be."

Gilbert immediately looked very sympathetic and said, "Well, you are not, are you, my dear?"

To which she replied promptly, "Why, of course not, Mr. Gilbert."

"Ah, that's all right," he said, and she went away perfectly comforted.

What Puzzled Him.

Sir Joshua Fitch told a story of the nature study exhibition in London illustrating the popular wonder at scientific knowledge. Sir John Avebury was showing the heavens through his telescope to some neighbors and servants when one exclaimed, "I do not wonder, Sir John, that clever people find out the sizes and distances of the stars and how they move, but what beats me is how you ever could tell their names!"

Friendly.

Myer—Slyker is a friendly sort of chap, isn't he?

Gyer—Yes; he's most too friendly.

Myer—How's that?

Gyer—He no sooner quits shaking your hand than he tries to pull your leg.

A Tug at It.

She—You must not kiss me until we are formally engaged.

He—Do you mean to say that you always insist upon that rule?

She—"I" always tried to.

It is easy enough to restrain our wrath when the other fellow is the bigger.—New York News.

Calling the Roll.

"Was it an entertaining affair?"

"Very. First a man got up and sang 'Are There Any More at Home Like You?' and then a lady arose and recited 'We Are Seven.'"

A ladybird can travel 20,000,000,000 times its own length in an hour. In that time a moth can only travel fifty times its own length.

Learning.

Elizabeth, a little Boston girl, is seven. Quite an old girl now is Elizabeth. "You do not mind me as well as you did when you were two years old," observed her grandmother.

"You see, I didn't know anything then, and so of course I always did just what any one told me to," replied Elizabeth.

Wanted Stationery.

Queer Party—Got any barometers?

Salesman—No; this is a bookstore. Don't keep 'em.

"Excuse me, but I notice in the weather reports that the barometer is sometimes stationary."

Sunlight Soap will not burn the nap off woollens nor the surface off linens.
