

ASTHMA

Permanent
Cured

Ontario Physician said he would not get better and advised a change of Climate.

CLARKE'S KOLA COMPOUND CURE

Many of the old-school physicians will tell you a cure is incurable. At one time it was thought so, thanks to Dr. Clarke's wonderful discovery, there now a cure and a permanent one, within the reach of every sufferer from asthma or bronchitis. You will be disappointed if you try Clarke's Kola Compound.

Mr. H. Salmon, the well-known merchant, 655 Yonge Street, Toronto, writes:—"For some years I had been a great sufferer from asthma and bronchitis. The attacks became so severe and coughing spells lasted so long that I became more alarmed. I had consulted many Toronto physicians but their medicine only gave me a little temporary relief. I was becoming thinner and weaker all the time. One of the leading physicians told me I was threatened with consumption and advised a change of climate. I heard of a Toronto physician who had been cured of asthma by Clarke's Kola Compound, so decided to try it. The first bottle did help me much, but I could not sleep and directed and be. I had finished the fourth bottle was completely cured. This was over a year ago and I have since gained nearly twenty pounds of my lost weight. I cannot praise this remedy too highly, as it has restored me again to perfect health, which I had long since despaired of ever regaining. Dr. Clarke's Kola Compound is sold by all Chemists, \$2.00 per bottle, three for \$5.00 or sent on receipt of price by The Gilfillan & Macpherson Co., Limited, Toronto, Canada.

A STORY OF TWO FLAGS.

How a Man's Life Was Saved at the Very Last Moment.

The following stirring incident of the two flags happened at Valparaiso, Chile, and was related at Montreal in 1881 by the Rev. Dr. J. O. Peck. Dr. Peck said:

"The man who gave me the facts I am about to relate was Mr. Haskins, an American sailor who had sailed to a port in Chile. On going ashore, he said, to enjoy his day of liberty he drank a little and became hilarious. One of the police officers, instead of warning him not to make a noise in the street, drew his sword and, striking him a blow, knocked him down. On that the American sailor got up and knocked the policeman down in return. He was on that arrested and tried and condemned to be shot in the morning of the following day.

"Mr. Loring, the American consul, expostulated with the authorities that it would be monstrous to shoot the man for such an offense, but they paid no attention to him, so he thereupon made a formal protest in the name of the United States government against the barbarous act. Mr. Haskins, the sailor, was in the morning brought out gunned to be shot.

"As the English consul was preparing to hoist the union jack he saw the crowd in the field opposite, where the execution of the American sailor, of which he had heard, was to take place. Rushing over the American consul, he said, 'Loring, you're not going to let them shoot that man!'

"What can I do?' he said. 'I have protested against it. I can do no more.'

"Quick as thought the English consul shouted, 'Give me your flag!' And in a trice the stars and stripes were handed to the English representative. At once, taking his own union jack in his hand, he hastened across the field, elbowed his way through the crowd and soldiery, and, running up to the doomed man, he folded the American flag around him and then laid the union jack over it. Standing a few paces back, he faced the officers and soldiers and shouted defiantly, 'Now, shoot, if you dare, through the heart of England and America!'

"And they dared not do it, for they feared the consequences, so the man was at once released. In telling me," said Dr. Peck, "Mr. Haskins said to me, with tears streaming down his cheeks even then, 'They loosed me then, and, oh, how I longed to embrace those two flags!'

His Suspicion.

Mother—You nice little boy! In dividing that apple you kept the half with a worm hole for yourself and let sister have the other half.

Johnny—Yes; I suspected the worm had bored through to the other side.—Boston Transcript.

SCHOOL GIRLS KNOW ITS WORTH.

PAINE'S CELERY COMPOUND

Gives Them Energy, Snap
and Full Life.

It Enables Them to Attain The
Blessings and Vigor of
True Womanhood.

Women and girls in every station of life who have used Paine's Celery Compound know that it is a blessing that sick and rundown females cannot afford to be without.

Modjeska, the peerless queen of actresses voices the sentiments of thousands of women and girls who have tested the strength-making and life-giving virtues of Paine's Celery Compound when she says: "I have found Paine's Celery Compound the best of all remedies for the nervous exhaustion consequent upon the arduousness of my profession." Overworked women in the home, and weak, languid school girls have found in Paine's Celery Compound the health and vigor it so strongly guarantees.

Miss Nellie Gallagher, of Marlinton, Que., says: "Having used your excellent Paine's Celery Compound during the last term of school, I wish to proclaim to all the great benefits I derived from it. At the beginning of the term I was weak and languid, and having to be closely confined in school at my studies, I was not able to make satisfactory progress. Mamma got me to use Paine's Celery Compound, from which I greatly benefited, and have not had a recurrence of the troubles I formerly had. Mamma has great confidence in Paine's Celery Compound, for she has used it herself and given it to my brothers and sisters. I highly recommend it to all young ladies at this special time in life when they suffer from loss of energy and strength."

The First Iron Ship.

The first iron ship has more reputed birthplaces than Homer. Both the Clyde and the Mersey claim pre-eminence in this respect. Sir E. J. Robinson of Edinburgh designed an iron vessel in 1816, which was not launched till three years later, and it is said that an iron boat was worked on the Severn even as far back as 1787. Steel was not used in the construction of merchant ships' hulls until 1859. Old salts were not alone in their belief that wood was meant by Providence to float, but iron to go to the bottom. A naval constructor of some repute once said: "Don't talk to me of iron ships. They are contrary to nature." Now none but small craft are built of wood in this country.

Soothing.

Li Hung Chang had beyond all doubt an iron will and a very unsentimental heart. Once when he was viceroy of Chihli a man who had tampered with a telegraph wire was brought before him. The man wrung his hands and begged for mercy, saying that he would never touch the wire again.

"Don't be vexed, my good fellow," said Li, "or trouble yourself any further about the matter. I shall take care that it does not happen again."

Then he turned to the jailers and gave the order, "Cut off his head!"

Nice For Lovers.

"If I am not too presumptuous," said the young clerk, "I will ask you to look at our new typewriter especially adapted for writing love letters."

"Oh," exclaimed the blushing maid, "is there any difference?"

"Yes, indeed! Among the punctuation points there is a little star for marking kisses."

New Goods at Fire Prices.

Friday and Saturday we will place on sale the following new goods: 158 Men's Spring Suits made of All-wool Canadian Tweeds, dark and medium colors, single and double breasted, worth \$5.90 to \$8.00.
