THE BUDGET DEBATE

**Mr. Copp of Westmorland
Made an Effective
Speech.**

**RAKED MR. LAFOREST FOR
DESERTING THE GOV-
ERNMENT**

**And Introducing Creed and
Racial Cry.**

In the budget debate in the Legislature Thursday afternoon, Mr. Copp of Westmorland, who was received with applause, congratulated the provincial secretary on the frank, open and plain statement he had brought down, and on the able manner in which he had submitted it, and he it was in order for him along with the provincial secretary to congratulate every citizen of New Brunswick on the great prosperity in all lines of industry. After hearing all of the criticisms and searching all the records he could find nothing that would justify supporters of the government in withdrawing their allegiance.

To Mr. Flemming he could extend the same congratulations as he had tendered last year because that gentleman had made the same speech and used the same argument as he did a year ago. The member for Carleton expressed approval of the agricultural policy but said they did not go far enough, then in the next breath he charged them with spending too much on agriculture. But while it is easy to find fault it is quite difficult to show where a saving could be effected and where the policy could be improved. If a province is on the verge of bankruptcy, as charged by the opposition, and therefore not able to encourage its industries, why don't the honorable gentlemen opposite come forward with a remedy? But being unable to find any flaw they can do nothing but criticize.

The leader of the opposition and the financial critic said the prosperous condition of the farmers was due to the South African war but he ventured to say that Mr. Flemming dare not go back to Carleton county and make that announcement to the farmers there, nor would this statement meet with approval in any farming section. He must take issue with the opposition, for we have the best land, energetic farmers and a government that is sparing no means to educate the farmer along lines that will be productive of still better results.

The member for Carleton seemed to have a tender spot for the lumbering interests. He seemed to feel that the lumbermen were not in sympathy with the opposition. Well they certainly are not, because they know that we have an administration which is doing everything possible to encourage the lumber industry.

The immigration policy has been criticized and a hard book of New Brunswick held up to ridicule. Last year the same criticisms were used and it was complained that each immigrant had cost the province \$162 per head. This year it is reduced to \$42 per head and still the opposition complain bitterly. If we could succeed in continuing to bring as good a class of immigrants into the country at a cost of \$42, we should be very glad to get many more.

The provincial secretary had shown that the leader of the opposition in his Kingston speech had juggled with figures and has shown that the government has nothing to fear if the opposition do not misrepresent. The member for Carleton said he was proud of his leader's Kingston speech which he claimed had not been without its results, but what were the results that he is so satisfied with—an emphatic disapproval in the election of the government candidate. He had tried to make capital out of the toll bridge business at Hartland which had been shown up in its true light by the member for Carleton (Mr. Appleby) and in the same connection had accused the chief commissioner of being too extravagant. Last year he (Copp) had stated that the government was doing the very best to develop the resources of the province with the means at its disposal and that he was only sorry there was not more money to spend, and he would repeat now that a much larger revenue

could be used to good advantage in building up the province.

Mr. Flemming gave one the impression that he was a paid advocate of the city and county of St. John, in fact he had travelled all over the province in his hunt for some thing to accuse the government and make political capital, a kind of warfare that is not manly or dignified. Then he had referred to a paper which formerly supported the opposition and which lately had accused their leader of being a failure. We all admit that the opposition is well led and he (Copp) expressed the wish that Mr. Hazen would long be spared to fill the position he now occupied with so much dignity and the duties of which he discharges in such an admirable manner. But there is no reason why papers should not see the error of their ways and fall in line with a progressive and energetic government, and there is no doubt the government will always welcome converts of that sort.

He was very glad indeed to hear from Mr. Laforest, but he regretted that he saw fit to make such unwarranted onslaught on the official reporter. The opposition in the official reports, had been justly and kindly dealt with, and it would be impossible for a reporter to give fairer reports than during the past two sessions. In this onslaught he had been applauded by his leader at which he (Copp) was very much surprised, because the reports of the speeches made on the opposition side had been just as full and complete as those made by any member of the government.

The member for Madawaska also said that government supporters were compelled to be blind followers. He (Copp) would throw that statement back in his teeth, because the government courted the fullest enquiry into all of its acts, and gave its supporters to understand that they were free to criticize anything which did not meet with their approval.

The key note of the remarks of the member for Madawaska was the religious cry, but all members know that there is in this house no such thing as Roman Catholics and Protestant and Frenchmen in the narrow and bigoted sense of the word. Race and creed have no place here, we meet together on a common basis and it is to be hoped that we will always work together for the betterment of New Brunswick and of Canada at large. In a speech he made in this house in 1899 the member from Madawaska said it gave him much pleasure to announce himself a supporter of the government and now he scolds members who support the government, but once were members of the opposition. But he is the last man to talk. He was elected as a supporter of the administration and if he wanted to be fair and do his duty he should have before withdrawing his support, handed back the trust that the people had reposed in him and sought re-election as an opponent to the government.

Mr. Copp moved the adjournment of the debate, and an motion of Hon. Mr. Pugsley supply was made the order of the day on Tuesday.

The house adjourned at 5 p. m., until Tuesday.

Forceful Facts.

One-sixth of the deaths from disease are due to consumption. Ninety-eight per cent. of all those who have used Dr. Pierce's Golden Medical Discovery for "weak lungs," have been perfectly and permanently cured. Cornelius McCawley, of Leechburg, Armstrong Co., Pa., had in all eighty-one hemorrhages. He says: "My doctor did all he could for me but could not stop the hemorrhages, and all gave me up to die with consumption." What doctors could not do "Golden Medical Discovery" did. It stopped the hemorrhages and cured their cause. This is one case out of thousands. Investigate the facts.

THE SPRING FEELING

**Variable Spring Weather Dis-
astrous Weak People.**

Even Usually Robust People Feel Run Down and Out of Sorts at This Time—Dr. Williams' Pink Pills are the Very Best Spring Tonic.

The spring months are a trying time to most people. At no other time of the year do health and strength seem so hard to gain and to hold. You do not feel that you are really sick, but you feel about as bad as you could if you were seriously ill. That feeling ought to be got rid of—and it can be. What you need is a tonic to enrich the blood and frisk it from the impurities which have lodged in your system during the winter, and which are responsible for your present condition. Dr. Williams' Pink Pills is the only reliable, never-failing tonic medicine. These pills make new, rich blood, strengthen the nerves and bring health and vitality to every organ in the body. They are an ideal spring medicine and the best thing in the world for disease having their origin in impoverishing or impure blood. The case of Miss Belle Coburn, White Rock Mills, N. S., is strong corroboration of these statements. She says: "Three years ago this I was very much run down. The least exertion exhausted me. I seemed to lose ambition and a feeling of languor and sluggishness took its place. My appetite failed me and my sleep at nights was disturbed and restless. In fact I was in a pitiable condition. After trying two or three medicines without benefit, I began the use of Dr. Williams' Pink Pills and they speedily worked a change for the better and by the time I had used a half dozen boxes I felt stronger than I had done for years. I have since used the pills in the spring and I find them an excellent tonic."

Because of their thorough and prompt action on the blood and nerves these pills speedily cure anæmia, rheumatism, sciatica, partial paralysis, St. Vitus' dance, scrofula, and eruptions of the skin, erysipelas, kidney and liver troubles and the functional ailments which make the lives of so many women a source of constant misery. Other so-called tonic pills are mere imitations of this sterling remedy. Get the genuine with the full name "Dr. Williams' Pink Pills for Pale People" on the wrapper around every box. Sold by all medicine dealers or sent post paid at 50 cents a box or six boxes for \$2.50 by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

La Patrie believes that figures and facts speak louder than words. Yesterday it used butter to figure on; today it is cheese. It says: "The export of cheese during the last five years of the Tory regime totalled \$62,381,869. The export of cheese for the first five years of the Laurier administration totals \$92,757,586, a difference of \$30,000,000 in favor of the Laurier regime. Have not the farmers of Canada reason to be satisfied with the magnificent impetus given to the dairy industry by the Laurier policy?"

Consumption is Infectious.

Every precaution should be taken to prevent the spread of the "White Plague." Persons coming into contact with consumptives should inhale Catarrhzone several times each day as it is a powerful destroyer of disease germs, and renders them innocuous. Catarrhzone is a most efficient preventive and may be thoroughly relied upon to promote expectoration, soothe the cough, and benefit in many ways to numerous to

mention. Both from a medical and scientific point of view Catarrhzone is the most valuable addition to the armament against consumption. Its merit cannot be too warmly applauded. Mr. and Mrs. George Hartman, of Alexandria Bay, N. Y., believe their infant son, born on Thursday, is entitled to the distinction of being the largest baby ever born in Northern New York. He weighs 15½ pounds. The claim is disputed by Mr. and Mrs. Anthony Charlehoise, of Clayton, who believe the heavy weight honors belong to their daughter, now two years old, who weighed 18½ pounds at birth.

Not he. He said "Good morning, senator."

ANOTHER HAPPY MOTHER

**Tells How Her Baby of Eight Months
Profited by Wise Treatment.**

Teething time is the critical age in a child's life. Any slight disorder in the stomach or bowels at that time greatly increases the peevishness of the little one and may have serious and even fatal results. It is impossible to take too great care of your baby's health during this period, and no better remedy than Baby's Own Tablets is known for the minor ailments of childhood. Among the mothers who have proved the worth of this medicine is Mrs. R. McMaster, Cookstown, Ont. Her little baby girl was suffering from the combined trials of indigestion, constipation and teething, and the mother's strength was severely taxed by the continuous care the child needed. A box of Baby's Own Tablets, however, made such an improvement in their praise. "It gives me great pleasure to testify to the value of Baby's Own Tablets," she writes. "My baby of eight months was much troubled with constipation and indigestion, and was very restless at night. I procured a box of Baby's Own Tablets, and the results were so satisfactory that I have not used any other medicine since. My baby girl is now regular and healthy, and getting her teeth seems much easier, and she rests a great deal better. These Tablets are a great help to little ones when teething."

Baby's Own Tablets are guaranteed to contain no opiate or other harmful drug. They produce natural sleep, because they regulate the stomach and bowels and comfort the nerves. They promptly cure such troubles as colic, sour stomach, constipation, diarrhoea, worms, indigestion and simple fever. They break up colds, prevent croup and allay the irritation accompanying the cutting of teeth. Dissolved in water, they can be given with absolute safety to the youngest infant. Sold by druggists, or sent postpaid at 25 cents a box, by addressing the Dr. Williams' Medicine Co. Brockville, Ont. Free sample sent on application. Mention this paper.

PAIN'S CELERY COMPOUND

**HAS THE APPROVAL AND IN-
DORSATION OF THE BEST
PEOPLE AS A LIFE
GIVER.**

**No Other Spring Medicine Can Give
Such Cheering and Happy Results
To Sick and Diseased
People.**

As spring ushers in, the physically weak, sick and diseased realize that their condition is one of extreme danger. It is a well known fact that while the trees bud and dress anew, thousands of men and women are cut off by the common diseases of life. This fact should arouse the attention of the ailing and sick to the folly of underestimating and neglecting the ills that make life miserable at this season.

The use of Paine's Celery Compound at this time will save many a precious life. The great compound equalizes and calms all the nervous tissues and induces the body to take on firm and solid flesh. It purifies the blood, as is plainly shown by the rapid clearing of the skin of all evidence of bad humors within; it regulates the organs of digestion; it gives natural sleep and sweet rest.

All our best physicians recognize Paine's Celery Compound as the one scientific spring remedy, and it is universally prescribed by them wherever there is need of a vigorous and prompt restoring to health and strength. The use of one bottle of Paine's Celery Compound will bring the happiest results to all weak, brokendown and despondent sufferers, and will quickly banish the fears of doubters and unbelievers. Paine's Celery Compound has the approval and indorsement of clergymen, professional men generally, judges, members of parliament, merchants and the best people. Test its virtues dear sufferer; it cannot disappoint you.

After a search of many months, John Cavender, residing near Lexington, Ky., found his young wife a few miles from Fairmont, W. Va. He says she deserted him and their two small children and eloped with another man. They have been living near Fairmont, where Anderson, with whom it is said she eloped, has been employed. The husband visited the house and before he uttered a word the wife exclaimed: "I'll return home with you, John, don't harm me." The pair are now reunited.

There are four good habits—punctuality, accuracy, steadiness and dispatch. Without the first of these time is wasted. Without the second mistakes the most hurtful to our own credit and interest and that of others may be committed. Without the third, nothing can be well done, and without the fourth opportunities of great advantage are lost, which it is impossible to recall.

At Easy Prison.

The first prison visited by a new British inspector of prisons lay on the western seaboard of Scotland. Arrived at the grim portals, he inquired of the solitary warder as to whether the governor was within. "No, sir," said the warder; "he's away fishing." "Oh, indeed," said the inspector. "Well, I'll see the prisoners." "There is only one, sir," returned the warder. "Very well. Let me see him." "Him? He's out, sir." "Out? The prisoner out? Has he escaped?" "Oh, no, sir; he's with the governor at the fishing, carrying the bag."

An Extraordinary Prayer.

A volume of reminiscences by Dean Hole quotes the following extraordinary prayer as offered by a loyal but certainly injudicious English clergyman on behalf of Queen Adelaide, the wife of William IV.: "O Lord, save thy servant, our sovereign lady, the queen; grant that as she grows an old woman she may become a new man; strengthen her with thy blessing that she may live a pure virgin, bringing forth sons and daughters to the glory of God, and give her grace that she may go forth before her people like a he goat on the mountains."
