

After Long Years of Mental and Physical Sufferings and Failures With Common Medicines

PAINE'S CELERY COMPOUND

Cures an Ontario Lady.

The Great Remedy Is Heartily Indorsed by the Ablest Physicians Who Daily Recommend Its Use.

What a blessing it would be to humanity in general if all suffering men and women knew just what Paine's Celery Compound is able to do.

The work that cannot be done for the sick and suffering by months of experimenting with the common medicines of the day, is successfully carried to victory by Paine's Celery Compound in a few short weeks.

The cure of Mrs. Hopper, of Thornhill, Ont., proves fully the assertion made above. After years of failures, misery, agony and despondency, Paine's Celery Compound made a "new woman" of one who had become a mere wreck—one who was fast nearing the grave.

Have faith sufferer! You have a strong deliverer at hand able to rescue and save you. From today, let your hope be centered in Paine's Celery Compound and its mighty power to cure. It has never disappointed any sufferer; it will not fail in your case. Read Mrs. Hopper's wonderful and striking testimony.

"With great pleasure and satisfaction I wish to add my testimony to what has already been said in favor of Paine's Celery Compound. For a very long time I suffered from general debility and run-down system. Having heard of Paine's Celery Compound, I determined to give it a trial, and I am happy to say it has done for me more good than I can express. For ten years I doctored without any good results; but after using Paine's Celery Compound I am perfectly restored to health, can eat well, digestion is good, and my sleep is sweet and sound. Altogether I am a new woman. I always recommend Paine's Celery Compound to my friends."

If It Will Help.

It appears that we must now learn to sing it "God Save Our Lord the King." If there was any prospect of saving him from the avalanche of flummery and medievalism that is threatening him, his respectful and loyal subjects would be prepared to sing almost anything. — Woodstock Express.

London Hospital Patients.

More than a million people are treated in the hospitals of London each year.

Wheels.

The earliest mention of wheels in the Bible is in Exodus xiv, 25, when the chariot wheels of the Egyptians were taken off by the Lord. But chariots are mentioned in Genesis xii, 43. But there were older nations than the Egyptians. The Chaldeans used chariots, and the Greeks—Homer's poems date from about 900 B. C.—had chariots at the siege of Troy, 1500 B. C. Probably in reality the wheel is about as early a piece of machinery as any now existing. Of course it has been developed, but the bicycle wheel of today is a lineal descendant of the section of a log of wood used by the agricultural peoples thousands of years ago.

Benefits of the Birch.

The cane should never be used as the ordinary instrument of school punishment. A cane may possibly bring about irreparable damage, and caning on the hands is the most senseless and cruel form of punishment imaginable. The birch is the best implement of punishment for small boys. First, it hurts; secondly, if applied in reason, it does no harm.—London Lancet.

A Difference.

One of the college weekly papers makes the following comment on the difference between football at Yale and Harvard: "At Harvard a coach, being surrounded by 'literary influences,' must cry, 'Pierce the line with fierceness, gentlemen!' At Yale a coach says: 'Dive into 'em, you lobsters! Dig in your toes and sock it to 'em!'"

Against Precedent.

Doctor—I congratulate you, sir. You are the father of a fine girl.
Subbubs—Oh, my! We'll never raise her.
Doctor—Tut, tut! Why do you say that?
Subbubs—It seems utterly impossible to keep a girl here more than a week.

Never Relinquishes the Chair.

"A woman has acted as speaker of the Colorado house of representatives," said Kilduff.

"Mrs. Tiff acts constantly as speaker of my house," added Mr. Tiff.—Detroit Free Press.

A Curious Name Combination.

"What is in a name?" has been a question sufficiently unanswered to still remain a subject for discussion, but what is in two names should have a double interest. If you don't think so, take two names as well known as any in American history and look at them. They are the names of Lincoln and Hamlin. Of course there is nothing peculiar about them as they stand, but set them differently and observe the result. For an instance, place them this wise:

HAM LIN
LIN COLN

Read up and down and then across. There is something in that, isn't there? Now, again:

ABRA—HAMLIN—COLN.

Can you find two other names of two other men whose official lives and names combine as these do?

Joe's Revelation.

Not long ago a nice young man was invited to dine at the home of an east end young woman and accepted the invitation with pleasure. It was just a family dinner, and everything was passing off well when an unpleasant and quite unforeseen incident occurred.

They were all discussing the pie, when the young woman's little brother, who had been regarding her closely, suddenly spoke up.

"Gee," he said, "look at Marie tryin' to put on style just 'cause Joe is here. She's eatin' her pie with a fork!"

It is needless to add that the cherubic child experienced a very unpleasant quarter of an hour after Joe had gone.

Presbyopia.

Old sight (presbyopia) begins at about the age of forty. It is first noticed by the tendency to hold the paper farther off. The glasses should not enlarge the letters, but simply render them clear and natural at the ordinary reading distance. Whatever the ocular defect the proper glasses should be obtained as soon as it is discovered.

Smallpox Is Air-Borne.

Dr. J. F. Thresh, in a report to the Essex County Council, says The Cardiff Mail, enumerates 75 cases of smallpox attributed to the proximity of the Smallpox Hospital ships in the Thames. There has, he says, in these cases been no communication personally, and whenever smallpox has been under treatment on the hospital ships outbreaks of the disease have occurred. Similar contagion has been experienced on the opposite side of the Thames, indicating that the disease is air-borne.

"STIFFLED" HEART

Ever feel that every breath would be your last—that the thumping, stifling sensations about your heart were crushing your life out?

Dr. Agnew's Cure for the Heart is the only absolutely unfailing remedy known and prescribed by eminent physicians. Its claims of potency are not heresay or false hope to the sufferer. It is not a spirit lifter to gather you up to the high pinnacle of expectancy only to drop you into a deeper mire of disease. It gives relief in thirty minutes. A few bottles cure the worst forms of heart malady.
