

The dizziness and faintness from which women suffer may be due to one of several causes. But the most common cause is disease of the delicate womanly organism. The story of Mrs. Brown, told in her letter below, gives a fair example of the conditions under which so many women work: "I had a sick headache nearly all the time, was so weak around my waist could hardly bear anything to touch me. I would work a little while and then lie down a while." Failing to obtain more than temporary relief from her doctor's treatment, Mrs. Brown began the use of Doctor Pierce's Favorite Prescription, with the usual result—a complete cure.

Dr. Pierce's Favorite Prescription is the best medicine for the cure of diseases peculiar to women. It establishes regularity, dries offensive drains, heals inflammation and ulceration and cures female weakness. It makes weak women strong, sick women well.

"A few years ago I suffered severely with female weakness and had at times dreadful pains," writes Mrs. Mary V. Brown, of Creswell, Hartford Co., Maryland. "I went to my doctor, and he gave me medicine which did me good for a while, but I would get worse again. I had a sick headache nearly all the time; was so weak around my waist could hardly bear anything to touch me. My feet would keep cold and I could hardly do my work. I would work a while and then lie down a while; was completely run down. Suffered from disagreeable discharge and also severe pains at times. After using five bottles of Dr. Pierce's Favorite Prescription, three of his 'Golden Medical Discovery' and one vial of Dr. Pierce's Pleasant Pellets, and following the advice you gave regarding the 'Lotion Tablets,' I can truly say that I am cured. The doctor said it was uterine disease I had."

Dr. Pierce's Medical Adviser, in paper covers, is sent free on receipt of 31 one-cent stamps to pay expense of customs and mailing only, or if cloth-bound volume is desired send 50 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

HAIR OF THE SLOTH.

It Is Green In Color and For a Peculiar Reason.

It is a very curious fact that certain plants grow and thrive on the hair of sloths. Apart from its extremely coarse and brittle nature, the most striking peculiarity of the outer hair of the sloth is its more or less decidedly green tinge. Now, green is a very rare color among mammals, and there ought, therefore, to be some special reason for its development in the sloth, and, as a matter of fact, the means by which this coloration is produced is one of the most marvelous phenomena in the whole animal kingdom, so marvelous, indeed, that it is at first almost impossible to believe that it is true.

The object of this peculiar type of coloration is, of course, to assimilate the animal to its leafy surroundings and thus to render it as inconspicuous as possible, and when hanging in its usual position from the underside of a bough its long, coarse and green tinged hair is stated to render the sloth almost indistinguishable from the bunches of gray green lichens among which it dwells. In the outer sheath of the hairs of the animal there are a number of transverse cracks, and in these cracks grows a primitive type of plant—namely, a one celled alga.

And for the benefit of nonbotanical readers it may be well to mention here that alga, among which seaweeds are included, form a group of flowerless plants related on the one hand to the fungi and on the other to the lichens. In the moist tropical forests forming the home of the sloths the alga in the cracks of their hairs grow readily and thus communicate to the entire coat that general green tint which, as already said, is reported to render them almost indistinguishable from the clusters of lichen among which they hang suspended.

Extremes Meet.

Peter Cunningham was telling one evening where he had been dining and what he got. "We had a thing I never saw before—a soup made of calves' tails."

"Extremes meet," was the remark of Douglas Jerrold, at that time the prince of wits in England.

DR. WOOD'S

NORWAY PINE SYRUP.

A positive cure for all Throat, Lung and Bronchial diseases. Healing and Soothing in its action.

Pleasant to take, prompt and effectual in its results.

Mr. Chas. Johnson, Bear River, N.S., writes: "I was troubled with hoarseness and sore throat, which the doctor pronounced Bronchitis and recommended me to try Dr. Wood's Norway Pine Syrup. I did so, and after using three bottles I was entirely cured."

Price 25c. and 50c. a bottle. All medicine dealers.

The Best Telephoned City.

What is the best telephoned city in the world? San Francisco seems to be the answer. In that city, with a population of 342,782, there are 21,324 telephones, or sixty-two per thousand. In Europe, Copenhagen is probably the best telephoned city, with 13,311 telephones to its 312,559 of population, equal to forty-nine per thousand. In Copenhagen, too, the best conditions for the public exist, although the rates are relatively as high as those in American cities. London compares very unfavorably with these figures. At the beginning of this year there were 41,111 telephones to a population of more than 5,500,000, or a proportion of seven to every thousand people. New York, with a population of 2,350,000, had 54,647 instruments, or twenty-six to a thousand.

Husbands' Motto a Bible Verse.

The Husbands' Protection society of London has as its motto the naïf verse found in what is known as the Wife Beater's Bible, published in 1544, copies of which may be found in man, museums and libraries. This verse is as follows:

"He dwelleth with his wyfe accordinge to his knowledge and taketh her as a necessarye bealper and not as bonde servant or a bonde slave. And if she be not obedient and helpfull to hym he endeavoureth to beate the feal of God into her heade that thereby she maye be compelled to learne her dutie and to do it."—London News.

When the Rod Was Not Spared.

The change of thought and conditions of mankind is no better illustrated than by the history of the rod. In an article on the morals of the child by Dr. Grace Peckham Murray there is mention made of a Suabian schoolmaster who during his fifty years of superintendence of a large school had given 911,500 canings, 121,000 floggings, 209,000 custodes, 136,000 tips with the ruler, 10,200 boxes on the ear and 22,700 tasks by the heart-delineator.

Her Pet Fad.

Mrs. Jones—Mrs. Robinson is the greatest woman to stick to a fad I ever saw.

Mrs. Brown—Why, I never heard anybody mention that before.

Mrs. Jones—Can't help that. It's so, all the same. Just see how she has gone on admiring that husband of hers these twenty years and more.

Taken Seriously Now.

Bunker—I used to get considerable amusement out of golf.

Ascum—Ah, then you don't play any more?

Bunker—Yes, indeed. I was referring to the time before I began to play.

Mild Case.

Wife (anxiously)—Is my husband very ill, doctor?

Dr. Stokum—Oh, no. Only about \$100 worth.—Exchange.

Bait For Rats.

Sunflower seeds are better bait for rats than cheese.

ATLANTIC DIVISION

ALL RAIL LINE THE SHORT LINE
To Boston, etc. To Montreal.

IMPERIAL LIMITED ROUTE
TO THE PACIFIC COAST.
