

Government Institutions Endorse Japanese Catarrh Cure as the Only Permanent Cure for Catarrh.

CURED EVERY CASE WHERE THE REMEDY WAS TRIED.

Catarrh is one of the diseases which should not be experimented with, every day's neglect allows it to spread deeper and deeper until loss of taste, smell and hearing are the inevitable result, then finally consumption sets in, for which there is no cure. Thousands who have suffered for years from catarrh proclaim Japanese Catarrh Cure the only permanent cure. It will cure you.

Mr. A. E. Wilson, Principal, Government Indian Home, Elkhorn, Manitoba, writes:—"Some time ago we purchased three boxes of Japanese Catarrh Cure, and must say it gave wonderful results in every case tried. It certainly is an article of unequalled merit."

Japanese Catarrh Cure is not a powder, it is a pleasant, healing, penetrating, volatile pomade, it is easy to use, requires no instrument of any kind, it reaches every catarrhal diseased portion of the mucous membrane, and permanently cures catarrh, wherever located. Sample box free. Enclose 5 cent stamp. Address, The Griffiths & Macpherson Co., Limited, 121 Church St., Toronto. Sold by all druggists, 60 cents.

A Lady Who Has Won Prizes

FOR HER WORK, WRITES ABOUT

Diamond Dye Mat and Rug Patterns.

A lady residing in a progressive Ontario town, and who has been a user of Diamond Dyes for over twenty years, says:

"I learned the art of making mats and rugs years ago. In many cases I was obliged to work up patterns that were but imperfectly traced by hand for stamped by the old fashioned methods. Since you have given to the public your beautiful and valuable Diamond Dye Mat and Rug Patterns, I have no trouble in making up easy or complicated designs, as your patterns are richly colored and give a harmonious combination that no other patterns can afford. I have made up several of your Diamond Dye Mat and Rug patterns that have taken prizes at Fairs and Exhibitions. Every lady who can make a rug, should see your patterns."

Complete range of designs sent free by mail to any lady who sends her address to The Wells & Richardson Co., Limited, 200 Mountain St. Montreal, P. Q.

Diet and Voice.

A musical writer states that fine vocalists are rare in countries where fish and meat diets prevail and that the voice deprecates as families grow rich and increase the amount of meat consumed. Naples and Genoa, where much fish is eaten, give few of Italy's singers, and the sweet voices of Ireland are found in the country, but not in the towns. In Norway too much fish is eaten for the production of singers, but Sweden is a land of grain and song. The carnivorous birds croak; grain eating birds sing.

A TALE OF TWO CITIES.

The Perils of Living Near the Mexican Boundary Line.

"Some peculiar conditions prevail at the twin cities of Nogales, Mexico, and Nogales, Ariz.," said the Detroit, who recently returned from a visit to Mexico. "The international boundary line is formed by a street that divides the two towns, and the boundary stakes are set out with a very nice regard for technicalities. There is a saloon there which has more than a local reputation, and the proprietor is certainly an enterprising individual. His saloon is located on the street dividing the two counties and at a point where the dividing line is not clearly defined. The patron of this saloon buys his drink in America, and, stepping across the hall, he buys his cigar in Mexico. In this way the proprietor avoids the duty on imported cigars and can provide his customers with the best make at lower prices than most of his competitors."

"They tell an amusing story about an American who imbibed too much fighting whisky at this saloon. When he arrived at a certain stage, he allowed his prejudices to get the better of him, and, standing near the boundary line of his own country, he heaped anathemas and hurled defiance at the people across the border. A couple of Mexican officers stood across the street almost within reach of the pugnacious American, hoping that he would stroll across into Mexico. He did get over there after awhile, although the trip was wholly unpremeditated. During a harangue against Mexican institutions in general and the police in particular he happened to lurch too far over to starboard and fell into Mexico. The alert cops promptly grabbed him, and, though he didn't get a chance to take in the sights, he paid quite an extended visit to the country he had so eloquently maligned."

MERIDIAN OF GREENWICH.

An English Town Which Is the Headquarters of Father Time.

Greenwich, as an English town, is nothing very remarkable, but as the headquarters of Father Time it is the most important spot on the earth. Its time is in every longitude of the globe, and every land, excepting Spain, Portugal and Russia, measures the hours from its meridian. No navigator on duty is without Greenwich time in sight, and every town and geographical point is known by its distance east or west from the Greenwich observatory.

Ask the time, and the answer is always in even hours ahead or behind Greenwich or else the exact Greenwich time. In Great Britain, Belgium and Holland you get the Greenwich time. One hour before Greenwich time rules in Germany, Austria-Hungary, Denmark, Italy, Sweden, Norway and Switzerland.

Two hours ahead of Greenwich is adopted in Bulgaria, Roumania and Turkey in Europe. Eight hours ahead of Greenwich applies in the Philippines. Nine hours before the Greenwich time is used in Australia.

Ten hours ahead of Greenwich is official in Victoria, Queensland and Tasmania. The United States, Canada and Mexico have adopted the fifth, seventh and eighth hours after.

So it is around the earth—every tick of every clock regulated by Greenwich time.
