FEVER'S VICTIMS.

The After Effects Often Worse Than the Disease Itself.

A Sufferer from the After Effects of Typhoid Tells of His Deplorable Condition—Appeared to be in a Rapid Decline.

The after effects of some troubles, such as fever, la grippe, etc., are frequently more serious in their results than the original illness, and the patient is left an almost physical wreck. In such cases as these what is needed is a tonic medicine, to enrich the blood, strengthen the nerves, and put the system right. Mr. L. Barnhardt, a prosperous young farmer living near Welland, Ont., offers proof of the truth of these statements. Mr. Barnhardt says:—"Some years ago, while living in the United States, I was attacked by typhoid fever, the after effects of which proved more disastrous to my constitution than the fever itself, and for months I was an almost total wreck. I had no appetite, was haggard and emaciated, and apparently bloodless. I had violent and distressing headaches, and my whole appearance was suggestive of a rapid decline. I tried no less than three doctors, but they failed to benefit me. At this juncture a friend of mine mentioned my case to another physician, and he suggested that I should take a course of Dr. Williams' Pink Pills. I took this advice and found it most satisfactory. Almost from the outset the pills helped me, and I continued their use until I had taken about a dozen boxes, when I felt myself fully restored to my former health, and my weight increased to 165 pounds. I have enjoyed the best of health ever since, and I will always give Dr. Williams' Pink Pills the praise they so richly deserve."

These pills are a certain cure for the after effects of fever, la grippe and pneumonia. They make new, rich, red blood and strengthen the nerves from first dose to last; and in this way they cure such troubles as anaemia, neuralgia, rheumatism, heart weakness, kidney and liver ailments, partial paralysis, St. Vitus' dance, etc. They also cure the functional ailments that make the lives of so many women a source of constant misery, and bring the glow of health to pale and fallow cheeks. Other alleged tonic pills are mere imitations of this great medicine, and the buyer should see that the full name "Dr. Williams' Pink Pills for Pale People," is on every box. Sold by all dealers in medicine or sent postpaid at 50c. a box, or six boxes for \$2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

It may not be generally known that James Cochrane, the newly elected mayor for the city of Montreal, is the man who, when a young telegraph operator, "caught on" to the messages of the late Sir John A. Macdonald, copied them and placed them in the hands of the late Lucius Seth Huntingdon, M. P., and thus laid the foundation of the Canadian Pacific scandal which resulted in the overthrow of the McDonald government, and brought McKenzie into power in 1873.

Anyone troubled with boils, pimples, rashes, festering sores, or any chronic or malignant skin disease, should use Burdock Blood Bitters externally and take internally. It will cure where others fail.

It is stated that a very serious mistake has been discovered in the census. The whole township of Cumberland, near Vancouver, B. C., has, it is said, been omitted, and thereby more than 720 souls have been left off the census schedules. It is not known what course will be adopted in the matter.

Pimples and Blisters

how unsightly, sometimes disgusting, mortifying to the sufferer and unpleasant to all. An evidence of poor blood and lowered vitality of the eliminating organs. They need toning up—the whole system does. You can quickly bring about the improved condition by using Ferrozone. Poisons are driven out of the blood, organs grow stronger, the blood richer, the nerves stronger. Pimples and blisters disappear, color becomes good. Glad! just try and see how much joy can be gotten out of a box of Ferrozone. Price 50c at Barchill's.

He started at the age of 22, playing a minor part in Richelieu, and has lived to prove that his profession is one through which a man of talent, resourcefulness and industry may win an honoured and worthy position in the world. What Fifteen Cents Will Buy To Strengthen Body and Brain.

Fifteen cents will buy a package of Malt Breakfast Food. The contents of one package will make from twenty-five to thirty meals for one person; cost per meal, from one-half to three-fifths of a cent.

Each morning dish of Malt Breakfast Food will furnish you with more true nutriment for body and brain than you

could derive from ten cents worth of beef-steak or lamb chops, and you will go out to the day's duties with better digestive vigor than after a meat diet.

In the past it has been conclusively proven that one package of Malt Breakfast Food costing fifteen cents will build up more solid flesh, muscle and tissue for man or woman than any other food product costing one dollar. Malt Breakfast Food is therefore the diet for all classes of people. While it builds up the weak, it also keeps the well and strong in perfect health. Malt Breakfast Food at all Grocers.

HEED THE WARNINGS OF DISEASE.

PAINE'S CELERY COMPOUND

The Prompt Banisher of Every Ailment.

Begin Its Use Today, Tomorrow May Be Too Late.

It should be borne in mind that diseases of the nervous system do not come without marked warnings. Your neuralgia, rheumatism, sleeplessness, liver and kidney troubles and dyspepsia are all strong appeals for a prompt increase of nourishment for the nerve centres and brain.

Paine's Celery Compound thoroughly nourishes these vital parts, and it is upon its marvellous power of nourishing all the nerve tissues and purifying the blood that its wonderful cures depend. No other medicine in the world possesses such power over obstinate cases of disease; when other medicines fail, Paine's Celery Compound makes sick people well. Begin today with Paine's Celery Compound and you will avoid days and weeks of anxiety and suffering.

Mrs. M. J. Wales, Gerrard St., Toronto, says: "I consider it a duty to tell what Paine's Celery Compound has done for me. For ten years I was a sufferer from kidney disease, piles and heart trouble. I had tried everything that doctors could prescribe but never was relieved until I used Paine's Celery Compound. All pains have left me and I now sleep well—a blessing I had not enjoyed for years. No one should be without Paine's Celery Compound when they are weak and sick. If people would keep a bottle of the compound near them, we would hear of fewer deaths from heart disease."

According to the report of the Marine Department during the year ended June 30, 1901, there were 136 casualties to British and Canadian vessels in Canadian waters, and to Canadian vessels in other waters. The loss in ships and cargoes was \$285,782, and the number of lives lost was 126. The casualties to inland vessels were slight and unimportant.

Woman is often referred to by man as "doubling his joys and halving his sorrows." That may be complimentary but it would seem to be rather hard on the woman. For in plain terms it means that where things are going well with the man his wife makes them go better. But when things are going ill with him, he expects the wife to share half his burden. And there's more truth than poetry in this presentation of masculine selfishness. Men don't appreciate the fact that the strain of motherhood alone is a burden bigger than all the loads that rest upon male shoulders. They see the wife grow thin, pale, nervous and worn without a thought that she is over-burdened. Among the pleasant letters received by Dr. Pierce are those from husbands who have waked up before it was too late to the crushing burdens laid upon the wife, and in the search for help have found in Dr. Pierce's Favorite Prescription a restorative which has given back to the mother the health of the maiden and the maiden's happiness. "Favorite Prescription" always helps, and almost always cures. It has perfectly cured ninety-eight out of every hundred women who have used it when afflicted with diseases peculiar to women.

Rat Portage has suffered from fire for the fourth time this winter. The principal loser was A. Young, whose stock of clothing, boots and shoes, valued at \$10,000, was destroyed.

Don't let worms gnaw at the vitals of your children. Give them Dr. Low's Pleasant Worm Syrup and they'll soon be rid of these parasites. Price 25c.

CONDITIONS OF A TRUE MARRIAGE

Rev. Minot J. Savage Declares That Love is the Only Satisfactory Basis.

The Rev Minot J. Savage of the Church of the Messiah, New York, preached a sermon Sunday on "Love and Marriage." He took the general ground that all should marry, barring of course the deceased, criminals and those who have not the means to support a family. Speaking of the grounds and conditions of a true marriage, Dr. Savage said that the first, last and universal condition ought to be that intangible, indefinable thing which is called love. Of marriages that are not based on love he said:

"I am aware of the fact that whim, fancy, passion and many other things are sometimes mistaken for love. I am aware that there are marriages for a hundred other reasons, marriages of convenience, as they are called. There are people who marry for money, both men and women; there are more frequently perhaps in the Old World than here, people who marry out of family considerations or for the sake of bringing together two estates, landed or what not. As this country gets older, though the large fortunes are established, the temptation of this sort of thing here becomes more and more. But I do not believe that marriage of this sort can be too forcibly branded for what they really are.

If a woman gives herself to a man for money, I for one cannot see any distinction, on account of the largeness of the price. It is not marriage when you marry for money; it is a bargain, a bargain in which you sell the one thing that is more sacred to manhood or womanhood, it is not marriage if it becomes a matter of convenience. If a woman marries for a title or for a home or for anything but love it is not marriage; it is really that unmentionable thing that we look upon with such supreme contempt."

Dr. Savage declared that in any true marriage there ought to be absolute respect for the inviolate personality of each, and in elaborating this principle he said:

"I do not believe that a husband has any business to break open a letter that is addressed to his wife, any more than he would have to go into a merchant's office down town and tamper with his mail. I do not believe that his wife has any right to interfere with the correspondence of her husband; if they are married, really and love and trust each other, there is no need of it; and if they are not, then it only leads to more mischief and makes matters worse than they already are. Respect each others individuality. If you find you cannot live together properly, in mutual respect and love, then separate."

The city of New York shows more reluctance to abandon the horse car than any other place in the country. There are still 119 miles of horse car line in New York, and only 107 miles in all the rest of the United States. It has experimented with several other means of getting passengers' money, too, from the elevated railway to compressed air motors. Perhaps the franchise owners are holding out for a bigger price.

Freddy, the son of a well known minister, had misbehaved, and to punish him he was not allowed to eat at the family table. A small table was set for him in the corner of the dining room. When the dinner was set before him, Freddie said very solemnly, "Lord, I thank Thee that Thou has spread a table before me in the presence of mine enemies."
