

Sewing as a business is an exacting and exhausting occupation. Long hours, fine work, poor light, unhealthy atmosphere—these are only some of the things which fret the nerves and hurt the general health. Often there is a diseased condition of the womanly organism which causes backache or headache and the working of the sewing machine under such conditions is akin to torture.

Thousands of women who work have written grateful letters to Dr. R. V. Pierce, whose "Favorite Prescription" has cured their womanly ills and established their general health. "Favorite Prescription" establishes regularity, dries unhealthy and offensive drains, heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.

Sick women are invited to consult Dr. Pierce by letter free, and so avoid the indelicate questionings, offensive examinations and obnoxious local treatments deemed necessary by some physicians. All correspondence private. Address Dr. R. V. Pierce, Buffalo, N. Y.

"I take great pleasure in recommending Dr. Pierce's Favorite Prescription for female weakness," writes Mrs. Susannah Permenter, of Pauls Store, Shelby Co., Texas. "I was troubled with bearing-down pains in my back and hips for six years, and wrote to Dr. Pierce for advice. I tried his 'Favorite Prescription' and six bottles cured me. I feel like a new person and I thank Dr. Pierce for my health. Life is a burden to any one without health. I have told a great many of my friends about the great medicine I took."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent free on receipt of 31 one-cent stamps to pay expense of customs and mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

PEOPLE'S MOVEMENT

ONTARIO'S POPULATION CROWDING INTO THE CITIES.

A Recent Official Census Bulletin Shows a Decided Movement From the Sub-urban Centres of Population in This Province, but in the Province of Manitoba the Reverse Is True.

A recent official bulletin contains a statement showing the urban and rural population of Ontario and Manitoba by census districts as enumerated at the census and compared with that of 1891. Ontario's total population is 2,182,942, of which 1,247,190 are located in rural and 935,752 in urban districts. In 1891 the total was 2,114,321, made up of 1,295,323 rural and 818,998 urban. The rural population of the province has, therefore, lessened by 48,133 in the last decade, whilst the urban population increased by 116,754, leaving a net increase in population of 68,621. Manitoba's population, on the other hand, was 254,947, to which number the rural districts contributed 184,714 and the urban districts 70,233. This is an increase of 73,216 in rural population, and of 29,225 in urban population, compared with 1891. The following table will serve to show the drift of population in the counties of Ontario since the last census:

A Canadian Kipling Needed.

We need a Kipling in Canada more than one is needed in England. The people over there who make a business of sport, who live simply for amusement, have, as a rule, plenty of money and can afford to make amusement a business, so far as their finances are concerned. Few Canadians can afford to live any such useless and ignoble life. Those who try generally make the experiment on their father's money, or on the earnings of their husbands, and the funds thus obtained soon come to an end.

Yes, we need a Kipling to rebuke us for our follies, and to tell us the honest truth about ourselves. Cricket and curling and some other games are noble pastimes, and people are benefited by engaging in them. But is that any reason why people should carry other amusements to extremes that ruin their health, unfit them for every kind of duty, reduce their pockets to impecuniosity and their minds to imbecility? Canada needs a Kipling.—Knoxonian in The Westminster.

An Interesting Coin.

An interesting coin has just been sold in Germany. It is one of the few coins in the history of the world which can be accused of having a humorous side to it. In 1679 the Danes descended on the port of Hamburg, but their attack on the famous Hanse town proved unsuccessful. The inhabitants of the town struck a medal to commemorate the occasion. The legend on the coin was as follows: "The king of Denmark has been to Hamburg. If thou wouldst know what he achieved, look on the other side." It is needless to add that "the other side" is a blank.

His Man Was Appointed.

As an instance of the acuteness of Al Daggett, the former Republican leader of Kings county, N. Y., the story is told that when Seth Low was elected mayor of Brooklyn some years ago he wrote to Mr. Daggett, offering to appoint as commissioner of elections one of any three men he might name. Al wrote three lines to the mayor, as follows: "Charles Henry Cotton, C. H. Cotton, C. Henry Cotton." Needless to say Mr. Cotton was appointed.
