

The fact that all women suffer during the birth-hour leads a great many women to accept a degree of suffering which is altogether unnecessary. Sometimes it is hours, sometimes days before the struggle is over. No medicine can absolutely eliminate pain from this time of travail, but Dr. Pierce's Favorite Prescription can and does make the baby's advent practically painless. It acts upon the organs of maternity, giving them strength and elasticity. It produces physical comfort and mental cheerfulness. It is an effective tonic, giving the mother abundant nutrition for her child.

"I believe I owe my life to Dr. Pierce's remedies, and have long felt it my duty to acknowledge the benefit I received from Dr. Pierce's Favorite Prescription and 'Pleasant Pellets.'" says Mrs. Maria O. Hayzel, writing from Brookland, D. C. "Six years ago, after the birth of one of my children, I was left in a weak, run-down condition. My health seemed utterly gone. Life was a burden. I doctored with three different physicians and got no relief. I began to get worse, and to add to the complications, I suffered terribly from constipation. I chanced to see one of your advertisements and concluded to try the above remedies. I commenced to take Dr. Pierce's Favorite Prescription and 'Pleasant Pellets,' and began to improve right away, and continued improving and gaining in strength. I cannot express the relief it was so great. Seven months later my little daughter was born without much trouble. I feel that I would never have been able to endure my confinement only for the help due solely to Dr. Pierce's medicines. She was a fine, healthy child, and the only one I have ever been able to nurse."

Dr. Pierce's Pleasant Pellets cure constipation.

### The Peanut in London.

Noting the introduction of the baked peanuts in London, The Pall Mall Gazette observes: "We do not know whether that excellent feature of British civilization, the hot potato, flourishes on winter nights at the street corners of New York. Probably it does, but if it does not there should be an opening for some good Samaritan with an eye to business to show our cousins that they have not got a monopoly of good things. However, we welcome the peanut, more familiar to us as the monkey nut, as a highly desirable immigrant and have no doubt that he has come to stay."

### The Fashion of the House.

A servant girl happened to be engaged at a farmhouse where the mistress was known to have a hasty temper.

On the first Saturday night the girl was at the farmhouse she was told by the mistress to clean the boots ready for Sunday.

The mistress, on coming into the kitchen later on, saw that the girl had cleaned her own boots first, so she took them up and threw them into a tub of water that was standing by and bounced out of the kitchen.

The girl said nothing, but when she had cleaned the other boots she threw them also into the water.

"Whatever possessed you to do that, girl?" asked the mistress on coming again in the kitchen.

The girl simply replied: "Well, ma'am, please ma'am, I thought it was the fashion of the house, ma'am!"—London Tit-Bits.
