PARLIAMENT OF CANADA.

Ministers Answered Many Opposition Questions.

Ottawa, March 4.—When the House of Commons met yesterday, Sir Hibbert Tupper occupied his seat for the first time this session. He asked if the report was correct that Gordon Hunter, K. C., Victoria, had been appointed chief justice of British Columbia. The premier replied that the appointment had been made.

Solicitor General Carroll was introduced by Premier Laurier and Hon. Mr. Fitzpatrick.

In reply to E. F. Clarke, Hon. Mr. Fisher said that the amount paid out for the census to date was \$948,410.

In answer to Mr. Monk, Hon. Mr. Fitzpatrick said that the cost of illuminations of the parliament buildings and surroundings during the visit of the Prince of Wales last year was \$17,150.

Mr. Pattee (Winnipeg) was informed Hon. Mr. Sutherland that 755 men were employed at the government work shops at Moncton, and 79 at Charlottetown. Ten hours constituted a day's work.

Mr. Kemp, of Toronto, was told by Sir Richard Cartwright that the government of Jamaica intended removing its tax against commercial travellers.

In reply to a question by Mr. Ganong (Charlotte) the minister of marine stated that there had been handled by the government grain elevator at St. John in the year ending Dec. 31, 1901, 146,087 bushels of wheat. No grain or other produce was handled by the government elevator at Halifax between the 1st of Jan., 1901, and the 1st of Jan., 1902. There were no direct revenues from the elevators, the elevator charges being included in the through rates for carrying the grain. The cost of running and caring for the St. John elevator was \$3,989 and the Halifax elevator \$2,016 up to Jan. 31, 1902.

Dr. Beland asked whether the government's attention had been drawn to an article in the Victoria Colonist, which re-

presented Prof. Prince, commissioner of fisheries, as saying that "the government have not had a minister (of marine and fisheries) who could form a resolution and act on it since the days of Sir Hibbert Tupper."

In reply, the minister of marine and fisheries read a letter from Prof. Prince, in which that gentleman said: "I beg to say that the statement is absolutely untrue and without foundation. I made no such statement to any representative of the press or to any other person." "I may add," said Mr. Sutherland, "that Prof. Prince informs me that no such interview took place, and that the paragraph in question is part of a long series of statements published in the newspaper referred to which Prof. Prince shows not only misrepresent his views on British Columbia questions, but are exactly opposite in every particular to the opinions held by him."

There was a short debate on a bill by Mr. Cowan, of Essex respecting drainage across property of railway companies. Previous to 1900, no individual land owner could get a drain across railways, municipalities alone could obtain this. In 1900, Mr. Casey's bill providing that an individual could apply to the railway committee of the privy council and the committee would send an engineer to take evidence on the ground, and that the drain could be constructed.

Mr. Cowan's bill is to do away with the application to the railway committee and utilize the provincial machinery for this work. He wanted the railway committee to be placed in the same position as a land owner. The railway company is required to do the work and the farmer, under the bill, will be asked to pay no more than if the railway was not there, extra costs to be borne by the railway. The bill was referred to the railway committee, after which the house adjourned at 4.30 p. m.

THE SPORTSMEN'S SHOW.

Lots of New Brunswick Visitors Including Several Frederictonians

Boston, March 1.—The Sportsmen's show is attracting large numbers of provincialists. Not only are many of those living in this vicinity numbered among the spectators, but visitors from the provinces are quite numerous. Outside of the New Brunswick section of the show, one is occasionally reminded of Canada. Among the exhibits are Canada lynx, Canada geese and other live animals which belong over the border. Even the largest trout in the mounted display of the Maine Central railroad was caught in Quebec. The Canadian Pacific railway is doing good work in advertising the entire country. Among those who have registered this week in the book of the Fredericton Tourist Association are: David P. Orom, F J Merritt, M. F. Wilson, Anthony A. Pirie, Miss M E Lynch, Mrs. I. V. Giddings, Miss Josie L. Knight, St. John; J V Skillen, St. Martins; Joseph A Harris, G. Elliott, Moncton; C. Pickard, H. C. Neal, Sackville; M S Babbitt, B L Babbitt, W B Phair, Mrs George N. Babbitt, H. S. Campbell, Fredericton; M H McNally, Beechwood, Carleton county; F L McNally, Queensbury, York County; Fred L Hamm, H J Allen, St Stephen; Kate L. Hay, Mrs Thomas Hoyt, Woodstock; J W Brodrick, Five Islands, N S.

Accidental Discharge of a Pun.

A capital pun may arise by pure accident, as recorded in Bucke's "Book of Table Talk."

"A Mr. Alexander Gun was dismissed from a post in the customs of Edinburgh for circulating some false rumor. The dismissal is said to have been thus noted in the customs book at the time, "A. Gun discharged for making a false report."

Realistic.

Mamma—For goodness' sake, Elsie, why are you shouting in that disgraceful fashion? Why can't you be quiet like Willie?

Elsie—He has to be quiet the way we're playing. He's papa coming home late, and I'm you.
