

HURRY UP!

Everywhere one hears that expression "hurry up!" It is a genuine Americanism expressive of the "rush" in which we live. Nothing is swift enough for us. We race against steam and lightning and find them slow. We grudge the time given to eating, and rush through meals as though life depended upon our haste.

Life does depend on our haste, but not in that sense. Look at the obituary columns of the papers and see how many prominent men are carried away by "stomach trouble," "acute indigestion" and other related diseases. Their lives have in general been sacrificed to the haste and rush of business which overlooked the fact that food can only nourish the body when digested and assimilated and that the digestive

and assimilative processes can't be hurried. Dr. Pierce's Golden Medical Discovery, cures diseases of the stomach and the associated organs of digestion and nutrition. The source of all physical strength is food, properly digested and perfectly assimilated. By enabling the perfect digestion and assimilation of food "Golden Medical Discovery" increases and enriches the blood supply and sends new strength to every organ of the body.

"I was at one time as I thought almost at death's door," writes Mr. J. S. Bell, of Leando, Van Buren Co., Iowa. "I was confined to my house and part of the time to my bed. I had taken quantities of medicines but they only seemed to feed the disease; but I must say that 'Golden Medical Discovery' has cured me, and to-day I am stouter than I have been for twenty years. I am now forty-three years old."

FREE. Dr. Pierce's Medical Adviser sent free to you on receipt of stamps to pay expense of customs and mailing only. Send fifty one-cent stamps for cloth bound book, or thirty-one stamps for paper covered, to Dr. R. V. Pierce, Buffalo, N. Y.

His Fluent Fount of Tears.

There are funny incidents in the life of a photographer. A man came in the other day and looked over all the samples, asking the price of each.

"Do you want a sitting?" I asked. "I don't see nothin' like what I want," he replied.

I told him if he would indicate what he wanted I might arrange it.

"You see, it's like this," he began. "I had a girl that I loved, and we was going to git married. She had her things made up, and we was all but ready, when she was taken ill and died. And what I wanted was a picture of me sittin' on her grave weepin'."

I was touched at the homely story of grief and told him I could send a man with him to the grave and have the picture taken as he desired.

"It's some distance," he said. "It's over in Ireland. I expect it 'ud cost a lot to send over your traps for what I want?"

I said it would.

"I thought," he answered, "that mebbe you could rig up a grave here in your shop and I would weep on it and it would do just as well. It's no trouble for me to weep anywhere."

The Ring of Cheops.

Cheops was the builder of the pyramid which bears his name, and, as if to make the structure perpetuate his deeds for all time to come, the very stones and bricks of which it is composed are stamped with his name. Cheops lived nearly 2,500 years ago, his great pyramid being an antiquity in the days when the great nations of old were in their youth, and yet we of this twentieth century can have the satisfaction of looking upon the very ring he wore so proudly upon his finger! The hieroglyphics on the ring are minutely accurate and beautifully executed, the ring itself being of finest gold and weighing nearly an ounce. The oval signet bears the name of Cheops, which is in hieroglyphics in perfect accord with the stamp on the bricks of the great pyramid. This remarkable antiquity was found in a tomb at Ghizeh. It now reposes in the museum of the New York Historical society.

DISAPPEARING WRITING.

The Way a Big Swindle Was Successfully Worked in Paris.

A number of Parisian financiers were recently defrauded of a very considerable sum of money by a swindler who relied for the success of his scheme entirely upon the peculiar properties of iodide of starch. Posing as a man of considerable wealth, whose money was tied up in such a manner that he could not realize without heavy losses and pretending to have the option of some valuable concessions in China, he obtained various large amounts of money in exchange for bills dated to stand for three months.

No one for a moment suspected that there was anything in the least degree shady about the man or his transactions, and when he made it public that he had been successful in selling his Chinese concession at a large profit his creditors felt absolutely certain that he would meet his bills.

To their immense surprise, however, when they came to look through their papers to find the bills they only found bills with blank spaces in the places where the swindler's name should have been and had actually been. They clamored round him for an explanation of the strange affair, but he denied that he had ever given any of them bills and defied them to sue him for repayment of the loans, and the fact that the bills were devoid of the swindler's signature rendered them absolutely worthless.

The matter was put into the hands of the police, who were able to discover that in signing the bills the man had used a solution of iodide of starch, which, when first used for writing, appears much the same as ordinary ink, but completely disappears in the course of a few weeks, and, although traces of the chemical may subsequently be discovered, nothing can make the writing show up again. Finding that his victims had discovered his method, the schemer decamped, despite the fact that the chances of the police obtaining a conviction against him were very remote indeed.

WAVES OF WATER.

Slow rivers flow at the rate of three to seven miles an hour.

The amount of water flowing out of the Nile is sixteen times that of the Thames.

The English channel is nowhere more than 900 feet deep. The Irish sea is 2,130 feet deep.

The largest gulf in the world is the gulf of Mexico—800,000 square miles—almost twice as big as the bay of Bengal.

The Parana of Brazil and Argentina is 2,200 miles in length and after the Amazon is the largest river in South America.

The shallowest of all seas are the Baltic and the Adriatic, which average only forty-three and forty-five yards' depth respectively.

Askal Chin, in Tibet, is the lake which lies at a greater height than any other in the world. Its level is 16,000 feet. The lowest is the Dead sea—1,290 feet below sea level.

A Judicial Retort.

Sir William Meredith, chief justice of Ontario, Canada, was formerly a very prominent politician as well as a famous lawyer. He was especially noted for his success as prosecuting attorney, and few criminals escaped conviction when he addressed the jury.

During one of his political campaigns he was speaking at a meeting in the city of London, his native town. The audience was turbulent and he was frequently interrupted. Finally a voice from the gallery cut into one of his finer flights with a sarcastic "Oh, go and get your hair cut!"

Sir William, who wore his hair somewhat longer than is usual, was stopped by a burst of laughter. But as soon as he was able to make himself heard he turned the laugh and won the audience by this reply: "My friend, if I'm not mistaken, I've had your hair cut before this!"

Indian Homes.

The young Indian wife of today is clean, a fairly good cook and tidy with her house, says an exchange. She is not yet well versed in the art of decoration, and red and green are predominating colors in all of her rooms, whether in harmony or not. The house has good furniture, but it is strangely arranged. The lounge is a favorite piece of furniture, and one sees it in every Indian household, always in the parlor. If the Indians have a piano or organ, it goes into the bedroom. The young buck's best saddle also goes into the parlor, and in many houses it is hung upon the wall. Red ribbons are tied to everything, even the tail of the cat, for no Indian household is complete without a cat and a dog.

Cook's Cotton Root Compound
Is successfully used monthly by over 10,000 Ladies. Safe. Effective. Ladies ask your druggist for Cook's Cotton Root Compound. Take no other, as all mixtures, pills and imitations are dangerous. D. POTTINGER,

General Manager

Moncton, October 16, 1901.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Custom House, Halifax, N. S.," will be received at this office until Thursday, 20th March next, inclusively, for the construction of a Custom House, at Halifax, N. S. Plans and specification can be seen and form of tender obtained at this Department, and at the office of C. E. W. Dodwell, Esq., Resident Engineer, Halifax, N. S.

Persons tendering are notified that tenders will not be considered unless made on the form supplied, and signed with their actual signatures. Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honorable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender, which will be forfeited if the party decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order

FRED. GELINAS, Secretary.

Department of Public Works, Ottawa, 24th February, 1902.

Newspapers inserting this advertisement without authority from the Department, will not be paid for it. Feb. 28—d8.
