

FIRST AID TO WOUNDED.

Sympathy of King Manuel in Recent Earthquake Horror Won All Hearts.

Lisbon, May 22.—Terrible tales of desolation and death still come from the scene of the recent earthquake.

Four villages were destroyed, and in one of them, Oenavent, not a house was left standing. All the way the inhabitants were camping in the fields and on the roads in tents hastily constructed of sheets and blankets supported by masts and oars from the fishermen's boats or anything that came to hand.

The youthful King Manuel, Prince Alfonso (the king's uncle), and the minister of public works were among the first to arrive in the stricken districts. The king was deeply moved by the sights, and his sympathy won the gratitude of the peasants, while his presence encouraged the resources of unflagging efforts.

When the king reached the scene of desolation he devoted himself to comforting the sufferers. In a ruined house he found bakers courageously making bread for the hungry people and shook hands with them all. A very old baker addressed him paternally, saying, "Goodbye, my boy, I shall hope to see you again."

Near one dying man the doctors were deploring the want of a certain

drug to save him. The king overheard them, and exclaiming that he had fortunately remembered to bring some of the drug, running to his motor car he fetched the bottle and helped to administer the contents.

One of the most remarkable incidents in the disaster was the action of some convicts, who, instead of following their fellows in an escape from a demolished prison, remained to perform acts of heroism in the work of rescue. They will probably be rewarded by a free pardon.

The comparative immunity of the capital was partly due to the system of building adopted after the great earthquake of 1755, when 50,000 persons lost their lives. In the villages the sun-baked bricks and mud walls of the houses facilitated the destruction.

A curious coincidence was that in the Chamber of Peers a member of the opposition who was attacking the Transvaal-Mozambique agreement was interrupted by the president of the cabinet, who said: "You couldn't make it out to be a greater calamity to the country if it had been an earthquake like Messina!" Almost at the same moment the house was shaken by the earthquake.

A TONIC FOR THE STOMACH.

Wonderful Success of the Modern Method of Treating Even Obstinate Cases of Indigestion.

The old fashioned method of treating stomach diseases are being discarded. The trouble with the old fashioned methods was that when the treatment was stopped the trouble returned in an aggravated form.

The modern method of treating indigestion, catarrh of the stomach or chronic gastritis, is to tone up the stomach and glands to do their normal work. Every step toward recovery is a step gained, not to be lost again. The recovery of the appetite, the disappearance of pain, the absence of gas—all are steps on the road to health that those who have tried the tonic treatment remember distinctly.

Dr. Williams' Pink Pills are a tonic every constituent of which is helpful in building up the digestive organs and therefore are the very best remedy for chronic cases of stomach trouble. The success of the treatment is shown by hundreds of cures like the following:

Mrs. Wm. Bonn, Prince Dale, N. S., says: "For upwards of seven years I was an almost continuous sufferer from stomach trouble, which was aggravated by obstinate constipation. Food was not only distasteful, but every mouthful I ate was painful. The trouble so affected my heart that at times I thought I could not live. I was constantly doctoring but did not get the least relief. Indeed I was growing worse, and in the summer of 1907 had got so bad that I went to the city of Boston, where I spent some time under the care of a specialist. I returned home, however, no better than when I went away. The pains I endured were almost intolerable, and would sometimes cause me to drop. I kept getting weaker and weaker, and had practically given up hope of ever being well again, when my mother urged me to try Dr. Williams' Pink Pills. How thankful I now am that I took her advice. My case was a severe one and did not yield readily, but once an improvement was noticed the cure progressed steadily and satisfactorily, and after the use of ten boxes of the Pills I was again a well woman. Every symptom of the trouble disappeared, and it is years since I enjoyed as good health as I am doing now. All who knew me look upon my cure as almost a miracle and I strongly urge all suffering from stomach trouble to give this medicine a fair trial."

Dr. Williams' Pink Pills are sold by all medicine dealers or you can get them by mail at 50 cents a box, or six boxes for \$2.50, from the Dr. Williams' Medicine Co., Brockville, Ont.

Every married man knows how much easier it is to deceive himself than it is for him to deceive his wife's mother.

HAVE YOU NERVOUS DYSPEPSIA?

How it shakes one up, invades sleep, destroys strength, adds real misery to life. Not the stomach but nerves cause the whole trouble. You need Ferrozone because it's a nerve food. It supplies the elements that are needed to make rich, red blood in red cells, the richer you're sure to be in health. Ferrozone quickly makes blood, strengthens the nervous system, invigorates the digestive organs and presto! the nervous disturbances disappear. You'll try Ferrozone, 50c per box at all dealers.

LAKE GEORGE NOTES.

The Late Mr. Alex. Lawson Was a Pioneer Resident of that Locality.

Lake George, May 17.—Mr. Isaac Lawson, an aged pioneer of this place, whose death on the 11th inst., has previously been recorded, was one of our oldest and most respected settlers. By his amiable disposition and kind hospitality, he won the love of all who knew him.

Mr. Lawson was in failing health for some years, but only confined to his bed a few days, having been suddenly stricken with paralysis. He was married twice. In 1854 to Miss Pacheco Billentine. They had three sons, two now dead. In 1861 he married Miss Martha McMurray, grandniece of John McGeorge, who came from Dumfries, Scotland, with Mr. Lawson's father, Alexander Lawson. They were the first two white men that came in from the St. John river on an Indian trail, to a lake, now known as Lake George, named for Mr. John McGeorge. They cleared two adjoining farms about ninety years ago. Mr. McGeorge was shot by an Indian a few years later. This is where Mr. Isaac Lawson died, and also where he was born. It was then a forest primeval, where game was very plentiful, but now noted for its abundance of rich antimony. It is the only operating antimony mine in Canada, and has a smelting furnace superior to all others on the continent.

The deceased leaves, besides a sorrowing wife, one son, George, of Green Lake, and three daughters, Mrs. Cook Parker, of Magundy, Mrs. William McMullin, Blaney Ridge, and Mrs. Wolsey Fraser of Prince William. He also leaves an adopted son, Clyde, in Lake George, and is survived by one brother, Mr. Luke Lawson, collector of customs, at McAdam.

Appeals Fail to Upset Jail Sentence. New York, May 25.—Frank Duffy, a former Tammany district worker, convicted of registration frauds in the election of 1907, surrendered himself yesterday and will begin serving in Sing Sing the prison term of from three to ten years to which he was sentenced nearly two years ago. Duffy's case has since been pending on appeals. He has been at liberty on bail. Last week the appellate division of the Supreme Court confirmed the conviction.

Arrested For Taft Caricature. San Juan, Porto Rico, May 25.—Joaquin Berreire, editor of a weekly paper, given over to the publication of caricatures, and called El Carnival, was arrested yesterday charged with sending improper matter through the mails. The charge is based on a cartoon of President Taft and a reference to his recent message on Porto Rico.

Liquor Marriages Barred. Muskegon, Mich., May 25.—At all six of the Holland-American churches in this city, where there is a large population of former Hollanders, it is announced by the ministers that they will not officiate at any weddings unless a pledge is made that there will be no liquor served either during or after the ceremony.

Used Arsenic for Baking Powder. New York, May 25.—Mistaking arsenic for baking powder and using it in biscuits, Mrs. Cynthia Parry, 79 years old, of Tottenville, Staten Island, poisoned herself and her husband on Sunday.

Cities at War. Port Arthur, May 25.—Legal action will be taken by the city to prevent Fort William emptying sewage into the Neebing river, 20 feet from the boundary line.

IT WAS REALLY DYSPEPSIA

Though They Thought She Had Heart and Lung Disease.

The case of Mrs. James Russell, of Armstrong's Brook, N.B., is typical of many really suffering from stomach trouble, who think the heart or some other organ is diseased.

She writes:—"Five years ago I suffered with pain in my heart which would leave me so weak I could scarcely walk; at night I would have to sit up in bed to keep from smothering. I was treated by doctors for heart disease. Then the pain moved to the shoulder and my left arm would be numb at times. Then the doctors treated me for lung disease, but the pain kept getting worse. At last a friend advised me to write Father Morrissey. I did, and the answer I got was I was suffering from dyspepsia. I got medicine, which consisted of a box of tablets. The tablets I took twice, when I was completely cured and have never been troubled since—two years now."

Curing the stomach puts the whole system right, and there is no quicker way to cure Indigestion, Dyspepsia, Heartburn and the other forms of stomach trouble than by taking Father Morrissey's "No. 11" Tablets, 50c, at your dealer's, or from Father Morrissey Medicine Co., Ltd., Chatham, N.B. 48

This Boy Is a Hustler.

Windsor, May 25.—Ernest Robert, aged 11, was on Thursday last sentenced to an indefinite term in the St. John's Reformatory in Toronto for breaking into a barber shop in Walkerville and stealing some razors, declared, when sentenced, he would not stay there. On Sunday he was picked up wandering about the streets here. He had escaped by climbing the fence surrounding the Toronto institution, and met a traveling man at the station, inducing him to pay his fare here. He wants to be sent to some institution where the boys will not bother him.

To Erect Monument to Massacre.

Washington, May 25.—The Government has decided to erect a monument on the spot where the remains of La Verandiere's son, Father Aulneau, and 19 voyageurs (slain by Indians in the massacre of the Island in Lake of the Woods, in 1736), were recently found. This is the long lost site of Fort St. Charles, which was located by a party of clerics, headed by the Archbishop of St. Boniface, last August, six miles south of the international boundary.

Preach Civic Economy.

New York, May 25.—In pursuance of a plan to arouse the public conscience to the need of better apportionment of the \$156,000,000 of yearly municipal expending every denomination made the city budget the text of their Sunday sermons.

Better News From Ranches.

Winnipeg, May 25.—Advices received from the cattle country by stockmen bring better news than was expected. They state that the losses from recent storms will not run more than one per cent. of the mature cattle, though the loss of calves will be considerably higher.

Ten Killed In Collision.

Simla, India, May 25.—Ten natives were killed and 14 others sustained injuries in a collision Sunday morning, near Dehra, between some runaway freight cars and a passenger train. Sixteen freight cars ran away down an incline.

BASEBALL YESTERDAY.

Eastern League Standing.

Clubs.	Won.	Lost.	P.C.
Rochester	14	6	.700

Monday scores: Chicago 2, New York 1; Cleveland 6, Philadelphia 2; Detroit 10, Washington 1; Rain at St. Louis.

Games to-day: New York at Chicago, Philadelphia at Cleveland, Washington at Detroit, Boston at St. Louis.

Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering and obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.

If your dealer offers something "just as good," it is probably better FOR HIM... it pays better. But you are thinking of the cure not the profit, so there's nothing "just as good" for you. Say so.

Dr. Pierce's Common Sense Medical Adviser, In Plain English; or, Medicine Simplified, 1008 pages, over 700 illustrations, newly revised up-to-date Edition, paper-bound, sent for 31 one-cent stamps, to cover cost of mailing only. Cloth-bound, 50 cents. Address Dr. R. V. Pierce, Buffalo, N. Y.

REVIEWS CHILDREN

Ten Thousand Youngsters Are Paraded Before "Bobs."

VICTORIA DAY IN CANADA

Splendid Weather Prevails for Holiday—Sports Held All Over Ontario—London Has First Organized Celebration—New Armories Opened at Peterboro—Several Small Fires Occur Yesterday.

London, May 25.—(C.A.P. Cable.)—Messages received indicate that Empire Day was celebrated in all parts of the Empire with greater enthusiasm than ever.

There was a splendid display of imperial patriotism in London and the great cities, while the British colony in Berlin, numbering 500, observed the occasion for the first time. The chief item in the capital was the review of 10,000 children by "Bobs." It is estimated that throughout the Empire nearly 7,000,000 children celebrated the day.

For the first time London had an organized celebration. Five thousand uniformed school boys marched through the main streets of the capital to Hyde Park. Here all the children gathered and saluted the national flag, as well as the emblems of 56 dominions and colonies.

Toronto, May 25.—With ideal weather in nearly every one of the inland cities of Canada Victoria Day was given a magnificent celebration yesterday. A storm raged on the Nova Scotia coast, and seriously interfered with the gaiety, but elsewhere in the Dominion the Imperial sentiment reigned supreme.

The day was chiefly taken up with sports, lacrosse, baseball, horse racing, and innumerable Marathons.

Two serious fires and a dozen more minor blazes, the latter from fireworks, kept the Toronto department busy.

Over \$6,000 damage was done by a fire of unknown origin, which broke out in the second floor of the three-story brick building at 49 to 57 Hayter street, and the Island school was burned.

A sky-rocket falling on the roof of Palmer Merritt's residence, 873 East King street, Hamilton, between 11 and 12 last night, caused about \$500 damage to building and contents. The roof was entirely burned off.

Other smaller fires are reported throughout the province.

At Peterboro.

Peterboro, May 25.—A military review and the opening of the new armories were the chief holiday events. The 12th Regiment of St. Catharines, the 38th Regiment of Brantford and the 57th Regiment of Peterboro participated in the review, and afterwards were present at the opening of the armories, when Hon. Mr. Pugsley, Minister of Public Works, officiated. Speeches were also made by J. R. Stratton, M.P., R. R. Hall, ex-M.P., and Col. Stevenson of the 57th Regiment. The visiting regiments arrived here Sunday morning.

At Berlin.

Berlin, May 25.—The seventh annual convention of the Labor Educational Association of Ontario was held in Berlin yesterday, with practically every industrial centre in Ontario represented.

The following officers were elected: President, C. G. Bird, Hamilton (re-elected); first vice-president, W. A. Brown, Ottawa; second vice-president, James Harmon, Toronto; third vice-president, W. Gladstone, Brantford; fourth vice-president, W. J. Driscoll, Kingston; fifth vice-president, G. Taylor, Sarnia; secretary-treasurer, O. H. Zimmer, Berlin (aecl.).

Windsor, May 25.—The new public playground was formally opened yesterday, speeches being made by Mayor Wigle, Hon. Dr. Reaume, Hon. R. F. Sutherland and others.

Head Split Open.

Parry Sound, May 25.—A car standing on one of the sidings at the station here Sunday night was the cause of a fatal accident.

A young man, Walter McLaughlin, a machinist, living at Norwood, Ont., was acting temporarily as fireman of a north bound freight, and while leaning out of the engine cab window, his head came in contact with the corner of a box car and was split open.

He died a short time after the accident while physicians were operating on him.

Fire-Cracker Caused Fire.

St. Catharines, May 25.—Saturday the jewelry and novelty store conducted by A. J. Jackson was gutted by fire and the stock completely destroyed. Jackson was showing some children how to manage fire works and had lighted a fire-cracker. He was swinging it, when it slipped and sparks caught on to other fire works in the open window. Fire works shot in every direction. Loss about \$3,500, \$1,200 insurance.

WHERE PRETTY GIRLS LIVE.

Sir Francis Galton After Exhaustive Search Says "London."

Are the prettiest girls in Great Britain to be found in London? Mr. Francis Galton, who has studied the subject, says "Yes." This famous scientist forms this conclusion after years of careful study of the women of England. He invented a "beauty chart," which he worked when walking about the streets of the various cities.

When going out he took in his pocket a small piece of paper cut in the shape of a Maltese cross, but with only three arms, so that the paper was, in a way, divided into three sections. One of these sections was labeled "Attractive," another "Indifferent," and the third "Repellent." The paper also bore the name of the city and the date upon which the investigations were made. Mr. Galton's other instrument was a "pricker" made from a pin with a large head embedded in a paper sheath, only the point projecting.

With his paper cross and his "pricker" in his pocket Mr. Galton sallied forth. When a girl passed him whom he considered pretty the point of the pricker was gently pressed against the section of the cross marked "Attractive," and the pin-prick registered the presence of a beauty. If the girl chanced to be ugly the instrument ticked her off in the "Repellent" section, and if ordinary she found a place among the "Indifferent."

On arriving home at the end of his investigations Mr. Galton would take his paper cross from his pocket, add up the pin-holes in the various sections, strike an average, and allot to the particular city its place in his "beauty chart."

Nobody will dispute that there are thousands of perfect and lovely women in London. But for single specimens many towns could supply a type of womanly beauty who would compare equally with those in London. Aberdeen occupies the bottom place on Mr. Galton's chart. It would be interesting to know how Manchester stood, because the percentage of pretty women in Cottonopolis is extremely high. The Liverpool girl is a very fine type, slimly built and very pretty. Then there are the Devonshire girl and the maid of Cornwall—solid women, well proportioned, and winsome to a degree. In proportion to its size Wrexham has a good percentage of pretty girls.

The King and His Clothes.

Despite his age, King Edward is always recognized as the first gentleman in Europe in matters of fashion, and when he pays his annual visit to Marienbad, the leading tailors of London, Paris, Berlin, Vienna, Rome, St. Petersburg, Budapest, etc., carry out a systematic observation of his sartorial proclivities. Hatters, hosiers, shirt-makers, shoemakers, collar-makers and cuff manufacturers, glove-makers and jewellers—all are there.

The King takes with him more than one hundred large trunks, so that he has a liberal choice of clothes from which to make his selection. It has been noticed that he has an especial liking for red, for on nine days out of ten he wears a red tie and red socks.

Many of the King's colored shirts are made with the collars affixed to them, and the collar is made of the same material and is the same color as the shirt itself. Sometimes the King wears a white collar on a colored shirt; but the cuffs are always of the same color as the material of the shirt. The King's handkerchief also corresponds to the color of the shirt which he is wearing.

The Kaiser's Joke.

It is not often that the Emperor William makes a joke, but it is recorded that on one of his visits to England he greatly amused King Edward with a very clever pun. The two monarchs were driving along the streets and the Kaiser was accorded a tremendous ovation. "Why," said King Edward, laughing, "you are more popular even than Mr. Chamberlain or myself." "Yes," answered the Kaiser, without a moment's hesitation; "but you see I am greater than either Your Majesty or Mr. Chamberlain, for he is 'Joe,' Your Majesty is 'King,' and I—I am 'Joe King'!"

Plenty of Claps.

It is Lady Roberts who tells this story. She was once visiting the hospitals at the base of operations in India, and was so pleased with the nurses' work and their devotion to the sick that she exclaimed, "Really, I think the sisters deserve a medal for this campaign as much as anyone, and I hope they will get one." "I don't know about a medal," said a gallant colonel who was in attendance, "but they are sure, at all events, to get plenty of claps."

IMPERIAL HALL

is now showing a large and select assortment of Imported and Domestic Suits and Trousers for Spring and Summer.

A good time to choose

Stanger & Harrison

OPPOSITE POST OFFICE SQUARE, FREDERICTON

PIANO BARGAINS

We have on hand for the Xmas business a large stock of Pianos made by Heintzman & Co., Bell, Gourley and other makes which we will sell at special prices for cash the balance of this month.

It will pay you to call and look them over and see our stock and special prices commencing at \$200, these Pianos are guaranteed to be the Highest Grade Piano made in Canada. We employ no agents. This offer is for this month only.
