ROBERT ADAM.

He Created a New Era in English
Architecture.

Robert Adam (1728-92) was to En-
glish architecture what Benvenuto Celli-
ni was to that of Italy. He was an
architect to the king, beloved at court,
a member of parliament, and it was
said of him that he "could not help
adorning all that he touched." Those
of the English people who dwell in
Adam houses prize them as rare jewels.

Adam introduced into English ar-
chitecture a lightness, delicacy of
touch and charm of proportion which
it had never before possessed and
which gave his name to that splendid
period of architecture the style of
which lasted over a century. Every-
thing in a house, from the panel in a
ceiling to the vases and gilt wood tri-
pods and branches for lights, from
hangings at the windows to a wom-
an's hairpin holder, Adam designed
himself.

Adam got his rich, beautiful and
distinctive style from the ruins of the
Emperor Diocletian, at Spalato. As a
finish to interiors he conceived the
idea of using figures in relief upon
walls, colored and adorned according
to Raphael's Stanzas painted flat upon
the walls of the Vatican. His idea
was as bold as its result was beauti-
ful. He also adopted Pompeian styles
of decoration.

"Adam was artist as well as archi-
tect, and his walls, ceilings and inter-
ior adornments are marvels of har-
monious colors," says an architect.
"He employed no less personages than
Angelica Kaufman and Zucchi to paint
many of the panels and medallions let
into his ceilings, and it was his habit
to have carpets woven to match the
pattern overhead and harmonize with
the color there employed. The key-
note of Adam's style is 'movement',
combined with perfect artistic fitness,
and it is peculiar for its grace and
stateliness."

Alfonso Grows Whiskers.

London, Aug. 21.—A San Sebastian
despatch says that King Alfonso has
paid a brief visit there, to see the
Queen and children. His majesty
has grown side whiskers, like those
worn by his father, Alfonso "II,"
and most of his hair has disappeared
being now cut very short.

Professor and Wife Suicide.

Craz Styria, Aug. 21.—The famous
sociologist Ludwig Simplicowicz, pro-
fessor of political law at Graz Uni-
versity, and his wife, Franciscan,
committed suicide yesterday by tak-
ing poison. The reason assigned for
the deed is that Prof. Simplicowicz
was suffering from an incurable dis-
ease.

Word of Caution.

"Never propose to a girl by letter."
"Why not?"
"I did it once, and she stuck the let-
ter in a book she was reading and lent
it to my other girl."

There are about twelve generations
of flies a year, the sexes about equally
divided, each female laying about 1,000
eggs.

BLAZE AT ORILLIA

Tudhope Carriage Works Loses
\$450,000 by Fire.

GLENCOE ALSO SUFFERS

Disastrous Conflagration at Orillia Re-
sults in Destruction of Big Factory,
a Foundry, Bakery and Ten Resi-
dences—\$60,000 Loss to Glencoe
Business Section—Monterey
Scorched—Other Fires.

Orillia, Aug. 23.—Half a million dol-
lars went up in smoke Saturday after-
noon in a fire which started at 2.15
o'clock in the paint shop of the Tud-
hope Carriage Co., and destroyed the
entire plant, as well as about a dozen
other buildings. The insurance is
roughly placed at about \$250,000.

The blaze inaugurated in the paint
shop of the big Tudhope works. Al-
though the plant closes at noon Sat-
urday, three or four men were still
at work in this section of the plant
when a sudden cloud of dense smoke
enveloped them, and they had to
hurry for the stairs. By the time the
alarm was given, this building was
thoroughly on fire, and despite the ef-
forts of the fire brigade of 16 men,
with scores of volunteer workers, it
ate its way through the works and
spread to surrounding property.

D. C. Thompson & Co.'s bakery,
Walker Bros.' foundry and ten resi-
dences were also burned. Most of the
contents of the latter were removed
in time. J. R. Eaton & Son's planing
mill was saved, after heroic efforts
on the part of the employees.

Luckily there was little or no wind
or the whole town might have been
devastated. Barrie sent a fire engine
and men by special train, and Mid-
land was in readiness to send a de-
tachment. The local water pressure,
which is from the waterworks, was
excellent. Firemen were on duty all
night, and even to-day the ruins were
smouldering. The cause of the fire is
still a mystery.

The Tudhope Co. estimate their loss
at from \$400,000 to \$450,000, with in-
surance about one-half, distributed
among thirty insurance companies, in
amounts ranging from \$3,000 to \$15,-
000. It is fully expected that they will
rebuild. The company employed over
300 hands, and has been the town's
greatest industry. It was established
in 1855 by Wm. Tudhope, having its
beginnings as a blacksmith shop. In
1876 J. B. Tudhope assumed control.

Bad Fire at Glencoe.
Glencoe, Aug. 22.—Glencoe had a
disastrous fire early this morning,
when four of the leading business
houses were wiped out, together with
their contents. The buildings de-
stroyed were the John Roy McRae
Block, occupied by W. E. Currie, gro-
cer, loss \$6,000, insurance \$3,700, and
James Wright & Sons, hardware mer-
chants, loss \$10,000, insurance \$5,000;
one-storey building occupied by J. E.
Roome, grocer and shoe merchant,
loss \$4,500, insurance \$1,500 and the
Bell Telephone Office, loss \$500, in-
surance \$300, and the McCreary
Building, occupied by E. Mayhem &
Co., as a general store. The loss on
this building was \$7,000 and the in-
surance \$3,000, while the loss to May-
hem & Co. is \$18,000, and the insur-
ance \$13,000. Other losses are: Miss
Parish, \$400; C. J. Mills, \$700; Trad-
ers' Bank, \$250; Mrs. Mary McAl-
pine, \$500; D. J. Thompson, \$400; J.
Y. Foster, \$150.

Million Loss at Decatur.

Decatur, Ill., Aug. 23.—A score of
business buildings were burned and
a dozen others were damaged yester-
day by a fire that swept along the
business portion of East Main. Mer-
chant and Water streets. The total
damage is placed at \$1,000,000, with
insurance of about 80 per cent.
The fire burned from 1 o'clock this
morning until sunset to-night, and
was the worst in the history of the
city.

Elk Lake Church Burns.

Elk Lake, Aug. 23.—The Anglican
Church, The Toronto World Building
and an inhabited tent were completely
burned in less than thirty minutes
during the time of morning service
yesterday. The church was insured
for \$1,100 on Friday last.

Train Goes Through Bridge.

Vancouver, B. C., Aug. 23.—There is
no truth in the story that Grand
Forks, B. C., is in danger of being
burned by bush fires. There was a
small bush fire east of that town last
week, which burned a few haystacks
and fences, but that's all.

Owing to a bridge burning out on
the Great Northern, a couple of miles
south of Darts Saturday, a passenger
train from Marcus to Spokane, with
engine, mail car and combination bag-
gage and passenger coach, went
through the bridge, the engineer be-
ing unable to stop his train. Two
coaches are a total wreck, having
caught fire after the accident.

No one was killed or even seriously
injured. The passengers were tossed
about pretty badly.

\$1,500,000 Loss at Monterey.

Mexico City, Aug. 23.—Fire Saturday
night destroyed property in the busi-
ness centre of the City of Monterey
to the value of about \$1,500,000.

The whole business section of the
city was threatened, but escaped de-
struction largely because there was no
wind.

The fire started in the establish-
ment owned by the son-in-law of Gen.
Trevino, commander of the Monterey
military zone, and the opponent of
Gen. Reyes, and it was first thought
that it was the work of political mal-
contents, but investigation showed
that it was due to defective wires used
for lighting purposes.

Foreigner Killed by Train.

New Liskeard, Aug. 23.—W. Goyer,
a foreigner, was struck by the first
section of freight No. 14, going south,
and died two hours later. The acci-
dent occurred about two miles south
of this place. Papers found upon him
show that he was a former employee
of the Grand Trunk, and was insured
against accident by the Grand Trunk
Railway Insurance Co. of Canada. He
had been living at Uno Park and, be-
ing without friends or money, started
to walk south.

FATAL STRIKE RIOT.

Sheriff and Three Troopers Killed in
Pittsburg.

Pittsburg, Pa., Aug. 23.—After al-
most a day of quiet, rioting broke out
last night at the plant of the Pressed
Steel Car Company, Schoenerville, a
suburb, in which one deputy-sheriff
and three state troopers were killed.
Shortly before 9.30, a mob of strikers
gathered in front of the swinging
gates of the stockade, and began a
concerted attack. The state troopers
resisted and in the melee Harry Ex-
eter, a deputy-sheriff, 50 years old, was
shot and killed by a supposed strike
sympathizer.

In an effort to arrest a man picked
out of the crowd as the one who did
the shooting, State Trooper Smith was
killed by a revolver bullet.

Two other troopers on foot were also
shot and killed, falling into the arms
of their comrades.

The state troopers then opened fire
on the mob in a volley for the first
time since the inception of the strike.

Six strikers fell to the ground at
the first round, three of them report-
edly fatally wounded.

The members of the mob then open-
ed fire with rifles in return. Several
troopers are reported to have been
wounded.

An ambulance which was carrying
the wounded troopers to a hospital
was later attacked and the driver was
forced to flee. The frightened horses
plunged through the crowd, knocking
down several persons. A detachment
of troopers drove the ambulance to
the hospital.

Among the seven casualties report-
ed was that of Harry Eckley, an ex-
policeman serving as a deputy-sheriff,
whose only relative, a sister, is
said to live in Toronto. The informa-
tion comes from Jack Laroque, one
of the escaping Canadians, who frater-
nized with him at the plant.

The King Nearly Mobbed.

London, Aug. 23.—King Edward was
assured by the authorities that he
would not be molested at Marienbad
this season, but he was so badly mob-
bed the first day that he had serious
thoughts of leaving immediately. The
nuisance has been mitigated some-
what since, but it is still pretty bad,
and the officials are constantly kept
on the qui vive by visits of the King's
suite.

Edward is walking much more than
usual and is playing croquet daily to
the satisfaction of his physicians. This
year among the ladies most ac-
ceptable in the King's entourage is
Maxine Elliott, the actress.

The King is leading the simple life
at Marienbad, rising at 8 a.m. to
drink the waters, while walking to
the golf course, after breakfast giving
three hours to correspondence and
state matters, then after a simple
lunch more walking, a little croquet,
more waters, an early dinner and to
bed at 11 or thereabouts.

Baku Is Bankrupt.

St. Petersburg, Aug. 22.—Baku, the
rich oil magnates' capital, is munici-
pally bankrupt.

For three years the oil companies,
a majority of which are Swedish,
English and Belgian, have been press-
ing the Russian Government to com-
pensate them for the destruction of
their property, amounting to \$15,000,-
000, during the recent revolutionary
uprisings. Their charters entitle them
to be protected, but the Government
now pleads force majeure.

The companies who own all the prop-
erty on Baku, have therefore stop-
ped paying local taxation. The
schools are closed and the teachers
are begging charity. The city em-
ployes are unpaid and have gone to
look for work as harvest hands.

600 Men at Rockcliffe.

Ottawa, Aug. 23.—When the Domini-
on Rifle Association opened to-day
it is probable that more than six
hundred marksmen will be at Rock-
cliffe ranges. This is by far the large-
st entry in the history of the meet-
ing, the previous record being 437.

Sixty cadets are taking part, and ev-
ery Province in the Dominion will be
represented.

An interesting couple from Chat-
ham are Pte. J. W. Smith and Lieut.
Neil Smith, father and son. The
former has been to Bisley twice and
the latter three times.

Major W. C. King, of Bowmanville,
is here for the twenty-sixth year in
succession.

To Chart the Seven Seas.

New York, Aug. 23.—Starting out to
chart the seven seas, the non-mag-
netic yacht Carnegie, glided from
Thebes Basin, at the foot of Twenty
Third street, Brooklyn, in tow of a
tug, shortly before noon Saturday.

The Carnegie, the first ship of her
kind, was constructed at a cost of
\$125,000 for the use of the department
of terrestrial magnetism of the Carneg-
ie Institute, of Washington, D.C.
She was built for the purpose of sur-
veying oceanic areas and determining
distribution of magnetism in these
areas, in connection with similar work
undertaken on land by the institute
and the Government.

Lynched.

Fitzgerald, Ga., Aug. 23.—Henry
Taylor, the negro accused of murder-
ing Mrs. Josh Vickers and her eight-
month-old baby, was taken from a
sheriff's posse and lynched Saturday
near McKlar, Ga. It is stated that
Josh Vickers, the woman's husband,
has been arrested on suspicion of be-
ing connected with the crime.

Alpine Death Toll.

London, Aug. 23.—The Alpine sea-
son is now in full swing and is bring-
ing the usual toll of death and dis-
aster. Six cases of death or disap-
pearance were reported Saturday.

There have been sixteen other
deaths since the beginning of the
month, while fourteen were reported
in July.

Regiments Must Give Notice.

Ottawa, Aug. 23.—A militia order is-
sued Saturday contains notice that in
future when militia corps or detach-
ments desire to visit points outside of
Canada application must be made to
headquarters not later than 30 days
prior to the date on which it is pro-
posed to make the visit.

To Get Good Settlers.

Ottawa, Aug. 21.—Hon. Frank Oliver,
Minister of the Interior, has re-
turned from England, with good
news concerning immigration pro-
spects. There is little immigration so
far to Canada from the southern part
of Ireland, as the movement from
there continues to be in the direction
of the United States. This is large-
ly due to the fact that the passages
are usually paid by friends and rela-
tives who have established them-
selves in the United States. Canada
stands to get most of her continental
immigration in the future from Hol-
land, Belgium and Scandinavia,
countries which supply the finest
class of settlers.

Young Actor in Jail.

Windsor, Aug. 21.—The matrimo-
nial plans of Walter Pilon, aged 20,
a nickelodeon actor from Toronto,
were rudely interrupted by the De-
troit police when Walter was ar-
rested on a charge of having money
belonging to Peter D. Campbell in
his possession.

Campbell, who runs a saw mill
back of Chatham, Ont., went to De-
troit yesterday, and fell in with
Pilon, who was to marry a wait-
ress, who played Campbell for some
home-run money. When searched
Pilon had \$34 in his possession. He
is still locked up, though Campbell
refuses to prosecute.

Two New Coal Companies.

Ottawa, Aug. 21.—Two coal com-
panies have been incorporated, each
with a capital of one million dollars.

The incorporators of the Brazeau
Collieries are: G. G. Ruel, A. J. Reid,
A. J. Mitchell, F. C. Annesley and
E. J. Buller. The incorporators of
the Rocky Mountain Collieries are the
same individuals.

Mrs. Clara Louisa Holden of Tor-
onto is seeking divorce from her hus-
band, Clarence L. Holden, now of
Chicago.

A New City a Thousand Years Old.

Budapest, whose front is circled with
lights like a crown, whose hills rise
dark and feathery above the river,
whose parliament buildings run along
the bank and are second to none but
Westminster—Budapest, bright, flash-
ing, gay, beautiful, modern and rich,
ardent and executive, close built and
amalgamative, blunder of peoples—is
the product of only a few decades, and
yet at its last exposition it celebrated
its thousandth birthday. Pest, to the
right of the river—for the cities are
twin and divided by the Danube—Pest
dates back to 1200, and Buda was the
Oft of the Romans. Buda climbs up
the opposite hill, today magnificently
new, but soon round with green
crumbling walls that mark the passing
of the original founders whose painted
galleys came up the Danube from the
Black sea. The twentieth century civil-
ization, sharply new and powerful,
must for a moment be brushed aside
and the Buda of medieval times put in
its stead.—Marie Van Vorst in Har-
per's Magazine.

Gathering Cloves.

Cloves are now cultivated in many
of the tropical regions of the earth. A
clove tree begins to bear at the age of
ten years and continues until it reach-
es the age of seventy-five years. There
are two crops a year, one in June and
one in December. The tree is an ever-
green and grows from forty to fifty
feet high, with large oblong leaves
and crimson flowers at the end of
small branches in clusters of from ten
to twenty. The tree belongs to the
same botanical order as the guava.
The cloves, which are the undeveloped
buds, are at first white, then light
green and at the time of gathering
bright red. Pieces of white cloth are
spread under the trees at harvesting
time, and the branches are beaten gen-
tly with bamboo sticks until the cloves
drop. They are dried in the sun, being
tossed about daily until they attain
the rich dark color which proclaims
them ready for shipment.

His Reason.

Daughter—Pa, why do you hang
around the parlor while Mr. Sikes is
calling on me? Father—I'm afraid
you'll say something to him that'll
make him a burden on me for the rest
of my life.—Town and Country.

DENTISTRY

Maritime Dental Parlors

DR. J. B. CROCKER, D. D. S.

All Dental work done by latest and
improved methods.

Teeth extracted absolutely without
pain.
