## DUFF-MILLER'S VIEWS.

### Agent General for N. B. Will Discuss Immigration With Local Government.

(St. John Sun.)

"New Brunswick has her advantages and it is not too late to begin systematically a campaign to encourage immigration to her shores," were the remarks of Hon. Charles A. Duff-Miller, agent general for New Brunswick, to a representative of The Sun last evening.

Mr. Duff-Miller is here at present in an endeavor to have the local government take up the matter of immigration. Yesterday he met Premier Hazen. It is probable that Mr. Duff-Miller will proceed with the premier to Fredericton today. During the week he will consult with the government on the matter.

Mr. Duff-Miller was born at Kingston, Ontario, in 1854. However, for the past forty-two years he has been on the other side. He has always been in close touch with colonial matters, especially on emigration. For the past thirteen years he has acted as the agent-general of New Brunswick and has filled the position to the satisfaction of all concerned. Mr. Duff-Miller has served under seven premiers, viz., the late Hon. A. G. Blair, Hon. H. R. Emmerson, late Hon. James Mitchell, Hon. L. J. Tweedie, Hon. William Pugsley, Hon. Clifford Robinson and Hon. J. D. Hazen. In addition to the premier, he has met several of the members of the government.

"It occurred to me but a few days before the Virginian sailed that I could benefit the province if I were successful in inducing your government to further assist me in the old country," he said last night. "I then cabled to a friend and learned the date of the opening of the House. The Virginian sailed from Liverpool on March 5. Upon her arrival at Halifax I came here by train.

"The west may have its attractions for a large number, but New Brunswick can also boast of her advantages. On the other side we need a good man who will give his whole attention to immigration. He could write interesting articles for the papers and a sum of money judiciously expended in advertising would be

sure to bring good results. "It would be of very little value to advertise in the big London dailies, the provincial papers should be used. There are plenty of good industrious people who have money and who want to come out here and buy farms. If such properties that are available were only properly listed and described.

"British Columbia and Nova Scotia, which have agent-generals in the old country, are expending large sums of money to encourage immigration. The former province especially is making a hard fight to secure immigrants, while the Nova Scotia government is also lending its agent-general valuable assistance financially.

"A little money will go a long way, and I hope and am quite confident Mr. Hazen and his colleagues will assist in every way possible."

Mr. Duff-Miller was pleased to hear of the appointment of an immigration agent here. He stated that A. B. Wilmut, the incumbent of the position, could find out the necessary information regarding farms, mills, etc.

In conclusion Mr. Duff-Miller stated that there was plenty of room for thousands in the province. In fact he stated that several mills in the province were closed on account of the

"That Mr. Duff-Miller enjoys extreme popularity on the other side is evidenced from the various newspaper articles. We quote from a recent edition of the Imperial Review: "He has represented his province in London for more than twelve years, and during all that time has devoted himself unremittingly to the study of Imperial questions and to the furtherance of every possible means of making the unity between the colonies and the Mother Country a reality and a mutual source of strength and happiness.

"Needless to say Mr. Duff-Miller in addition to be an excellent colonist and patriotic Briton, is an ardent Scotsman. He is on the court of the Highland Society of 1778 and a mem-

ber of the Scottish Corporation, and nothing makes him prouder of New Brunswick than that, notwithstanding their mixed origin, the people there are truly Scottish in their predominating traits—a fact which makes him all the more jealous of their honor as citizens of the Empire."

### MUST WAIT A YEAR.

**Bill to Extend Boundries of Ontario and Manitoba Will Not Come Up This Session.**

OTTAWA, March 14.—Owing to the refusal of the various governments to accept the terms proposed by the federal government in a resolution passed last session providing for extension of the boundaries of Manitoba, Ontario and Quebec, it is understood there will be no legislation this session to extend the boundaries as proposed. A v. alteration or extension of provincial boundaries must, under the terms of the British North America Act, be a matter of mutual agreement between the federal government and the provinces concerned.

The proposed division of the district of Keewatin between the provinces of Manitoba and Ontario as defined in the resolution passed last session is considered by the federal government to be the most equitable one that could be devised and the government has no intention of meeting the demands of Manitoba for a larger share of Hudson Bay shore line.

The Manitoba government will have to go to the country for re-election in another year and Premier Roblin and his colleagues are evidently designing to make political capital out of their insistence in demanding better terms for Manitoba.

In this, however, they cannot be backed up by Mr. Borden and his followers in the commons since, if the latter supports Manitoba's claims they will be met by a vigorous protest from Premier Whitney and Conservative friends in Ontario. There is no pressing need for the proposed extension of boundaries this year and until Manitoba and Ontario agree to accept the fair terms offered, the whole question will be left in abeyance.

In Asthma and Bronchitis it is a successful remedy, rendering breathing easy and natural, enabling the sufferer to enjoy refreshing sleep and often affecting a permanent cure.

Mrs. Henry Smallpiece, Brudenell, Ont., writes:—"I was always subject to a cough and could get nothing to relieve me until I saw an advertisement of Dr. Wood's Norway Pine Syrup and thought I would try a bottle, and when I had taken a few doses I found I was getting relief, and when I had finished it I was cured. I procured a bottle for my baby, who had a cough, and a few doses cured him. I would advise anyone having a cough, to give Dr. Wood's Norway Pine Syrup a trial and I am sure they will never be without it."
