FREIGHTER IS SUNK

John B. Cowle Goes Down at Soo and 14 Are Drowned.

IS RAMMED IN THE FOG

New Steel Freighter Isaac M. Scott Collides With Cowle In a Dense Mist Off Whitefish Light and Sends Her to the Bottom With All But Three of Her Crew—Captain Among the Saved.

Sault Ste. Marie, July 13.—Three minutes after the steel steamers Isaac M. Scott and John B. Cowle had collided in Lake Superior early yesterday morning, about a mile and a half off Whitefish Point Lighthouse, the Cowle had gone to the bottom in 50 fathoms of water, carrying with her 14 members of her crew. The Scott, although badly damaged about the bows, put back to this port, where she arrived yesterday afternoon with part of the crew of the Cowle.

A heavy fog was responsible for the collision. The Scott, a new boat, on her maiden trip to the head of the lakes, had just passed the light at Whitefish Point and straightened out her course up the lake, when suddenly the John B. Cowle loomed up through the fog, broadside on to the Scott, and only a few feet away. The Cowle was down bound with 8,000 tons of iron ore in her hold.

The Scott crashed into the side of the heavily-laden Cowle. For 15 feet her bow penetrated. Tons of water rushed into the great opening and in three minutes the Cowle had settled to the bottom of Lake Superior.

Immediately after the collision a line was thrown from the deck of the Scott to the Cowle, and three members of the crew escaped to the deck of the upbound boat by this means. The rest of the crew, who were saved, jumped from the sinking steamer into the lake, some without life preservers, and were picked up by the Scott and the steamer Goodyear, which was a short distance astern of the Scott when the collision occurred.

Capt. Rogers of the Cowle was one of those rescued by the Goodyear. Until he is heard from it is impossible to secure the names of the men who perished. Survivors say they include both engineers, the four firemen, four deck hands, the second cook, porter and an older named Patterson.

The Scott received serious injuries in the collision, which would have probably sent her to the bottom had she been loaded.

The John B. Cowle was 445 feet long, 50 feet beam and owned by the Cowle Transit Co. of Cleveland. The Cowle went into commission in 1902.

Thaw Nears Liberty.

White Plains, N.Y., July 13.—It is now probable that a commission of three alienists, mutually selected, will pass on the question of Harry K. Thaw's sanity.

With all of yesterday's testimony in favor of Thaw and with the indication that his wife, Evelyn Nesbitt Thaw, will take the stand in his behalf, with District Attorney W. Travors' Jerome eliminated, Thaw's chances for release appear brighter than at any time since his commitment.

Man Hurt; Barred at Line.

Buffalo, July 13.—Sunday evening Frank Scopic of Sherston, Ont., a town about five miles back of Crystal Beach, was tossing stones with other young men of the village and was struck on the head. Dr. George B. Snyder of Ridgeway saw that the man had a severe fracture of the skull and telephoned the Sisters Hospital to have an ambulance meet the steamer Americana of the Crystal Beach line when she docked in Buffalo at 11.15.

When the boat reached the foot of Main street the ambulance was waiting. So was Inspector Sparkling, an immigration officer, who demanded the name and residence of the unconscious man on the stretcher. Dr. Snyder explained that the wounded man had a fractured skull and that an operation before morning was necessary to save his life. Inspector Sparkling protested violently against admitting a disabled alien under any pretext.

Later Chief Inspector Buchanan allowed Scopic to be landed on an understanding from the surgeons that he would not become a public charge. Scopic is 25 years old, with a wife and two children.

Suffragettes Go to Jail.

London, July 13.—Fifteen of the suffragettes who in the course of the raid on the House of Commons, June 29 indulged in the breaking of windows with stones hidden in brown paper parcels, went to prison for a month yesterday rather than pay the fines inflicted by Sir Albert De Rutzen, the Bow street magistrate.

Sir Alfred commented severely upon the lamentable spectacle of respectable women in the dock on charges usually associated with juvenile delinquents.

The four suffragettes who last Saturday presented a petition to Premier Asquith, after which they were arrested for disorderly conduct, were sentenced to three weeks' imprisonment.
