AN ALLFED SPOOK.

Marysville People Excited Over Visitors From the Spirit World.

Considerable excitement exists at Marysville over the appearance of what many believe to be a real ghost. The visitor from the spirit world is said to have first made his appearance on Monday night at the saw mill, and came suddenly upon the night watchman. After spending a few minutes in the company of the night watch, he vanished upwards into thin air as suddenly as he came, apparently going through the floor. On Tuesday night at the midnight hour was drawing near, the apparition again made its appearance. He did not have on the time honored white regalia of ghosts, but a fashionable dark suit.

He appeared about the same hour on Wednesday night, and then it was that the night watch decided to let him stay on the job alone. The night watch handed over the job to the manager of the mill, stating that he did not care to be the companion of ghosts.

Another night watch came on duty, and then the ghost returned and began to get friendly. He told the new hand that he was just dropping around to see how things were going, and that he would be glad to call again.

A great many Marysville people are laughing over the affair, and a number of the more superstitious are inclined to believe the story. Some of the younger members of the community will not go away from their homes after dark for fear of meeting with the spook.
