

THE BEST POLICY.

No Doubt But That Dishonesty Doubles the Journey to Success.

By Herbert Kaufman in Chicago Record-Herald.

Dishonesty doubles the journey to success; a crooked path must always be longer than a straight one. If you have the least doubt upon this point, take out your pencil and make the test; you don't need an engineer's degree for the proof—just a degree of common sense.

A man is never so strong as when he stands upright—the further he stoops the easier he can be knocked over.

The end of a reputation depends very largely upon its beginning. An unsafe foundation continually threatens everything that rests upon it. A little more time spent in beginning life right will save years of after-effort in setting right a false start. Reputations must be built of sound timber or they can't last. If there's a flaw in a man's record, it's bound to show, and the more important he becomes the more certain the disclosure. A faulty beam is never in such danger as when it is called upon to sustain a great weight. Sooner or later failure is sure to mark the man who marks his cards.

Swimming with the tide requires less skill and endurance than swimming against it; the man who isn't straight puts a terrific handicap upon himself. He must play tug-of-war single-handed against all society. The strength and resource that can successfully hold out against the organized opposition of public sentiment could accomplish tenfold as much with the co-operation and good will of everybody arrayed in its favor.

Every now and then we hear Weak-kneed Shallowbrain sophistically remark: "Don't tell me that honesty

pays; look at Soandso; see what he has accomplished, and everybody knows how he made his money."

But Shallowbrain doesn't pause to realize that if "Soandso" had not paid the penalty and did not wear the livid brand of disrepute he would not be able to quote his record.

Prison bars are by no means the ultimate punishment; iron gratings are easier for some men to endure than the grating contempt of their associates.

Wealth shrinks in value when its possessor is despised and distrusted; its purchasing power shrivels.

Every dishonest dollar leaves a trail as plain as that of an anise bag and eventually leads up to the man who carries it.

Fate is a creature of whims. In her sardonic humor she frequently postpones her settlement day to increase its hardship; she often lulls the cheat into a sense of security, and after permitting him to understand and aspire for the finer things of life, she drags him down to his earlier level and collects her debt with a frightful compound interest.

There's only one way that's right, and all the other ways are wrong. The young man setting out to make his way in the world can find no inspiration in its thieves—none of them head on to their loot; no wholesome lesson in its gamblers—games of chance have pauperized more men than they have enriched.

Success does not cut her rates—her terms are set—she does business on the one-price system.

All the noteworthy achievements in commerce and in art were soundly conceived and accomplished through hard work and honorable effort.

WEAK, TIRED GIRLS

Will Find Health and Strength Through Dr. Williams' Pink Pills.

There is a time in the life of every girl when the strain upon her blood becomes too great; when she grows weak, has headaches and backaches; when dizziness seizes her and she becomes extremely miserable. That is the time of life she needs a tonic—a medicine that will not fail to enrich her blood and give her strength to withstand the changes through which she is passing. Such a tonic is Dr. Williams' Pink Pills for Pale People. They have raised thousands of growing girls out of the depths of misery and despair to a full enjoyment of good health and strength. Among those who have found good health through these Pills is Miss Suddard, of Haldimand, Que., concerning whose case her mother writes as follows:

"Dr. Williams' Pink Pills have been a great benefit to my daughter who was weak and miserable. She was pale, easily tired and was bothered with indigestion. The use of the Pills has brought back her health, and made her strong and active. I am very grateful for what this wonderful medicine has done for her."

Dr. Williams' Pink Pills are the greatest blood builder known to medical science. That is why they cure anaemia, rheumatism, heart palpitation, indigestion, neuralgia, etc. That is why they are of such value to women and girls during the changes through which they pass from girlhood to maturity. The Pills are sold by all medicine dealers or direct by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Because a man happens to be extravagant with his love is no sign he'll ever come to want.

CATARRH CURED OR MONEY BACK.

The cause of Catarrh is a germ. It multiplies in the lining of the nose and throat, spreads to the bronchial tubes and finally reaches the lungs—it goes to the stomach—and fails to cure—Catarrhozoe is inhaled. It goes everywhere—gets right after the germs—kills them—heals the soreness—stops discharge and hacking—cures every trace of Catarrh. You're absolutely certain of cure for Catarrh, throat irritation, colds or bronchitis, if you use Catarrhozoe. 25c. and \$1.00 sizes sold everywhere.

The girl you think the most of is the girl whom you should have sent a present, but forgot.

MAKES A SAINT SWEAR.

To have his favorite corn stepped on. Don't have corns—cure them with Putnam's Corn Extractor. Takes 24 hours—no pain—costs a quarter. Try "Putnam's."

STUMPAGE COLLECTION.

Foolhardy Change in Regulations Responsible for Part of the Increase.

To the Editor of the Herald:

Dear Sir,—The Hon. Mr. Fleming in his last budget, and the Premier, Mr. Hazen, has proclaimed to the house tops that their government, like the Pharisee of old, were not like as other governments, they were another Moses as it were, come to deliver the country from the hands of the Philistines. It would seem to be easy for them and the Surveyor General, Mr. Grimmer, to imagine themselves living in a paradise created by themselves. Presuming as that they have done, they go on to state that the estimated cut is greater than has heretofore been, and therefore the increased amount of stumpage will and is greater than ever, not only under the regime of the late government, but even under their late associates, the Hannington government.

They endeavored to persuade the people of this county that they have accomplished wonders, and with most wonderful acumen and astuteness an imaginary surplus has come about during their tenure of office. Wit that greedy desire for holding office, they forget to remind the people that they may be likened to the hunting season story, of each year, when it is told in mournful numbers the following day, a bird, a man, a gun, no bird, a dead man, "they will be done," or it may be fair to compare say a forest, a government, an axe; no forest, a dead government, "again they will be done." It is useless for this self-praised government to try and bolster up a mismanaged estate, the intelligent timber owner and voter throughout this province knows that a law permitting the cutting down to nine inches at the top, while this may give more stumpage for the time being, is ruinous legislation, and will be the chief cause of bankrupting this province, which was fifty years ago timbered over with a primitive forest. If the electors of this province will just consider they will see for themselves that there is not a practical or experienced forester in touch with the management of our Crown lands. This government has come into power, and between the serious fires and their ruthless laws, the outlook is not promising, so far as the supply of timber is concerned.

If the Hon. Surveyor General is responsible for reducing the regulation sized tree from 11 inches at the top to nine inches, it would appear to be in accord with almost the absurd observation he made in a letter read by him before the last Forestry convention at Toronto, when he said the bogs of the province should be drained, and trees planted thereon. What can the people expect when the principles of true forestry were violated by this unwise act. Conservation of our resources is the watchword of our conscientious public men. Apart from fire the principal cause of our forest destruction is unwise and imprudent cutting and which in many cases has resulted in wide spread injury to

the climate and streams. It is therefore of the first importance that all lumbering operations should be carried on under a system of rigid regulations.

Gifford Pinchot, the most pronounced authority in America, calls out, "Time is up for cutting land for revenue only over cut lands." Roosevelt says, "Rather than waste our resources, let us issue bonds."

Time is the real test of wisdom. However wise the Hazen government in their own opinion appear today for political capital, events of future years will prove them to have been simpletons, and their ideas in themselves appear utopian, and will not after many tomorrows command the respect and admiration of the multitude.

THE FOREST LESSON.

The throb of the axe in the forest went on through a nation vast, Like a fevered heart this is beaten in measure that's all too fast;

We gave carte blanche to the woodman and more stayed the vandal hand,

And now to replant our forests we must send to the Fatherland.

Yours truly,
A. E. HANSON.

Twelve Miners Fall 215 Feet.

Terre Haute, Ind., June 25.—Twelve foreign miners were badly injured yesterday when a cage at the Klondyke Coal Mine fell from the pit opening to the bottom of the shaft, a distance of 215 feet.

The cage going up became fast when the cable became entangled, and an hour lapsed before a rescue party could be sent down.

C.N.R. Comes In Useful.

Winnipeg, Man., June 25.—No. 97 westbound is running in two sections, first being about twelve hours late, leaving here yesterday morning instead of Wednesday evening. Delay was caused by another sinking of the bridge work over a fill-in at Hawk Lake, near Kenora. Traffic will again have to be sent over the Canadian Northern.

Crazed Man's Deed.

Winnipeg, June 25.—Mrs. Gust Benikson was killed at Preston, Minn., Wednesday night by her crazed husband, while trying to shield her twelve-year-old son from death at his father's hands. The crazed man then went into the woods and shot himself. Seven children survive, the youngest being six months old.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists. Price 75c. per bottle.

Take Hall's Family Pills for Constipation.

Honors For Harmonic.

Port Arthur, June 25.—The new Northern Navigation Co.'s steamer Harmonic will get a big reception on the arrival here today. An address and Canadian ensign will be presented to Capt. Foote by the city.

May Have Coadjutor Bishop.

Ottawa, June 25.—The Anglican Synod of Ottawa yesterday evening passed a canon providing for the election of a coadjutor bishop at any time when the executive considers such a step necessary.

Strawberries in October. The autumn in Nova Scotia was remarkably fine and mild. Strawberries have been picked in several districts of the province during the last week of October.

FRIGHTFUL STOMACH TROUBLE

For Four Long Years He Suffered—Then "Fruit-a-tives" Brought Relief.

Stratford Centre, Wolfe Co., Que. May 11th, 1908.

I have been completely cured of a frightful condition of my stomach through this wonderful medicine, "Fruit-a-tives." I suffered for four long years with this trouble. My head ached incessantly. I could not eat anything but what I suffered awful pains from indigestion. I used every known remedy and was treated by physicians, but the dyspepsia and headaches persisted in spite of the treatment.

I was told to try "Fruit-a-tives" and I sent for six boxes, and this was the only medicine that did me any good. I am now entirely well. I can eat ordinary food and I never have a headache, and for this relief I thank this wonderful remedy "Fruit-a-tives." My case is well known in this vicinity and you may publish this statement.

ALCIDE HEBERT.

50c. a box, 6 for \$2.50, or trial size 25c. If for any reason your dealer does not handle "Fruit-a-tives," they will be sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

To Reach Churches in West.

London, June 25.—(C.A.P. Cable.)—An informal conference was held at the offices of the Society for the Propagation of the Gospel to consider a movement for advising and helping those churchmen who emigrate to Canada. The trend of discussion pointed to the necessity of the Canadian church appointing a central secretary, whose business will be to advise churchmen where to settle where they will be in touch with the ministrations of the church. A representation to this effect will be made to the primate of all Canada. There is a general feeling that Archbishop Lloyd, who really inspired the conference, should head the scheme.

Can Catch Their Trains.

Ottawa, June 25.—The order-in-council recently passed fixing the hours of the civil service from 9 a.m. to 5 p.m. has been slightly amended. In case of officials who had made arrangements for the summer and who have to catch trains at five o'clock up the Gatineau, it will be in the power of the Deputy Minister to modify the time arrangement for this year only. Also, higher officials will be relieved of the necessity of signing the attendance book. This also applies to private secretaries of Ministers and stenographers attached to a Minister's office.

Subsidies Discontinued.

Ottawa, June 25.—The subsidies for the steamship service with New Zealand which has been carried on for the past two years by the Alley Steamship Line, with an annual subsidy of \$100,000, each Dominion contributing \$50,000, have been discontinued. About ninety per cent. of Canada's trade goes via New York, and the balance from British Columbia can be handled via San Francisco. The service last year cost the Government about one dollar in subsidy for every seven dollars' worth of freight carried.

Runaway Auto Accident.

Poughkeepsie, N.Y., June 25.—Mrs. John Matthews, wife of the superintendent of the Dupont Powder Works at Wilmington, Del., was instantly killed in an automobile accident. Mrs. Matthews was with her husband and daughter and two nephews and two nieces on a trip to the Berkshires. All were thrown out, when control of the car was lost and ran at a mile a minute speed when descending Delevan Hill, the machine turning completely over when a tire burst. Mrs. Matthews was thrown against a tree.

Sixteen Buried Under Grain.

Montreal, June 25.—Sixteen coal trimmers were buried for four hours under 30,000 bushels of wheat in the hold of the Lake Manitoba Wednesday night and barely escaped with their lives. They were only saved by the anxiety of a boarding-house keeper, who sent to the ship to ask when his gang was going to eat. Stemm shovels were put at work and the men were found crowded together below a pipe leading to the outer air. They were all safe, but weak from the terrible heat.
