

DOMINION BRIEFS.

Some Happenings From All Over Canada.

After an illness lasting some months, Rev. Dr. William MacLaren, Principal Emeritus of Knox College, died on Tuesday, aged 82 years.

Ex-Sharif Jas. Thompson of Smith Falls, Ontario, is 98 years old. He is in excellent health and still takes daily strolls.

The succession duties received by the Provincial Treasurer of Ontario for July amounted to \$73,317, making the total for the seven months \$497,306.

Lieut.-Col. J. C. McDougall, R. C. R., now in command of Welsley barracks will be transferred on Sept. 1 to Halifax as chief staff officer of the Maritime Provinces.

The customs receipts for the month of July at the Port of Toronto aggregated close upon \$1,000,000. The amount in round figures was \$960,000, against \$713,000 for the same period last year.

Joseph Lavareure, 26 years old, of Montreal, was drowned in the St. Charles River Tuesday afternoon whilst bathing from the steamship Imperial of the St. Lawrence Navigation Company, on which he was employed.

The coal sheds of the I.C.R., more than a dozen box cars, half a dozen coal hoppers, seven hundred tons of coal and other property of more or less value, went up in smoke yesterday afternoon at the I.C.R. yards, Richmond.

Through the action of the United States Immigration officials here, Mrs. Gallant, an elderly woman, a native of Stanmore, P.E.I., but for twenty-four years a resident in Boston, may be prevented from returning to her relatives in Boston.

A fourteen year old son of Joseph Isset, a colored resident of Boyleston, Guysboro County, N.S., has been arrested, charged with causing the death of his six year old sister. It is alleged that in the absence of his parents he tied the little one to a ladder and beat her to death.

Representatives of Methodism from the wide world will be gathered in Toronto in the month of October, 1911. At the convention the following commissioners will represent the Church in Canada: General Superintendent Albert Carman, Dr. William

Briggs, the Hon. Mr. Justice J. J. McLaren, and H. H. Fudger.

While the boys from St. John's Industrial School, of Toronto, were bathing in the lake last Tuesday afternoon one of them, Robert O'Connell, aged 13 was drowned. He was seized with cramps and sank despite the efforts of his companions to save him. His former home was in Brantford.

H. H. Granger, aged 37 years, of Moose Mine, was fatally injured, and Mrs. Granger, aged 30, who lives six miles from Wawanesa, was instantly killed in a railroad accident yesterday. The ladies were driving near the C.N.R. tracks, when the horse became uncontrollable and ran into an east bound train. The mangled remains of the horse was carried a hundred yards and the train stopped. Mrs. F. H. Granger, who was quite deaf, and Mrs. H. H. Granger lived only a short time after the accident. The latter leaves three children and a husband.

The Tobin Arms Manufacturing Company of Norwich, Conn., are about to move to Canada, and will start a new factory at Woodstock, Ont.

Clara Braithwaite, the thirteen-year-old daughter of George Braithwaite, hotel keeper of Harrisburg, Ont., was recently discovered by a crew of passing trainmen hanging to the branch of a tree. It was evidently a case of suicide.

An action for \$18,500 damages has been entered against the Canadian Pacific Railway by Aline Yappi, tutor to the six minor children of Moise Yappi, who was killed at a railway crossing of the C. P. R., at Farnham, a fortnight ago. The action alleged that the father at the six children was killed through the negligence and imprudence of the company.

Five more proprietors of moving picture shows of Montreal were fined on Tuesday for keeping their places of amusement open on Sunday. The total fines and costs were \$103.50.

Ontario had a severe electric storm a few days ago. Barns filled with recently gathered crops were burned in many localities, and many cattle are reported killed. The apple crop in the eastern end of the province was greatly damaged. Bert Cadman, of Pottage la Prairie, Man., 30 yrs. of age was killed by lightning while plowing in the field.

SERVING TWO MASTERS.

A Correspondent Thinks the C. P. R. Does Not Help N. B. in Immigration Matters.

Editor Herald,—

When the Hazen government came into power, they announced with a big flourish that they were going to take up an aggressive immigration policy, with the view to increase the population of the province, and that the C. P. R. had promised their active assistance to further this most desirable end. Forthwith the government spent \$2000 on an advertisement in the "Standard of Empire," setting out the advantages of the province; they appointed an immigration officer at a salary of \$1500 with an office and a stenographer; they re-organized the office of the Agent General in England and took other steps to carry out their programme.

The other day their St. John organ announced that

"Another illustration of the energetic efforts of the Hazen administration to advance the best interests of the province is found in a booklet recently issued by the C. P. R., setting forth the advantages of New Brunswick as a place of settlement. The publication of this book is due to the active steps the present Government is taking to improve the conditions of agriculture in this province and encourage the immigration of suitable classes of people."

Then follows a description of the many advantages the province holds out to intending settlers, with some "convincing testimony" from actual settlers, and various other reasons why people should come here.

In another column it is stated that "As a result of the efforts made by the present Provincial Government, a steady stream of immigrants is being directed to-

wards New Brunswick. Immigrants arrive at Montreal by nearly every passenger steamship sailing from Great Britain with the intention of making New Brunswick their future home. These settlers are chiefly farmers from England and Scotland and a most desirable class of people."

So far, so good. But there is another side to the picture. The organ has another master to serve, whose interests will not wait. In another column under large headlines, it is announced that "the C. P. R. plans for usual excursions, 25,000 harvesters required to garner western wheat crop" and continued, "Despite reports regarding the western harvest, were received today by the Canadian Pacific Railway, and steps were at once taken to make arrangements for the annual harvest excursions to the prairie country. As usual, the first of these excursions will be run from the maritime provinces, the first train to leave the various centres of New Brunswick, Prince Edward Island, and Nova Scotia. On August 11, trains will be run from all points to connect with the through excursions, and the usual rates will be given. Advances received by the Canadian Pacific indicate that at least 25,000 harvesters will be required from the east, as there is already a shortage of labor, and it is hoped that a great many people from the east will take advantage of the low rates and high wages to visit the west by these excursions. Further details as to the later excursions will be given out later."

What is the use of the government spending the money and taking the steps it has, if the C. P. R. is to steadily undo all that the government is doing? What is the use of

Don't Cough! It's Dangerous!

"Father Morrissey's No. 10" will stop the Cough and Cure the Cold

Are you one of those who say, "O, it's only a little cold," and let the cough hang on, doing nothing for it? If you are, just think a minute.

It is true that most colds, if left to themselves, will leave you after a while—but they leave you with the delicate lining of throat and lungs weakened—an easy prey to the next cold. Every cold you neglect makes it easier to catch the next one, and harder to get rid of it, and it doesn't take many such colds to give you Catarrh or some serious lung trouble.

"Father Morrissey's No. 10"—Cough Cure and Lung Tonic—is a preparation of roots, herbs and Balsams that will prevent all this. It promptly clears away the mucus, removes the irritation and inflammation that causes the coughing, and heals and strengthens the delicate membranes. Besides, it tones up the whole system and gives you strength to resist the next attack.

Try bottle, 25c. Regular size, 50c. At your druggists, or from Father Morrissey's Medicine Co., Ltd., 8 Chatham, N. B.

The C. P. R.'s boasted assistance in an effort to bring people to this province? For every man that the government brings in, the C. P. R. takes ten out on these annual excursions, and not fifty per cent of them ever return. The railway offers them no inducement so return; in fact it penalises them if they should want to return. It takes them out there for about \$12, and charges them \$18 if they want to come back. If this is the way that the C. P. R. is "going to do all it can for New Brunswick," the province would be infinitely better off without its help at all. Never was the truth of the parody on the old proverb more clearly shown, "Consistency, thou art a joke."

THE GIRL THAT IS PALE

She is in danger, her system is run down, weak—she needs nourishment, needs richer blood. More than all else she needs Ferrozone, needs it because it brings back the nerve energy which rapid growth and study have exhausted. The old-time vigor, happy spirits and new strength return with Ferrozone. The delicate maid is energized, strengthened and rebuilt. Isn't it worth while using Ferrozone when it surely does so much. At all dealers in 50c boxes.

Scolded After Whipping.

Harrisburg, Aug. 5.—Because she had received a whipping in the morning, thirteen-year-old Clara Braithwaite last evening hanged herself in her father's orchard.

She chose a tree which her father, G. J. Braithwaite, an hotelkeeper, would pass on his way home. Neighbors, however, discovered the body about 7 o'clock, when it was thought there were signs of life, but as telephone wires were out of order it was not for over an hour that doctors could be secured.

The little girl had hanged herself with a strap, and she had drawn her legs up to be clear of the ground. It appears the girl had been chastised by her stepmother yesterday morning. She was around the village yesterday in a despondent mood, and was seen in the vicinity in which the body was found. She had been out gathering apples previous to this at a neighbor's.

Perhaps Fatally Hurt.

Guelph, Aug. 5.—Arthur Skinner, commercial traveler, brother of Dr. Skinner, sustained serious injuries yesterday morning and may not recover. Falling from a load of hay, he was trampled under the feet of the frightened horses.

With the intention of working on the farm for a short time for his health, Skinner had gone to the country. Yesterday morning was his first on the farm.

New Fisheries Regulations.

Ottawa, Aug. 5.—Information has been received by the government to the effect that the new international regulations to govern the fisheries of Canada and the United States agreed to by Prof. E. E. Prince and Prof. David Starr Jordan will not go into effect until 1911. They will be published simultaneously in December next, so that a full year's notice will be given to all concerned.

PUBLIC NOTICE

Notice is hereby given that The Canada Loose Leaf Company, Limited, will apply to the City Council of the City of Fredericton for a loan and certain exemptions hereunder set out pursuant to Chapter Thirty Nine, Acts of Assembly, 6 Edward VII.

The Company will make application for exemption from water rates sewerage rate and taxation generally for a term of five years, renewable for a further term of five years, and a loan of three thousand five hundred dollars, repayable in instalments of five hundred dollars annually without interest, the first instalment to be paid five years after the loan is made.

In consideration of such assistance the Company on their part agree to repay such loan as aforesaid and to employ forty five people with a gross annual wage of not less than three hundred and fifty dollars weekly, and to actively carry on the business of manufacturing loose leaf ledgers and other loose leaf devices to the amount of not less than \$50,000 annually. To secure the repayment of such loan by a first mortgage on the building and machinery owned by the Company and to insure the said property with loss, if any, payable to the City of Fredericton to the extent of their interest, and also to give a bond conditioned that the Company will carry out all their agreements as above mentioned.

The said application will be made to the said City Council at their regular monthly meeting to be held on Tuesday evening, the second day of August next.

Dated the twenty fourth day of July, A. D. 1909.

The Canada Loose Leaf Company, Limited, by FREDERICK HARCOURT, Managing Director.

June 24th mo.

SEALED TENDERS

Addressed to the undersigned, and endorsed "Tender for Wharf at Leonardville, N.B.," will be received at this office until 5.00 p.m., on Friday, August 20, 1909, for the construction of a wharf at Leonardville, Deer Island, Charlotte County, N. B.

Plans, specifications and form of contract can be seen and forms of tender obtained at this Department and at the offices of E. T. P. Shewen, Esq., Resident Engineer, St. John, N. B., Geoffrey Stead, Esq., Resident Engineer, Chatham, N. B., and on application to the Postmaster at Leonardville.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, with their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honorable the Minister of Public Works, for eleven hundred dollars (\$1,100.00), which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or if he fails to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,

NAPOLEON TESSIER,

Secretary.

Department of Public Works, Ottawa, July 22, 1909.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department. July 26, 1909.

"Chuck It, Duke!"

While the Duke of Connaught was in Cairo he went for a stroll one morning, and on his way back to his quarters he came face to face with an old Englishman wearing the ribbon of the Indian mutiny on his breast. The duke stopped and spoke to the man about his military service for some little time. Presently the man said, "Not knowing, of course, to whom he was speaking, 'Are you in the army yourself, then, sir?' The duke smiled and admitted that he was. 'Getting on all right?' was the next question. The duke smiled again and said that he had not very much to grumble at, on the whole, though perhaps he was not doing quite so well as he could wish. 'No, and you never will, my boy,' was the surprising retort of the veteran. 'What you want in the army today is either brains or a tremendous amount of influence behind you. You may take my tip, old chap; and chuck it!'—London T. P. O.

The First Peer of the Realm.

Dr. Davidson, Archbishop of Canterbury and first peer of the realm, who had such a large hand in killing the Education Bill, was confidential friend and adviser to Queen Victoria for twenty years. The very fact that he was honored with such a confidence, and kept it so long, is an open proof of his tact, shrewdness, and common sense. Indeed, it would be no compliment to say that he has never made a mistake. He has certainly a marvellous gift of "not putting his foot into it." Owing to the effects of gun accident in his youth, the archbishop has to be content with the very simplest of diets. He touches scarcely any meat, and frequently subsists for months on nothing but milk foods. Like the Bishop of Ripon, Dr. Davidson has never taken kindly to gaiters. He is a man of inexpensive tastes, and when the head of the diocese of Rochester was a constant patron of omnibuses and trams.

PORTING TAILORS

Furnaces and Repairs

The important matter heating should not be left until the temperature is awfully down. Setting up new Furnaces and making repairs to old ones is part of our business at this season.

We have a few wood burning Furnaces which were exchanged for Coal Furnaces which we sell at a bargain. These Furnaces are in good condition and have only been used a short time.
