ADVANCE AND THE REACTION

An Interesting and Instructive Comparison Covering Periods of Years.

(Boston Transcript, Tuesday.)

One year ago we reprinted a brief summary of the "swings" of business activity and reaction since the end of the Civil War, and it may be interesting to reproduce it just at this time—

Years—	Period of	Duration.
1868-1873	Advance	5 years.
1873-1877	Decline	4 "
1877-1882	Advance	5 "
1882-1885	Decline	3 "
1886-1892	Advance	6 "
1892-1896	Decline	4 "
1896-1902	Advance	6 "
1902-1903	Decline	1½ "
1903-?	Advance	? "

Really, the era of advance began late in 1896, is still in progress the 1902-03 reaction being an "incident" of correction of the over-haste in discounting good times, subsequent events having rounded back the upward swing. It will be noted that the years of depression are few than those of advance—twelve only of the last thirty-seven. Two years ago it was asked: "How long will the present reaction continue?" That was at a time of suspend confidence, after the collapse of the 1902 boom. A year ago we had the answer—the reaction lasted about a year and one-half, or from September, 1902, to the spring of 1904; the recovery so far as stocks are concerned, dates from March, 1904, since then an average rally of over $25 is shown in closing prices of 25 leading stocks with at current prices of 25 age over $3 above the 1902 highest, and reach of a new high record yesterday. Of course, all stocks are not at their highest, and it is due to "specials" that the "barometer" makes the showing of a new high record. To exhibit the "swing" we show herewith prices of "barometer" stocks at the 1902 highest, the 1903 lowest, 8th in September) and the current quotations:

* 88⅜ in May, 1904.

Two years ago this month, at the time of 1903 prostration, it was observed that "by the time of the next presidential election another advance movement will begin. . . . The readjustment in business conditions now going on should be completed before the end of the year 1904." And so it was—long before. Undoubtedly the tendency in our business life is towards shorter periods of reaction. Conditions are becoming more stable and the change for the better in basic elements of business—currency, credit, confidence—make for less and less of protracted depression, more and more of expansion and "resiliency."

COTTON JUMPS $5 A BALE

The Ginners' Report Throws Bears in a Panic---Nearly $1,500,000 Bales Sold Yesterday.

NEW YORK, Nov. 22—The report of the Census Bureau yesterday showing the amount of cotton ginned up to Nov. 14 to have been 7,498,167 bales took even the ardent bulls by surprise. It was generally expected that the figures would show at least 8,000,000 bales ginned, and the excitement which followed the announcement has seldom been equalled in the pit.

It had been announced that the report would be made public at 2 o'clock, and at that hour the crowd about the railing of the pit began to thicken. Nervousness was evident in the air. At ten minutes to two the platform around the ring was lined with a mass of men at least five deep. Courage by this time seemed to be oozing from the long side and then came a sharp sputtering of selling offirs which met with but indifferent response. At least a minute, or perhaps two, before the official telegram was passed up to Superintendent King a rush went up from the pit. It meant that the figures or something very close to them were already known by at least one or two repesentatives of enterprising wire houses, and quite a long time elapsed before order was sufficiently restored to make the official announcement possible.

The effect of the surprise when the figures were made known was to throw the whole room into wildest excitement.

During the first rush to cover about 200,000 bales were sold, and the total trading for the day ran up close to 1,500,000 bales, as against a normal average of about 800,000.

The market reacted and closed nervous and irregular at 78 to 83 points above the final quotations of the previous day.

ALL THE SEASON'S SPORTS

HARVARD-YALE GAME SATURDAY

Cambridge, Mass., Nov. 23—Preparations for the annual football contest between Harvard and Yale, which will be played this year in the Stadium on Saturday, were nearly completed today. The 43,000 ticket holders have received their red or blue strips of pasteboard, and from the demands by those less fortunate followers of the game who have been unable to get tickets, there is every indication that there will not be a vacancy at the kick-off on Saturday afternoon.

The crowd that will witness the game will be the largest that has ever assembled at a football contest in this country. The seating capacity of the stadium, which is about 40,000, has been increased by an additional stand at the opening on the end of the north, and by several rows of seats along the inner circle and on top of the great structure.

CALAIS FARM HORSES SOLD

Good healthy prices were paid at the second day's sale of Fasig Tipton Company at New York. The highest price of the afternoon was $4,600, paid for Col. Delmar, 2.14¾. Thomas W. Murphy paid $3,000 for the pacer Reliance.

The price of $70 for a race horse which once won a $10,000 purse was paid. This mare won the Flower City stake for $10,000 at Rochester many years ago. Now she is 21 years old, and has not raced since her 14th year.

Stanley Dillon, 2.07¾, was sold to Chas. A. Niles, of Terre Haute, for $1,885.

The principal sales of the Calais, Me., Stock Farm horses, owned by J. M. Johnson, were as follows:—

KID SULLIVAN WINS FROM ATTELL

Baltimore, Nov. 23—Kid Sullivan, of Washington, and Abe Attell, of San Francisco, met in a fifteen round match before the Eureka A. C. tonight. It was whispered at the ringside that immediately before the meeting Attell had insisted on its being called a draw if both men were on their feet at the close of the fifteenth round and his one object seemed to be to prolong the fight to that point. He succeeded and Referee O'Hara held up the hands of both men. Throughout the match Attell struck practically one blow, a left jab to the jaw. The only other feature of the Attell campaign was his fondness for clinching to avoid punishment and footwork that his admirers called magnificent, while those of Sullivan dubbed it a sprinting match. Sullivan did about all the fighting and inflicted a good deal of punishment, but was unable to land a knockout blow on his opponent.

DUFFEY'S RECORDS OUT

The athletic almanac for 1906, containing the records of amateur sports, published by the American Sports Publishing Company and compiled by James E. Sullivan, secretary-treasurer of the A. A. U., has made its appearance and the records of Arthur P. Duffey have been struck out. Mr. Sullivan states that the record committee of the A. A. U. has ordered this action.

Duffey's record of 9 3-5 seconds has been obliterated and in its place the record for 100 yards of 9 4-5 seconds has been given to the following men:—J. Owen, Jr., Washington, D. C.; October 11, 1890; B. J. Wefers, New York city, September 21, 1895; B. J. Wefers, New York city, May 30, 1896; B. J. Wefers, New York city, August 28, 1897; J. H. Rush, Chicago, June 18, 1898; W. A. Schick, May 24, 1902; Clyde Blair, Chicago, May 30, 1903; W. D. Eaton, Boston, Mass., July 4, 1904; Charles L. Parsons, Portland, Ore., August 5, 1905.

The other records that Duffey will lose are as follows:—50yards, 5 2-5 seconds, made at Washington, D. C., February 21, 1904; 60 yards, 6 2-5 seconds, New York city, November 30, 1899, and June 7, 1902.

With Duffey's name taken from the list of winners of the intercollegiate championships the new arrangement shows as intercollegiate champions the following men: M. T. Lightner, Harvard, 1901; J. S. Westne, Pennsylvania, 1902, and F. R. Moulton, Yale, 1903. The record book this year makes some other interesting changes.

ODD NOTES OF SPORT

LOS ANGELES, Nov. 20—Manager McCarey of the Pacific Coast Athletic Club of Los Angeles, announces that Young Erne, the Eastern lightweight, has been matched to fight a 20-round go with Eddie Hanlon in this city on December 15.

Tommy Ryan says he is going to make a real champion of Marvin Hart. That is very kind of Tommy, and Marvin should feel gratified. At the same time there is much question as to the adaptability of the material and also the skill of the moulder.

Tom Jenkins has been the recipient of much sympathy in England owing to the rough manner in which he was treated by the Turk, Madrali, who threw the American. Tom has raised his voice against brutal tactics on the wrestling pad. In view of the fact that Tom almost strangled Gotch into insensibility in Madison Square Garden a year ago, his talk of brutality is amusing. It makes a difference who puts on the strangle.

BASKET BALL

The Y. M. C. A. basket ball team defeated Mission church last evening, the score being 18 to 12. The members of the former team were Kierstead, Haynes, Brown, Roberts and Gorham, and of the latter Needham, McGaw, Tobin, Myers and Horsman. W. Paterson was referee.

THE HIGHEST PRICE

A rich American woman visited a Japanese art shop in Paris. It happened to be a dull, dark afternoon. She looked at the bronze, jewels, drawings, and other things, and finally, pointing toward a dusky corner, she said to the polite young salesman: "How much is that Japanese idol over there worth?"

The salesman bowed, and answered: "About five hundred thousand francs, madam. It is the proprietor."
