POSTMASTER RESIGN

James R. Reed Leaves the Service After Many Years as Postmaster of Carleton.

James R. Reed, postmaster in Carleton, has resigned his position and James S. Clark is temporarily filling the position. Mr. Reed's poor health is given as the cause of his retirement.

Along with this announcement comes a report that Carleton district may be reduced to the position of a sub-office and if that is contemplated Carleton people say, there will be a serious protest before it will be accomplished.

Mr. Reed has held the position of post master on the west side for more than forty-five years, and the fact that of late his health has been affected is given as the cause of his retirement.

Mr. Reed finally notified the office of his intention to resign on Friday last, with the request that the matter might have immediate attention. On Saturday he sent in his formal resignation to take effect from that day. Assistant Inspector W. C. Whittaker and Postmaster Hanington went over, and enquiries suggested by their presence were made and it was learned that Mr. Whittaker spent the day in the office taking stock and arranging for J. S. Clark, who resides in Carleton, and has been employed in the registration department in the city post office, to take charge of the Carleton work for the time being.

Considerable dissatisfaction is being expressed in Carleton on account of the report which is in circulation that the post office is to be reduced to the level of a sub-office instead of being as heretofore a separate district. It is claimed that the change will do away with the letter carrier service as now in force there. At present the mail is sent over, taken in hand by Carleton men and delivered. Under the sub-office arrangement east and west side letters would be sorted together, and those for the other side of the harbor dispatched in charge of carriers from the central office.

Carleton residents insist that the change will do away with the post office building which would be strongly objected to. It is understood that some steps have already been taken to place the matter before the proper authorities.

The position of postmaster is worth $700 a year, and there are believed to be several applications for the position, among those the name of Joseph B. Stubbs is mentioned.—Daily Telegraph.

I. C. R. CRANE WRECKED MOVING BRIDGE SPAN

Sussex, N. B., Oct. 29—(Special)—At about 11 o'clock today the large I. C. R. wrecking crane met with a very bad accident about two miles east of Sussex, and near Plumesweep bridge. The crane was engaged in moving a side span of the Plumesweep bridge to a siding near by to load on cars, but when it had gone about half the distance the crane and span toppled over, the crane falling on the span, bending it considerably and breaking telegraph poles, which badly mixed the wires.

Considerable damage was also done to the crane. The two engineers in charge had a narrow escape, jumping just in time to save themselves.

The cause of the accident is supposed to be the carrying of too much weight on one side, which caused the sleepers to break. The crane itself weighed ninety-eight tons, and the span it was carrying weighed twenty-five tons, and was 100 feet in length. Very little damage was done to the track, except the bending of a few rails, and the breaking of the sleepers.

A train was dispatched from Moncton, bringing a wrecking crew and linemen. At 5 o'clock this evening the track was made passable for trains, and the wires were repaired. The crane now lies on her side at the foot of an eight feet bank. It will probably take all day tomorrow to get it on the track again.

The Canadian Bridge Company, of Walkerville (Ont.), has been at work the past two weeks removing the bridge, making ready for the new structure. The present bridge will go for use on the Central railway.

ONLY A SUGGESTION

But It Has Proven of Interest and Value to Thousands.

Common sense would suggest that if one wishes to become fleshy and plump it can only result from the food we eat and digest and that food should be albuminous or flesh-forming food, like eggs, beefsteak, and cereals; in other words the kinds of food that make flesh are the foods that form the greater part of our daily bills of fare.

But the trouble is that while we eat enough and generally too much, the stomach, from abuse and overwork, does not properly digest and assimilate it, which is the reason so many people remain thin and under weight; the digestive organs do not completely digest the flesh-forming beefsteak, eggs and similar wholesome food.

There are thousands of such who are really confirmed dyspeptics, although they may have no particular pain or inconvenience from their stomachs.

If such persons would lay their prejudices aside and make a regular practice of taking after each meal one or two of Stuart's Dyspepsia Tablets the food would be quickly and thoroughly digested because these tablets contain the natural peptones and diastase which every weak stomach lacks, and by supplying this want the stomach is soon enabled to reach its natural tone and vigor.

Stuart's Dyspepsia Tablets digest every kind of flesh-forming food, meat, eggs, bread and potatoes, and this is the reason they so quickly build up, strengthen and invigorate thin, dyspeptic men, women and children.

Invalids and children, even the most delicate, use them with marked benefit as they contain no strong, irritating drugs no cathartic nor any harmful ingredients.

Stuart's Dyspepsia Tablets are the most successful and most widely known of any remedy for stomach troubles because they are the most reasonable and scientific of modern medicines.

Stuart's Dyspepsia Tablets are sold by every druggist in the United States and Canada as well as Great Britain, at 50 cents for complete treatment.

Nothing further is required to cure any stomach trouble or to make thin, nervous, dyspeptic people strong, plump and well.

Miss Bessie Black, daughter of James A. Black, Pleasant Point, was married Saturday night at the residence of her parents to John Craft, contractor, of Boston. The ceremony was performed in the presence of a number of invited guests by Rev. F. E. Bishop. Mr. and Mrs. Craft will leave this week for their home in Boston.

WHY DOCTORS FAIL AND MRS. PINKHAM SUCCEEDS

Plain Reasons Are Here Given to Explain Why Lydia E. Pinkham's Vegetable Compound Cures When Doctors Are Powerless

A woman is sick; some disease peculiar to her sex is fast developing in her system. She goes to her family physician and tells him a story, but not the whole story.

She holds something back, loses her head, becomes agitated, forgets what she wants to say, and finally conceals what she ought to have told, and thus completely mystifies the doctor.

Is it any wonder, therefore, that the doctors fail to cure the disease? Still we cannot blame the woman, for it is very embarrassing to detail some of the symptoms of her suffering, even to her family physician.

It was for this reason that years ago Mrs. Pinkham, at Lynn, Mass., determined to step in and help her sex. Having had considerable experience in treating female ills with her Vegetable Compound, she encouraged the women of Canada to write to her for advice in regard to their complaints, and being a woman, it was easy for her ailing sisters to pour into her ears every detail of their suffering.

In this way she was able to do for them what the physicians were unable to do, simply because she had the proper information to work upon, and from the little group of women who sought her advice years ago a great army of her fellow-beings are to-day constantly applying for advice and relief, and the fact that many thousands of them have been cured by following the advice of Mrs. Pinkham during the last year is indicative of the grand results which are produced by her unequaled experience and training.

No physician in the world has had such a training, or has such an amount of information at hand to assist in the treatment of all kinds of female ills, from the simplest local irritation to the most complicated womb diseases.

This, therefore, is the reason why Mrs. Pinkham, in her laboratory at Lynn, Mass., is able to do more for the ailing women of Canada than the family physician. Any woman, therefore, is responsible for her own suffering who will not take the trouble to write to Mrs. Pinkham for advice.

The testimonials which we are constantly publishing from grateful women establish beyond a doubt the power of Lydia E. Pinkham's Vegetable Compound to conquer female diseases.

THE ROMANOFF DYNASTY TOTTERING TO ITS FALL

Crisis Imminent in Russia and Many Believe Present Regime is Almost Over---Bloodshed at Odessa---Sweedish Cable Only Thread Now Connecting Russia With Outside World

St. Petersburg, Oct. 29—10.40 p. m.—While the day passed quietly without bloodshed in the Russian capital, and while the city is outwardly calm, today's developments all indicate that a crisis is imminent. Although the streets are filled with troops and reinforcements are now pouring in from Finland, the government seems utterly powerless to cope with the situation and many calm observers seem seriously to believe that the present regime is tottering to its fall.

Grave doubts are expressed as to wether even the imperial guard can now be relied upon. Discontent is rife. Early this morning the fourteenth equippage of sailors of the guard who have been shut up like prisoners in barracks on the Moska canal, demolished the windows and furniture and in the afternoon a detachment consisting of four officers of the guard went to the lawyers' assembly and told the barristers that many officers and a large part of the troops were disgusted with the government and ready to enlist in the movement for freedom. They asked for aid toward effecting organization and said they had discussed among themselves the question of resigning, but decided to show that people in uniform could help to achieve liberties. Even the Cossack patrols in keeping idlers moving in the streets today seemed careful not to use their whips, and simply drove the crowds along before their advancing horses.

A meeting of the municipal council was held this evening at which a deputation of thirty members of the strikers' committee appeared. In an impassioned speech the leader of the deputation presented the following demands of the workmen and affiliated organizations:—

"First—A constitutional and political liberty.

"Second—That the city furnish food for the workmen.

"Third—That the city refuse further supplies to the troops and the police.

"Fourth—That the troops be removed from the water works or otherwise the strikers would cut the water supply.

"Fifth—The immunity of the deputation from arrest."

The council granted the latter demand, and promised to reply to the other demands tomorrow. The council sent requests to both General Trapoff and Minister of the Interior Bouligin not to arrest the members of the deputation, but the police, nevertheless, took them into custody. Upon urgent representations, General Trepoff an hour later released them.

With a strike in the government post office tonight, communication with the interior practically ceased. Government troops were placed in the telegraph office, but only a few lines are working. Many lines, including the land lines to the continent and to Libau, where they connect with the cable, have been cut. At 10 o'clock, however, the cable by way of Nystad and Sweden was still open. This is now the only thread connecting Russia with the outer world. Admiral Durnovok, superintendent of posts and telegraphs, told the representatives of a European power this afternoon that he could not tell how long cable communication with the continent would last. The foreign embassies have discussed the situation but have as yet taken no steps regarding the safety of foreign residents. As a precaution the state department at Washington has been requested to confer authority for the charter of a vessel and to hoist on it the American flag as a refuge for Americans.

The University, the Polytechnic Institute and all educational institutions were closed today so as to prevent further meetings being held in them. The university is surrounded by troops.

Even the druggists have struck, and as there are many sick, the physicians have divided the city into districts and have also selected stations for the giving of first aid to the wounded in cases of collisions between the troops and the people.

Such news as comes from the interior shows no improvement in the situation. The government everywhere seems powerless to break the great political strike.

After the governor had formally instructed the troops not to fire, and upon the demand of the "Black Heads" at Revel, the soldiers were sent out of that city and the places left in charge of a local militia which had been organized by the citizens.

Most interesting by far, however, is the news from Moscow, the real Russian capital, where, according to private reports, the municipal council and the committee of public safety are sitting continuously, and where a struggle is momentarily expected between the League of Russian Patriots, a reactionary organization led by the priests and the newly organized militia and students. The Moscow municipal council is also reported to have sent an ultimatum to the emperor demanding the promulgation of a constitution.

The strikers apparently are without funds, and must soon be exhausted, as was made evident by the action of the strike committee here being practically forced to hold up the city for food.

Odessa, Oct. 29, 5.35 p. m.—Cossacks have commenced firing on the crowds of workmen and students who had barricaded street corners with street railway poles and furniture.

At one point a volley from the Cossacks killed one student, three workmen and a girl, and wounded 100 persons.

The governor in a proclamation says that the first stone thrown at the military will be the signal for the troops to fire.

The governor asked St. Petersburg for authority to proclaim martial law but has not received an answer.

All the streets and squares are full of Cossacks and police.

Citizens have formed a committee for public defence.

Reval, Russia, Oct. 29—Order has been restored here on the governor promising to withdraw the troops from the streets and to liberate those who have been arrested.

MR. BURNETT'S FAREWELL

Rev. Christopher Burnett preached his farewell sermon to a large congregation in Leinster street Baptist church last evening. He took for his text Rev. iii-20: "Behold, I stand at the door and knock; if any man hear my voice, and open the door, I will come in to him, and will sup with him, and he with me."

Before the congregation were dismissed Rev. Mr. Burnett said it had been doubtful on Saturday if his physical condition would have permitted his preaching, and he was grateful to God that he had been able to go through the three services of the day. He did not think it would be wise under the circumstances to attempt to cover the whole city before leaving on Friday for Winnipeg. He hoped, therefore, that none would be offended if he was unable to call on them.

In response to the reverend gentleman's invitation many, who would be unable to attend the last meeting on Thursday evening, remained after the service to say good-bye.

NOTED ATHLETE DEAD

Montreal, Oct. 29—Policeman Desmarteau, holder of the world's record, throwing the 56 pound weight for height, died here tonight after an illness of two months, from typhoid fever. Desmarteau also won the championship for weight throwing in the Olympic games, World's Fair, St. Louis. Two years ago at Travers Island, he defeated Jim Mitchell and other cracks. He was the champion athlete of the Montreal police force and was always a prominent figure at the athletic championships.

Halifax, N. S., Oct. 29—(Special)—Mrs. Selma Howell, who resided on Kempt road, this city, was found drowned in a pond near the I. C. R. station at Rockingham Junction this afternoon. The body was discovered by three boys. An inquest was held and a verdict "found drowned" returned. Deceased was forty-seven years old, and had been missing from home since Saturday morning.
