WHEN PHYSICAL BANKRUPTCY
THREATENS BUILD UP WITH

Dr. Chase's Nerve Food.

Gloomy forebodings, fear of the future, apprehension of something dreadful to befall you, worry over little things, restlessness, insomnia, irritability—these are the indications of an exhausted nervous system.

They tell more plainly than words, more plainly than aches and pains, that gradually but certainly, the nervous force of the body is being consumed more rapidly than it is being renewed. They point to physical bankruptcy—to helplessness of mind and body to prostration, paralysis or locomotor ataxia.

There are certain elements of nature which go to form new blood and nerve cells—to create new nerve force, the foundation of life, energy and vitality. These elements are so combined in Dr. Chase's Nerve Food as to be easily assimilated by the most weakened human body.

Being composed of such ingredients, Dr. Chase's Nerve Food cannot possibly fail to be of benefit to you, and its regular and persistent use will build up and revitalize the most exhausted and discouraged sufferer.

You cannot compare Dr. Chase's Nerve Food with any medicine you ever used, for it cures by the building up process, whereas most nerve treatments merely soothe and deaden the nerve. This treatment works by noting your increase in weight. Mrs. Robert Bustard, Maxwell, York, Co., N. B., writes:

"I can say that Dr. Chase's Nerve Food entirely cured me of what I believe was the beginning of locomotor ataxia or paralysis. My nerves were very bad and at night I could not sleep at all, nor could I control my arms and legs. They seemed to fairly keep me off the bed."

"For six months I was in this way, and cannot describe what I suffered, but now I am entirely cured, thanks to Dr. Chase's Nerve Food. It is a pleasure to recommend this great medicine to any one suffering as I did from nervous disease."

Dr. Chase's Nerve Food, 50 cents a box, at all dealers, or Edmondson, Bates & Co., Toronto. Portrait and signature of Dr. A. W. Chase, the famous receipt book author are on every box.

NOBODY IS EXEMPT

A New Preparation Which Everyone Will Need Sooner or Later.

Almost everybody's digestion is disordered more or less, and the commonest thing they do for it is to take some one of the many so-called blood purifiers, which, in many cases, are merely strong cathartics. Such things are not needed. If the organs are in a clogged condition, they need only a little help and they will right themselves. Cathartics irritate the sensitive linings of the stomach and bowels and often do more harm than good.

Purging is not what is needed. The thing to do is to put the food in condition to be readily digested and assimilated. Stuart's Dyspepsia Tablets do this perfectly. They partly digest what is eaten and give the stomach just the help it needs. They stimulate the secretion and excretion of the digestive fluids and relieve the congested condition of the glands and membranes. They put the whole digestive system in condition to do its work. When that is done you need take no more tablets, unless you eat what does not agree with you. Then take one or two tablets—give them needed help, and you will have no trouble.

It's a common-sense medicine and it will cure every time. Not only cure the disease but cure the cause. Ought about it in a perfectly sensible and scientific way. We have testimonials enough to fill a book, but we don't publish many of them. However, Mrs. E. M. Paine, of Byrd's Creek, W. V., writes:

"I have used all the Tablets I got of you and they have done their work well in my case, for I feel like a different person altogether. I don't doubt if I had not got them I should have been at rest by this time."

H. E. Willard, Onslow, N. C., writes: "Mr. White, of Canton, was telling me of your Dyspepsia Tablets curing him of his dyspepsia, from which he suffered for eight years. As I am a sufferer myself I wish you to send me a package by return mail, as a package by return mail."

Phil. Brooks, Detroit, Mich., writes: "Your Dyspepsia cure has worked wonders in my case. I suffered for years from dyspepsia, but am now entirely cured and my life is a new, have before. I gladly recommend them."

It will cost 50c. to find out just how much Stuart's Dyspepsia Tablets will help you. Try them—that's the best way to decide.

FREDERICTON NEWS

To Investigate Sale of Postage Stamps by Unlicensed Vendors.

Fredericton, N. P., Nov. 2.—(Special)—There are at the present time fifteen cases of typhoid fever under treatment in Victoria Hospital, the majority being from points outside the city. The list includes one student from the Normal School.

Dr. Dow Coburn of Canterbury is quite ill at his mother's home, here, from an attack of pneumonia.

J. A. Winslow, S. Dow Simmons, Norman Tennant, James Tibbitts and Charles H. Allen leave tomorrow on a week's hunting trip to Little River.

Col. Clarke and Major Crawford, imperial army officers and veterans of the Boer war, returned today from a short hunting trip to the Miramichi woods, they report conditions unfavorable for big game hunting at present and they failed to secure any.

Post Office Inspector Collier was in town yesterday on an interesting business. In connection with the department. It appears that some merchants have been in the habit of taking stamps in payment of bills of goods, and selling the stamps to others for cash. This practice has, it is alleged, been carried on to a large extent. The stamps come largely from country postmasters, very many of whom are general dealers, and who make a percentage on the stamps they sell and at the same time swell the receipts of their offices. But the post office department does not permit other than licensed vendors to sell stamps, and therefore all who are not licensed and sell the stamps thus obtained through trade are violating the law. The business has been carried on for a number of years, and the revenue of the post office has been affected. The revenue of the office, from the legal sale of stamps, should be thousands of dollars more than it is.

Postmaster Hilyard was spoken to this morning about the matter, but he declined to say anything. He would neither deny or confirm the street rumour.

MONCTON NEWS

Moncton, Nov. 2.—(Special)—William Humphrey, clerk in the Royal Bank, and son of W. F. Humphrey, M. P. P., had a rather remarkable experience last night while on his way home to Humphreys, two miles distant from town. He had been working late in the bank and started for home on horseback between 11 and 12 o'clock.

He arrived home but how he is not yet able to tell. When he entered his home he was in a dazed state and it was thought he was suffering from concussion of the brain. His face and head were bruised but the young man was not sufficiently conscious to give any account of what happened. His condition was so serious that a doctor was summoned and up to tonight his condition had not yet sufficiently improved to be able to ascertain what befell him.

It is believed by some that he was waylaid and beaten, as he was attacked on a previous occasion on his way home. Another theory is that he was thrown from his horse and sustained a slight concussion of the brain. The case is one likely to be shrouded in mystery until Humphrey is able to give an account of the trouble.

THE VOICE OF THE "THUNDERER"

London Times Comments on
Visit of Prince Louis' Squadron to Canada.

Montreal, Nov. 2.—(Special)—A special London cable says: The Times, commenting editorially on the visit of the British fleet to Canadian waters, describes the visit as an unequalled success from every point of view, and says in part—

"Thanks to the equal enthusiastic loyalty alike of the English and French populations, if there lurks in any quarter a remaining tinge of the old racial prejudice, it cannot survive the entire cordial which now unites the English and French nations."

"The visit cannot fail to quicken on both sides the sentiment which binds the empire together. The assurance given by Prince Louis of Battenberg regarding the capabilities and strategic position of the fleet, derived from the actual presence of a powerful squadron which quickens the imagination and renders it easier to conceive the sea power which guards Canada, no less than it does the mother country."

"From that quickened apprehension, coupled with the knowledge that the British colonies are objects of a fuller understanding of the burden now almost exclusively borne by the mother country, the result is to be regularly repeated during that portion of the year which the other, a masterpiece of the leading art; the northern part of North America and the West Indian states."

AN ENJOYABLE SMOKER

The Knights of Columbus held a very enjoyable smoker in Berry's Hall last night. It was the first occasion that the St. John Council, No. 937, has thrown open their doors and entertained their friends.

After the council meeting, Sir Knights H. O. McInerney, Dr. Thos. H. Lunney, Dr. S. H. McDonald and Maurice D. Coll assumed control of the social part of the evening and that they performed their duties in a highly satisfactory manner was evidenced by the way in which all enjoyed themselves.

While the tunes of the week gathered up in the social manner, were circling the area of the spacious room a musical programme was carried out. Piano and violin duet, J. H. Mallory and H. O'Neill solo and gramophone numbers, Frank McCarthy; solo, John Kester; solo, John Barry; solo, Dr. T. H. Lunney; solo, J. T. Kelly; piano selection, Joseph L. Mallory.

During the programme refreshments were served, and at the completion of the programme numerous choruses kept the music going.

Before the gathering broke up, Grand Knight Wm. J. Mahoney expressed his pleasure at having the visitors present.

Chancellor G. V. McInerney delivered an address in his usual eloquent style and reviewed the great progress of the order. P. Regan, Thomas Kieckham and John O'Neill expressed words of approval for the very pleasant evening they had spent as guests of the Knights of Columbus.

The very enjoyable evening was brought to a close at 11:30 o'clock by the singing of Auld Lang Syne and the National Anthem.

Frank McElroy, of Oranmore, was a visitor from outside the city.

THE GRAND TRUNK PACIFIC

Montreal, Nov. 2.—(Special)—After a meeting of the Grand Trunk Pacific directors here today it was given out that the company had \$300,000,000 to its credit in London, the proceeds of the bond issue, on behalf of the new transcontinental railway.

It was also given out that the company expects to be a factor in carrying the 1907 grain crop to the Atlantic seaboard if the government section is rushed forward.

Fault is being found with the backwardness of the government commission getting ready for the reaction between Winnipeg and Lake Superior.

Dr. G. A. B. Addy, government bacteriologist, returned yesterday from New York, but to last evening had not received any instructions respecting the analysis of the "Black Tom" case.

Douglas avenue. Dr. Addy said he knew nothing of the matter except what he had read in the papers, but was prepared to act as soon as the proper authorities authorized him to do so. There has been an increase in the number of fever cases.
