NEWS FROM P. E. ISLAND

The Problem of Winter Navigation --- Charlottetown to Welcome Home Comers---No More License for Lobster Factories---Islander Hurt in Automobile Accident.

CHARLOTTETOWN, May 20.—Premier Peters, in view of the provincial government delegation to start for Ottawa on Monday next to press the claims of the Island for continuous communication with the mainland winter and summer in accordance with the terms of confederation, has been collecting information concerning winter transportation. He gave to the public this week two interesting letters, one from W. F. Fitch, vice-president, and the other from R. H. Hommedieu, general manager of the Mackinaw Transportation Company. These letters give valuable information about winter conditions in the Straits of Mackinaw together with detailed statements of the construction and cost of the boats St. Ignace, and St. Marie, which successfully operate the railway ferry service between St. Ignace and Mackinaw City. The ice there is from 24 to 36 inches thick, according to the severity of the winter, but this gives no trouble to those powerful boats which are able even when loaded with eighteen freight cars, to maintain a speed of from seven to eight miles an hour through 24 inches of solid blue ice. Vice-president Fitch offers to arrange a meeting of the delegation with Capt. R. L. Boynton, who has been in command of the ferry boats for the past eighteen years, and who would be able to give any further information desired. It remains to be seen whether the Mackinaw Strait boats will be a solution of the winter navigation problem in the Straits of Northumberland, where drifting rafted ice floes are the obstacles to be overcome.

The dominion fruit inspectors, Richard Burke and John Robertson, of Montague, are touring the Island by orders of the dominion government for the purpose of advising fruit growers as to the best methods of treating trees injured by the deep snow of the worst winter in the memory of the oldest inhabitants. Forty per cent. of the trees have become damaged.

This week Lieut.-Col. Longworth, who retired from the command of the 4th Regiment C. A., was tendered a complimentary smoker by the officers of the regiment in the armories at Charlottetown. Col. Davidson, now in command, presided. The principal event of the evening was the presentation to Col. Longworth of an address and gold-mounted fountain-pen in appreciation of his past service. The colonel replied in fitting terms.

The last of the government hay, the total quantity of which was 5,300 tons, purchased in Quebec for Island farmers, was taken over this week by the Stanley. The first shipment was made about the middle of last November and, barring six weeks' detention during the blockade this winter, has been coming regularly ever since. This week the Stanley started the work of placing the larger buoys around the Island coast.

The programme for the home-comers' week, July 24-31, has been arranged. It will include band concerts on the square, cricket, baseball, lawn tennis matches, military and naval reviews, bon-fires, torch-light processions and fireworks. The British and French warships are expected in port and the crews will assist in the celebration. The annual Scottish gathering and athletic sports will form a feature. There will be yacht and rowing races, assisted by the navy, parades of military and naval societies and school children to Victoria Park, and electric light sports. Horse races, dramatic performances, excursions, picnics, etc., will also take place. Special services will be held in the churches on Sundays.

Rev. John W. Wadman, native of Victoria in this province, has been conducting very successful revival services in the First Methodist church in Honolulu. Rev. John Clarke and wife who left this week to reside in Nova Scotia, were tendered a farewell celebration by a large assemblage in the Baptist church at Tyron this week. The pastor and his wife were presented with a purse and address as a token of appreciation of his services in the church since 1899.

Rev. A. E. Burke, grand trustee of the C. M. B. A. was presented with an address by the Charlottetown branch on his return from Kingston, Ont., where the executive was in session last week.

John and Mrs. McQuarrie, of Albany, who left for the United States where they were presented with an address by the people of Albany, prior to their departure.

H. L. Chipman, manager of the Plant line, who was in Charlottetown this week completing arrangements for inaugurating the coming season's service said that while the outlook for freight was disappointing he had great faith in the future of P. E. Island as a summer resort..

The temperance movement stimulated by the passage through the legislature of one of the most stringent and drastic prohibition measures ever placed on the statute book of any country is being forwarded with more enthusiasm than ever. The latest development is the employment of W. R. Geldert, temperance organizer for Nova Scotia. Mr. Geldert will address meetings all over the province, establishing branches of the Sons of Temperance. The fact that this week there were in jail nine violaters of the prohibition law serving six months' terms and only three drunks shows the condition of the city with respect to the liquor traffic.

Following the sinuosities of our Island coast line extends an almost continuous chain of lobster traps which have become so numerous within the last decade that no more licenses are being granted for the establishment of new factories. This precaution, and the shortening of the season, two measures approved of by both packers and fishermen have proved beneficial to one of the most important industries in this province. Lobsters this season are plentiful and of good size. As a further aid to this industry the Dominion Government last year built a lobster hatchery near the mouth of Charlottetown harbor. Large quantities of eggs were distributed and the venture is looked upon so favorably that demands are coming from other parts of the Island for more hatcheries.

The graduating class at St. Dunstan's College this year numbers sixteen, the largest in the history of the institution. The list includes one student from St. John, one from Cincinnati, eight from Quebec, and the balance from the province. St. Dunstan's is affiliated with Laval and the above students are receiving their B. A. degrees.

R. B. Murphy, formerly principal of the Fanning school, Malpeque has been appointed superintendent of the Lower City high school at Lower City, North Dakota. Robert E. Smith another Island boy, has been re-elected superintendent of schools at Hankinson, North Dakota. William Garnet Moore of this city has received his diploma in dental surgery from the North Western University of Chicago and two others one from the Dean of the Faculty, and the other from the Grand Chapter of Psi Omega Fraternity of which he is an honored member. Dr. Black's diploma is for special work.

James H. Skinner of Georgetown formerly chauffeur for H. C. McLeod, general manager of the Bank of Nova Scotia, Toronto, will arrive at his home in Georgetown this week to recuperate after receiving severe injuries in Cleveland, O., whre the automobile, slipping on a greasy road collided with a tree and threw out Mr. Skinner, who was alone in the machine at the time. He had his collarbone and several ribs broken. The automobile was injured beyond recuperation. Skinner, who was master of Mr. McLeod's yacht "Gloria" before her owner took to automobiles, had his ribs broken two years ago by a fall on the deck of a vessel in Boston.

The well-known Montague Mills were sold by the executors of the estate of the late Eugene McDonald to William Sutherland of Clifton.

The old historical estate of the late Donald McDonald known as Glenaladale and which has been in this family for nearly a century was sold this week to Major McKinnon of Rosehill, Lot 16, for $8,000. There are 500 acres of land and the barn is the largest and best equipped in the maritime provinces.

The steamer Gulnare, which was engaged in the tidal and current survey in the Bay of Fundy last year under the direction of the marine department, left this week for Pictou, where, after receiving an overhauling on the slip, she will depart for Quebec, there to begin hydrographic survey work in the St. Lawrence river. The Gulnare has been laid up at Charlottetown all winter.

The Murray Harbor Railway will likely be opened for general traffic when the Hillisborough bridge is completed, probably the first week in July. This railway and bridge costing nearly three millions, were begun in 1900. Another branch line is now under construction between Cardigan and Montague and a loop is being olaced in the Murray Harbor branch at Vernon River. The railway wharf at Georgetown is being extended and dredged to meet the requirements of traffic at the Island's winter port. Extensive repairs will also be made to the railway wharf at Charlottetown.

At the special meeting of the city council held this week, the payment was confirmed of the Charlottetown Light and Power Co.'s bill of $1,400.000 for lighting the city streets. This bill previously paid in full by the mayor, without the concurrence of the council, caused all the trouble referred to last week, when the mayor was censured by the council. At the special meeting the mayor's course was confirmed on his own casting vote.

Among the deaths of P. E. Islanders this week were the following:—In Charlottetown, Bessie May McInnis, daughter of John McInnis, aged 20; found drowned at Tignish, May 18th, James McCue, aged 45; in Charlottetown, Elizabeth Dorion, aged 38; at Nine Mile Creek, Mrs. Daniel McDougall, aged 40; at New Glasgow, N. S., Mrs. James Mutch, a native of Bunberry; at Lower Montague, Mrs. Payance, aged 93; at Covehead, John McDonald, aged 44; at Montrose, Daniel Pridham, aged 84; at Charlottetown, Frank T. Fennel, aged 23; at Mt. Albion, George Myers, aged 60; at Saugus, Mass., Mrs. Thomas W. Speed, a native of Milltown Cross, P. E. I., aged 29; at Springfield, Mass., Ann MacRae, aged 69, daughter of the late Angus MacRae, Point Prim.

Rev. J. P. McGrath, parish priest of Miscouche, died on Thursday last in the prime of manhood. He had been connected with St. Patrick's parish in Montreal for a number of years, but in 1903 failing health obliged him to return to his native island, where he has since labored in Miscouche parish. He was a prominent and enthusiastic member of the C. M. B. A. and Knights of Columbus, was highly educated and was the winner of the first Daniel Hodgen scholarship awarded in this province.

At the annual meeting of the Victoria Amateur Athletic Club held this week in Charlottetown, the financial statement was the best in the history of the club. Baseball will be taken up this summer and foot ball matches will be arranged for Home Comers' Week.

We Offer $1,000

For a Disease Germ That Liquozone Can't Kill.

On every bottle of Liquozone we offer $1,000 for a disease germ that it cannot kill. We do this to assure you that Liquozone does kill germs.

And it is the only way known to kill germs in the body without killing the tissues, too. Any drug that kills germs is a poison, and it cannot be taken internally. Medicine is almost helpless in any germ disease. It is this fact which gives Liquozone its worth to humanity; a worth so great that, after testing the product for two years, through physicians and hospitals, we paid $100,000 for the American rights. And we have spent over one million dollars, in one year, to buy the first bottle and give it free to each sick one who would try it.

Acts Like Oxygen.

Liquozone is not made by compounding drugs, nor is there any alcohol in it. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. This process has, for more than 20 years, been the constant subject of scientific and chemical research.

The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is an absolutely certain germicide. The reason is that germs are vegetables; and Liquozone—like an excess of oxygen—is deadly to vegetal matter.

Liquozone goes into the stomach, into the bowels and into the blood, to go wherever the blood goes. No germ can escape it and none can resist it. The results are inevitable, for a germ disease must end when the germs are killed. Then Liquozone, acting as a wonderful tonic, quickly restores a condition of perfect health. Diseases which have resisted medicine for years yield at once to Liquozone, and it cures diseases which medicine never cures. Half the people you meet—wherever you are—can tell you of cures that were made by it.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

Asthma
Abscess—Anæmia
Bronchitis
Blood Poison
Bright's Disease
Bowel Troubles
Coughs—Colds
Consumption
Colic—Croup
Constipation
Catarrh—Cancer
Dysentery—Diarrhea
Dandruff—Dropsy
Dyspepsia

Any physician or hospital not using Liquozone will be gladly supplied for a test.

CHATHAM

CHATHAM, May 20—Traffic on the Fredericton-Chatham division of the I. C. R. has increased very much of late. Yesterday an extra car had to be put on to carry the drivers.

Post-Office Inspector Whittaker of St. John is in town.

Among the attractions for Victoria Day is a baseball match between the Rexton team and the Chatham Stars.

At a meeting of the trustees of St. Luke's church held at the parsonage Wednesday evening it was decided to accept the application of Mr. Peacock as organist.

A meeting of the Chatham Curling Club is called for Tuesday evening, when the trophies won last season will be presented, and the year's business settled.

Although the water was very low Coun. Regan has just made the best drive on record on the Renous River. He drove the logs from Drake's Falls to Indiantown, a distance of 44 miles in 10 days.

Thomas Barry has returned from Beverly, Mass.

SACKVILLE

SACKVILLE, May 20—The graduating violin recital of Miss Loyd Treen, which was held in Beethoven Hall last evening was a grand success. Miss Treen proved herself an excellent performer and won for herself well merited applause. She was ably assisted by Miss Mabel Killam, reader. Following was the programme:

Kreutzer Sonata—Adagio Sostenuto Presto, Beethoven; Reading, Mrs. Poyser Has Her Say Out, George Elliot; Concerto, No. 1, DeBeriot; Readings—A Song, James Whitcomb Riley; To a Mouse, Robert Burns; If all the Skies, Harry Van Dyke; Romance in F., Beethoven; Moto Perpetua from Suite Opus 34, Bees.

Mrs. Charles Fawcett of this town met with a very painful accident a few days ago. As she was going down stairs, she made a mis-step, and fell, fracturing two ribs. Under the skillful treatment of Dr. Calkins she is resting very comfortably.

The last number of Allisonia for this year was issued on Thursday of this week. It is a teachers' number, and contains short sketches of the 197 teachers who have given instruction at the Ladies' College during the past fifty years. The magazine also contains some seventy pictures of the teachers.

The alumnae prize has been awarded to Miss Effie Patterson.

Invitations are out for the marriage of Miss Ethel Sumner, daughter of Fred W. Sumner, and Herbert Wood of Sackville. The wedding will take place in Moncton the first of June.

A MEMORIAL WINDOW

The members of the South African Veterans' Association intend soliciting subscriptions for the purpose of placing in Exmouth street Methodist church a window to the memory of Corporal Withers and Private Scott, members of the first contingent, who were killed at the battle of Paardeberg.

The association will not march in a body in the brigade church parade next Sunday, for many of the members belong to the regular corps, and difficulty might be experienced in obtaining permission to leave.

The anniversary celebration of Branch 134, C. M. B. A., this evening in York Theatre assembly rooms promises to be a great success. The opening hour is 8.30. The chaperons are Mrs. R. J. Ritchie, Mrs. J. D. Maher, Mrs. T. Gorman and Mrs. W. P. Broderick. Those who have not yet secured their tickets may get them at the door.

AMLAND BROTHERS.

A Prettily Furnished Home

Need not necessarily involve much expense. It all depends WHERE you buy and HOW you buy the necessaries.
