FRANCHISE AND TAXATION.

Astonishing Revelations Made at Gas Enquiry in New York.

(Ottawa Journal.)

The Consolidated Gas Company of New York is at present under investigation, and it is found that five-sixths of its capitalization, consisting of $100,000,000 of stock and $100,000,000 of bonds, represent nothing but the value of the franchise enjoyed. The remaining sixth alone represents money actually invested. The company sells gas at a price which enables it to pay interest on the bonds and dividends on the stock. It thus collects from the people, over and above the cost of the gas, a tax almost equal to the entire expenditure of the city on its police force. The profits from electricity, it is further computed, would provide for the fire department. But that is not all; the franchise profits of the surface railways equal—we take these statements from the New York World—the cost of the public schools; while those of the elevated railways and subways almost equal the annual interest on the city's debt. In a word the people of New York give away to a dimited number of capitalists—or their assigns, or the bona fide investors to whom the original capitalists or promoters may have sold stock—an amount of money which would practically keep the city tax free. Or, to express it otherwise, the citizens shoulder all their municipal burdens twice over through shortsightedness or inefficiency in the disposal of civic franchises.

Would it have been possible for the worst civic mismanagement in the operation of municipal service to have cost the general public so much

THE RUSSIAN FLEET.

KAMRANH BAY, INDO-CHINA, Via Saigon, April 24—11,30 a. m.—The Russian squadron consisting of 52 ships including transports, left here at noon, April 22 and the main portion soon disappeared in a northerly direction. Sixteen vessels, the Russian Svietlana, the Russian hospital ship, Orel, four German transports, seven Danish transports and three Russian transports remained in the offing.

Fishermen and others assert that they heard heavy cannonading off Kamranh Bay during the evening of April 22.

Those who saw Admiral Rojestvensky prior to his departure, say he is suffering from dysentery, accompanied by severe pain. All the officers and crews of the Russian ships appeared to be full of confidence.

It is believed here that it is Admiral Rojestvensky's intention to do everything possible to have Admiral Nebogatoff join him before undertaking a decisive battle. A torpedo boat destroyer is patroling the coast.

Key—To Prevent Property Loss taoin

ST. PETERSBURG, April 24.—With the object of stopping the destruction of property, which has been going on in the rural districts, and the destroying influence of the leaders of the peasant movement, an imperial decree was issued today authorizing the minister of the interior, M. Bouligan, to appoint commissions in the disturbed districts to trace the culprits, assess the losses, and collect the amount of damage done from the members of village communities implicated, whose whole real and personal property is liable to be sold at auction for this purpose. The decree also orders the granting of state loans to land owners not possessing the means of repairing their loss.

AN EARTHQUAKE.

GUAYAQUIL, Ecuador, April 24.—A long and heavy earth shock was experienced here last night.

Mamma.—"When that naughty boy threw stones at you why didn't you come and tell me instead of throwing them back at him?"

Little Willie.—"Huh! What good would it do to tell you; you couldn't hit the side of a house."—Washington Life.

ILLEGAL BANKERS.

The Canadian Bankers' Association Will Go After and Punish Them.

MONTREAL, April 22—The Canadian Bankers' Association propose to chec the indiscriminate use of the word "bank" by legal methods, and hereafter such firme, corporations and individuals who, under the law have no right to the word, will be obliged to pull in their signs and otherwise change the titles under which they do business.

Ninety-nine people in a hundred are probably not aware that under the Bank Act it is illegal to use the title bank, banking company, banking house or banking association, without the express permission of the Ottawa government, and without using at the same time the words "not incorporated."

According to the officials of the Canadian Bankers' Association, the indiscriminate use of the words, bank, banking company, etc., utterly without legal authority, by people more or less irresponsible, have in many cases deluded the public and been the cause of financial losses by people who were ignorant of the facts.

Having considered the question, the Canadian Bankers' Association have resolved to take legal action in order to protect the public, and Mr. J. T. P. Knight, secretary of the association, has communicated with Chief Carpenter of the city detective force, and the chief will now proceed to enforce the law.

The section under which he will act is as follows:

"Every person, firm or company, assuming or using the title of 'bank,' 'banking company' or 'banking house' 'banking association' or banking institution,' without adding to the said designation, 'not incorporated,' or without being authorized so to do by this act, or by some other Act in force in that behalf, is guilty of a misdemeanor, and shall incur a penalty not exceeding $1,000."

THE DEATH ROLL.

A College President and a Former Wall Street Broker.

BOSTON, April 24. — Henry H. Goodell, president of the Massachusetts Agricultural College at Amherst, died while a passenger on a steamer of the Savannah line, while on his way from Savannah to this city. President Goodell had been ill for some time, and, accompanied by his wife, had been staying in the South.

NEW YORK, April 24. — Joseph Burtt Husted, once a wealthy Wall street broker, is dead at the Metropolitan Hospital on Ward's Island, saiys the Herald. For the last year he had been living at Mill's Hotel, on Irvington street, eking out a scanty livelihood by buying and selling second hand watches. He had previously been living at Poor Farm, at Greenwich, Conn., being too proud to ask aid of relatives or friends. Until a month ago, he was in good health, when he was attacked with diabetes.

A RELIGIOUS RIOT

Follows a Priest's Advocacy of the Simple Life in Chili.

NEW YORK, April 24.—A Valparaiso, Chili, despatch to the Herald dated Sunday, says:—

"One dead and fifty more or less severely wounded, is a result of a collision today in Santiago, between a police detachment and a crowd of workmen. The latter had just attended an open air conference of a Catholic priest, Father Jose Julio, who is called the South American Savonarca, who, while advocating the simple life, denounced the "perversity" of his former bishop and "the adulteration of Christ's doctrine." When they were met by a religious procession after the conference, considered by the workmen as a grotesque spectacle, the men attempted to stop it, but the police charged a score of times with unsheathed swords, the workmen answering with a rain of stones. The majority of the newspapers blame the police."

SCHOONERS DAMAGED

The schooner Maple, from Cheverie to Red Bank, Maine, struck an ice cake off Spencer's Island and knocked one of the ports in. She was beached on the Island and the necessary repairs made.

Schooner Olivia bound from Clementsport to Boston, struck going into Musquash Friday night and filled. The vessel will probably be a total loss and the cargo will be sold.

NAN PATTERSON.

NEW YORK, April 24.—For the third time within a period of six months Nan Patterson today sat in court and listened to Assistant District Attorney Rand explain to a jury what he, as the public prosecutor, proposed to do to convince them that she was guilty of the murder of Caesar Young.

In her previous trials the young woman had had the comfort of her father's presence by her side, but today she sat alone, Recorder Goff having ruled that any scene which might act upon the sympathy of the jurors should be avoided. While the outline of the people's case, as given by Mr. Rand today was practically a repetition of those which have gone before, it differed in some material respects. Much of the evidence given at other trials will not be presented this time, it appears, while the prosecution promises to introduce some entirely new features.

THE STOCK MARKET.

Add N. York Market.

The bear operators were very active on the short side and they oversold the market and were driven to cover during the second hour. This caused some vigorous rallies running to 2 points in amalgamated copper and smelting and to 1⅛ in U. P., the recovery was checked before reaching last Thursday's closing level, and the market became very dull and uncertain again.

"So they smashed your laundry and looted your cash drawer," said the police judge.

"They did," answered the intelligent Chinaman.

"And what did you do?"

"Nothing. They followed the usual custom and convinced me that it was to my interest to remain neutral."—Washington Star.

He.—"But what does your father see in me to object to?"

She.—"He doesn't see anything in you. That's why he objects."—Chicago Daily News.
