HYDE IS DEFIANT; WILL NOT RESIGN.

Has Retained Joseph H. Choate as One of His Legal Advisers and Declares He Has Been Insulted---The General Agents Demand His Resignation.

JAMES H. HYDE.

New York, April 19:—After a protracted session behind closed doors, the 200 or more general agents of the Equitable Life Assurance Society today adopted a resolution calling upon Vice-president J. H. Hyde to resign from his position in the organization and appointing a committee of five and from their number to call on Mr. Hyde and present the demands.

Mr. Hyde said: "I have not seen the committee and I have not seen the resolutions, but I consider them impertinent, extraordinary, insulting and most preposterous. I have no intention of resigning.'

A committee was named to bring President Alexander and Second Vice-President Tarbell before the convention to thank them for the hospitality received at their hands. When this committee appeared with Mr. Alexander and Mr. Tarbell they were applauded.

Mr. Alexander said that he could not express his great pleasure and love for the agents who had so magnificently upheld his action and had expressed their confidence in him. He appreciated their action so highly that he would ever be true and loyal to the policy-holders and managers and he pledged the managers his utmost diligence in guarding their interests.

Mr. Tarbell spoke of his twenty-five years' connection with the society and of his twelve years' pleasant relations with the agents and managers of the Equitable. He assured the convention that in the future as in the past he would endeavor to merit their esteem. He said he could not try any harder than he had to "conserve their interests and would stake his reputation that the fight they are now engaged in would be successful." He closed by paying a tribute to Mr. Alexander whom he stated "had proved that he would rather be right than president; but he was right and was president and would be president as long as he desired to be."

Both men were cheered.

New York, April 19.—A friend of President Alexander of the Equitable Life Assurance Society made a statement today in reply to the charges of H. H. Knowles, one of the Equitables supervisors of agencies.

"So far as Mr. Knowles' statement is concerned, it calls for no reply from Mr. Alexander, whose position in the matter is very simple. Mr. Knowles who is one of the society's many supervisors who disobeyed the orders of the president, that he go south and take charge of an agency, made vacant by death. Knowles was suspended pending an investigation of his action."

New York, April 19.—The Times will say tomorrow:— "James H. Hyde, it was learned yesterday, has retained Joseph H. Choate, the returning ambassador to England, as one of his legal advisers in the Equitable controversy. The negotiations were closed by cable on Monday and Mr. Choate on his return to this country about the first of June, will, it is understood take an active part in the Hyde campaign.

"Mr. Choate, however, will not appear in court proceedings that may be then in progress, and those who are aware of his plans as already outlined say that he will not resume practice here as an advocate. The direction of the Hyde force will remain in the hands of Samuel Untermyer, who took charge a couple of weeks ago when Elihu Root and John A. Johnson of Philadelphia retired from Mr. Hyde's counsel."

Thousands of Women

ARE MADE WELL AND STRONG

Success of Lydia E. Pinkham's Vegetable Compound Rests Upon the Fact that It Realy Does Make Sick Women Well

Thousands upon thousands of Canadian women have been restored to health by Lydia E. Pinkham's Vegetable Compound. Their letters are on file in Mrs. Pinkham's office, and prove this statement to be a fact and not a mere boast.

Overshadowing indeed is the success of this great medicine, and compared with it all other medicines and treatment for women are experiments.

Why has Lydia E. Pinkham's Vegetable Compound accomplished its widespread results for good?

Why has it lived and thrived and done its glorious work for a quarter of a century?

Simply and surely because of its sterling worth. The reason no other medicine has even approached its success is plainly and positively because there is no other medicine in the world so good for women's ills.

The wonderful power of Lydia E. Pinkham's Vegetable Compound over the diseases of womankind is not because it is a stimulant—not because it is a palliative, but simply because it is the most wonderful tonic and reconstructor ever discovered to act directly upon the uterine system, positively CURING disease and displacements and restoring health and vigor.

Marvelous cures are reported from all parts of the country by women who have been cured, trained nurses who have witnessed cures, and physicians who have recognized the virtue in Lydia E. Pinkham's Vegetable Compound, and are fair enough to give credit where it is due. If physicians dared to be frank and open, hundreds of them would acknowledge that they constantly prescribe Lydia E. Pinkham's Vegetable Compound in severe cases of female ills, as they know by experience that it will effect a cure.

Women who are troubled with painful or irregular menstruation, backache, bloating (or flatulence), leucorrhœa, falling, inflammation or ulceration of the uterus, ovarian troubles, that "bearing-down" feeling, dizziness, faintness, indigestion, nervous prostration, or the blues, should take immediate action to ward off the serious consequences and be restored to health and strength by taking Lydia E. Pinkham's Vegetable Compound. Anyway, write to Mrs. Pinkham, Lynn, Mass., for advice. It's free and always helpful.

At present he travels for a Canadian firm. Mr. Harnett made the trip down in the Dahome, and was unfortunate enough to strike bad weather on both voyages. He says that Bermuda is just now blossoming like the rose.

The most important feast in the Hebrew calendar, the feast of Pasch or Passover, commenced at sundown yesterday. There was a service in the local synagogue at that time. Services, the most of which, will be conducted in the Hebrew tongue, will be conducted for the next seven days. This morning Rabbi Rabbinowitz lectured in English on The Indestructibility of the Jewish People.

GERMANS ARE LONGER LIVED

Than Americans, Although They Work and Drink Less.

Wiesbaden, Germany, April 19:—"Americans are shorter lived than Germans," was the conclusion reached by Dr. Laquer in his paper on social hygiene in the United States, submitted to-day to the international congress now in session here. "Although more temperate in the use of alcohol than Germans, and working an average of ten percent shorter hours," said Dr. Laquer "the Americans are exhausted earlier in life." The doctor gave these figures for each ten thousand of the population.

The number of persons from 40 to 60 years of age are in Germany 179, in America 170; persons over 60, in Germany 80, America 65. The doctor did not undertake to explain the facts. He simply gave them as the results of inquiries which he made during a visit to the United States in 1904.

HARCOURT.

Harcourt, April 19:—Rev. James A Wheeler returned from Nova Scotia on Monday. Yesterday he went to Newcastle to attend the meeting of the Miramichi presbytery.

Miss Lillian Kinread who was ill at her home, this week is convalescent.

Rev. J. B. Champion' is laid up with an attack of la grippe since Sunday, and Tuesday's services were cancelled. Dr. H. G. Fairbanks is attending.

The Wacissa Tennis Club held a special meeting at the Rectory last night.

AT THE OPERA HOUSE.

There was a fairly large audience at the Vitagraph concert, in the Opera House last evening, and the pictures shown were much enjoyed. Particularly interesting were the Russo-Japanese war views and those dealing with President Roosevelt's inauguration at Washington. Among the fantastic pictures shown was "A Trip to the Sun" in which many strange effects were produced with wonderful clearness. A rather gruesome series dealt with, the punishment of a crime in the Southern States, the climax of which shows the execution of the guilty party. The St. John views as usual evoked much enthusiasm, many prominent citizens being easily recognizable in the pictures.

Altogether the whole entertainment is an excellent one and worthy of better patronage than it has received.

Treated by Three Doctors for a Severe Attack of Dyspepsia.

Got No Relief From Medicines, But Found It At Last in Burdock Blood Bitters.

Mrs. Frank Hutt, Morrisburg, Ont., was one of those troubled with this most common of stomach troubles. She writes:—"After being treated by three doctors, and using many advertised medicines, for a severe attack of Dyspepsia, and receiving no benefit, I gave up all hope of ever being cured. Hearing Burdock Blood Bitters so highly spoken of, I decided to get a bottle, and give it a trial. Before I had taken it I began to feel better, and by the time I had taken the second one I was completely cured, I cannot reoommend Burdock Blood Bitters tco highly, and would advise all sufferers from dyspepsia to give it a trial."

AN ENGLISH AUTHORITY

Gives an Effective Defence of Municipal Ownership.

(Montreal Witness.)

Sir Albert Kaye Rollit, conservative member of parliament for South Islington, and ex-president of the Associated Chambers of Commerce, has recently been re-elected president of the Association of Municipal Corporations. The re-election took place at the annual meeting, which was held at the Guildhall, and Sir Albert made it the occasion to reply to the many attacks on municipal extravagance, and debt. During the year, he said, the work of the municipalities had been subject to spasmodic criticism and attacks, but, so far as he could judge, these rested chiefly on ignorance of the work that was being done, and prejudice against it. The talk was all of debt, debt, debt, but never a word was said about assets. One asset that was not easily measured, but which was worth a good deal of debt, was health and strength with its result in wealth. It was well known that the municipalities had at great cost, greatly improved sanitary conditions, besides conferring many familiar blessings on the present generation, and on prosperity. Turning to reproductive municipal works, and the common declaration that they show no profit, it should be kept in mind, Sir Albert replies, that profit is not their primary object, but the service of the whole community The work of the municipalities was to be judged by the reduced death rate, and the suppression of devastating zymotic diseases, as well as by financial balances. Yet, speaking generally, there was a profit on municipal undertakings. Sir Albert made a comparison between national and parochial finance, in which the former suffered, and he asserted that, taken as a whole, the assets of municipalities show a great surplus over liabilities, although the circumstances in the case of different corporations, vary greatly.

What Sir Albert thought to be most unjust was that while parliament had in a large measure placed upon municipalities the obligation to carry out public works—such as main sewers—it very frequently, while commanding with one hand, reduced the means of carrying out its commands with the other, especially with regard to the terms of loans. Sir Albert made an interesting reference to Lord Avebury, who said a little while ago that 'municipalties have been running head over heels into debt, and I doubt whether many of these municipal undertakings show a real profit.' Said Sir Albert: 'When a man of Lord Avebury's standing speaks on subjects of this importance, he ought not to begin with a doubt. His criticisms rest on a personal doubt which has over and over again been shown to be a mistaken doubt.' Sir Albert asserted, indeed, that much of the criticism comes from the banking community and the stock exchange, and he felt that it was the outcome of a financial combination against municipalities. It would be interesting if some one of Sir Albert Rollit's standing and ability would make a like calculation for American municipalities and show whether they in like manner had assets for their liabilities. We have seen enormous permanent loans raised for the laying of pavements that did not last five years, and many other like and worse things. Where would most of our cities be if they had no limit but their own discretion and the confidence of capitalists to the powers of getting into debt? They certainly would be paying still higher rates of interest than they are now doing.

When You Get Bilious

YOU MAY BE CERTAIN THE LIVER IS DERANGED AND THAT THERE IS CURE IN

DR. CHASE'S KIDNEY-LIVER PILLS.

"Bilious" is the word used by many people to describe the condition of ill-health into which they are thrown by derangement of the liver.

Biliousness is caused by the failure of the liver to filter the bile and other poisonous impurities from the blood. The result is a clogging and poisoning of the whole system.

Indigestion, headache, languid, melancholy feelings, irritability of temper, constipation, alternating with looseness of the bowels, pains in the muscles and bones and a pale, sallow complexion are among the symptoms.

Fortunately there is prompt and certain cure for biliousness and torpid liver in Dr. Chase's Kidney-Liver Pills.

They cure by thoroughly cleansing the filtering and excretory systems and awakening the action of the liver to renewed energy and activity.

When you feel out of sorts and notice any of the symptoms of torpid liver and biliousness put Dr. Chase's Kidney-Liver Pills to the test, and you will then understand why this great medicine is considered indispensable in the great majority of homes.

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto. Portrait and signature of Dr. A. W. Chase, the famous receipt book author, on every box.

SERGEANT MAJOR SCHOOF.

The school room of Zion church was well filled last evening, to listen to a talk from this popular speaker, on Life among the Zulus Kaffirs, and other African tribes, their manners, customs, and wars, and the beneficent influence of British rule in that country. He will speak tonight on the Jamieson Raid, but will devote most of his attention to cowboy life in the Canadian west, and will give some illustrations of sword exercise drill, and lasso throwing. As last night a large number of views will be on exhibition and those who attend will have an evening's rare entertainment.

LEGAL ADVICE IN LONDON.

(London Telegraph.)

Legal advice and assistance to poor tenants are given gratuitously in the East End by a voluntary organization founded for the purpose six years ago. A poor man's lawyer fund which has been in operation at Toynbee Hall is now linked with the East London Tenants' and General Legal Protection Committee, as the combined societies are called. A member attends at Toynbee Hall each Tuesday to see all the applicants. Frequently nothing more than this preliminary interview is required, but where necessary a case is referred to a solicitor and action may be commenced. In this way tenants too poor to pay for legal aid have been assisted to obtain justice from exacting landlords or bailiffs improperly distraining, and injured workmen have secured compensation. Canon Barnett is president of the committee, who will require about £120 to carry on their year's work, and rely upon the continued generosity of subscribers.
